6. Background of AGIL, the Applicant Resulting Company 1 or De-merged Company 4

- (i) Asian Granito India Limited, the “Resulting Company 1” or the “Demerged Company 4”, (“AGIL”) is a public listed company incorporated under the provisions of the Companies Act, 1956. The said Company was originally incorporated on August 8, 1995 as a private limited company under the name and style of Karnavati Fincap Private Limited as per certificate of registration issued by the Registrar of Companies, Gujarat Darda & Nagar Haveli. Subsequently, it was converted into a public limited company and consequently the name was changed to Karnavati Fincap Limited with effect from August 29, 1995. The name was changed to Panchariya Textile Industries Limited with effect from March 18, 1999 which was further changed to Vasudev Textile Industries Limited with effect from July 28, 2000. Again subsequently, the name of the company was changed to Asian Granito India Limited with effect from November 25, 2002. The Equity shares of the Company are listed on BSE Limited (“BSE”) and the National Stock Exchange of India Limited (“NSE”).

The current corporate identity number is L17110GJ1995PLC027025. The Permanent Account Number of AGIL is AAFCFA2340H. Email id of the Applicant Company is cs@aglasiangranito.com.

- (ii) The Registered Office of AGIL is situated at 202, Dev Arc, Opposite Iskon Temple, S. G. Highway, S A C, Ahmedabad - 380015, in the state of Gujarat.
- (iii) The share capital of AGIL as on March 31, 2024 is as under:-

Particulars	Amount (in Rs)
Authorised Share Capital	
15,00,00,000 Equity Shares of INR 10 each	150,00,00,000
Total	150,00,00,000
Issued, Subscribed and Paid-up Share Capital	
12,67,45,316 fully paid-up Equity Shares of ₹ 10 each	126,74,53,160
Total	126,74,53,160

Subsequent to the above date, the said company has initiated the process to increase its Authorised Share Capital to Rs. 320 crores by following the requisite procedure in compliance with the provisions of the Companies Act, 2013. The same is essential for the purpose of issue of the shares to the shareholders of the Applicant De-merged companies 1-3, upon the proposed Scheme being effective.

Subsequent to the above date, the company has allotted its equity shares pursuant to conversion of 77,82,682 warrants on preferential basis on October 08, 2024 and also conversion of 47,14,434 warrants on preferential basis on October 15, 2024 resulting into increase in Issued, Subscribed and Paid-up share capital from Rs. 126,74,53,160 to Rs. 139,24,24,320 consisting of 13,92,42,432 equity shares of INR 10 each.

15. This Scheme provides for:

- (i) the demerger, transfer and vesting of
 - a. the Affil Tiles Manufacturing Undertaking from AVPL, the Demerged Company 1 to ACL, the Resulting Company 2
 - b. the Ivanta Tiles Manufacturing Undertaking from ICIPL, the Demerged Company 2 to ICL, the Resulting Company 3
 - c. the Crystal Tiles Manufacturing Undertaking from CCIL, the Demerged Company 3 to CVL, the Resulting Company 4 on a going concern basis, and the consequent issue of shares by AGIL, the Resulting Company 1 in the manner set out in this Scheme and other applicable provisions of Applicable Law;
- (ii) the transfer and vesting of the Marbles and Quartz Undertaking from AGIL, the Demerged Company 4 to AmCL, the Resulting Company 5, as a going concern on a Slump Sale basis, and the consequent discharge of consideration by AmCL, the Resulting Company 5 in the manner set out in this Scheme and other applicable provisions of Applicable Law and
- (iii) the amalgamation of AGLIL, the Transferor Company with AmCL, the Transferee Company, and the consequent issue of shares by AmCL, the Transferee Company in the manner set out in this Scheme and other applicable provisions of Applicable Law.

The Demerged Companies 1 to 3 and the Demerged Company 4 will continue to pursue their interests in and carry on the Remaining Businesses as are presently being carried on.

16. Rationale and Salient Features of the Scheme:

AGIL, the Demerged Company 4 / Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

DEMERGER

AGIL, the Resulting Company 1 has identified few of its suppliers, i.e., AVPL, the Demerged Company 1, ICIPL, the Demerged Company 2 and CCIL, the Demerged Company 3, that manufacture tiles for AGIL, the Resulting Company 1 on job work basis as well as manufacture tiles under their own brand names. These suppliers are in effect selling majority of their own production to AGIL, the Resulting Company 1. In order to integrate its manufacturing process and to inorganically expand its production lines, it is desirable to take over the tiles manufacturing businesses of these suppliers. Since these suppliers have separate brands names and related Intellectual Property such as brands, trademarks, registrations, etc. attached to these names, it is considered appropriate to demerge only the tiles manufacturing businesses into wholly owned subsidiaries of AGIL, the Resulting Company 1 of similar names. To avoid effect on the financials due to payment of huge consideration in cash or by way of debt, the consideration is proposed to be paid by way of issue of shares by AGIL, the Resulting Company 1 which will be compliant with the definition of 'demerger' as defined under section 2(19AA) r.w.s. 2(41A) of the Income Tax Act, 1961.

Through the aforesaid demergers of the Affil Tiles Manufacturing Undertaking from AVPL, the Demerged Company 1, the Ivanta Tiles Manufacturing Undertaking from ICIPL, the Demerged Company 2 and the Crystal Tiles Manufacturing Undertaking from CCIL, the Demerged Company 3, the stakeholders of AVPL, the Demerged Company 1, ICIPL, the Demerged Company 2 and CCIL, the Demerged Company 3 will get access to a diverse business structure since AGIL, the Resulting Company 1 has presence in multiple industries leading to risk diversification in the hands of the stakeholders and also leading to stable valuation by the market. The stakeholders will also get safeguarded from the day-to-day hurdles specific to the tiles manufacturing business by diversifying their risk.

Further, the businesses of AVPL, the Demerged Company 1, ICIPL, the Demerged Company 2 and CCIL, the Demerged Company 3 will get an access to the huge market reach and marketing network of AGIL, the Resulting Company 1. These businesses will thus gain a chance of evolving into legacy businesses under the professional management of AGIL, the Resulting Company 1 due to their increased technical knowhow, diverse expertise and growth vision. The expansion opportunity from the access to infrastructure of AGIL, the Resulting Company 1 seems unparalleled.

Multiple entries of large organised players into the tiles industry are expected to drive the entire industry into a highly efficient space where large players would command premium on account of their competitive edge and managing a tiles manufacturing business as an unorganised player may become more and more challenging. Consolidation of the tiles manufacturing businesses under the banner of AGIL, the Resulting Company 1 would not only safeguard the businesses but also provide an edge to competitively grow in the ever-changing business dynamic.

The opportunity of growth in the businesses and risk diversification for the stakeholders of AVPL, the Demerged Company 1, ICIPL, the Demerged Company 2 and CCIL, the Demerged Company 3 and the inorganic expansion and

synergistic opportunity for AGIL, the Resulting Company 1 due to better agility and higher control over its manufacturing process, more production lines and working capital requirements would provide the Demerged Companies and AGIL, the Resulting Company 1 with their respective advantages while making the combined businesses of AGIL, the Resulting Company 1 and the Demerged Companies more sustainable and competitive in the long run.

SLUMPSALE and MERGER

The tiles business and marbles & quartz business have different industry specific risks, business cycles and operate inter alia under different market dynamics, and thus can attract different types of investors as well as management teams and follow different and independent strategies, even as they all have a significant potential for growth and profitability. Given the diversified business portfolio, it has become imperative for AGIL, the Demerged Company 4 to reorient and reorganize itself in a manner that allows it to impart greater focus, management alignment and growth for each of its business lines. AGIL, the Demerged Company 4 is also desirous of enhancing its operational efficiency, flexibility in attracting capital and management talent through aligned risk return matrices.

The proposed restructuring pursuant to this Scheme is expected, inter alia, to result in following benefits:

- (i) combining and bundling of Affil Tiles Manufacturing Undertaking of AVPL, the Demerged Company 1, Ivanta Tiles Manufacturing Undertaking of ICIPL, the Demerged Company 2 and Crystal Tiles Manufacturing Undertaking of CCIL, the Demerged Company 3 into ACL, the Resulting Company 2, ICL, the Resulting Company 3 and CVL, the Resulting Company 4 which are, inter alia, wholly owned subsidiaries of AGIL, the Resulting Company 1;
- (ii) better control on utilisation of production capacity due to integration of the manufacturing process;
- (iii) optimisation of working capital due to consolidation of businesses;
- (iv) inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;
- (v) economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;
- (vi) segregation and unbundling of the Marbles and Quartz Undertaking of AGIL, the Demerged Company 4 into AmCL, the Resulting Company 5;
- (vii) emergence of AmCL, the Resulting Company 5 as a Marbles & Quartz focused company, attracting the right investors and providing better flexibility in accessing capital, focused strategy and specialisation for sustained growth;
- (viii) segregation of the business of manufacturing of building construction related materials and adhesive solutions to enable better focus and growth orientation on the developing new business line;
- (ix) enhancing attractiveness of the entities for management teams by aligning risk return matrices and direct correlation of the rewards to their efforts;
- (x) allowing the respective managements of AGIL, the Resulting Company 1 and AmCL, the Resulting Company 5 to pursue independent growth strategies in different regional and overseas markets;
- (xi) achieve cost optimization and specialisation for sustained growth; and
- (xii) enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses

pertaining to different industries.

The Board of Directors of the said companies are of the opinion that the proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders in each of the companies.

- 14.6 Upon this Scheme becoming effective, all debts, liabilities, loans, obligations and duties of the Demerged Company 4 as on the Appointed Date and relating to the Marbles & Quartz Undertaking shall, without any further act or deed, be and stand transferred to and be deemed to be transferred to the Resulting Company 5 to the extent that they are outstanding as on the Appointed Date and the Resulting Company 5 shall meet, discharge and satisfy the same. The debts, liabilities, loans, obligations and duties of the Demerged Company 4 as on the Appointed Date and relating to the Marbles & Quartz Undertaking shall include:
- 14.6.1 *the debts, liabilities obligations incurred and duties of any kind, nature or description (including contingent liabilities) which arise out of the activities or operations of the Marbles & Quartz Undertaking;*
- 14.6.2 *the specific loans or borrowings (including debentures bonds, notes and other debt securities raised, incurred and utilized solely for the activities or operations of the Marbles & Quartz Undertaking); and*
- 14.6.3 *in cases other than those referred to in Clauses 14.6.1 or 14.6.2 above, so much of the amounts of general or multipurpose borrowings, if any, of the Demerged Company 4, as stand in the same proportion which the value of the assets transferred pursuant to the demerger of the Marbles & Quartz Undertaking bear to the total value*

of the assets of the Demerged Company 4 immediately prior to the Appointed Date.

However, the tax liabilities and tax demands or refunds received or to be received by the Demerged Company 4 for a period prior to the Appointed Date in relation to the Demerged Company 4 shall not be transferred as part of the Marbles & Quartz Undertaking to the Resulting Company 5.

- 14.7 Upon effectiveness of the Scheme, all debts, liabilities, loans, obligations and duties of the Demerged Company 4 as on the Appointed Date and relating to the Marbles & Quartz Undertaking shall, without any further act or deed, be and stand transferred to and be deemed to be transferred to the Resulting Company 5 to the extent that they are outstanding as on the Appointed Date and the Resulting Company 5 shall meet, discharge and satisfy the same.
- 14.8 In so far as any Encumbrance in respect of Marbles & Quartz Undertaking is concerned, such Encumbrance shall, without any further act, instrument or deed being required to be modified and, if so agreed, shall be extended to and shall operate over the assets of the Resulting Company 5. For the avoidance of doubt, it is hereby clarified that in so far as the assets comprising the Remaining Business are concerned, the Encumbrance, if any, over such assets relating to the Marbles & Quartz Undertaking, without any further act, instrument or deed being required, be released and discharged from the obligations and Encumbrances relating to the same. Further, in so far as the assets comprised in the Marbles & Quartz Undertaking are concerned, the Encumbrance over such assets relating to any loans, borrowings or other debts which are not transferred to the Resulting Company 5 pursuant to this Scheme and which shall continue with the Demerged Company 4, shall without any further act or deed be released from such Encumbrance and shall no longer be available as security in relation to such liabilities.
- 14.9 Taxes, if any, paid or payable by the Demerged Company 4 after the Appointed Date and specifically pertaining to the Marbles & Quartz Undertaking shall be treated as paid or payable by the Resulting Company 5 and the Resulting Company 5 shall be entitled to claim the credit, refund or adjustment for the same as may be applicable.
- 14.10 If the Demerged Company 4 is entitled to any unutilized credits (including balances or advances), benefits under the incentive schemes and policies including tax holiday or concessions relating to the Marbles & Quartz Undertaking under any Tax Laws or Applicable Laws, the Resulting Company 5 shall be entitled as an integral part of the Scheme to claim such benefit or incentives or unutilised credits as the case may be without any specific approval or permission. If the Marbles & Quartz Undertaking of the Demerged Company 4 is entitled to any carry forward of losses under any Tax Laws or Applicable Laws, the Resulting Company 5 shall be entitled to carry forward and utilise those losses for eight assessment years starting from the assessment year in which the appointed date of the scheme falls.
- 14.11 Upon the Scheme becoming effective, the Demerged Company 4 and the Resulting Company 5 shall have the right to revise their respective financial statements and returns along with prescribed forms, filings and annexures under the Tax Laws and to claim refunds and/or credit for Taxes paid and for matters incidental thereto, if required, to give effect to the provisions of the Scheme.
- 14.12 Subject to clause 14.2 and any other provisions of the Scheme, any refunds, benefits, incentives, grants, subsidies in relation to or in connection with the Marbles & Quartz Undertaking, the Demerged Company 4 shall, if so required by the Resulting Company 5, issue notices in such form as the Resulting Company 5 may deem fit and proper stating that pursuant to the Tribunal having sanctioned this Scheme, the relevant refund, benefit, incentive, grant, subsidies, be paid or made good or held on account of the Resulting Company 5, as the person entitled thereto, to the end and intent that the right of the Demerged Company 4 to recover or realise the same, stands transferred to the Resulting Company 5 and that appropriate entries should be passed in their respective

books to record the aforesaid changes.

