8. This Scheme provides for:

the demerger, transfer and vesting of Adicon Tiles Manufacturing Undertaking from ACTPL, the Demerged Company to ACL, the Resulting Company 2, on a going concern basis, and the consequent issue of shares by AGIL, the Resulting Company 1, in the manner set out in this Scheme and other applicable provisions of Applicable Law;

9. Rationale and Salient Features of the Scheme:

AGIL, the Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries. AGIL, the Resulting Company 1 has identified one of its suppliers, viz., ACTPL, the Demerged Company that manufacture tiles for AGIL, the Resulting Company 1 on job work basis as well as manufacture tiles under its own brand name. The said supplier is in effect selling majority of its own production to AGIL, the Resulting Company 1. In order to integrate its manufacturing process and to inorganically expand its production lines, it is desirable to take over the tiles manufacturing businesses of the said supplier. Since the said supplier has its own brand name and related Intellectual Property such as brands, trademarks, registrations, etc. attached to the said name, it is considered appropriate to demerge only the tiles manufacturing businesses into wholly owned subsidiary of AGIL, the Resulting Company 1 of similar name. To avoid effect on the financials due to payment of huge consideration in cash or by way of debt, the consideration is proposed to be paid by way of issue of shares by AGIL, the Resulting Company 1 which will be compliant with the definition of 'demerger' as defined under section 2(19AA) r.w.s. 2(41A) of the Income Tax Act, 1961.

Through the aforesaid demerger of the Adicon Tiles Manufacturing Undertaking from ACTPL, the Demerged Company, the stakeholders of ACTPL, the Demerged Company will get access to a diverse business structure since AGIL, the Resulting Company 1 has presence in multiple industries leading to risk diversification in the hands of the stakeholders and also leading to stable valuation by the market. The stakeholders will also get safeguarded from the day-to-day hurdles specific to the tiles manufacturing business by diversifying their risk.

Further, the businesses of ACTPL, the Demerged Company will get an access to the huge market reach and marketing network of AGIL, the Resulting Company 1. The business will thus gain a chance of evolving into legacy businesses under the professional management of AGIL, the Resulting Company 1 due to their increased technical knowhow, diverse expertise and growth vision. The expansion opportunity from the access to infrastructure of AGIL, the Resulting Company 1 seems unparalleled.

Multiple entries of large organised players into the tiles industry are expected to drive the entire industry into a highly efficient space where large players would command premium on account of their competitive edge and managing a tiles manufacturing business as an unorganised player may become more and more challenging. Consolidation of the tiles manufacturing businesses under the banner of AGIL, the Resulting Company 1 would not only safeguard the businesses but also provide an edge to competitively grow in the ever-changing business dynamic.

The opportunity of growth in the businesses and risk diversification for the stakeholders of ACTPL, the Demerged Company and the inorganic expansion and synergistic opportunity for AGIL, the Resulting Company 1 due to better agility and higher control over its manufacturing process, more production lines and working capital requirements would provide ACTPL, the Demerged Company and AGIL, the Resulting Company 1 with their respective advantages while making the combined businesses of AGIL, the Resulting Company 1 and ACTPL, the Demerged Company more sustainable and competitive in the long run.

The Scheme proposes to combine the interests of ACTPL, the Demerged Company into AGIL, the Resulting Company 1 and its subsidiary by way of demerger of Adicon Tiles Manufacturing Undertaking from ACTPL, the Demerged Company to expand the tiles business of AGIL, the Resulting Company 1.

The proposed restructuring pursuant to this Scheme is expected, inter alia, to result in following benefits:

- (i) combining and bundling of Adicon Tiles Manufacturing Undertaking of ACTPL, the Demerged Company into ACL, the Resulting Company 2 which is, inter alia, wholly owned subsidiary of AGIL, the Resulting Company 1;
- (ii) better control on utilisation of production capacity due to integration of the manufacturing process;
- (iii) optimisation of working capital due to consolidation of businesses;
- (iv) inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;
- (v) economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;
- (vi) achieve cost optimization and specialisation for sustained growth; and
- (vii) enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries.

The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders in each of the companies.

B. OVERVIEW AND OPERATION OF THIS SCHEME

This Scheme provides for the demerger, transfer and vesting of the Adicon Tiles Manufacturing Undertaking (*as defined hereinafter*) from ACTPL, the Demerged Company to ACL, the Resulting Company 2 on a going concern basis, and the consequent issue of shares by AGIL, the Resulting Company 1 in the manner set out in this Scheme (*as defined hereinafter*) and other applicable provisions of Applicable Law and

- C. The Demerged Company will continue to pursue its interests in and carry on the Remaining Business (*as defined hereinafter*) as is presently being carried on.

D. RATIONALE FOR THIS SCHEME

AGIL, the Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

AGIL, the Resulting Company 1 has identified its supplier, i.e., ACTPL, the Demerged Company, that manufactures tiles for AGIL, the Resulting Company 1 on job work basis as well as manufactures tiles under their own brand names. The supplier is in effect selling majority of its own production to AGIL, the Resulting Company 1. In order to integrate its manufacturing process and to inorganically expand its production lines, it is desirable to take over the tiles manufacturing businesses of the supplier. Since the supplier has separate brands names and related Intellectual Property such as brands, trademarks, registrations, etc. attached to these names, it is considered appropriate to demerge this business in wholly owned subsidiary of AGIL, the Resulting Company 1 of similar name. To avoid effect on the financials due to payment of huge consideration in cash or by way of debt, the consideration is proposed to be paid by way of issue of shares which will be compliant with the definition of 'demerger' as defined under section 2(19AA) r.w.s. 2(41A) of the Income Tax Act, 1961.

Through the aforesaid demerger of the Adicon Tiles Manufacturing Undertaking from ACTPL, the Demerged Company, the stakeholders of

439

ACTPL, the Demerged Company will get access to a diverse business structure since AGIL, the Resulting Company 1 has presence in multiple industries leading to risk diversification in the hands of the stakeholders and also leading to stable valuation by the market. The stakeholders will also get safeguarded from the day-to-day hurdles specific to the tiles manufacturing business by diversifying their risk.

Further, the business of ACTPL, the Demerged Company will get an access to the huge market reach and marketing network of AGIL, the Resulting Company 1. This business will thus gain a chance of evolving into legacy businesses under the professional management of AGIL, the Resulting Company 1 due to their increased technical knowhow, diverse expertise and growth vision. The expansion opportunity from the access to infrastructure of AGIL, the Resulting Company 1 seems unparalleled.

Multiple entries of large organised players into the tiles industry are expected to drive the entire industry into a highly efficient space where large players would command premium on account of their competitive edge and managing a tiles manufacturing business as an unorganised player may become more and more challenging. Consolidation of the tiles manufacturing businesses under the banner of AGIL, the Resulting Company 1 would not only safeguard the businesses but also provide an edge to competitively grow in the ever-changing business dynamic.

The opportunity of growth in the businesses and risk diversification for the stakeholders of ACTPL, the Demerged Company and the inorganic expansion and synergistic opportunity for AGIL, the Resulting Company 1 due to better agility and higher control over its manufacturing process, more production lines and working capital requirements would provide both ACTPL, the Demerged Company and AGIL, the Resulting Company 1 with their respective advantages while making the combined businesses of AGIL, the Resulting Company 1 and ACTPL, the Demerged Company more sustainable and competitive in the long run.

The Scheme proposes to combine the interests of ACTPL, the Demerged Company into AGIL, the Resulting Company 1 and its subsidiary by way of demerger of Adicon Tiles Manufacturing Undertaking from ACTPL, the Demerged Company to expand the tiles business of AGIL, the Resulting Company 1.

The proposed restructuring pursuant to this Scheme is expected, *inter alia*, to result in following benefits:

- (i) combining and bundling of Adicon Tiles Manufacturing Undertaking of ACTPL, the Demerged Company into ACL, the Resulting Company 2 which is, *inter alia*, wholly owned subsidiary of AGIL, the Resulting Company 1;
- (ii) better control on utilisation of production capacity due to integration of the manufacturing process;
- (iii) optimisation of working capital due to consolidation of businesses;
- (iv) inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;
- (v) economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;

440

- (vi) achieve cost optimization and specialisation for sustained growth; and
- (vii) enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries.

The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders in each of the companies.

7. APPROACH AND METHODOLOGY

It should be understood that the valuation of any LLP / business or its assets is inherently imprecise and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made numerous assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of LLP. Further, this Valuation will fluctuate with lapse of time, changes in prevailing market conditions, the conditions and prospects, financial and otherwise, of LLP, and other factors which generally influence the valuation of Businesses and their assets.