- 14.13 On and from the Effective Date and till such time that the name of the bank accounts of the Demerged Company 4, in relation to or in connection with the Marbles & Quartz Undertaking, have been replaced with that of the Resulting Company 5, the Resulting Company 5 shall be entitled to maintain and operate the bank accounts of the Demerged Company 4, in the name of the Demerged Company 4 for such time as may be determined to be necessary by the Resulting Company 5. All cheques and other negotiable instruments, payment orders received or presented for encashment which are in the name of the Demerged Company 4, in relation to or in connection with the Marbles & Quartz Undertaking, after the Effective Date shall be accepted by the bankers of the Resulting Company 5 and credited to the account of the Resulting Company 5, if presented by the Resulting Company 5.
- 14.14 Without prejudice to the provisions of the foregoing sub clauses of this Clause 12, and upon the effectiveness of this Scheme, the Demerged Company 4 and the Resulting Company 5 shall be entitled to apply to the Appropriate Authorities as are necessary under any law for such consents, approvals and sanctions which the Resulting Company 5 may require and execute any and all instruments or documents and do all the acts and deeds as may be required, including filing of necessary particulars and/ or modification(s) of charge, with the concerned RoC or filing of necessary applications, notices, intimations or letters with any authority or Person to give effect to the Scheme.

17. EMPLOYEES

- 17.1 With effect from the Effective Date, the Resulting Company 5 undertakes to engage, without any interruption in service, all employees of the Demerged Company 4, engaged in or in relation to the Marbles & Quartz Undertaking, on the terms and conditions not less favourable than those on which they are engaged by the Demerged Company 4. The Resulting Company 5 undertakes to continue to abide by any agreement/ settlement or arrangement, if any, entered into or deemed to have been entered into by the Demerged Company 4 with any of the aforesaid employees or union representing them. The Resulting Company 5 agrees that the services of all such employees with the Demerged Company 4 prior to the transfer shall be taken into account for the purposes of all existing benefits to which the said employees may be eligible, including for the purpose of payment of any retrenchment compensation, gratuity and other retiral/ terminal benefits. The decision on whether or not an employee is part of the Marbles & Quartz Undertaking, be decided by the Demerged Company 4, and shall be final and binding on all concerned.
- 17.2 The accumulated balances, if any, standing to the credit of the aforesaid employees in the existing provident fund, gratuity fund and superannuation fund, including and not limited to Asian Group Gratuity Employee Trust Fund, of which they are members, as the case may be, will be transferred respectively to such provident fund, gratuity fund and superannuation funds nominated by the Resulting Company 5 and/ or such new provident fund, gratuity fund and superannuation fund to be established in accordance with Applicable Law and caused to be recognized by the Appropriate Authorities, by the Resulting Company 5. Pending the transfer as aforesaid, the provident fund, gratuity fund and superannuation fund dues of the said employees would be continued to be deposited in the existing provident fund, gratuity fund and superannuation fund respectively of the Demerged Company 4.
- 17.3 In so far as provident fund is concerned, the balances standing to the credit of the said employees in the existing provident fund of the Demerged Company 4 shall be retained in such provident fund and such provident fund shall be continued for the benefit of: (a) the said employees who are transferred to the Resulting Company 5, as aforesaid, and (b) other employees of the Demerged Company 4. In relation to said employees being transferred,

the Resulting Company 5 shall stand substituted for the Demerged Company 4, for all purposes whatsoever, including relating to the obligation to make contributions to the said fund in accordance with the provisions thereof. The rules of such existing provident fund shall stand amended accordingly. The employees of the Demerged Company 4 engaged in or in relation to the Marbles & Quartz Undertaking who are transferred to the Resulting Company 5, as aforesaid, shall be deemed to constitute a separate class of employees of the Resulting Company 5 for the purpose of compliance with the provisions of the Employees Provident Fund and Miscellaneous Provisions Act, 1952.

18. LEGAL PROCEEDINGS

- 18.1 Upon the coming into effect of this Scheme, proceedings relating to the Marbles & Quartz Undertaking shall not abate or be discontinued or be in any way prejudicially affected by reason of this Scheme or by anything contained in this Scheme but shall be continued and be enforced by or against the Resulting Company 5 with effect from the Effective Date in the same manner and to the same extent as would or might have been continued and enforced by or against the Demerged Company 4.
- 18.2 The Resulting Company 5: (a) shall be replaced/ added as party to such proceedings relating to the Marbles & Quartz Undertaking; and (b) shall prosecute or defend such proceedings at its own cost and the liability of the Demerged Company 4 shall consequently stand nullified. For the avoidance of doubt, it is clarified that only the Resulting Company 5 shall be liable for the result of such order or judgment including any relief or positive impact/benefit or adverse impact/liability accruing from such order or judgment. It is clarified that except, as otherwise provided herein, the Demerged Company 4 shall in no event be responsible or liable in relation to any proceedings relating to the Marbles & Quartz Undertaking that stand transferred to the Resulting Company 5.

19. CONSIDERATION

- 19.1 Upon Part III of the Scheme coming into effect and in consideration for the Slump Sale of the Marbles & Quartz Undertaking, AmCL (the Resulting Company 5) shall pay a consideration of Rs. 102 crores (Rupees One Hundred and Two Crores) to AGIL (the Demerged Company 4).
- 19.2 The consideration for the transfer of the Marbles & Quartz Undertaking, as mentioned in Clause 19.1 above, shall be payable by AmCL (the Resulting Company 5) to AGIL (the Demerged Company 4), in one or more tranches, with or without interest, within a period of not more than 7 years.
- 19.3 The consideration has been arrived at based on valuation report by CA Sejal Agrawal, Registered Valuer (IBBI/RV/06/2020/13106).

- 20.2.4 In addition, the Resulting Company 5 shall pass such accounting entries, as may be necessary, in connection with this Scheme, to comply with any of the applicable Indian Accounting Standards including Indian Accounting Standard 103 ("Ind AS 103").

PART IV

AMALGAMATION OF AGLIL (THE TRANSFEROR COMPANY) WITH AMCL (THE TRANSFEREE COMPANY) AND THE CONSIDERATION THEREOF

21. TRANSFER OF ASSETS AND LIABILITIES

- 21.1 With effect from the opening business hours of Appointed Date, and subject to the provisions of this Scheme and pursuant to Section 232 of the Act and Section 2(1B) of the Income-tax Act, 1961, the Transferor Company shall stand amalgamated with the Transferee Company as a going concern and all assets, liabilities, contracts, arrangements, employees, Permits, licenses, records, approvals, etc. of the Transferor Company shall, without any further act, instrument or deed, stand transferred to and vested in or be deemed to have been transferred to and vested in the Transferee Company, so as to become as and from the Appointed Date, the assets, liabilities, contracts, arrangements, employees, Permits, licenses, records, approvals, etc. of the Transferee Company by virtue of, and in the manner provided in this Scheme.
- 21.2 Without prejudice to the generality of the above and to the extent applicable, unless otherwise stated herein, with effect from the Appointed Date:
- 21.2.1 with respect to the assets of the Transferor Company that are movable in nature or are otherwise capable of being transferred by manual delivery or by paying over or endorsement and/ or delivery, the same may be so transferred by the Transferor Company by operation of law without any further act or execution of an instrument with the intent of vesting such assets with the Transferee Company as on the Appointed Date.
- 21.2.2 subject to Clause 21.2.3 below, with respect to the assets of the Transferor Company, other than those referred to in Clause 21.2.1 above, including all rights, title and interests in the agreements (including agreements for

lease or license of the properties), investments in shares, mutual funds, bonds and any other securities, sundry debtors, outstanding loans and advances, if any, recoverable in cash or in kind or for value to be received, bank balances and deposits, if any, with Government, semi-Government, local and other authorities and bodies, customers and other persons, whether or not the same is held in the name of the Transferor Company shall, without any further act, instrument or deed, be transferred to and vested in and/ or be deemed to be transferred to and vested in the Transferee Company, with effect from the Appointed Date, by operation of law as transmission or as the case may be in favour of Transferee Company. With regard to the licenses of the properties, the Transferee Company will enter into novation agreements, if it is so required.

- 21.2.3 without prejudice to the aforesaid, all the immovable property (including but not limited to the land, buildings, offices, factories, sites, tenancy rights related thereto, and other immovable property, including accretions and appurtenances), whether or not included in the books of the Transferor Company, whether freehold or leasehold (including but not limited to any other document of title, rights, interest and easements in relation thereto, and any shares in cooperative housing societies associated with such immovable property) shall stand transferred to and be vested in the Transferee Company, as successor to the Transferor Company, without any act or deed to be done or executed by the Transferor Company, as the case may be and/ or the Transferee Company.
- 21.2.4 all debts, liabilities, duties and obligations (debentures, bonds, notes or other debt securities) of the Transferor Company shall, without any further act, instrument or deed be transferred to, and vested in, and/ or deemed to have been transferred to, and vested in, the Transferee Company, so as to become on and from the Appointed Date, the debts, liabilities, duties and obligations of the Transferee Company on the same terms and conditions as were applicable to the Transferor Company, and it shall not be necessary to obtain the consent of any Person who is a party to contract or arrangement by virtue of which such liabilities have arisen in order to give effect to the provisions of this Clause 21.
- 21.2.5 the vesting of the entire undertaking of the Transferor Company, as aforesaid, shall be subject to the Encumbrances, if any, over or in respect of any of the assets or any part thereof, provided however that such Encumbrances shall be confined only to the relevant assets of Transferor Company or part thereof on or over which they are subsisting on and vesting of such assets in Transferee Company and no such Encumbrances shall extend over or apply to any other asset(s) of Transferee Company. Any reference in any security documents or arrangements (to which Transferor Company is a party) related to any assets of Transferor Company shall be so construed to the end and intent that such security shall not extend, nor be deemed to extend, to any of the other asset(s) of Transferee Company. Similarly, Transferee Company shall not be required to create any additional security over assets vested under this Scheme for any loans, debentures, deposits or other financial assistance already availed of /to be availed of by it, and the Encumbrances in respect of such indebtedness of Transferee Company shall not extend or be deemed to extend or apply to the assets so vested.
- 21.2.6 it is hereby clarified that in case of any refunds, benefits, incentives, grants, subsidies, etc., the Transferor Company, shall, if so required by the Transferee Company, issue notices in such form as the Transferee Company may deem fit and proper stating that pursuant to the Tribunal having sanctioned this Scheme under Sections 230 to 232 of the Act, the relevant refund, benefit, incentive, grant, subsidies, be paid or made good or held on account of the Transferee Company, as the person entitled thereto, to the end and intent that the right of the Transferor Company, to recover or realise the same, stands transferred to the Transferee Company and that appropriate entries should be passed in their respective books to record the aforesaid changes.

- 21.2.7 On and from the Effective Date and till such time that the name of the bank accounts of the Transferor Company has been replaced with that of the Transferee Company, the Transferee Company shall be entitled to maintain and operate the bank accounts of the Transferor Company in the name of the Transferor Company and for such time as may be determined to be necessary by the Transferee Company. All cheques and other negotiable instruments, payment orders received or presented for encashment which are in the name of the Transferor Company after the Effective Date shall be accepted by the bankers of the Transferee Company and credited to the account of the Transferee Company, if presented by the Transferee Company.
- 21.2.8 without prejudice to the foregoing provisions of Clause 21.2, the Transferor Company, and the Transferee Company shall be entitled to apply to the Appropriate Authorities as are necessary under any law for such consents, approvals and sanctions which the Transferee Company may require and execute any and all instruments or documents and do all the acts and deeds as may be required, including filing of necessary particulars and/ or modification(s) of charge, with the concerned RoC or filing of necessary applications, notices, intimations or letters with any authority or Person, to give effect to the above provisions.

24. EMPLOYEES

- 24.1 Upon this Scheme coming into effect and with effect from the Effective Date, the Transferee Company undertakes to engage all the employees of the Transferor Company on the terms and conditions not less favourable than those on which they are engaged by the Transferor Company without any interruption of service as a result of the amalgamation of the Transferor Company with the Transferee Company. The Transferee Company also agrees that the services of all such employees with the Transferor Company prior to the amalgamation (trusts beneficial interest also to be transferred) of the Transferor Company with the Transferee Company shall be taken into account for the purposes of all existing benefits to which the said employees may be eligible, including for the purpose of payment of any retrenchment compensation, provident fund, gratuity and other retiral/ terminal benefits.
- 24.2 The accumulated balances, if any, standing to the credit of the aforesaid employees in the existing provident fund, gratuity fund and superannuation fund of which they are members, as the case may be, will be transferred respectively to such provident fund, gratuity fund and superannuation funds nominated by the Transferee Company and/ or such new provident fund, gratuity fund and superannuation fund to be established in accordance with Applicable Law and caused to be recognized by the Appropriate Authorities, by the Transferee Company.

25. LEGAL PROCEEDINGS

If any suit, cause of actions, appeal or other legal, quasi-judicial, arbitral or other administrative proceedings of whatever nature (hereinafter called the "Proceedings") by or against the Transferor Company be pending on the Effective Date, the same shall not abate, be discontinued or be in any way prejudicially affected by reason of the amalgamation or of anything contained in this Scheme, but the Proceedings may be continued, prosecuted and enforced by or against the Transferee Company in the same manner and to the same extent as it would or might have been continued, prosecuted and enforced by or against the Transferor Company as if this Scheme had not been made. On and from the Effective Date, the Transferee Company may initiate any legal proceeding for and on behalf of the Transferor Company.

26. TAX CREDITS

- 26.1 This Part IV of the Scheme has been drawn up to comply with the conditions relating to "Amalgamation" as specified in Section 2(1B) and other relevant provisions of the Income Tax Act, 1961. If any terms or provisions of the Scheme are found or interpreted to be inconsistent with the provisions of the said section and other related

provisions at a later date including that resulting from a retrospective amendment of law or for any other reason whatsoever till the time the Scheme becomes effective, the provisions of the said section and other related provisions of the Income Tax Act, 1961 shall prevail and the Scheme shall stand modified, unless the Board of Directors decide otherwise, to the extent required to comply with Section 2(1B) and other relevant provisions of the Income Tax Act, 1961.

- 26.2 All taxes and duties including cess and surcharge, if any (including but not limited to income tax, tax deducted at source, tax collected at source, sales tax, excise duty, customs duty, goods and services tax, professional tax, entry tax, local body tax, etc.) paid or discharged by the Transferor Company in respect of the operations and/or the profits of the business of the Transferor Company before the Appointed Date whether by way of direct payment, deduction at source, advance tax or otherwise howsoever shall be deemed to be the corresponding item paid by the Transferee Company, and shall, in all proceedings, be dealt with accordingly.
- 26.3 All the profits or income, taxes (including advance tax, tax deducted at source, tax collected at source and minimum alternate tax credit) or any costs, charges, expenditure accruing or arising to the Transferor Company or expenditure or losses arising or incurred or suffered by the Transferor Company shall for all purposes be treated and deemed to be accrued from the Appointed Date as the profits or income, taxes (including tax losses, minimum alternate tax credit), costs, charges, expenditure or losses of the Transferee Company.
- 26.4 Upon the Scheme becoming effective, the Transferor Company and the Transferee Company shall have the right to revise their respective financial statements and returns along with prescribed forms, filings and annexures under the Income Tax Act, 1961, central sales tax, goods and services tax act, and all other applicable tax laws, and to claim refunds and or credit for taxes paid (including minimum alternate tax, tax deducted at source, tax collected at source, wealth tax, etc.) and for matters incidental thereto, if required, to give effect to the provisions of the Scheme.
- 26.5 All tax assessment proceedings and appeals of whatsoever nature by or against the Transferor Company pending and/or arising at the Appointed Date shall be continued and/or enforced until the Effective Date by the Transferor Company. As and from the Effective Date, the tax proceedings shall be continued and enforced by/or against the Transferee Company in the same manner and to the same extent as would or might have been continued and enforced by/or against the Transferor Company. Further, the afore mentioned proceedings shall not abate or be discontinued nor be in anyway prejudicially affected by reason of the amalgamation of the Transferor Company with the Transferee Company or anything contained in the Scheme.
- 26.6 Any tax liabilities under the Income Tax Act, 1961, goods and services tax act or other Applicable Laws dealing with taxes, duties or levies of the Transferor Company to the extent not provided for or covered by tax provision in the accounts made as on the date immediately preceding the Appointed Date shall be transferred to the Transferee Company.
- 26.7 Any refund, under the Income Tax Act, 1961, goods and services tax act, or other Applicable Laws dealing with taxes, duties or levies due to the Transferor Company consequent to the assessment made on the Transferor Company (including any refund for which no credit is taken in the accounts of the Transferor Company) as on the date immediately preceding the Appointed Date shall also belong to and be received by the Transferee Company upon this Scheme becoming effective.
- 26.8 The tax and duty payments including cess and surcharge, if any (including without limitation income tax, goods and services tax act, etc. whether by way of tax deducted at source, tax collected at source, advance tax or otherwise howsoever, by the Transferor Company after the Appointed Date, shall be deemed to be paid by the Transferee

Company and shall, in all proceedings, be dealt with accordingly. Further, any tax deducted at source and tax collected at source by the Transferor Company/the Transferee Company on transactions with the Transferee Company/Transferor Company, if any (from Appointed Date) shall be deemed to be advance tax paid by the Transferee Company and shall, in all proceedings, be dealt with accordingly.

- 26.9 Upon the Scheme coming into effect, any obligation for deduction of tax at source on any payment made by or to be made by the Transferor Company shall be made or deemed to have been made and duly complied with by the Transferee Company.
- 26.10 Without prejudice to the generality of the foregoing, all benefits, incentives, losses (including but not limited to book losses, tax losses), book unabsorbed depreciation, tax unabsorbed depreciation, credits (including, without limitation income tax, minimum alternate tax, tax deducted at source, tax collected at source, applicable state value added tax, goods and services tax act, customs duty drawback, etc.) to which any of the Transferor Company is entitled to in terms of Applicable Laws, shall be available to and vest in the Transferee Company, upon this Scheme coming into effect.
- 26.11 Upon coming into effect of this Scheme, all tax compliances under any tax laws by the Transferor Company on or after the Appointed Date shall be deemed to be made by the Transferee Company.

27. CONSIDERATION

- 27.1 Upon Part IV of the Scheme coming into effect and in consideration of and subject to the provisions of this Scheme, AmCL (the Transferee Company) shall, without any further application, act, deed, consent, instrument, issue and allot, to each shareholder of AGLIL (the Transferor Company) whose name is recorded in the register of members of AGLIL (the Transferor Company) on the Record Date, in the following proportion:
- 283 (Two Hundred and Eighty Three) fully paid up optionally convertible preference shares of INR 100 (Indian Rupees Hundred) each at face value of INR 10 (Indian Rupees Ten) each and a premium of INR 90 (Indian Rupees Ninety) each of AmCL (the Transferee Company) as per terms and conditions as listed in Annexure 2 to the Scheme shall be issued and allotted, credited as fully paid up, for every 444 (Four Hundred and Forty Four) equity shares of INR 10 (Indian Rupees Ten) each held in AGLIL (the Transferor Company).
- No shares shall be issued by AmCL (the Transferee Company) in respect of the shares held by AmCL (the Transferee Company) or any of its subsidiaries in AGLIL (the Transferor Company).
- The share exchange ratio has been arrived at based on valuation reports by CA Sejal Agrawal, Registered Valuer (IBBI/RV/06/2020/13106).
- 27.2 Upon Part IV of this Scheme becoming effective, and in consideration of AGLIL (the Transferor Company) amalgamating into AmCL (the Transferee Company), the equity shares held by AmCL (the Transferee Company) on the Effective Date (held either directly or through its nominees) in AGLIL (the Transferor Company) shall be cancelled pursuant to this Scheme without any further application, act or deed. It is clarified that no new shares shall be issued or any payment shall be made in cash whatsoever by AmCL (the Transferee Company) in lieu of such shares of AGLIL (the Transferor Company).
- 27.3 The preference shares of AmCL (the Transferee Company) to be issued and allotted as provided in Clause 27.1 above shall be subject to the provisions of the memorandum of association and articles of association of AmCL (the Transferee Company), as the case may be, and carry preferential right in respect of both dividend and repayment of capital in respect with equity shares of AmCL (the Transferee Company).
- 27.4 No fractional shares shall be issued by the Amalgamated Company and the fractional share entitlements, if any,

arising out of such allotment, shall be rounded off to the nearest complete share.

- 27.5 The issue and allotment of shares as provided in Clause 27.1, is an integral part hereof and shall be deemed to have been carried out under the orders passed by the Tribunal without requiring any further act on the part of AmCL (the Transferee Company) or AGLIL (the Transferor Company) or their shareholders and as if the procedure laid down under the Act and such other Applicable Laws as may be applicable were duly complied with. It is clarified that the approval of the members and creditors of AmCL (the Transferee Company) and/ or AGLIL (the Transferor Company) to this Scheme, shall be deemed to be their consent/ approval for the issue and allotment of shares, as the case may be, pursuant to this Clause 27.1.
- 27.6 The shares issued by AmCL (the Transferee Company) pursuant to Clause 27.1 shall be in dematerialized form.
- 27.7 In the event that the Companies restructure their share capital by way of share split / consolidation/ issue of bonus shares during the pendency of the Scheme, the number of shares to be issued in consideration as per Clause 27.1 above, shall be adjusted accordingly to take into account the effect of any such corporate actions.
- 27.8 AmCL (the Transferee Company) shall enter into such arrangements and give such confirmations and/ or undertakings as may be necessary in accordance with Applicable Law for complying with the formalities of the Stock Exchanges.
- 27.9 The Shares to be issued as provided in Clause 27.1 in respect of such of the equity shares of AGLIL (the Transferor Company) which are held in abeyance under Section 126 of the Companies Act 2013 shall, pending allotment or settlement of dispute by order of Court or otherwise, also be kept in abeyance by AmCL (the Transferee Company). In the event of any dispute in relation to the ownership of any equity shares of AGLIL (the Transferor Company), shares shall be issued and allotted in respect of such shares (pursuant to this Clause 27.1), which shares shall be held in trust for and on behalf of the holder of the equity shares of AGLIL (the Transferor Company) by AmCL (the Transferee Company), pending settlement of dispute by order of Court or otherwise.
- 27.10 In the event of there being any pending share transfers, whether lodged or outstanding, of any shareholder of AGLIL (the Transferor Company), the Board of Directors of AGLIL (the Transferor Company) shall be empowered in appropriate cases, prior to or even subsequent to the Record Date, to effectuate such a transfer in AGLIL (the Transferor Company) as if such changes in registered holder were operative as on the Record Date, in order to remove any difficulties arising in relation to the shares issued by AmCL (the Transferee Company) after the effectiveness of the Scheme under this Clause 27.1. The Board of Directors of AGLIL (the Transferor Company) shall be empowered to remove such difficulties as may arise in the course of implementation of this Scheme and registration of new members in AmCL (the Transferee Company) on account of difficulties faced in the transaction period.”
- 28. ACCOUNTING TREATMENT BY THE TRANSFEE COMPANY IN RESPECT OF ASSETS AND LIABILITIES**
- 28.1 The Transferee Company shall account for the Scheme in its books/ financial statements upon receipt of all relevant/ requisite approvals for the Scheme, in compliance with applicable Indian Accounting Standard (“Ind-AS 103”) notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Rule 7 of the Companies (Accounts) Rules, 2014, as amended from time to time including as provided herein below:
- 28.1.1 All the assets (including intangible assets and goodwill) and liabilities and reserves (if any) of the Transferor Company transferred to and vested in the Transferee Company pursuant to this Scheme shall be recorded in the books of accounts of the Transferee Company at the carrying value of assets, liabilities and reserves pertaining to the Transferor Company as appearing in the financial statements of the Transferor Company as at the appointed date;

- 28.1.2 The Transferee Company shall credit to the Share Capital account in its books of account, the aggregate face value of the optionally convertible preference shares issued and allotted under Clause 27.1 above to the equity shareholders of the Transferor Company.
- 28.1.3 Upon coming into effect of this Scheme, to the extent that there are inter-company loans, advances, deposits balances or other obligations amongst the Transferor Company and the Transferee Company, the obligations in respect thereof shall come to an end and corresponding effect shall be given in the books of accounts and records of the Transferee Company for the reduction of any assets or liabilities as the case may be.
- 28.1.4 Expenses pertaining to the Scheme and for the amalgamation shall be adjusted to the reserves and surplus account of the Transferee Company.
- 28.1.5 The difference being the Net Assets transferred to Transferee Company pursuant to Clause 28.1.1 over the face value of the shares allotted as per Clause 28.1.2 above after giving effect to inter-company balances as per Clause 28.1.3, shall be credited to the Capital Reserves of the Transferee Company.
- 28.1.6 In case there is any difference in the accounting policies adopted by the Transferor Company and the Transferee Company, the accounting policies followed by the Transferee Company will prevail and the difference will be quantified and adjusted in the Reserves to ensure that the financial statements of the Transferee Company reflect the financial position on the basis of consistent accounting policy.
- 28.1.7 In addition, the Transferee Company shall pass such accounting entries, as may be necessary, in connection with this Scheme, to comply with any of the applicable Indian Accounting Standards including Indian Accounting Standard 103 (“Ind AS 103”).