The following are commonly used and accepted methods for determining the value of the business:

A) Market Approach

a. Market Price Method

The market price of an equity share / Debenture / Business as quoted on a stock exchange is normally considered as the value of the Equity Shares / debentures / business of that LLP where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares/debentures. But there could be situations where the value of the securities as quoted on the stock market would not be regarded as a proper index of the fair value of the securities, especially where the market values are fluctuating in a volatile capital market.

LLP being Unlisted LLP does not have any security listed on any recognized stock exchange in India. Accordingly, the Market Price Method has not been adopted for the Valuation.

b. Comparable Business 'Quoted Multiple ('CCM') Method

Under this method, value of the security of a LLP is arrived at by using multiples derived from valuations of comparable Businesses, as manifest through stock market valuations of listed Businesses. This valuation is based on the principle that market valuations, taking place between Informed buyers and Informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

Given this background, we have not adopted the CCM approach for the purpose of Valuation as sufficient information is not available in public domain.

c. Comparable Businesses 'Transaction Multiple ('CTM') Method

Under this method, value of the securities of a LLP / business is arrived at by using multiples derived from valuations incomparable Businesses, as manifest through transaction on valuations. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

The CTM approach has not been adopted for the purpose of our analysis as sufficient information is not available in the public domain.

B) Income Approach –

a. Discounted Cash Flows ('DCF') Method

Under the DCF method, the projected free cash flows to the business are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm. Using the DCF analysis involves determining the following:

- Estimating future free cash flows.
- Free cash flows are the cash flows expected to be generated by the LLP that are available to the providers of the LLP's capital and debt.
- Appropriate discount rate to be applied to cash flows i.e., the weighted average cost of capital; this discount rate, which is applied to the free cash flows to the firm, should reflect the opportunity cost to the debt providers and equity capital providers (namely shareholders). The opportunity cost to the equity capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk. Cost of debt is typically based on market rates.
- Weighted Average Cost of Capital of LLP determined at **18.79%**, after the explicit period, the business will continue to generate cash. In DCF Method, therefore, perpetuity values also considered to arrive at the business value. For arriving at the perpetuity value, we have considered a growth rate of **5%**, such growth rate is reasonable considering the growth projected by the LLP and the

industry in which the LLP operates.

C) Asset Approach – Net Asset Value ('NAV') Method

The asset-based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. This valuation approach is mainly used in case where the firm is to be liquidated i.e., it does not meet the "going concern" criteria or in case where the assets base exceeds earnings capability or where the future projections cannot be ascertained reasonably. Accordingly, NAV Method has not been applied in this valuation.

8. NATURE AND SOURCES OF THE INFORMATION USED OR RELIED UPON

7. APPROACH AND METHODOLOGY

It should be understood that the valuation of any business or its assets is inherently imprecise and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made numerous assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of business. Further, this Valuation will fluctuate with lapse of time, changes in prevailing market conditions, the conditions and prospects, financial and otherwise, of business, and other factors which generally influence the valuation of Businesses and their assets.

The following are commonly used and accepted methods for determining the value of the business:

A) Market Approach

a. Market Price Method

The market price of an equity share / Debenture / Business as quoted on a stock exchange is normally considered as the value of the Equity Shares / debentures / business of that ADICON where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares/debentures. But there could be situations where the value of the securities as quoted on the stock market would not be regarded as a proper index of the fair value of the securities, especially where the market values are fluctuating in a volatile capital market.

ADICON does not have any security listed on any recognized stock exchange in India. Accordingly, the Market Price Method has not been adopted for the Valuation.

b. Comparable Business 'Quoted Multiple ('CCM') Method

Under this method, value of the security of a business is arrived at by using multiples derived from valuations of comparable Businesses, as manifest through stock market valuations of listed Businesses. This valuation is based on the principle that market valuations, taking place between Informed buyers and Informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

Given this background, we have not adopted the CCM approach for the purpose of Valuation as sufficient information is not available in public domain.

c. Comparable Businesses 'Transaction Multiple ('CTM') Method

Under this method, value of the securities of a business is arrived at by using multiples derived from valuations of comparable Businesses, as manifest through transaction on valuations. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

The CTM approach has not been adopted for the purpose of our analysis as sufficient information is not available in the public domain.

B) Income Approach –

a. Discounted Cash Flows ('DCF') Method

Under the DCF method, the projected free cash flows to the business are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm. Using the DCF analysis involves determining the following:

- Estimating future free cash flows.
- Free cash flows are the cash flows expected to be generated by the ADICON that are available to the providers of the ADICON's capital and debt.
- Appropriate discount rate to be applied to cash flows i.e., the weighted average cost of capital; this discount rate, which is applied to the free cash flows to the firm, should reflect the opportunity cost to the debt providers and equity capital providers (namely shareholders). The opportunity cost to the equity capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk. Cost of debt is typically based on market rates.
- Weighted Average Cost of Capital of ADICON determined at **18.98%**, after the explicit period, the business will continue to generate cash. In DCF Method, therefore, perpetuity values also considered to arrive at the business value. For arriving at the perpetuity value, we have considered a growth rate of **5%**, such growth rate is reasonable considering the growth projected by the ADICON and the industry in which ADICON operates.

C) Asset Approach – Net Asset Value ('NAV') Method

The asset-based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. This valuation approach is mainly used in case where the firm is to be liquidated i.e., it does not meet the "going concern" criteria or in case where the assets base exceeds earnings capability or where the future projections cannot be ascertained reasonably. Accordingly, NAV Method has not been applied in this valuation.

8. NATURE AND SOURCES OF THE INFORMATION USED OR RELIED UPON

For the purpose of this valuation, we have relied upon the undermentioned information and other data supplied by the management of ADICON and other sources believed to be reliable:

4. Draft Scheme of Scheme of Arrangement;

6. Procedures Adopted:

In connection with this exercise, we have adopted the following procedures to carry out the valuation:

Private and Confidential

1. Referred to the Valuation Report of provided by the Valuer for the valuation of the Entire Manufacturing business the Transferor and the CA certificate for the fair market value of each equity share of AGL

For the purpose of arriving at the valuation of the Companies/businesses we have considered the valuation base as 'Fair Value' and the premise of value is 'Going Concern Value'. Any change in the valuation base, or the premise could have significant impact on our valuation exercise, and therefore, this report.

7. Valuation Approaches

The valuation of any LLP/Company/ business or its assets is inherently imprecise and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made numerous assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of LLP/Company. Further, this Valuation will fluctuate with lapse of time, changes in prevailing market conditions, the conditions, and prospects, financial and otherwise, of LLP/Company, and other factors which generally influence the valuation of Businesses and their assets.

The following are commonly used and accepted methods for determining the value of the business:

A) Market Approach

a. Market Price Method

The market price of an equity share / Debenture / Business as quoted on a stock exchange is normally considered as the value of the Equity Shares / debentures / business of that LLP where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares/debentures. But there could be situations where the value of the securities as quoted on the stock market would not be regarded as a proper index of the fair value of the securities, especially where the market values are fluctuating in a volatile capital market.

LLP/Company being Unlisted LLP/Company does not have any security listed on any recognized stock exchange in India. Accordingly, the Market Price Method has not been adopted for the Valuation.

b. Comparable Business 'Quoted Multiple ('CCM') Method

Under this method, value of the security of a LLP/Company is arrived at by using multiples derived from valuations of comparable Businesses, as manifest through stock market valuations of listed Businesses. This valuation is based on the principle that market valuations, taking place between Informed buyers and Informed sellers, in corporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

Registered Valuer

Private and Confidential

Given this background, we have not adopted the CCM approach for the purpose of Valuation as sufficient information is not available in public domain.

c. Comparable Businesses 'Transaction Multiple ('CTM') Method

Under this method, value of the securities of a LLP/Company / business is arrived at by using multiples derived from valuations incomparable Businesses, as manifest through transaction on valuations. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

The CTM approach has not been adopted for the purpose of our analysis as sufficient information is not available in the public domain.

B) Income Approach –

a. Discounted Cash Flows ('DCF') Method

Under the DCF method, the projected free cash flows to the business are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm. Using the DCF analysis involves determining the following:

- Estimating future free cash flows.
- Free cash flows are the cash flows expected to be generated by the LLP/Company that are available to the providers of the LLP/Company's capital and debt.
- Appropriate discount rate to be applied to cash flows i.e., the weighted average cost of capital; this discount rate, which is applied to the free cash flows to the firm, should reflect the opportunity cost to the debt providers and equity capital providers (namely shareholders). The opportunity cost to the equity capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk. Cost of debt is typically based on market rates.
- Weighted Average Cost of Capital of LLP/Company determined at **18.79%**, after the explicit period, the business will continue to generate cash. In DCF Method, therefore, perpetuity values also considered to arrive at the business value. For arriving at the perpetuity value, we have considered a growth rate of **5%**, such growth rate is reasonable considering the growth projected by the LLP/Company and the industry in which the LLP/Company operates.

C) Asset Approach – Net Asset Value ('NAV') Method

The asset-based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. This valuation approach is mainly used in case where the firm is to be liquidated i.e., it does not meet the "going concern" criteria or in case where the assets base exceeds earnings capability or where the future projections cannot be ascertained reasonably. Accordingly, NAV Method has not been applied in this valuation.

8. Basis of Fair Equity Share Swap Ratio

The basis of the fair equity share swap ratio for the Proposed Scheme of Arrangement would have to be determined after taking into consideration all the factors and methods mentioned hereinabove and to arrive at a final value for the shares of each company. It is, however, important to note that in doing so, we are not attempting to arrive at the absolute values of the Companies, but at their relative values to facilitate the determination of the fair equity share swap ratio.

We have independently applied methods discussed above, as considered appropriate, and arrived at their assessment of value per share of the Companies. To arrive at the consensus on the fair equity share swap ratio for the Proposed Scheme of Arrangement, rounding off have been done in the values.

9. Major factors that were considered during the valuation

1. The equity shares of the Companies are listed ;
2. Share price of the Companies;
3. Key operating/ financial parameters of the Companies;
4. Valuation Report pertaining the Fair Market Value of Manufacturing Business of the Transferor companies provided by Mr. Gaurav Maheshwari the IBBI Registered Valuer ("Valuer") and the CA certificate which is issued by Das Pattnaik & Co. – Chartered Accountants dtd. 11th August, 2023 contains the calculation of the Fair Market Price of each Equity Shares of AGL.

10. Conclusion

We have used the Market Price Method as discussed above and arrived at the recommended fair equity share swap ratio for the proposed Scheme of Arrangement of Transferor into AGL as follows:

a) Between Adicon Ceramica Tiles LLP and Asian Granito India Limited

Valuation Approach	Valuation Method	Adicon Ceramica Tiles LLP		Asian Granito India Limited

(1) there are few listed comparable companies in India, valuation multiple of which could have been considered for CCM method. However, either there have been notable impact on the market prices of these companies due to non-business reasons or they are dominated by regional content, unlike the Companies; and (b) we did not find comparable transactions in India, in recent past, for which adequate information was available in public domain; and

(2) we did not consider it appropriate to use international comparable companies/transaction multiples due to lack of identical comparable companies/ transactions having variance on account size, geography, nature of business, nature of transactions, corporate structure, industry / company specific issues etc.

(3) trailing 12 months revenues of both the companies were not at normative level due to industry specific issues; and

(4) EBITDA of some of the companies is negative/not normative due to company/industry specific issues.

2. NAV Method under 'Cost Approach' has not been considered since the net asset value does not reflect the intrinsic value of the business in a "going concern scenario"

Therefore, Under the proposed scheme of Arrangement (the "Scheme") *inter alia*, Adicon Ceramica Tiles LLP (to be incorporated into Adicon Ceramica Tiles Private Limited) Entire Manufacturing business shall be merged with the wholly owned subsidiary of AGL namely, Adicon Ceramics Limited , pursuant to which the shareholders of Adicon Ceramica Tiles LLP (to be incorporated into Adicon Ceramica Tiles Private Limited) shall receive the equity shares of Asian Granito India Limited based on the following ratio ("Share Exchange Ratio"):

1060 (one thousand sixty) equity shares of Asian Granito India Limited having the face value Rs. 10/- each fully paid up will be issued for every 11 (Eleven) equity shares of Adicon Ceramica LLP (to be incorporated into Adicon Ceramica Tiles Private Limited) of the face value Rs. 10/- each fully paid up

Dear Sir,

SUB: Requirements for draft Composite Scheme of Arrangement amongst Asian Granito India Limited and Adicon Ceramica Tiles Private Limited and Adicon Ceramics Limited and their respective shareholders and creditors.
REF: Requirement Letter from NSE dated December 05, 2023 bearing Ref No. NSE/LIST/37297

With reference to the above subject matter and in continuation of my Valuation Report issued on August 12, 2023, I hereby submit addendum to Valuation Report referred herein and state that based on the projections that were shared with me and on considering the latest audited financials of September 30, 2023, the price per share of the Company by Discounted Cash Flows method under income approach is coming at Rs. 19.37/ share.

Sources of Information considered for Issuance of Addendum to Valuation Report

1. Audited Financials of the Company as on September 30, 2023
2. Revised Management Projections after considering Audited Financials as on September 30, 2023
3. Addendum to the Valuation Report issued by an Independent Registered Valuer Mr. Gaurav Maheshwari dated December 15, 2023

The working after considering the audited financials as on September 30, 2023 is attached herewith as Annexure - 1.

The price after considering the audited financials as on September 30, 2023 is much lower than the price of Rs. 48.91/share as per Market Approach which was found to be higher and correct price as per my valuation report dated 12th August 2023. Since, the price of the share of the Company under the Income Approach (DCF Method) is lower than the price of the share of the Company under the Market Approach, even after considering audited financials not more than 3 months old, it was correct approach to give 100% weightage to Market Approach to arrive at the correct price of the share of the Company for entering into the captioned Scheme of Arrangement, which is in compliance with the SEBI Master Circular SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated June 20, 2023 which requires compliance with the pricing provisions of Chapter V of SEBI Issue of Capital and Disclosure Requirements) Regulations, 2018 and exchange's SOP dated September 29, 2023. Hence, I state that my valuation report dated 12th August 2023 arriving at a per share price of Rs. 48.91/share is true and relevant on the date of issuance of this addendum.

Conclusion

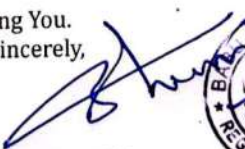

I have used the Market Approach as discussed above and arrived at the recommended fair equity share swap ratio for the proposed Scheme of Arrangement as per following working:

Emphasis on Matter

We draw your attention to the Note 45 of the Standalone Financial Statement that describes the search operation carried out by the Income Tax department at the Company's business premises on May 26, 2022, pursuant to which various order have been received and the Company has filled appeal against such order. Pending finalization of appeals the impact of these matters on the Standalone Financial Statement for the year ended on March 31, 2025 and the adjustment (if any) required to these Standalone Financial Statement, is presently not ascertainable. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to be communicated in our report.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Corporate Governance and shareholder's information, but does not include the standalone financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the Other Information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information'.

Management's Responsibility for the Standalone Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view

and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:-

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit or Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of the assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information as required under the Companies Act, 2013(the 'Act').

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India and the Standard on Auditing ('SA') prescribed under section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls. Those Standards and Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls systems over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the standalone financial statements for external purpose in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting included those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transaction are recorded as necessary to permit preparation of standalone financial statement in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Control over Financial Reporting

Because of the inherent limitation of internal financial controls over financial reporting including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also , projection of any evaluation of the internal financial controls over financial reporting to future periods are subjects to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2025

Company Background:

Asian Granito India Limited (the Company) is a public limited company domiciled and incorporated in India under the provisions of Companies Act, 2013. The Equity shares of the company are listed in India on the Bombay Stock Exchange Limited and National Stock Exchange Limited. The registered office of the Company is located at 202, Dev Arc, Opp. Isckon Temple, S.G. Highway, Ahmedabad - 380015. The Company is engaged in manufacturing and trading of Tiles and Marble and allied products.

The financial statements of the company for the year ended on 31 March, 2025 were authorised for issue in accordance with a resolution of the Directors on 29 May, 2025.

1. Statement on Material accounting policies, Key Accounting Estimates and Judgements:

1.1 Basis for Preparation:

These financial statements are the standalone financial statements of the Company prepared in accordance with Indian Accounting Standards ('Ind AS') as notified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

These financial statements have been prepared and presented under the historical cost convention, on the accrual and going concern basis of accounting except for the certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below.

The accounting policies have been applied consistently over all the periods presented in these financial statements.

1.2 Functional and presentation currency:

These financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise stated.

1.3 Key accounting estimates and judgements:

The preparation of the Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2025

1.4 Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

i) Property, Plant and Equipment:

Property, Plant and Equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

ii) Income taxes:

The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

iii) Defined Benefit Obligation:

The costs of providing pensions and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.

iv) Estimates:

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2025

1.5 Current / Non-Current Classification:

Any asset or liability is classified as current if it satisfies any of the following conditions:

- i. the asset/liability is expected to be realized/settled in the Company's normal operating cycle;
- ii. the asset is intended for sale or consumption;
- iii. the asset/liability is expected to be realized/settled within twelve months after the reporting period;
- iv. the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- v. In the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

1.6 Summary of Material accounting policies:

a) Property, Plant & Equipment:

i) Measurement at recognition:

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses.