For the purpose of this Clause 28, “Net Assets” would mean difference between the carrying value of assets and liabilities.

30. COMBINATION OF AUTHORISED CAPITAL

- 30.1 Upon Part IV of the Scheme becoming effective, the authorised share capital of the Transferee Company shall stand increased without any further act, instrument or deed on the part of Transferee Company by the authorised share capital of the Transferor Company amounting to INR 10,00,00,000 (Indian Rupees Ten Crores) and the Memorandum of Association and Articles of Association of the Transferee Company (relating to the authorized share capital) shall, without any further act, instrument or deed, be and stand altered, modified and amended, and the consent of the shareholders of the Transferee Company to the Scheme shall be deemed to be sufficient for the purposes of effecting this amendment, and no further resolution(s) under the applicable provisions of the Act would be required to be separately passed, as the case may be and for this purpose the stamp duty and fees paid on the authorized capital of the Transferor Company shall be utilized and applied to the increased authorized share capital of the Transferor Company and there would be no requirement for any further payment of stamp duty and/or fee by the Transferor Company for increase in the authorised share capital to that extent.
- 30.2 Clause V of the memorandum of association of the Transferee Company shall without any act, instrument or deed be and stand altered, modified and amended pursuant to Sections 13, 14, 61, 64, and other applicable provisions of the Act, and be replaced by the following clause:

E. RATIONALE FOR THIS SCHEME

AGIL, the Demerged Company 4 / Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

DEMERGER

AGIL, the Resulting Company 1 has identified few of its suppliers, i.e., AVPL, the Demerged Company 1, ICIPL, the Demerged Company 2 and CCIL, the Demerged Company 3, that manufacture tiles for AGIL, the Resulting Company 1 on job work basis as well as manufacture tiles under their own brand names.

These suppliers are in effect selling majority of their own production to AGIL, the Resulting Company 1. In order to integrate its manufacturing process and to inorganically expand its production lines, it is desirable to take over the tiles manufacturing businesses of these suppliers. Since these suppliers have separate brands names and related Intellectual Property such as brands, trademarks, registrations, etc. attached to these names, it is considered appropriate to demerge only the tiles manufacturing businesses into wholly owned subsidiaries of AGIL, the Resulting Company 1 of similar names. To avoid effect on the financials due to payment of huge consideration in cash or by way of debt, the consideration is proposed to be paid by way of issue of shares by AGIL, the Resulting Company 1 which will be compliant with the definition of 'demerger' as defined under section 2(19AA) r.w.s. 2(41A) of the Income Tax Act, 1961.

1127

Through the aforesaid demergers of the Affil Tiles Manufacturing Undertaking from AVPL, the Demerged Company 1, the Ivanta Tiles Manufacturing Undertaking from ICIPL, the Demerged Company 2 and the Crystal Tiles Manufacturing Undertaking from CCIL, the Demerged Company 3, the stakeholders of AVPL, the Demerged Company 1, ICIPL, the Demerged Company 2 and CCIL, the Demerged Company 3 will get access to a diverse business structure since AGIL, the Resulting Company 1 has presence in multiple industries leading to risk diversification in the hands of the stakeholders and also leading to stable valuation by the market. The stakeholders will also get safeguarded from the day-to-day hurdles specific to the tiles manufacturing business by diversifying their risk.

Further, the businesses of AVPL, the Demerged Company 1, ICIPL, the Demerged Company 2 and CCIL, the Demerged Company 3 will get an access to the huge market reach and marketing network of AGIL, the Resulting Company 1. These businesses will thus gain a chance of evolving into legacy businesses under the professional management of AGIL, the Resulting Company 1 due to their increased technical knowhow, diverse expertise and growth vision. The expansion opportunity from the access to infrastructure of AGIL, the Resulting Company 1 seems unparalleled.

Multiple entries of large organised players into the tiles industry are expected to drive the entire industry into a highly efficient space where large players would command premium on account of their competitive edge and managing a tiles manufacturing business as an unorganised player may become more and more challenging. Consolidation of the tiles manufacturing businesses under the banner of AGIL, the Resulting Company 1 would not only safeguard the businesses but also provide an edge to competitively grow in the ever-changing business dynamic.

The opportunity of growth in the businesses and risk diversification for the stakeholders of AVPL, the Demerged Company 1, ICIPL, the Demerged Company 2 and CCIL, the Demerged Company 3 and the inorganic expansion and synergistic opportunity for AGIL, the Resulting Company 1 due to better agility and higher control over its manufacturing process, more production lines and working capital requirements would provide the Demerged

1128

Companies and AGIL, the Resulting Company 1 with their respective advantages while making the combined businesses of AGIL, the Resulting Company 1 and the Demerged Companies more sustainable and competitive in the long run.

SLUMP SALE and MERGER

The tiles business and marbles & quartz business have different industry specific risks, business cycles and operate *inter alia* under different market dynamics, and thus can attract different types of investors as well as management teams and follow different and independent strategies, even as they all have a significant potential for growth and profitability. Given the diversified business portfolio, it has become imperative for AGIL, the Demerged Company 4 to reorient and reorganize itself in a manner that allows it to impart greater focus, management alignment and growth for each of its business lines. AGIL, the Demerged Company 4 is also desirous of enhancing its operational efficiency, flexibility in attracting capital and management talent through aligned risk return matrices.

The Scheme proposes to combine the interests of AVPL (the Demerged Company 1), ICIPL (the Demerged Company 2) and CCIL (the Demerged Company 3) into AGIL (the Resulting Company 1) and its subsidiaries by way of demerger of the Affil Tiles Manufacturing Undertaking from AVPL (the Demerged Company 1) into ACL (the Resulting Company 2), the Ivanta Tiles Manufacturing Undertaking from ICIPL (the Demerged Company 2) into ICL (the Resulting Company 3) and the Crystal Tiles Manufacturing Undertaking from CCIL (the Demerged Company 3) into CVL (the Resulting Company 4) to expand the tiles business of AGIL (the Resulting Company 1). Further, to reorganise and segregate the interests of AGIL (the Demerged Company 4) in different business lines, slump sale of the Marbles & Quartz Undertaking and merger of AGLIL (the Transferor Company) into AmCL (the Resulting Company 5 / the Transferee Company) are proposed.

The proposed restructuring pursuant to this Scheme is expected, *inter alia*, to result in following benefits:

- (i) combining and bundling of Affil Tiles Manufacturing Undertaking of AVPL, the Demerged Company 1, Ivanta Tiles Manufacturing Undertaking of ICIPL, the Demerged Company 2 and Crystal Tiles Manufacturing Undertaking of CCIL, the Demerged Company 3 into ACL, the Resulting Company 2,

1129

ICL, the Resulting Company 3 and CVL, the Resulting Company 4 which are, inter alia, wholly owned subsidiaries of AGIL, the Resulting Company 1;

(ii) better control on utilisation of production capacity due to integration of the manufacturing process;

(iii) optimisation of working capital due to consolidation of businesses;

(iv) inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;

(v) economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;

(vi) segregation and unbundling of the Marbles and Quartz Undertaking of AGIL, the Demerged Company 4 into AmCL, the Resulting Company 5;

(vii) emergence of AmCL, the Resulting Company 5 as a Marbles & Quartz focussed company, attracting the right investors and providing better flexibility in accessing capital, focused strategy and specialisation for sustained growth;

(viii) segregation of the business of manufacturing of building construction related materials and adhesive solutions to enable better focus and growth orientation on the developing new business line;

(ix) enhancing attractiveness of the entities for management teams by aligning risk return matrices and direct correlation of the rewards to their efforts;

(x) allowing the respective managements of AGIL, the Resulting Company 1 and AmCL, the Resulting Company 5 to pursue independent growth strategies in different regional and overseas markets;

(xi) achieve cost optimization and specialisation for sustained growth; and

(xii) enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries.

The proposed restructuring is in the interest of the

1130

shareholders, creditors, employees and other stakeholders in each of the companies.

PART III

SLUMP SALE, TRANSFER AND VESTING OF THE MARBLES AND QUARTZ UNDERTAKING FROM AGIL (THE DEMERGED COMPANY 4) INTO AMCL (THE RESULTING COMPANY 5) AND THE CONSIDERATION THEREOF

14. SLUMP SALE, TRANSFER AND VESTING OF THE MARBLES & QUARTZ UNDERTAKING

14.1 Upon the Scheme becoming effective and with effect from the opening business hours of the Appointed Date, and subject to the provisions of this Scheme and pursuant to Sections 230 to 232, the Marbles & Quartz Undertaking along with all their assets, liabilities, contracts, arrangements, employees, Permits, licences, records, approvals, etc. shall, without any further act, instrument or deed, be transferred from the Demerged Company 4 and to the Resulting Company 5, as a going concern on Slump Sale basis so as to become as and from the Appointed Date, the assets, liabilities, contracts, arrangements, employees, Permits, licences, records, approvals, etc. of the Resulting Company 5 by virtue of, and in the manner provided in this Scheme.

14.2 In respect of such of the assets and properties forming part of the Marbles & Quartz Undertaking as are movable in nature or are otherwise capable of transfer by delivery or possession, or by endorsement and/ or delivery, the same shall stand transferred by the Demerged Company 4 upon coming into effect of this Scheme and shall, ipso facto and without any other order to this effect, become the assets and properties of the Resulting Company 5.

14.3 Subject to Clause 14.4 below, with respect to the assets of the Marbles & Quartz Undertaking, other than those referred to in Clause 14.2 above, including all rights, title and interests in the agreements (including agreements for lease or license of the properties), investments in shares, mutual funds, bonds and any other securities, sundry debtors, claims from customers or otherwise, outstanding loans and advances, if any, recoverable in cash or in kind or for value to be received, bank balances and deposits, if any, with Government, semi-Government, local and other authorities and bodies, customers and other persons, whether or not the same is held in the name of the Demerged Company 4, shall, without any further act, instrument or deed, be transferred to and vested in and/ or be deemed to be transferred to and vested in

1176

the Resulting Company 5, with effect from the Appointed Date by operation of law as transmission or as the case may be in favour of Resulting Company 5. With regard to the licenses of the properties, the Resulting Company 5 will enter into novation agreements, if it is so required.

14.4 Without prejudice to the aforesaid, the Marbles & Quartz Undertaking, including all immovable property, whether or not included in the books of the Demerged Company 4, whether freehold or leasehold (including but not limited to land, buildings, sites, tenancy rights related thereto, and immovable properties and any other document of title, rights, interest and easements in relation thereto) of the Marbles & Quartz Undertaking shall stand transferred to and be vested in the Resulting Company 5, without any act or deed to be done or executed by the Demerged Company 4 and/ or the Resulting Company 5. This would include all immovable properties of the undertaking and include part of the following land parcel admeasuring 49661 Sq. Mtr. situated at Survey No. 455 and 456(Old Survey No. 147A and 162), Village - Dalpur, Taluka - Prantij, District - Sabarkantha, PIN Code - 383120, Gujarat, India and the building constructed thereon as described in detail in Annexure 1 to the Scheme held by Marbles & Quartz Undertaking.

14.5 The Demerged Company 4 shall, at its sole discretion but without being obliged, give notice in such form as it may deem fit and proper, to such Persons, as the case may be, that the said debt, receivable, bill, credit, loan, advance or deposit stands transferred to and vested in the Resulting Company 5 and that appropriate modification should be made in their respective books/ records to reflect the aforesaid changes.

14.6 Upon this Scheme becoming effective, all debts, liabilities, loans, obligations and duties of the Demerged Company 4 as on the Appointed Date and relating to the Marbles & Quartz Undertaking shall, without any further act or deed, be and stand transferred to and be deemed to be transferred to the Resulting Company 5 to the extent that they are outstanding as on the Appointed Date and the Resulting Company 5 shall meet, discharge and satisfy the same. The debts, liabilities, loans, obligations and duties of the Demerged Company 4 as on the Appointed Date and relating to the Marbles & Quartz Undertaking shall include:

1177

14.6.1 the debts, liabilities obligations incurred and duties of any kind, nature or description (including contingent liabilities) which arise out of the activities or operations of the Marbles & Quartz Undertaking;

14.6.2 the specific loans or borrowings (including debentures bonds, notes and other debt securities raised, incurred and utilized solely for the activities or operations of the Marbles & Quartz Undertaking); and

14.6.3 in cases other than those referred to in Clauses 14.6.1 or 14.6.2 above, so much of the amounts of general or multipurpose borrowings, if any, of the Demerged Company 4, as stand in the same proportion which the value of the assets transferred pursuant to the demerger of the Marbles & Quartz Undertaking bear to the total value of the assets of the Demerged Company 4 immediately prior to the Appointed Date.

However, the tax liabilities and tax demands or refunds received or to be received by the Demerged Company 4 for a period prior to the Appointed Date in relation to the Demerged Company 4 shall not be transferred as part of the Marbles & Quartz Undertaking to the Resulting Company 5.

14.7 Upon effectiveness of the Scheme, all debts, liabilities, loans, obligations and duties of the Demerged Company 4 as on the Appointed Date and relating to the Marbles & Quartz Undertaking shall, without any further act or deed, be and stand transferred to and be deemed to be transferred to the Resulting Company 5 to the extent that they are outstanding as on the Appointed Date and the Resulting Company 5 shall meet, discharge and satisfy the same.

14.8 In so far as any Encumbrance in respect of Marbles & Quartz Undertaking is concerned, such Encumbrance shall, without any further act, instrument or deed being required to be modified and, if so agreed, shall be extended to and shall operate over the assets of the Resulting Company 5. For the avoidance of doubt, it is hereby clarified that in so far as the assets comprising the Remaining Business are concerned, the Encumbrance, if any, over such assets relating to the Marbles & Quartz Undertaking, without any further act, instrument or deed being required, be released and discharged from the obligations and Encumbrances relating to the same. Further, in so far as the assets comprised in the Marbles & Quartz

1178

Undertaking are concerned, the Encumbrance over such assets relating to any loans, borrowings or other debts which are not transferred to the Resulting Company 5 pursuant to this Scheme and which shall continue with the Demerged Company 4, shall without any further act or deed be released from such Encumbrance and shall no longer be available as security in relation to such liabilities.

14.9 Taxes, if any, paid or payable by the Demerged Company 4 after the Appointed Date and specifically pertaining to the Marbles & Quartz Undertaking shall be treated as paid or payable by the Resulting Company 5 and the Resulting Company 5 shall be entitled to claim the credit, refund or adjustment for the same as may be applicable.

14.10 If the Demerged Company 4 is entitled to any unutilized credits (including balances or advances), benefits under the incentive schemes and policies including tax holiday or concessions relating to the Marbles & Quartz Undertaking under any Tax Laws or Applicable Laws, the Resulting Company 5 shall be entitled as an integral part of the Scheme to claim such benefit or incentives or unutilised credits as the case may be without any specific approval or permission. If the Marbles & Quartz Undertaking of the Demerged Company 4 is entitled to any carry forward of losses under any Tax Laws or Applicable Laws, the Resulting Company 5 shall be entitled to carry forward and utilise those losses for eight assessment years starting from the assessment year in which the appointed date of the scheme falls.

14.11 Upon the Scheme becoming effective, the Demerged Company 4 and the Resulting Company 5 shall have the right to revise their respective financial statements and returns along with prescribed forms, filings and annexures under the Tax Laws and to claim refunds and/or credit for Taxes paid and for matters incidental thereto, if required, to give effect to the provisions of the Scheme.

14.12 Subject to clause 14.2 and any other provisions of the Scheme, any refunds, benefits, incentives, grants, subsidies in relation to or in connection with the Marbles & Quartz Undertaking, the Demerged Company 4 shall, if so required by the Resulting Company 5, issue notices in such form as the Resulting Company 5 may deem fit and proper stating that pursuant to the Tribunal having sanctioned this Scheme, the relevant refund, benefit, incentive, grant, subsidies, be paid or made good or held on account of the Resulting Company 5,

1179

as the person entitled thereto, to the end and intent that the right of the Demerged Company 4 to recover or realise the same, stands transferred to the Resulting Company 5 and that appropriate entries should be passed in their respective books to record the aforesaid changes.

14.13 On and from the Effective Date and till such time that the name of the bank accounts of the Demerged Company 4, in relation to or in connection with the Marbles & Quartz Undertaking, have been replaced with that of the Resulting Company 5, the Resulting Company 5 shall be entitled to maintain and operate the bank accounts of the Demerged Company 4, in the name of the Demerged Company 4 for such time as may be determined to be necessary by the Resulting Company 5. All cheques and other negotiable instruments, payment orders received or presented for encashment which are in the name of the Demerged Company 4, in relation to or in connection with the Marbles & Quartz Undertaking, after the Effective Date shall be accepted by the bankers of the Resulting Company 5 and credited to the account of the Resulting Company 5, if presented by the Resulting Company 5.

14.14 Without prejudice to the provisions of the foregoing sub clauses of this Clause 12, and upon the effectiveness of this Scheme, the Demerged Company 4 and the Resulting Company 5 shall be entitled to apply to the Appropriate Authorities as are necessary under any law for such consents, approvals and sanctions which the Resulting Company 5 may require and execute any and all instruments or documents and do all the acts and deeds as may be required, including filing of necessary particulars and/ or modification(s) of charge, with the concerned RoC or filing of necessary applications, notices, intimations or letters with any authority or Person to give effect to the Scheme.

15. PERMITS

15.1 With effect from the Appointed Date, Permits relating to the Marbles & Quartz Undertaking shall be transferred to and vested in the Resulting Company 5 and the concerned licensor and grantors of such Permits shall endorse where necessary, and record the Resulting Company 5 on such Permits so as to empower and facilitate the approval and vesting of the Marbles & Quartz Undertaking in the Resulting Company 5 and continuation of

1180

operations pertaining to the Marbles & Quartz Undertaking in the Resulting Company 5 without any hindrance, and shall stand transferred to and vested in and shall be deemed to be transferred to and vested in the Resulting Company 5 without any further act or deed and shall be appropriately mutated by the Appropriate Authorities concerned therewith in favour of the Resulting Company 5 as if the same were originally given by, issued to or executed in favour of the Resulting Company 5 and the Resulting Company 5 shall be bound by the terms thereof, the obligations and duties thereunder and the rights and benefits under the same shall be available to the Resulting Company 5.

16.2 The benefit of all Permits pertaining to the Marbles & Quartz Undertaking shall without any other order to this effect, transfer and vest into and become available to the Resulting Company 5 pursuant to the sanction of this Scheme.

16. CONTRACTS

16.1 Subject to the other provisions of this Scheme, all contracts, deeds, bonds, agreements, arrangements and other instruments in relation to the Marbles & Quartz Undertaking, to which the Demerged Company 4 is a party and which is subsisting or having effect on or immediately before the Appointed Date shall remain in full force and effect against or in favour of the Resulting Company 5 and shall be binding on and be enforceable by and against the Resulting Company 5 as fully and effectually as if the Resulting Company 5 had at all material times been a party or beneficiary or obligee thereto. The Resulting Company 5 will, if required, enter into a novation agreement in relation to such contracts, deeds, bonds, agreements, arrangements and other instruments as stated above and, if required, cause such contracts, deeds, bonds, agreements, arrangements and other instruments as stated above to be formally taken on record/ recognised by the Appropriate Authorities.

16.2 Without prejudice to the other provisions of this Scheme and notwithstanding the fact that vesting of the Marbles & Quartz Undertaking occurs by virtue of this Scheme, the Resulting Company 5 may, at any time after the coming into effect of this Scheme, in accordance with the provisions hereof, if so required under any Applicable Law or otherwise, take such actions and execute such deeds (including deeds of adherence), confirmations, other writings or tripartite arrangements with any party to any

1181

contract or arrangement to which the Demerged Company 4 is a party or any writings as may be necessary in order to give effect to the provisions of this Scheme. With effect from the Appointed Date, the Resulting Company 5 shall under the provisions of this Scheme, be deemed to be authorized to execute any such writings on behalf of the Demerged Company 4 to carry out or perform all such formalities or compliances referred to above on the part of the Demerged Company 4.

16.3 On and from the Effective Date, and thereafter, the Resulting Company 5 shall be entitled to enforce all pending contracts and transactions and to accept stock returns and issue credit notes in respect of the Demerged Company 4, in relation to or in connection with the Marbles & Quartz Undertaking, in the name of the Resulting Company 5 in so far as may be necessary until the transfer of rights and obligations of the Marbles & Quartz Undertaking to the Resulting Company 5 under this Scheme have been given effect to under such contracts and transactions.

17. EMPLOYEES

17.1 With effect from the Effective Date, the Resulting Company 5 undertakes to engage, without any interruption in service, all employees of the Demerged Company 4, engaged in or in relation to the Marbles & Quartz Undertaking, on the terms and conditions not less favourable than those on which they are engaged by the Demerged Company 4. The Resulting Company 5 undertakes to continue to abide by any agreement/ settlement or arrangement, if any, entered into or deemed to have been entered into by the Demerged Company 4 with any of the aforesaid employees or union representing them. The Resulting Company 5 agrees that the services of all such employees with the Demerged Company 4 prior to the transfer shall be taken into account for the purposes of all existing benefits to which the said employees may be eligible, including for the purpose of payment of any retrenchment compensation, gratuity and other retiral/ terminal benefits. The decision on whether or not an employee is part of the Marbles & Quartz Undertaking, be decided by the Demerged Company 4, and shall be final and binding on all concerned.

17.2 The accumulated balances, if any, standing to the credit of the aforesaid employees in the existing provident fund, gratuity fund and superannuation fund, including and not limited to Asian Group

1182

Gratuity Employee Trust Fund, of which they are members, as the case may be, will be transferred respectively to such provident fund, gratuity fund and superannuation funds nominated by the Resulting Company 5 and/ or such new provident fund, gratuity fund and superannuation fund to be established in accordance with Applicable Law and caused to be recognized by the Appropriate Authorities, by the Resulting Company 5. Pending the transfer as aforesaid, the provident fund, gratuity fund and superannuation fund dues of the said employees would be continued to be deposited in the existing provident fund, gratuity fund and superannuation fund respectively of the Demerged Company 4.

17.3 In so far as provident fund is concerned, the balances standing to the credit of the said employees in the existing provident fund of the Demerged Company 4 shall be retained in such provident fund and such provident fund shall be continued for the benefit of: (a) the said employees who are transferred to the Resulting Company 5, as aforesaid, and (b) other employees of the Demerged Company 4. In relation to said employees being transferred, the Resulting Company 5 shall stand substituted for the Demerged Company 4, for all purposes whatsoever, including relating to the obligation to make contributions to the said fund in accordance with the provisions thereof. The rules of such existing provident fund shall stand amended accordingly. The employees of the Demerged Company 4 engaged in or in relation to the Marbles & Quartz Undertaking who are transferred to the Resulting Company 5, as aforesaid, shall be deemed to constitute a separate class of employees of the Resulting Company 5 for the purpose of compliance with the provisions of the Employees Provident Fund and Miscellaneous Provisions Act, 1952.

18. LEGAL PROCEEDINGS

18.1 Upon the coming into effect of this Scheme, proceedings relating to the Marbles & Quartz Undertaking shall not abate or be discontinued or be in any way prejudicially affected by reason of this Scheme or by anything contained in this Scheme but shall be continued and be enforced by or against the Resulting Company 5 with effect from the Effective Date in the same manner and to the same extent as would or might have been continued and enforced by or against the Demerged Company 4.

18.2 The Resulting Company 5: (a) shall be replaced/ added as party to such proceedings relating to the Marbles & Quartz Undertaking; and

1183

(b) shall prosecute or defend such proceedings at its own cost and the liability of the Demerged Company 4 shall consequently stand nullified. For the avoidance of doubt, it is clarified that only the Resulting Company 5 shall be liable for the result of such order or judgment including any relief or positive impact/benefit or adverse impact/liability accruing from such order or judgment. It is clarified that except, as otherwise provided herein, the Demerged Company 4 shall in no event be responsible or liable in relation to any proceedings relating to the Marbles & Quartz Undertaking that stand transferred to the Resulting Company 5.