The cost of an item of property, plant and equipment comprises of its purchase price, including import duties, borrowing cost, changes on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets, other non-refundable purchase taxes or levies and any cost directly attributable to bringing the assets to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

ii) Depreciation:

Depreciation on each part of an item of property, plant and equipment is provided using the Straight-Line Method (SLM) Method based on the useful life of the asset as prescribed in Schedule II to the Companies Act, 2013 except following items of Property, Plant and Equipment where company has estimated different useful life:

Particulars	Useful Life
Plant & Machinery	11 & 15 Years

Land is not depreciated.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2025

The useful lives, residual values of each part of an item of property, plant and equipment and the depreciation methods are reviewed at the end of each financial year. If any of these expectations differ from previous estimates, such change is accounted for as a change in an accounting estimate.

iii) Derecognition:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the Derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized.

iv) Capital Work in progress:

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress.

b) Investment Property:

Investment Property is measured initially at cost including related transaction costs.

The cost comprises the purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for its intended use.

Subsequent expenditures are capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably. All day-to-day repair and maintenance expenditure are charged to the statement of profit and loss for the period during which such expenses are incurred.

Gains or losses arising from derecognition of investment property are measured as the difference between the net disposal proceeds and the carrying amount of the asset at the time of disposal and are recognized in the statement of profit and loss when the asset is derecognized.

c) Borrowing Costs:

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized, if any. All other borrowing costs are expensed in the period in which they occur.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2025

d) Impairment of non-financial assets:

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

e) Investment in Subsidiary, Joint Venture & Associate:

The Company has elected to recognize its investments in subsidiaries, joint venture and an associate company at cost in accordance with the option available in Ind AS 27, 'Separate Financial Statements'. The details of such investments are given in Note 5. Impairment policy applicable on such investments is explained in note (d) above.

f) Inventory:

Raw materials, finished goods, packing materials, stores, spares, consumables and stock-in-trade are carried at the lower of cost and net realizable value. However, materials and other items held for use in production of inventories are not written down below cost if the finished goods in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on an item-by item basis.

In determining the cost of raw materials, packing materials, stock-in-trade, stores, spares, components and consumables, first in first out (FIFO) method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.

Cost of finished goods and work-in-progress includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads as applicable and other costs incurred in bringing the inventories to their present location and condition. Fixed production overheads are allocated on the basis of normal capacity of production facilities.

g) Financial Instrument:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2025

Financial Assets:

Initial recognition and measurement:

The Company recognizes a financial asset in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial assets are recognized initially at fair value, plus in the case of financial assets not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial asset.

Where the fair value of a financial asset at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial asset.

However, trade receivables that do not contain a significant financing component are measured at transaction price.

Subsequent measurement:

For subsequent measurement, the Company classifies a financial asset in accordance with the below criteria:

- i. The Company's business model for managing the financial asset and
- ii. The contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Company classifies its financial assets into the following categories:

- i. Financial assets measured at amortized cost
- ii. Financial assets measured at fair value through other comprehensive income (FVTOCI)
- iii. Financial assets measured at fair value through profit or loss (FVTPL)

Financial assets measured at amortized cost:

A financial asset is measured at the amortized cost if both the following conditions are met:

- a) The Company's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows, and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to cash and bank balances, trade receivables, loans and other financial assets of the Company. Such financial assets are subsequently measured at amortized cost using the effective interest method.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2025

Under the effective interest method, the future cash receipts are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial asset over the relevant period of the financial asset to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest income over the relevant period of the financial asset. The same is included under other income in the Statement of Profit and Loss.

The amortized cost of a financial asset is also adjusted for loss allowance, if any.

ii. Financial assets measured at FVTOCI:

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI).

iii. Financial assets measured at FVTPL:

A financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as explained above. This is a residual category applied to all other investments of the Company excluding investments in subsidiary and associate companies. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of Profit and Loss.

Derecognition:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e. removed from the Company's Balance Sheet) when any of the following occurs:

- i. The contractual rights to cash flows from the financial asset expires;
- ii. The Company transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset;
- iii. The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset);
- iv. The Company neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where Company has neither transferred nor retained substantially all of the risks and rewards of the financial asset, but retains control of the financial asset, the Company continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Company also recognizes an associated liability. The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2025

On Derecognition of a financial asset, (except as mentioned in ii above for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognized in the Statement of Profit and Loss.

Impairment of financial assets:

The Company applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the following:

i. Trade receivables:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost less provision for impairment based on expected credit loss.

For trade and lease receivable only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of such receivables.

ii. Financial assets measured at amortized cost (other than trade receivables)

In case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognized as loss allowance.

In case of other assets (listed as ii above), the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

Financial Liabilities

Initial recognition and measurement:

The Company recognizes a financial liability in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial liabilities are recognized initially at fair value minus, in the case of financial liabilities not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial liability.

Where the fair value of a financial liability at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2025

through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial liability.

Subsequent measurement:

All financial liabilities of the Company are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash payments are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial liability over the relevant period of the financial liability to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest expense over the relevant period of the financial liability. The same is included under finance cost in the Statement of Profit and Loss.

Derecognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of Profit and Loss.

Offsetting of Financial Instruments:

Financial assets and financial liabilities are offset, and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

h) Fair Value:

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2025

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 — inputs that are unobservable for the asset or liability

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

i) **Revenue Recognition:**

The Company has applied Ind AS 115 - Revenue from Contracts with Customers which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised.

Revenue from sale of goods is recognised when control of the products being sold is transferred to customer and when there are no longer any unfulfilled obligations. The Performance Obligations in contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on contract terms.

Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government such as goods and services tax, etc.

Revenue is only recognised to the extent that it is highly probable a significant reversal will not occur. Customers have the contractual right to return goods only when authorised by the Company.

Interest and dividends:

Interest income is recognized using effective interest method. Dividend income is recognized when the right to receive payment is established.

Export benefits:

The Company recognises income from duty drawback and export benefit on accrual basis.

j) **Income Taxes:**

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2025

Current tax:

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible under the Income Tax Act, 1961. Current tax is measured using tax rates that have been enacted by the end of reporting period for the amounts expected to be recovered from or paid to the taxation authorities.

Deferred tax:

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit under Income Tax Act, 1961.

Deferred tax liabilities are generally recognized for all taxable temporary differences. However, in case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax liabilities are not recognized. Also, for temporary differences if any that may arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Presentation of current and deferred tax:

Current and deferred tax are recognized as income or an expense in the Statement of Profit and Loss, except when they relate to items that are recognized in Other Comprehensive Income, in which case, the current and deferred tax income/ expense are recognized in Other Comprehensive Income.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2025

k) Foreign Currency Transaction & Translation:

Initial Recognition:

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency (i.e. Indian Rupees), by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Measurement of foreign currency items at reporting date:

Foreign currency monetary items of the Company are translated at the closing exchange rates. Non-monetary items that are measured at historical cost in a foreign currency, are translated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency, are translated using the exchange rates at the date when the fair value is measured.

Exchange differences arising out of these translations are recognized in the Statement of Profit and Loss.

l) Provision & Contingencies:

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

m) Employee Benefits:

Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

Notes to the Financial Statements for the Year Ended 31 March, 2025

Post-Employment Benefits:

I. Defined Contribution plans:

Defined contribution plans are employee provident fund, employee state insurance scheme and Government administered pension fund scheme for all applicable employees.

Recognition and measurement of defined contribution plans:

The Company recognizes contribution payable to a defined contribution plan as an expense in the Statement of Profit and Loss when the employees render services to the Company during the reporting period. If the contributions payable for services received from employees before the reporting date exceeds the contributions already paid, the deficit payable is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the reporting date, the excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

II. Defined Benefit plans:

The Company operates a defined benefit gratuity plan for employees.

Recognition and measurement of Defined Benefit plans:

The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the present value of available refunds and reductions in future contributions to the plan.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss. Remeasurements of the net defined benefit liability / (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest on the net defined benefit liability/asset), are recognized in Other Comprehensive Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

The Company presents the above liability/(asset) as current and non-current in the Balance Sheet as per actuarial valuation by the independent actuary; however, the entire liability towards gratuity is considered as current as the Company will contribute this amount to the gratuity fund within the next twelve months.

Other Long-Term Employee Benefits:

Entitlements to annual leave and sick leave are recognised when they accrue to employees. Sick leave can only be availed or encashed subject to a restriction on the maximum number of accumulation of leave. The company determines the liability for such accumulated leave using the projected accrued benefit method with actuarial valuations being carried out at each Balance Sheet date.

n) Lease Accounting:

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a Lessee

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term and useful life of the underlying asset. The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows. Further, refer note no. 41, for effect of transition to Ind AS 116, classification of leases and other disclosures relating to leases.

Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

o) Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company.

p) Earnings per share:

Basic earnings per share is computed by dividing the net profit after tax attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing adjusted net profit after tax by the aggregate of weighted average number of equity shares and dilutive potential equity shares during the year.

q) Cash Flow Statement:

Cash Flow are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

r) Cash and cash equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, deposit accounts and term deposits accounts with original maturity of three months or less as at balance sheet date, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash on hand, deposit accounts and term deposits as defined above and investment in liquid funds for short term purpose.

s) Events after reporting date:

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

b) Measurement of fair values:
(i) Investments in Associate, Joint Venture and Subsidiaries:

Investments in Associate, Joint Venture and Subsidiaries have been accounted at cost. Since these are scoped out of Ind AS 109 for the purposes of measurement, the same have been disclosed at cost in the tables above.

(ii) Financial Instrument measured at Amortised Cost:

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are reasonable approximation of their fair values since the company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

(iii) Levels 1, 2 and 3

Level 1 : It includes investment in equity shares and mutual fund that has a quoted price and which are actively traded on the stock exchanges. It is valued using the closing price as at the reporting period on the stock exchanges.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

(iv) There have been no transfers between Level 1 and Level 2 during the years.

34 Financial Risk Management

The Company's financial liabilities comprise mainly of borrowings, trade, other payables and financial assets comprise mainly of investments, cash and cash equivalents, other balances with banks, loans, trade receivables and other receivables.

The Company is exposed to Market risk, Credit risk and Liquidity risk. The Board of the Company monitors the risk as per risk management policy. Further The Audit Committee has additional oversight in the area of financial risks and controls.

The following disclosures summarize the Company's exposure to financial risks and information regarding use of derivatives employed to manage exposures to such risks. Quantitative sensitivity analysis have been provided to reflect the impact of reasonably possible changes in market rates on the financial results, cash flows and financial position of the Company.

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk for the Company comprises two types of risks: interest rate risk and currency risk. Financial instruments affected by market risk includes borrowings, investments, trade payables, trade receivables and loans.

Within the various methodologies to analyze and manage risk, Company has implemented a system based on "sensitivity analysis" on symmetric basis. This tool enables the risk managers to identify the risk position of the entities. Sensitivity analysis provides an approximate quantification of the exposure in the event that certain specified parameters were to be met under a specific set of assumptions. The risk estimates provided here assume:

- a parallel shift of 100-basis points of the interest rate yield curves in major currencies.
- a simultaneous, parallel foreign exchange rates shift in which the INR appreciates / depreciates against all currencies by 5%

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2025

34 Financial Risk Management (Cont...)

The potential economic impact, due to these assumptions, is based on the occurrence of adverse / inverse market conditions and reflects estimated changes resulting from the sensitivity analysis. Actual results that are included in the Statement of profit and loss may differ materially from these estimates due to actual developments in the global financial markets.

The analyses exclude the impact of movements in market variables on the carrying values of gratuity, pension and other post-retirement obligations and provisions.

The following assumption has been made in calculating the sensitivity analysis:

The sensitivity of the relevant statement of profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March, 2025 and 31 March, 2024.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company seeks to mitigate such risk by maintaining an adequate proportion of floating and fixed interest rate borrowings. As at 31 March, 2025, approximately 16.10% of the Company's borrowings and other financial liabilities are at fixed rate (31 March, 2024 : 26.44%). Summary of financial assets and financial liabilities has been provided below:

Exposure to interest rate risk

The interest rate profile of the Company's interest - bearing financial instrument as reported to management is as follows:

Particulars	₹ in Lakhs)	
	As at 31 March, 2025	As at 31 March, 2024
Fixed-rate instruments		
Financial Assets	34,808.42	26,633.19
Financial Liabilities	2,395.49	1,970.22
Variable-rate instruments		
Financial Assets	-	-
Financial Liabilities	12,484.45	5,480.52

Interest rate sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of change in interest rates. The following table demonstrates the sensitivity of floating rate financial instruments to a reasonably possible change in interest rates. The risk estimates provided assume a parallel shift of 100 basis points interest rate across all yield curves. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

(b) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk primarily trade receivables and other financial assets including deposits with banks. Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management.

Other financial assets

This comprises mainly of deposits with banks and other intercompany receivables. Credit risk arising from these financial assets is limited.

Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy and procedures. Trade receivables are non-interest bearing and generally have a credit period not exceeding 90 days. Concentrations of credit risk with respect to trade receivables are limited, due to the customer base being large and diverse. All trade receivables are reviewed and assessed for default on a quarterly basis. Historical experience of collecting receivables of the Company is supported by low level of past default and hence the credit risk is perceived to be low.

The Company has used practical expedient by computing the expected credit loss allowance for doubtful trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking estimates. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates used in the provision matrix. In calculating expected credit loss, the Company has also considered credit information for its customers to estimate the probability of default in future.

36 Employee Benefits

a) Defined contribution plans:

The Company makes contributions towards provident fund to defined contribution retirement benefit plan for qualifying employees. The provident fund contributions are made to Government administered Employees Provident Fund. Both the employees and the Company make monthly contributions to the Provident Fund Plan equal to a specified percentage of the covered employee's salary.

	Year ended 31 March, 2025	Year ended 31 March, 2024
Contribution to Provident Fund	280.25	250.63

b) Defined benefit plan:

The Company has defined benefit gratuity plan for its employees. The employee who has completed five years or more of service is entitled to gratuity on termination of his employment at 15 days last drawn salary for each completed year of service. The scheme is funded. The present value of obligation in respect of gratuity is determined based on actuarial valuation using the Project Unit Credit Method as prescribed by Ind AS - 19. Gratuity has been recognised in the financial statement as per details given below:

Investment risk:

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting year on government bonds. If the return on plan asset is below this rate, it will create plan deficit.

Interest risk:

A fall in the discount rate which is linked to the Government Security Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Longevity risk:

Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Salary risk:

The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

The following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at 31 March, 2025 and 31 March, 2024.

41 Leases
A. Operating lease commitments - Company as lessee

The Company's lease asset classes primarily consist of leases for Office & Other Building. The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Information other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexure(s) to Board's Report, but does not include the Financial Statements and our auditor's report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements:

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements:

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements:

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that,

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31-Mar-2025.

When we read the Other Information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information'.

Management's Responsibility for the Financial Statements

The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:-

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial report of **ADICON CERAMICS LIMITED ('the company')** as on 31st March 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit or Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of the assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information as required under the Companies Act, 2013 (the 'Act').

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company on these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') and the Standard on Auditing ('SA') prescribed under section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting with reference to these financial statements included obtaining an understanding of internal financial controls over financial reporting with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls systems over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting with reference to these Financial Statements

A company's internal financial controls over financial reporting with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purpose in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to financial statements those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transaction are recorded as necessary to permit preparation of financial statement in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Control over Financial Reporting with reference to Financial Statements

Because of the inherent limitation of internal financial controls over financial reporting with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also , projection of any evaluation of the internal financial controls over financial reporting with reference to financial statements to future periods are subjects to the risk that the internal financial controls over financial reporting with reference to financial statements may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1. Statement on Material Accounting Policies, Key Accounting Estimates and Judgements:

1.1 Basis for Preparation:

These financial statements are prepared in accordance with Indian Accounting Standards ('Ind AS') as notified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

These financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for the certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below.

The accounting policies have been applied consistently over all the periods presented in these financial statements.

1.2 Functional and presentation currency:

These financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency.

1.3 Key accounting estimates and judgements:

The preparation of the Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

1.4 Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

i) Property, Plant and Equipment:

Property, Plant and Equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial

Adicon Ceramics Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2025

obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

ii) Income taxes:

The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

iii) Defined Benefit Obligation:

The costs of providing pensions and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.

iv) Estimates:

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

1.5 Current / Non-Current Classification:

Any asset or liability is classified as current if it satisfies any of the following conditions:

- i. the asset/liability is expected to be realized/settled in the Company's normal operating cycle;
- ii. the asset is intended for sale or consumption;
- iii. the asset/liability is expected to be realized/settled within twelve months after the reporting period;
- iv. the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- v. In the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

1.6 Summary of Material accounting policies:

a) **Property, Plant & Equipment:**

- i) Measurement at recognition:

Adicon Ceramics Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2025

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses.

The cost of an item of property, plant and equipment comprises of its purchase price, including import duties, borrowing cost, changes on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets, other non-refundable purchase taxes or levies and any cost directly attributable to bringing the assets to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

ii) Depreciation:

Depreciation on each part of an item of property, plant and equipment is provided using the Straight-Line Method (SLM) Method based on the useful life of the asset as prescribed in Schedule II to the Companies Act, 2013.