20.1.2 Difference between the book value of assets and liabilities of the Marbles & Quartz Undertaking, as on the Appointed date, transferred to the Resulting Company 5, as reduced by consideration received/ receivable by the Demerged Company 4 from the Resulting Company 5, if any, shall be debited/ credited, as the case may be, to the statement of profit and loss of the Demerged Company 4.

20.1.3 In addition, the Demerged Company 4 shall pass such accounting entries, as may be necessary, in connection with this Scheme, to comply with any of the applicable Indian Accounting Standards including Indian Accounting Standard 103 ("Ind AS 103").

20.2 Accounting treatment in the books of the Resulting Company 5

20.2.1 With effect from the Appointed Date, the Resulting Company 5 shall record all assets and liabilities of the Marbles & Quartz Undertaking transferred to it in pursuance of this Scheme at their respective book values as appearing in the books of the Demerged Company 4 as on the Appointed Date; and

20.2.2 Any inter-company transactions and balances, if any, appearing in the books of accounts of the Marbles & Quartz Undertaking and the Resulting Company 5 will stand cancelled and there shall be no further obligation/ outstanding in that behalf;

20.2.3 Difference between the book value of assets and liabilities, so recorded in the books of the Resulting Company 5, as reduced by consideration paid/ payable by the Resulting Company 5 to the Demerged Company 4, if any, shall be debited/ credited to the capital reserve account of the Resulting Company 5.

20.2.4 In addition, the Resulting Company 5 shall pass such accounting entries, as may be necessary, in connection with this Scheme, to comply with any of the applicable Indian Accounting Standards including Indian Accounting Standard 103 ("Ind AS 103").

1185

PART IV

AMALGAMATION OF AGLIL (THE TRANSFEROR COMPANY) WITH AMCL (THE TRANSFEREE COMPANY) AND THE CONSIDERATION THEREOF

21. TRANSFER OF ASSETS AND LIABILITIES

21.1 With effect from the opening business hours of Appointed Date, and subject to the provisions of this Scheme and pursuant to Section 232 of the Act and Section 2(1B) of the Income-tax Act, 1961, the Transferor Company shall stand amalgamated with the Transferee Company as a going concern and all assets, liabilities, contracts, arrangements, employees, Permits, licences, records, approvals, etc. of the Transferor Company shall, without any further act, instrument or deed, stand transferred to and vested in or be deemed to have been transferred to and vested in the Transferee Company, so as to become as and from the Appointed Date, the assets, liabilities, contracts, arrangements, employees, Permits, licences, records, approvals, etc. of the Transferee Company by virtue of, and in the manner provided in this Scheme.

21.2 Without prejudice to the generality of the above and to the extent applicable, unless otherwise stated herein, with effect from the Appointed Date:

21.2.1 with respect to the assets of the Transferor Company that are movable in nature or are otherwise capable of being transferred by manual delivery or by paying over or endorsement and/ or delivery, the same may be so transferred by the Transferor Company by operation of law without any further act or execution of an instrument with the intent of vesting such assets with the Transferee Company as on the Appointed Date.

21.2.2 subject to Clause 21.2.3 below, with respect to the assets of the Transferor Company, other than those referred to in Clause 21.2.1 above, including all rights, title and interests in the agreements (including agreements for lease or license of the properties), investments in shares, mutual funds, bonds and any other securities, sundry debtors, outstanding loans and advances, if any, recoverable in cash or in kind or for value to be received, bank balances and deposits, if any, with Government, semi-Government, local and other authorities and bodies, customers and other

1186

persons, whether or not the same is held in the name of the Transferor Company shall, without any further act, instrument or deed, be transferred to and vested in and/ or be deemed to be transferred to and vested in the Transferee Company, with effect from the Appointed Date, by operation of law as transmission or as the case may be in favour of Transferee Company. With regard to the licenses of the properties, the Transferee Company will enter into novation agreements, if it is so required.

21.2.3 without prejudice to the aforesaid, all the immovable property (including but not limited to the land, buildings, offices, factories, sites, tenancy rights related thereto, and other immovable property, including accretions and appurtenances), whether or not included in the books of the Transferor Company, whether freehold or leasehold (including but not limited to any other document of title, rights, interest and easements in relation thereto, and any shares in cooperative housing societies associated with such immovable property) shall stand transferred to and be vested in the Transferee Company, as successor to the Transferor Company, without any act or deed to be done or executed by the Transferor Company, as the case may be and/ or the Transferee Company.

21.2.4 all debts, liabilities, duties and obligations (debentures, bonds, notes or other debt securities) of the Transferor Company shall, without any further act, instrument or deed be transferred to, and vested in, and/ or deemed to have been transferred to, and vested in, the Transferee Company, so as to become on and from the Appointed Date, the debts, liabilities, duties and obligations of the Transferee Company on the same terms and conditions as were applicable to the Transferor Company, and it shall not be necessary to obtain the consent of any Person who is a party to contract or arrangement by virtue of which such liabilities have arisen in order to give effect to the provisions of this Clause 21.

21.2.5 the vesting of the entire undertaking of the Transferor Company, as aforesaid, shall be subject to the Encumbrances, if any, over or in respect of any of the assets or any part thereof, provided however that such Encumbrances shall be

1187

confined only to the relevant assets of Transferor Company or part thereof on or over which they are subsisting on and vesting of such assets in Transferee Company and no such Encumbrances shall extend over or apply to any other asset(s) of Transferee Company. Any reference in any security documents or arrangements (to which Transferor Company is a party) related to any assets of Transferor Company shall be so construed to the end and intent that such security shall not extend, nor be deemed to extend, to any of the other asset(s) of Transferee Company. Similarly, Transferee Company shall not be required to create any additional security over assets vested under this Scheme for any loans, debentures, deposits or other financial assistance already availed of /to be availed of by it, and the Encumbrances in respect of such indebtedness of Transferee Company shall not extend or be deemed to extend or apply to the assets so vested.

21.2.6 it is hereby clarified that in case of any refunds, benefits, incentives, grants, subsidies, etc., the Transferor Company, shall, if so required by the Transferee Company, issue notices in such form as the Transferee Company may deem fit and proper stating that pursuant to the Tribunal having sanctioned this Scheme under Sections 230 to 232 of the Act, the relevant refund, benefit, incentive, grant, subsidies, be paid or made good or held on account of the Transferee Company, as the person entitled thereto, to the end and intent that the right of the Transferor Company, to recover or realise the same, stands transferred to the Transferee Company and that appropriate entries should be passed in their respective books to record the aforesaid changes.

21.2.7 On and from the Effective Date and till such time that the name of the bank accounts of the Transferor Company has been replaced with that of the Transferee Company, the Transferee Company shall be entitled to maintain and operate the bank accounts of the Transferor Company in the name of the Transferor Company and for such time as may be determined to be necessary by the Transferee Company. All cheques and other negotiable instruments, payment orders received or presented for encashment which are in the name of the Transferor Company after the Effective Date shall be

1188

accepted by the bankers of the Transferee Company and credited to the account of the Transferee Company, if presented by the Transferee Company.

21.2.8 without prejudice to the foregoing provisions of Clause 21.2, the Transferor Company, and the Transferee Company shall be entitled to apply to the Appropriate Authorities as are necessary under any law for such consents, approvals and sanctions which the Transferee Company may require and execute any and all instruments or documents and do all the acts and deeds as may be required, including filing of necessary particulars and/ or modification(s) of charge, with the concerned RoC or filing of necessary applications, notices, intimations or letters with any authority or Person, to give effect to the above provisions.

22. PERMITS

With effect from the Appointed Date, all the Permits held or availed of by, and all rights and benefits that have accrued to, the Transferor Company, pursuant to the provisions of Section 232 of the Act, shall without any further act, instrument or deed, be transferred to, and vest in, or be deemed to have been transferred to, and vested in, and be available to, the Transferee Company so as to become as and from the Effective Date, the Permits, estates, assets, rights, title, interests and authorities of the Transferee Company and shall remain valid, effective and enforceable on the same terms and conditions to the extent permissible in Applicable Laws. Upon the Appointed Date and until the Permits are transferred, vested, recorded, effected, and/ or perfected, in the record of the Appropriate Authority, in favour of the Transferee Company, the Transferee Company is authorized to carry on business in the name and style of the Transferor Company and under the relevant license and/ or permit and/ or approval, as the case may be, and the Transferee Company shall keep a record and/ or account of such transactions.

23. CONTRACTS

23.1 Subject to the other provisions of the Scheme, all contracts, deeds, bonds, agreements, arrangements and other instruments of whatsoever nature, subsisting or having effect on or immediately before the Appointed Date, to which the Transferor Company is a party shall remain in full force and effect against or in favour of the Transferee Company and shall be binding on and be enforceable by

1189

and against the Transferee Company as fully and effectually as if the Transferee Company had at all material times been a party thereto. The Transferee Company will, if required, enter into novation agreement(s) in relation to such contracts, deeds, bonds, agreements, arrangements and other instruments as stated above. Any *inter-se* contracts between the Transferor Company on the one hand and the Transferee Company on the other hand shall stand cancelled and cease to operate.

23.2 Without prejudice to the other provisions of this Scheme and notwithstanding the fact that vesting of the assets and liabilities of the Transferor Company occurs by virtue of this Scheme, the Transferee Company may in accordance with the provisions hereof, if so required under any Applicable Law or otherwise, take such actions and execute such deeds (including deeds of adherence), confirmations, other writings or tripartite arrangements with any party to any contract or arrangement to which the Transferor Company is a party or any writings as may be necessary in order to give effect to the provisions of this Scheme. The Transferee Company shall under the provisions of this Scheme, be deemed to be authorized to execute any such writings on behalf of the Transferor Company to carry out or perform all such formalities or compliances referred to above on the part of the Transferor Company.

23.3 On and from the Effective Date, and thereafter, the Transferee Company shall be entitled to complete and enforce all pending contracts and transactions and to accept stock returns and issue credit notes in respect of the Transferor Company in the name of the Transferor Company in so far as may be necessary until the transfer of rights and obligations of the Transferor Company, to the Transferee Company under this Scheme has been given effect to under such contracts and transactions.

24. EMPLOYEES

24.1 Upon this Scheme coming into effect and with effect from the Effective Date, the Transferee Company undertakes to engage all the employees of the Transferor Company on the terms and conditions not less favourable than those on which they are engaged by the Transferor Company without any interruption of service as a result of the amalgamation of the Transferor Company with the Transferee Company. The Transferee Company also agrees that the services of all such employees with the Transferor Company prior to the

1190

amalgamation (trusts beneficial interest also to be transferred) of the Transferor Company with the Transferee Company shall be taken into account for the purposes of all existing benefits to which the said employees may be eligible, including for the purpose of payment of any retrenchment compensation, provident fund, gratuity and other retiral/ terminal benefits.

24.2 The accumulated balances, if any, standing to the credit of the aforesaid employees in the existing provident fund, gratuity fund and superannuation fund of which they are members, as the case may be, will be transferred respectively to such provident fund, gratuity fund and superannuation funds nominated by the Transferee Company and/ or such new provident fund, gratuity fund and superannuation fund to be established in accordance with Applicable Law and caused to be recognized by the Appropriate Authorities, by the Transferee Company.

25. LEGAL PROCEEDINGS

If any suit, cause of actions, appeal or other legal, quasi-judicial, arbitral or other administrative proceedings of whatever nature (hereinafter called the "Proceedings") by or against the Transferor Company be pending on the Effective Date, the same shall not abate,

be discontinued or be in any way prejudicially affected by reason of the amalgamation or of anything contained in this Scheme, but the Proceedings may be continued, prosecuted and enforced by or against the Transferee Company in the same manner and to the same extent as it would or might have been continued, prosecuted and enforced by or against the Transferor Company as if this Scheme had not been made. On and from the Effective Date, the Transferee Company may initiate any legal proceeding for and on behalf of the Transferor Company.

and enforced by or against the Transferor Company as if this Scheme had not been made. On and from the Effective Date, the Transferee Company may initiate any legal proceeding for and on behalf of the Transferor Company.

26. TAX CREDITS

26.1 This Part IV of the Scheme has been drawn up to comply with the conditions relating to "Amalgamation" as specified in Section 2(1B) and other relevant provisions of the Income Tax Act, 1961. If any terms or provisions of the Scheme are found or interpreted to be inconsistent with the provisions of the said section and other related provisions at a later date including that resulting from a retrospective amendment of law or for any other reason whatsoever till the time the Scheme becomes effective, the provisions of the said section and other related provisions of the Income Tax Act, 1961

1191

shall prevail and the Scheme shall stand modified, unless the Board of Directors decide otherwise, to the extent required to comply with Section 2(1B) and other relevant provisions of the Income Tax Act, 1961.