Land is not depreciated.

The useful lives, residual values of each part of an item of property, plant and equipment and the depreciation methods are reviewed at the end of each financial year. If any of these expectations differ from previous estimates, such change is accounted for as a change in an accounting estimate.

iii) Derecognition:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the Derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized.

iv) Capital Work in progress:

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress.

b) **Investment Property:**

Investment Property is measured initially at cost including related transaction costs.

The cost comprises the purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for its intended use.

Adicon Ceramics Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2025

Subsequent expenditures are capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably. All day-to-day repair and maintenance expenditure are charged to the statement of profit and loss for the period during which such expenses are incurred.

For transition to Ind AS, the carrying value of Investment Property under previous GAAP as on April 01, 2015 is regarded as its cost. The carrying value was original cost less accumulated depreciation and cumulative impairment, if any as on that date.

Gains or losses arising from derecognition of investment property are measured as the difference between the net disposal proceeds and the carrying amount of the asset at the time of disposal and are recognized in the statement of profit and loss when the asset is derecognized.

c) Borrowing Costs:

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized, if any. All other borrowing costs are expensed in the period in which they occur.

d) Impairment of non-financial assets:

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

e) Investment in Subsidiary, Joint Venture & Associate:

The Company has elected to recognize its investments in subsidiaries, joint venture and an associate company at cost in accordance with the option available in Ind AS 27, 'Separate Financial Statements'. Impairment policy applicable on such investments is explained in note (d) above.

Adicon Ceramics Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2025

f) Inventory:

Raw materials, finished goods, packing materials, stores, spares, consumables and stock-in-trade are carried at the lower of cost and net realizable value. However, materials and other items held for use in production of inventories are not written down below cost if the finished goods in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on an item-by-item basis.

In determining the cost of raw materials, packing materials, stock-in-trade, stores, spares, components and consumables, first in first out (FIFO) method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.

Cost of finished goods and work-in-progress includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads as applicable and other costs incurred in bringing the inventories to their present location and condition. Fixed production overheads are allocated on the basis of normal capacity of production facilities.

g) Financial Instrument:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets:

Initial recognition and measurement:

The Company recognizes a financial asset in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial assets are recognized initially at fair value, plus in the case of financial assets not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial asset.

Where the fair value of a financial asset at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial asset.

However, trade receivables that do not contain a significant financing component are measured at transaction price.

Subsequent measurement:

For subsequent measurement, the Company classifies a financial asset in accordance with the below criteria:

Adicon Ceramics Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2025

- i. The Company's business model for managing the financial asset and
- ii. The contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Company classifies its financial assets into the following categories:

- i. Financial assets measured at amortized cost.
- ii. Financial assets measured at fair value through other comprehensive income (FVTOCI)
- iii. Financial assets measured at fair value through profit or loss (FVTPL)

i. Financial assets measured at amortized cost:

A financial asset is measured at the amortized cost if both the following conditions are met:

- a) The Company's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows, and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to cash and bank balances, trade receivables, loans and other financial assets of the Company. Such financial assets are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash receipts are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial asset over the relevant period of the financial asset to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest income over the relevant period of the financial asset. The same is included under other income in the Statement of Profit and Loss.

The amortized cost of a financial asset is also adjusted for loss allowance, if any.

ii. Financial assets measured at FVTOCI:

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI).

iii. Financial assets measured at FVTPL:

A financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as explained above. This is a residual category applied to all other investments of the Company excluding investments in subsidiary and associate companies. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of Profit and Loss.

Adicon Ceramics Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2025

Derecognition:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e. removed from the Company's Balance Sheet) when any of the following occurs:

- i. The contractual rights to cash flows from the financial asset expires;
- ii. The Company transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset;
- iii. The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset);
- iv. The Company neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where Company has neither transferred nor retained substantially all of the risks and rewards of the financial asset, but retains control of the financial asset, the Company continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Company also recognizes an associated liability. The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On Derecognition of a financial asset, (except as mentioned in ii above for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognized in the Statement of Profit and Loss.

Impairment of financial assets:

The Company applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the following:

- i. Trade receivables:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the Effective Interest Rate (EIR) method, less provision for impairment based on expected credit loss.

For trade and lease receivable only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of such receivables.

- ii. Financial assets measured at amortized cost (other than trade receivables)

In case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognized as loss allowance.

In case of other assets (listed as ii above), the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured

Adicon Ceramics Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2025

and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

Financial Liabilities

Initial recognition and measurement:

The Company recognizes a financial liability in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial liabilities are recognized initially at fair value minus, in the case of financial liabilities not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial liability.

Where the fair value of a financial liability at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial liability.

Subsequent measurement:

All financial liabilities of the Company are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash payments are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial liability over the relevant period of the financial liability to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest expense over the relevant period of the financial liability. The same is included under finance cost in the Statement of Profit and Loss.

Adicon Ceramics Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2025

Derecognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of Profit and Loss.

Offsetting of Financial Instruments:

Financial assets and financial liabilities are offset, and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

h) Fair Value:

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 — inputs that are unobservable for the asset or liability

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

i) Revenue Recognition:

Revenue is recognized when it is probable that economic benefits associated with a transaction flows to the Company in the ordinary course of its activities and the amount of revenue can be measured reliably. Revenue is measured at the fair value of the consideration received or

Adicon Ceramics Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2025

receivable after the deduction of any trade and cash discounts, volume rebates and any taxes or duties collected on behalf of the Government which are levied on sales such as sales tax, value added tax, goods and service tax etc.

Revenue includes only the gross inflows of economic benefits, including excise duty, received and receivable by the Company, on its own account.

Sale of products:

Revenue from sale of products is recognized when the Company transfers all significant risks and rewards of ownership to the buyer, while the Company retains neither continuing managerial involvement nor effective control over the products sold.

Interest and dividends:

Interest income is recognized using effective interest method. Dividend income is recognized when the right to receive payment is established.

Insurance Claims

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that there is no uncertainty in receiving the claims

j) Income Taxes:

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current tax:

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible under the Income Tax Act, 1961. Current tax is measured using tax rates that have been enacted by the end of reporting period for the amounts expected to be recovered from or paid to the taxation authorities.

Deferred tax:

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit under Income Tax Act, 1961.

Deferred tax liabilities are generally recognized for all taxable temporary differences. However, in case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax liabilities are not recognized. Also, for temporary differences if any that may arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In case of temporary differences that arise from initial

Adicon Ceramics Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2025

recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Presentation of current and deferred tax:

Current and deferred tax are recognized as income or an expense in the Statement of Profit and Loss, except when they relate to items that are recognized in Other Comprehensive Income, in which case, the current and deferred tax income/ expense are recognized in Other Comprehensive Income.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

k) Foreign Currency Transaction & Translation:

Initial Recognition:

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency (i.e. Indian Rupees), by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Measurement of foreign currency items at reporting date:

Foreign currency monetary items of the Company are translated at the closing exchange rates. Non-monetary items that are measured at historical cost in a foreign currency, are translated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency, are translated using the exchange rates at the date when the fair value is measured.

Exchange differences arising out of these translations are recognized in the Statement of Profit and Loss.

l) Provision & Contingencies:

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources or providing economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

Adicon Ceramics Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2025

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

m) Employee Benefits:

Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

Post-Employment Benefits:

I. Defined Contribution plans:

Defined contribution plans are employee provident fund, employee state insurance scheme and Government administered pension fund scheme for all applicable employees.

Recognition and measurement of defined contribution plans:

The Company recognizes contribution payable to a defined contribution plan as an expense in the Statement of Profit and Loss when the employees render services to the Company during the reporting period. If the contributions payable for services received from employees before the reporting date exceeds the contributions already paid, the deficit payable is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the reporting date, the excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

II. Defined Benefit plans:

The Company operates a defined benefit gratuity plan for employees.

Recognition and measurement of Defined Benefit plans:

The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the present value of available refunds and reductions in future contributions to the plan.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss. Remeasurements of the net defined benefit liability / (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest on the net defined benefit liability/asset), are recognized in Other Comprehensive

Adicon Ceramics Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2025

Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

The Company presents the above liability/(asset) as current and non-current in the Balance Sheet as per actuarial valuation by the independent actuary; however, the entire liability towards gratuity is considered as current as the Company will contribute this amount to the gratuity fund within the next twelve months.

Other Long-Term Employee Benefits:

Entitlements to annual leave and sick leave are recognised when they accrue to employees. Sick leave can only be availed or encashed subject to a restriction on the maximum number of accumulation of leave. The company determines the liability for such accumulated leave using the projected accrued benefit method with actuarial valuations being carried out at each Balance Sheet date.

n) Lease Accounting:

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a Lessee

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term and useful life of the underlying asset. The lease liability is initially measured as a amortized at the present value of the future lease payments. The lease payments are

Adicon Ceramics Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2025

the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows. Further, for effect of transition to Ind AS 116, classification of leases and other disclosures relating to leases.

Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

INTERNAL RISK FACTORS

1. Implementation of the Scheme of Arrangement is dependent on the receipt of various approvals, including approval from shareholders and creditors of AGIL and ACTPL, regulatory authorities and the NCLT. In case of non-receipt of any of the requisite approvals, the Tiles Manufacturing Undertaking of ACTPL will not get demerged into ACL; which may hamper growth expected out of the proposed demerger and if we are not able to manage timely compliance of regulatory requirements, it may impact the Scheme. Any modification or revision in the Scheme suggested /directed by the competent authorities, which is not acceptable to the Board of Directors of the respective companies may adversely impact the proposals in the Scheme.
2. ACTPL is an unlisted company and its equity shares are not listed on any stock exchange and hence not available for trading.
3. Our operating results may fluctuate from quarter to quarter due to seasonality, demand & supply scenario and various geo political issues. Such fluctuations may have an adverse effect on our business and cash flows.
4. Post the completion of the Demerger as described in the Scheme, our operations will be concentrated in Morbi, Gujarat and any change in the geographical or economic condition may adversely impact our business and financial performance.
5. We may face significant competition from traditional and established ceramic tiles manufacturing companies. Such competition may affect our business operations and cash flows.

RATIONALE OF SCHEME OF ARRANGEMENT

AGIL, the Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

AGIL, the Resulting Company 1 has identified its supplier, i.e., ACTPL, the Demerged Company, that manufactures tiles for AGIL, the Resulting Company 1 on job work basis as well as manufactures tiles under their own brand names. The supplier is in effect selling majority of its own production directly to AGIL, the Resulting Company 1. In order to integrate its manufacturing process and to inorganically expand its production lines, it is desirable to take over the tiles manufacturing businesses of the supplier. Since the supplier has separate brands names and related Intellectual Property such as brands, trademarks, registrations, etc. attached to these names, it is considered appropriate to demerge this business in wholly owned subsidiary of AGIL, the Resulting Company 1 of similar name. To avoid effect on the financials due to payment of huge consideration in cash or by way of debt, the consideration is proposed to be paid by way of issue of shares which will be compliant with the definition of ‘demerger’ as defined under section 2(19AA) r.w.s. 2(41A) of the Income Tax Act, 1961.

Through the aforesaid demerger of the Adicon Tiles Manufacturing Undertaking from ACTPL, the Demerged Company, the stakeholders of ACTPL, the Demerged Company will get access to a diverse business structure since AGIL, the Resulting Company 1 has presence in multiple industries leading to risk diversification in the hands of the stakeholders and also leading to stable valuation by the market. The stakeholders will also get safeguarded from the day-to-day hurdles specific to the tiles manufacturing business by diversifying their risk.

Further, the business of ACTPL, the Demerged Company will get an access to the huge market reach and marketing network of AGIL, the Resulting Company 1. This business will thus gain a chance of evolving into legacy businesses under the professional management of AGIL, the

Resulting Company 1 due to their increased technical knowhow, diverse expertise and growth vision. The expansion opportunity from the access to infrastructure of AGIL, the Resulting Company 1 seems unparalleled.

Multiple entries of large organised players into the tiles industry are expected to drive the entire industry into a highly efficient space where large players would command premium on account of their competitive edge and managing a tiles manufacturing business as an unorganised player may become more and more challenging. Consolidation of the tiles manufacturing businesses under the banner of AGIL, the Resulting Company 1 would not only safeguard the businesses but also provide an edge to competitively grow in the ever-changing business dynamic.

The opportunity of growth in the businesses and risk diversification for the stakeholders of ACTPL, the Demerged Company and the inorganic expansion and synergistic opportunity for AGIL, the Resulting Company 1 due to better agility and higher control over its manufacturing process, more production lines and working capital requirements would provide both ACTPL, the Demerged Company and AGIL, the Resulting Company 1 with their respective advantages while making the combined businesses of AGIL, the Resulting Company 1 and ACTPL, the Demerged Company more sustainable and competitive in the long run.

The Scheme proposes to combine the interests of ACTPL, the Demerged Company into AGIL, the Resulting Company 1 and its subsidiary by way of demerger of Adicon Tiles Manufacturing Undertaking from ACTPL, the Demerged Company to expand the tiles business of AGIL, the Resulting Company 1.

The proposed restructuring pursuant to this Scheme is expected, inter alia, to result in following benefits:

1. combining and bundling of Adicon Tiles Manufacturing Undertaking of ACTPL, the Demerged Company into ACL, the Resulting Company 2 which is, inter alia, wholly owned subsidiary of AGIL, the Resulting Company 1;
2. better control on utilisation of production capacity due to integration of the manufacturing process;
3. optimisation of working capital due to consolidation of businesses;
4. inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;
5. economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;
6. achieve cost optimization and specialisation for sustained growth; and
7. enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries.

In view of the aforesaid advantages, the Board of Directors of all the Companies have considered and proposed Scheme of Arrangement under the provisions of Section 230 to Section 232 of the Companies Act, 2013.

The present Scheme of Arrangement is proposed for the demerger, transfer and vesting of the Tiles Manufacturing Undertaking of ACTPL to ACL on a going concern basis in accordance with Section 2(19AA) r.w.s 2(41A) of the Income Tax Act, 1961.

INTERNAL RISK FACTORS

1. Implementation of the Scheme of Arrangement is dependent on the receipt of various approvals, including approval from shareholders and creditors of AGIL and ACL, regulatory authorities and the NCLT. In case of non-receipt of any of the requisite approvals, the Tiles Manufacturing Undertaking of ACTPL will not get demerged to ACL; which may hamper growth expected out of the proposed demerger and if we are not able to manage timely compliance of regulatory requirements, it may impact the Scheme. Any modification or revision in the Scheme suggested /directed by the competent authorities, which is not acceptable to the Board of Directors of the respective companies may adversely impact the proposals in the Scheme.
2. ACL is an unlisted company and its equity shares are not listed on any stock exchange and hence not available for trading.
3. Our operating results may fluctuate from quarter to quarter due to seasonality, demand & supply scenario and various geo political issues. Such fluctuations may have an adverse effect on our business and cash flow.
4. Post the completion of the Demerger as described in the Scheme, our operations will be concentrated in Morbi, Gujarat and any change in the geographical or economic condition may adversely impact our business and financial performance.
5. We may face significant competition from traditional and established ceramic tiles manufacturing companies. Such competition may affect our business operations and cash flows.

RATIONALE OF SCHEME OF ARRANGEMENT

AGIL, the Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bath-ware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

AGIL, the Resulting Company 1 has identified its supplier, i.e., ACTPL, the Demerged Company, that manufactures tiles for AGIL, the Resulting Company 1 on job work basis as well as manufactures tiles under their own brand names. The supplier is in effect selling majority of its own production to AGIL, the Resulting Company 1. In order to integrate its manufacturing process and to inorganically expand its production lines, it is desirable to take over the tiles manufacturing businesses of the supplier. Since the supplier has separate brands names and related Intellectual Property such as brands, trademarks, registrations, etc. attached to these names, it is considered appropriate to demerge this business in wholly owned subsidiary of AGIL, the Resulting Company 1 of similar name. To avoid effect on the financials due to payment of huge consideration in cash or by way of debt, the consideration is proposed to be paid by way of issue of shares which will be compliant with the definition of ‘demerger’ as defined under section 2(19AA) r.w.s. 2(41A) of the Income Tax Act, 1961.

Through the aforesaid demerger of the Adicon Tiles Manufacturing Undertaking from ACTPL, the Demerged Company, the stakeholders of ACTPL, the Demerged Company will get access to a diverse business structure since AGIL, the Resulting Company 1 has presence in multiple industries leading to risk diversification in the hands of the stakeholders and also leading to stable valuation by the market. The stakeholders will also get safeguarded from the day-to-day hurdles specific to the tiles manufacturing business by diversifying their risk.

Further, the business of ACTPL, the Demerged Company will get an access to the huge market reach and marketing network of AGIL, the Resulting Company 1. This business will thus gain a chance of evolving into legacy businesses under the professional management of AGIL, the

Resulting Company 1 due to their increased technical knowhow, diverse expertise and growth vision. The expansion opportunity from the access to infrastructure of AGIL, the Resulting Company 1 seems unparalleled.

Multiple entries of large organised players into the tiles industry are expected to drive the entire industry into a highly efficient space where large players would command premium on account of their competitive edge and managing a tiles manufacturing business as an unorganised player may become more and more challenging. Consolidation of the tiles manufacturing businesses under the banner of AGIL, the Resulting Company 1 would not only safeguard the businesses but also provide an edge to competitively grow in the ever-changing business dynamic.

The opportunity of growth in the businesses and risk diversification for the stakeholders of ACTPL, the Demerged Company and the inorganic expansion and synergistic opportunity for AGIL, the Resulting Company 1 due to better agility and higher control over its manufacturing process, more production lines and working capital requirements would provide both ACTPL, the Demerged Company and AGIL, the Resulting Company 1 with their respective advantages while making the combined businesses of AGIL, the Resulting Company 1 and ACTPL, the Demerged Company more sustainable and competitive in the long run.

The Scheme proposes to combine the interests of ACTPL, the Demerged Company into AGIL, the Resulting Company 1 and its subsidiary by way of demerger of Adicon Tiles Manufacturing Undertaking from ACTPL, the Demerged Company to expand the tiles business of AGIL, the Resulting Company 1.

The proposed restructuring pursuant to this Scheme is expected, inter alia, to result in following benefits:

1. combining and bundling of Adicon Tiles Manufacturing Undertaking of ACTPL, the Demerged Company into ACL, the Resulting Company 2 which is, inter alia, wholly owned subsidiary of AGIL, the Resulting Company 1;
2. better control on utilisation of production capacity due to integration of the manufacturing process;
3. optimisation of working capital due to consolidation of businesses;
4. inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;
5. economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;
6. achieve cost optimization and specialisation for sustained growth; and
7. enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries.

In view of the aforesaid advantages, the Board of Directors of all the Companies have considered and proposed Scheme of Arrangement under the provisions of Section 230 to Section 232 of the Companies Act, 2013.

RATIONALE FOR THIS SCHEME

AGIL, the Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

AGIL, the Resulting Company 1 has identified its supplier, i.e., ACTPL, the Demerged Company, that manufactures tiles for AGIL, the Resulting Company 1 on job work basis as well as manufactures tiles under their own brand names. The supplier is in effect selling majority of its own production to AGIL, the Resulting Company 1. In order to integrate its manufacturing process and to inorganically expand its production lines, it is desirable to take over the tiles manufacturing businesses of the supplier. Since the supplier has separate brands names and related Intellectual Property such as brands, trademarks, registrations, etc. attached to these names, it is considered appropriate to demerge this business in wholly owned subsidiary of AGIL, the Resulting Company 1 of similar name. To avoid effect on the financials due to payment of huge consideration in cash or by way of debt, the consideration is proposed to be paid by way of issue of shares which will be compliant with the definition of 'demerger' as defined under section 2(19AA) r.w.s. 2(41A) of the Income Tax Act, 1961.

Through the aforesaid demerger of the Adicon Tiles Manufacturing Undertaking from ACTPL, the Demerged Company, the stakeholders of ACTPL, the Demerged Company will get access to a diverse business structure since AGIL, the Resulting Company 1 has presence in multiple industries leading to risk diversification in the hands of the stakeholders and also leading to stable valuation by the market. The stakeholders will also get safeguarded from the day-to-day hurdles specific to the tiles manufacturing business by diversifying their risk.

Further, the business of ACTPL, the Demerged Company will get an access to the huge market reach and marketing network of AGIL, the Resulting Company 1. This business will thus gain a chance of evolving into legacy businesses under the professional management of AGIL, the Resulting Company 1 due to their increased technical knowhow, diverse expertise and growth vision. The expansion opportunity from the access to infrastructure of AGIL, the Resulting Company 1 seems unparalleled.

Multiple entries of large organised players into the tiles industry are expected to drive the entire industry into a highly efficient space where large players would command premium on account of their competitive edge and managing a tiles manufacturing business as an unorganised player may become more and more challenging.

Consolidation of the tiles manufacturing businesses under the banner of AGIL, the Resulting Company 1 would not only safeguard the businesses but also provide an edge to competitively grow in the ever-changing business dynamic.

The opportunity of growth in the businesses and risk diversification for the stakeholders of ACTPL, the Demerged Company and the inorganic expansion and synergistic opportunity for AGIL, the Resulting Company 1 due to better agility and higher control over its manufacturing process, more production lines and working capital requirements would provide both ACTPL, the Demerged Company and AGIL, the Resulting Company 1 with their respective advantages while making the combined businesses of AGIL, the Resulting Company 1 and ACTPL, the Demerged Company more sustainable and competitive in the long run.

The Scheme proposes to combine the interests of ACTPL, the Demerged Company into AGIL, the Resulting Company 1 and its subsidiary by way of demerger of Adicon Tiles Manufacturing Undertaking from ACTPL, the Demerged Company to expand the tiles business of AGIL, the Resulting Company 1.

The proposed restructuring pursuant to this Scheme is expected, *inter alia*, to result in following benefits:

- (i) combining and bundling of Adicon Tiles Manufacturing Undertaking of ACTPL, the Demerged Company into ACL, the Resulting Company 2 which is, *inter alia*, wholly owned subsidiary of AGIL, the Resulting Company 1;
- (ii) better control on utilisation of production capacity due to integration of the manufacturing process;
- (iii) optimisation of working capital due to consolidation of businesses;
- (iv) inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;
- (v) economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;
- (vi) achieve cost optimization and specialisation for sustained growth; and
- (vii) enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries.

The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders in each of the companies.

11. RATIONALE OF THE SCHEME:

Asian Granito India Ltd. (AGIL), the Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

AGIL, the Resulting Company 1 has identified few of its suppliers, i.e., Adicon Ceramica Tiles Pvt. Ltd. (ACTPL), the Demerged Company, that manufacture tiles for AGIL, the Resulting Company 1 on job work basis as well as manufactures tiles under their own brand names. The supplier is in effect selling majority of their own production to AGIL, the Resulting Company 1. In order to integrate its manufacturing process and to inorganically expand its production lines, it is desirable to take over the tiles manufacturing businesses of the supplier. Since the supplier has separate brands, names and related Intellectual Property such as brands, trademarks, registrations, etc. attached to these names, it is considered appropriate to demerge this business in wholly owned subsidiary of AGIL, the Resulting Company 1 of similar name. To avoid effect on the financials due to payment of huge consideration in cash or by way of debt, the consideration is proposed to be paid

by way of issue of shares which will be compliant with the definition of 'demerger' as defined under section 2(19AA) r.w.s. 2(41A) of the Income Tax Act, 1961

Through the aforesaid demerger the Adicon Tiles Manufacturing Undertaking from ACTPL, the Demerged Company, the stakeholders of ACTPL, the Demerged Company will get access to a diverse business structure since AGIL, the Resulting Company 1 has presence in multiple industries leading to risk diversification in the hands of the stakeholders and also leading to stable valuation by the market. The stakeholders will also get safeguarded from the day-to-day hurdles specific to the tiles manufacturing business by diversifying their risk.

Further, the business of ACTPL, the Demerged Company will get an access to the huge market reach and marketing network of AGIL, the Resulting Company 1. This business will thus gain a chance of evolving into legacy businesses under the professional management of AGIL, the Resulting Company 1 due to their increased technical knowhow, diverse expertise and growth vision. The expansion opportunity from the access to infrastructure of AGIL, the Resulting Company 1 seems unparalleled.

Multiple entries of large organised players into the tiles industry are expected to drive the entire industry into a highly efficient space where large players would command premium on account of their competitive edge and managing

←

a tiles manufacturing business as an unorganised player may become more and more challenging. Consolidation of the tiles manufacturing businesses under the banner of AGIL, the Resulting Company 1 would not only safeguard the businesses but also provide an edge to competitively grow in the ever-changing business dynamic.

The opportunity of growth in the businesses and risk diversification for the stakeholders of ACTPL, the Demerged Company and the inorganic expansion and synergistic opportunity for AGIL, the Resulting Company 1 due to better agility and higher control over its manufacturing process, more production lines and working capital requirements would provide both ACTPL, the Demerged Company and AGIL, the Resulting Company 1 with the me respective advantages while making the combined businesses of AGIL, the Resulting Company 1 and ACTPL, the Demerged Company more sustainable and competitive in the long run.

The proposed restructuring pursuant to this Scheme is expected, inter alia, to result in following benefits:

- i) combining and bundling of Adicon Tiles Manufacturing Undertaking of ACTPL, the Demerged Company into ACL, the Resulting Company 2 which is, inter alia, wholly owned subsidiary of AGIL, the Resulting Company 1*
- ii) better control on utilisation of production capacity due to integration of the manufacturing process;*
- iii) Optimization of working capital due to consolidation of businesses;*

- iv) *inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;*
- v) *economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;*
- xi) *achieve cost optimization and specialisation for sustained growth; and*
- xii) *enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries.*

The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders in each of the companies.