26.2 All taxes and duties including cess and surcharge, if any (including but not limited to income tax, tax deducted at source, tax collected at source, sales tax, excise duty, customs duty, goods and services tax, professional tax, entry tax, local body tax, etc.) paid or discharged by the Transferor Company in respect of the operations and/or the profits of the business of the Transferor Company before the Appointed Date whether by way of direct payment, deduction at source, advance tax or otherwise howsoever shall be deemed to be the corresponding item paid by the Transferee Company, and shall, in all proceedings, be dealt with accordingly.

26.3 All the profits or income, taxes (including advance tax, tax deducted at source, tax collected at source and minimum alternate tax credit) or any costs, charges, expenditure accruing or arising to the Transferor Company or expenditure or losses arising or incurred or suffered by the Transferor Company shall for all purposes be treated and deemed to be accrued from the Appointed Date as the profits or income, taxes (including tax losses, minimum alternate tax credit), costs, charges, expenditure or losses of the Transferee Company.

26.4 Upon the Scheme becoming effective, the Transferor Company and the Transferee Company shall have the right to revise their respective financial statements and returns along with prescribed forms, filings and annexures under the Income Tax Act, 1961, central sales tax, goods and services tax act, and all other applicable tax laws, and to claim refunds and or credit for taxes paid (including minimum alternate tax, tax deducted at source, tax collected at source, wealth tax, etc.) and for matters incidental thereto, if required, to give effect to the provisions of the Scheme.

26.5 All tax assessment proceedings and appeals of whatsoever nature by or against the Transferor Company pending and/or arising at the Appointed Date shall be continued and/or enforced until the Effective Date by the Transferor Company. As and from the Effective Date, the tax proceedings shall be continued and enforced by/or against the Transferee Company in the same manner and to the same extent as would or might have been continued and enforced by/or against the Transferor Company. Further, the afore

1192

mentioned proceedings shall not abate or be discontinued nor be in anyway prejudicially affected by reason of the amalgamation of the Transferor Company with the Transferee Company or anything contained in the Scheme.

Any tax liabilities under the Income Tax Act, 1961, goods and services tax act or other Applicable Laws dealing with taxes, duties or levies of the Transferor Company to the extent not provided for or covered by tax provision in the accounts made as on the date immediately preceding the Appointed Date shall be transferred to the Transferee Company.

26.7 Any refund, under the Income Tax Act, 1961, goods and services tax act, or other Applicable Laws dealing with taxes, duties or levies due to the Transferor Company consequent to the assessment made on the Transferor Company (including any refund for which no credit is taken in the accounts of the Transferor Company) as on the date immediately preceding the Appointed Date shall also belong to and be received by the Transferee Company upon this Scheme becoming effective.

26.8 The tax and duty payments including cess and surcharge, if any (including without limitation income tax, goods and services tax act, etc. whether by way of tax deducted at source, tax collected at source, advance tax or otherwise howsoever, by the Transferor Company after the Appointed Date, shall be deemed to be paid by the Transferee Company and shall, in all proceedings, be dealt with accordingly. Further, any tax deducted at source and tax collected at source by the Transferor Company/the Transferee Company on transactions with the Transferee Company/Transferor Company, if any (from Appointed Date) shall be deemed to be advance tax paid by the Transferee Company and shall, in all proceedings, be dealt with accordingly.

26.9 Upon the Scheme coming into effect, any obligation for deduction of tax at source on any payment made by or to be made by the Transferor Company shall be made or deemed to have been made and duly complied with by the Transferee Company.

26.10 Without prejudice to the generality of the foregoing, all benefits, incentives, losses (including but not limited to book losses, tax losses), book unabsorbed depreciation, tax unabsorbed depreciation, credits (including, without limitation income tax, minimum alternate tax, tax deducted at source, tax collected at

1193

source, applicable state value added tax, goods and services tax act, customs duty drawback, etc.) to which any of the Transferor Company is entitled to in terms of Applicable Laws, shall be available to and vest in the Transferee Company, upon this Scheme coming into effect.

11 Upon coming into effect of this Scheme, all tax compliances under any tax laws by the Transferor Company on or after the Appointed Date shall be deemed to be made by the Transferee Company.

27. CONSIDERATION

27.1 Upon Part IV of the Scheme coming into effect and in consideration of and subject to the provisions of this Scheme, AmCL (the Transferee Company) shall, without any further application, act, deed, consent, instrument, issue and allot, to each shareholder of AGLIL (the Transferor Company) whose name is recorded in the register of members of AGLIL (the Transferor Company) on the Record Date, in the following proportion:

283 (Two Hundred and Eighty Three) fully paid up optionally convertible preference shares of INR 100 (Indian Rupees Hundred) each at face value of INR 10 (Indian Rupees Ten) each and a premium of INR 90 (Indian Rupees Ninety) each of AmCL (the Transferee Company) as per terms and conditions as listed in Annexure 2 to the Scheme shall be issued and allotted, credited as fully paid up, **for every 444 (Four Hundred and Forty Four)** equity shares of INR 10 (Indian Rupees Ten) each held in AGLIL (the Transferor Company).

No shares shall be issued by AmCL (the Transferee Company) in respect of the shares held by AmCL (the Transferee Company) or any of its subsidiaries in AGLIL (the Transferor Company).

The share exchange ratio has been arrived at based on valuation reports by CA Sejal Agrawal, Registered Valuer (IBBI/RV/06/2020/13106).

27.2 Upon Part IV of this Scheme becoming effective, and in consideration of AGLIL (the Transferor Company) amalgamating into AmCL (the Transferee Company), the equity shares held by AmCL (the Transferee Company) on the Effective Date (held either directly or through its nominees) in AGLIL (the Transferor Company) shall be cancelled pursuant to this Scheme without any further application, act or deed. It is clarified that no new shares shall be issued or any

1194

payment shall be made in cash whatsoever by AmCL (the Transferee Company) in lieu of such shares of AGLIL (the Transferor Company).

27.3 The preference shares of AmCL (the Transferee Company) to be issued and allotted as provided in Clause 27.1 above shall be subject

to the provisions of the memorandum of association and articles of association of AmCL (the Transferee Company), as the case may be, and carry preferential right in respect of both dividend and repayment of capital in respect with equity shares of AmCL (the Transferee Company).

27.4 No fractional shares shall be issued by the Amalgamated Company and the fractional share entitlements, if any, arising out of such allotment, shall be rounded off to the nearest complete share .

27.5 The issue and allotment of shares as provided in Clause 27.1, is an integral part hereof and shall be deemed to have been carried out

under the orders passed by the Tribunal without requiring any further act on the part of AmCL (the Transferee Company) or AGLIL (the Transferor Company) or their shareholders and as if the

procedure laid down under the Act and such other Applicable Laws as may be applicable were duly complied with. It is clarified that the approval of the members and creditors of AmCL (the Transferee

Company) and/ or AGLIL (the Transferor Company) to this Scheme, shall be deemed to be their consent/ approval for the issue and allotment of shares, as the case may be, pursuant to this Clause

27.1.

27.6 The shares issued by AmCL (the Transferee Company) pursuant to Clause 27.1 shall be in dematerialized form.

27.7 In the event that the Companies restructure their share capital by way of share split / consolidation/ issue of bonus shares during the pendency of the Scheme, the number of shares to be issued in consideration as per Clause 27.1 above, shall be adjusted accordingly to take into account the effect of any such corporate actions.

27.8 AmCL (the Transferee Company) shall enter into such arrangements and give such confirmations and/ or undertakings as may be necessary in accordance with Applicable Law for complying with the formalities of the Stock Exchanges.

27.9 The Shares to be issued as provided in Clause 27.1 in respect of such of the equity shares of AGLIL (the Transferor Company) which are held in abeyance under Section 126 of the Companies Act 2013

1195

shall, pending allotment or settlement of dispute by order of Court or otherwise, also be kept in abeyance by AmCL (the Transferee Company). In the event of any dispute in relation to the ownership of any equity shares of AGLIL (the Transferor Company), shares shall be issued and allotted in respect of such shares (pursuant to this Clause 27.1), which shares shall be held in trust for and on behalf of the holder of the equity shares of AGLIL (the Transferor Company) by AmCL (the Transferee Company), pending settlement of dispute by order of Court or otherwise.

10 In the event of there being any pending share transfers, whether lodged or outstanding, of any shareholder of AGLIL (the Transferor Company), the Board of Directors of AGLIL (the Transferor Company) shall be empowered in appropriate cases, prior to or even subsequent to the Record Date, to effectuate such a transfer in AGLIL (the Transferor Company) as if such changes in registered holder were operative as on the Record Date, in order to remove any difficulties arising in relation to the shares issued by AmCL (the Transferee Company) after the effectiveness of the Scheme under this Clause 27.1. The Board of Directors of AGLIL (the Transferor Company) shall be empowered to remove such difficulties as may arise in the course of implementation of this Scheme and registration of new members in AmCL (the Transferee Company) on account of difficulties faced in the transaction period."

28. ACCOUNTING TREATMENT BY THE TRANSFEE COMPANY IN RESPECT OF ASSETS AND LIABILITIES

28.1 The Transferee Company shall account for the Scheme in its books/ financial statements upon receipt of all relevant/ requisite approvals for the Scheme, in compliance with applicable Indian Accounting Standard ("Ind-AS 103") notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Rule 7 of the Companies (Accounts) Rules, 2014, as amended from time to time including as provided herein below:

28.1.1 All the assets (including intangible assets and goodwill) and liabilities and reserves (if any) of the Transferor Company transferred to and vested in the Transferee Company pursuant to this Scheme shall be recorded in the books of accounts of the Transferee Company at the carrying value of assets, liabilities and reserves pertaining to the Transferor

1196

Company as appearing in the financial statements of the Transferor Company as at the appointed date;

28.1.2 The Transferee Company shall credit to the Share Capital account in its books of account, the aggregate face value of the optionally convertible preference shares issued and allotted under Clause 27.1 above to the equity shareholders of the Transferor Company.

28.1.3 Upon coming into effect of this Scheme, to the extent that there are inter-company loans, advances, deposits balances or other obligations amongst the Transferor Company and the Transferee Company, the obligations in respect thereof shall come to an end and corresponding effect shall be given in the books of accounts and records of the Transferee Company for the reduction of any assets or liabilities as the case may be.

28.1.4 Expenses pertaining to the Scheme and for the amalgamation shall be adjusted to the reserves and surplus account of the Transferee Company.

28.1.5 The difference being the Net Assets transferred to Transferee Company pursuant to Clause 28.1.1 over the face value of the shares allotted as per Clause 28.1.2 above after giving effect to inter-company balances as per Clause 28.1.3, shall be credited to the Capital Reserves of the Transferee Company.

28.1.6 In case there is any difference in the accounting policies adopted by the Transferor Company and the Transferee Company, the accounting policies followed by the Transferee Company will prevail and the difference will be quantified and adjusted in the Reserves to ensure that the financial statements of the Transferee Company reflect the financial position on the basis of consistent accounting policy.

28.1.7 In addition, the Transferee Company shall pass such accounting entries, as may be necessary, in connection with this Scheme, to comply with any of the applicable Indian Accounting Standards including Indian Accounting Standard 103 ("**Ind AS 103**").

For the purpose of this Clause 28, "Net Assets" would mean difference between the carrying value of assets and liabilities.

1197

29. VALIDITY OF EXISTING RESOLUTIONS, ETC.

Upon the coming into effect of Part IV of this Scheme, the resolutions/ power of attorney of/ executed by the Transferor Company, as are considered necessary by the Board of the Transferee Company, and that are valid and subsisting on the Effective Date, shall continue to be valid and subsisting and be considered as resolutions and power of attorney passed/ executed by the Transferee Company, and if any such resolutions have any monetary limits approved under the provisions of the Act, or any other applicable statutory provisions, then said limits as are considered necessary by the Board of the Transferee Company shall be added to the limits, if any, under like resolutions passed by the Transferee Company and shall constitute the aggregate of the said limits in the Transferee Company.

30. COMBINATION OF AUTHORISED CAPITAL

30.1 Upon Part IV of the Scheme becoming effective, the authorised share capital of the Transferee Company shall stand increased without any further act, instrument or deed on the part of Transferee Company by the authorised share capital of the Transferor Company amounting to INR 10,00,00,000 (Indian Rupees Ten Crores) and the Memorandum of Association and Articles of Association of the Transferee Company (relating to the authorized share capital) shall, without any further act, instrument or deed, be and stand altered, modified and amended, and the consent of the shareholders of the Transferee Company to the Scheme shall be deemed to be sufficient for the purposes of effecting this amendment, and no further resolution(s) under the applicable provisions of the Act would be required to be separately passed, as the case may be and for this purpose the stamp duty and fees paid on the authorized capital of the Transferor Company shall be utilized and applied to the increased authorized share capital of the Transferor Company and there would be no requirement for any further payment of stamp duty and/or fee by the Transferor Company for increase in the authorised share capital to that extent.

30.2 Clause V of the memorandum of association of the Transferee Company shall without any act, instrument or deed be and stand altered, modified and amended pursuant to Sections 13, 14, 61, 64, and other applicable provisions of the Act, and be replaced by the following clause:

1198

"The Authorised Share Capital of the Company is Rs. 44,00,00,000/- (Rupees Forty Four Crores Only) consisting of 4,28,00,000 (Four Crore Twenty Eight Lakh) Equity Shares of Rs.10/- (Rupees Ten Only) each and 12,00,000 (Twelve Lakh) Preference Shares of Rs. 10/- (Rupees Ten Only) each with power to increase and reduce the capital of the company and to divide the shares in the capital for the time being into different classes and to attach thereto respectively such preferential or special rights or privileges or conditions as may be determined by or in accordance with the regulations of the Company."

30.3 It is clarified that the approval of the members of the Transferee Company to the Scheme shall be deemed to be their consent/ approval also to the alteration of the Memorandum and Articles of Association of the Transferee Company as may be required under the Act.

31. DISSOLUTION OF TRANSFEROR COMPANY

On Part IV of this Scheme becoming effective, the Transferor Company shall stand dissolved without winding up. On and from the Effective Date, the name of the Transferor Company shall be struck off from the records of the concerned RoC.

32. CHANGE OF NAME OF TRANSFEEE COMPANY

32.1 Upon Part IV of the Scheme becoming effective, the name of the Transferee Company shall stand changed to 'AGL Industries Limited' or such other name which is available and approved by the RoC, by simply filing the requisite forms and subject to payment of fees with the Appropriate Authority.

32.2 Thereafter, subject to Clause 32.1 above, Clause 1 of the Memorandum of Association of the Transferee Company shall without any act, procedure, instrument or deed be and stand altered, modified and amended pursuant to Sections 13, 232 and other applicable provisions of the Act, and be replaced by the following clause:

"The name of the Company is AGL Industries Limited."

32.3 It is hereby clarified that, for the purposes of acts and events as mentioned in this Clause 32, the consent of the shareholders of the Transferee Company to this Scheme shall be deemed to be sufficient for the purposes of effecting the aforementioned amendment and that no further resolution under Section 13, Section 14 or any other applicable provisions of the Act, would be required to be separately passed.

1199

33. COMPLIANCE WITH SECTION 2(1B) OF THE INCOME-TAX ACT, 1961

The provisions of this Part IV of the Scheme as they relate to the amalgamation of the Transferor Company into the Transferee Company have been drawn up to comply with the conditions relating to "Amalgamation" as specified under the tax laws, including section 2(1B) and other relevant sections of the Income tax Act, 1961. If any terms or provisions of Part IV of the Scheme are found to be or interpreted to be inconsistent with any of the said provisions at a later date, whether as a result of any amendment of law or any judicial or executive interpretation or for any other reason, whatsoever, the aforesaid provisions of the tax laws shall prevail. Part IV of the Scheme shall then stand modified to the extent determined necessary to comply with the said provisions. Such modification will however not affect other parts of the Scheme. The power to make such amendments as may become necessary shall vest with the Board of Directors of the Transferor Company and the Transferee Company, which power shall be exercised reasonably in the best interests of the companies concerned.

39. APPLICATIONS/ PETITIONS TO THE TRIBUNAL

39.1 The Companies shall dispatch, make and file all applications and petitions under Sections 230 to 232 and other applicable provisions of the Act before the Tribunal, under whose jurisdiction, the registered offices of the respective Companies are situated, for sanction of this Scheme under the provisions of Applicable Law, and

1206

shall apply for such approvals as may be required under Applicable Law and for dissolution of the Transferor Company without being wound up.

39.2 The Companies shall be entitled, pending the sanction of the Scheme, to apply to any Appropriate Authority, if required, under any Applicable Law for such consents and approvals which the Demerged Companies, the Resulting Companies, the Demerged Company 4, the Resulting Company 5 / Transferee Company and the Transferor Company may require to own the assets and/ or liabilities of the Marbles & Quartz Undertaking, the Transferred Undertaking or the Demerged Undertakings, as the case may be, and to carry on the business of the Demerged Company 4, the Transferor Company or the Demerged Companies, respectively, as the case may be.

40. MODIFICATION OR AMENDMENTS TO THIS SCHEME

40.1 On behalf of each of the Demerged Companies, the Resulting Companies, the Demerged Company 4, the Resulting Company 5 / Transferee Company and the Transferor Company, the Board of the respective Companies acting themselves or through authorized persons, may consent jointly but not individually, on behalf of all persons concerned, to any modifications or amendments of this Scheme at any time and for any reason whatsoever, or to any conditions or limitations that the Tribunal or any other Appropriate Authority may deem fit to direct or impose or which may otherwise be considered necessary, desirable or appropriate by all of them (i.e. the Boards of the Demerged Companies, the Resulting Companies, the Demerged Company 4, the Resulting Company 5 / Transferee Company and the Transferor Company) and solve all difficulties that may arise for carrying out this Scheme and do all acts, deeds and things necessary for putting this Scheme into effect.

40.2 For the purpose of giving effect to this Scheme or to any modification thereof the Boards of the Demerged Companies, the Resulting Companies, the Demerged Company 4, the Resulting Company 5 / Transferee Company and the Transferor Company acting themselves or through authorized persons may jointly but not individually, give and are jointly authorised to give such directions including directions for settling any question of doubt or difficulty that may arise and such determination or directions, as the case may be, shall be binding on all parties, in the same manner as if the same were

1207

specifically incorporated in this Scheme. It is clarified that individual companies acting themselves or through authorized persons may individually approach the Tribunal or any other Appropriate Authority to seek clarifications for implementation of the Scheme.

40.3 It is clarified that if any modifications are required post satisfaction of the conditions precedent mentioned in Clause 41 and the Scheme having been made effective, the Effective Date shall not be affected by any such modifications that might be required to be made and the Effective Date for such modified Scheme shall be same as the date on which Scheme was made effective prior to the modifications.

41. CONDITIONS PRECEDENT

41.1 Unless otherwise decided (or waived) by the relevant Companies, the Scheme is conditional upon and subject to the following conditions precedent:

41.1.1 obtaining no-objection/ observation letter from the Stock Exchanges in relation to the Scheme under Regulation 37 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirement) Regulations, 2015;

41.1.2 approval of the Scheme by the requisite majority of each class of shareholders and creditors of the Demerged Companies, the Resulting Companies, the Demerged Company 4, the Resulting Company 5 / Transferee Company and the Transferor Company and such other classes of persons of the said Companies, if any, as applicable or as may be required under the Act and as may be directed by the Tribunal;

41.1.3 the Companies, as the case may be, complying with other provisions of the SEBI Circular, including seeking approval of the shareholders of the Demerged Company 4 / Resulting Company 1 through e-voting, as applicable. The Scheme shall be acted upon only if the votes cast by the public shareholders in favour of the proposal are more than the number of votes cast by the public shareholders of the Demerged Company 4 / Resulting Company 1, against it as required under the SEBI Circular. The term 'public' shall carry the same meaning as defined under Rule 2 of Securities Contracts (Regulation) Rules, 1957;

41.1.4 the sanctions and orders of the Tribunals, under Sections 230 to 232 of the Act being obtained by the Demerged

1208

Companies, the Resulting Companies, the Demerged Company 4, the Resulting Company 5 / Transferee Company and the Transferor Company; and

41.1.5 certified/ authenticated copies of the orders of the Tribunal, sanctioning the Scheme, being filed with the RoC having jurisdiction over the Companies.

41.2 Without prejudice to Clause 41.1 and subject to the satisfaction or waiver of the conditions mentioned in Clause 41.1 above, the Scheme shall be made effective in the order as contemplated below:

41.2.1 Part II of the Scheme shall be made effective subject to the satisfaction or waiver of conditions mentioned in Clause 41.1 by the Boards of the Demerged Companies, the Resulting Companies, the Demerged Company 4, the Resulting Company 5 / Transferee Company and the Transferor Company;

41.2.2 Part III of the Scheme shall be made effective immediately after the implementation of Part II of the Scheme;

41.2.3 Part IV of the Scheme shall be made effective immediately after implementation of Part III of the Scheme;

41.3 It is hereby clarified that submission of this Scheme to the Tribunal and to the Appropriate Authorities for their respective approvals is without prejudice to all rights, interests, titles or defences that the Demerged Companies, the Resulting Companies, the Demerged Company 4, the Resulting Company 5 / Transferee Company and the Transferor Company may have under or pursuant to all Applicable Laws.

41.4 On the approval of this Scheme by the shareholders of the Demerged Companies, the Resulting Companies, the Demerged Company 4, the Resulting Company 5 / Transferee Company and the Transferor Company and such other classes of Persons of the said Companies, if any, pursuant to Clause 41.1.2, such shareholders and classes of Persons shall also be deemed to have resolved and accorded all relevant consents under the Act or otherwise to the same extent applicable in relation to the demerger, amalgamation, capital reduction set out in this Scheme, related matters and this Scheme itself.

42. EFFECT OF NON-RECEIPT OF PERMITS AND MATTERS RELATING TO REVOCATION/ WITHDRAWAL OF THIS SCHEME

1209

- 42.1 The Demerged Companies, the Resulting Companies, the Demerged Company 4, the Resulting Company 5 / Transferee Company and the Transferor Company acting through their respective Boards shall each be at liberty to withdraw from this Scheme: (a) in case any condition or alteration imposed by any Appropriate Authority is unacceptable to any of them; or (b) they are of the view that coming into effect of the respective parts to this Scheme could have adverse implications on the respective Companies.
- 42.2 If this Scheme is not effective within such period as may be mutually agreed upon between the Demerged Companies, the Resulting Companies, the Demerged Company 4, the Resulting Company 5 / Transferee Company and the Transferor Company through their respective Boards or their authorised representative, this Scheme shall become null and void and each Company shall bear and pay its respective costs, charges and expenses for and/ or in connection with this Scheme.
- 42.3 In the event of revocation/ withdrawal under Clause 42.1 or above, no rights and liabilities whatsoever shall accrue to or be incurred inter se the Demerged Companies, the Resulting Companies, the Demerged Company 4, the Resulting Company 5 / Transferee Company and the Transferor Company or their respective shareholders or creditors or employees or any other Person, save and except in respect of any act or deed done prior thereto as is contemplated hereunder or as to any right, liability or obligation which has arisen or accrued pursuant thereto and which shall be governed and be preserved or worked out as is specifically provided in the Scheme or in accordance with the Applicable Law and in such case, each Company shall bear its own costs, unless otherwise mutually agreed.
- 42.4 If any part of this Scheme is found to be unworkable for any reason whatsoever, the same shall not, subject to the decision of the Demerged Companies, the Resulting Companies, the Demerged Company 4, the Resulting Company 5 / Transferee Company and the Transferor Company through their respective Boards, affect the validity or implementation of the other parts and/ or provisions of this Scheme.
- 42.5 Further, it is the intention of the Companies that each part shall be severable from the remainder of this Scheme and the Scheme shall not be affected if any part of this Scheme is found to be unworkable

1210

for any reason whatsoever unless the deletion of such part shall cause this Scheme to become materially adverse to any Company, in which case the Companies shall attempt to bring about a modification in this Scheme or cause such part to be null and void, including but not limited to such part.

43. COSTS AND TAXES

43.1 Companies have agreed to bear the costs, charges and expenses (including, but not limited to, any taxes and duties, registration charges, etc.) in relation to carrying out, implementing and completing the terms and provisions of this Scheme and/ or incidental to the completion of this Scheme in the following manner:

43.1.1 the Resulting Company 1 shall bear the stamp duty costs in connection with Part II of the Scheme;

43.1.2 the Resulting Company 5 shall bear the stamp duty costs in connection with Part III of the Scheme;

43.1.3 the Transferee Company shall bear the stamp duty costs in connection with Part IV of the Scheme;

43.1.4 all other costs, charges and expenses (including, but not limited to, any taxes and duties, registration charges, etc.) in relation to carrying out, implementing and completing the terms and provisions of this Scheme and/ or incidental to the completion of this Scheme shall be borne by the respective Companies.

- b) This engagement doesn't cover our representation / presence on behalf of the Company for projections and assumptions made in their part, before any statutory authorities.
- c) By its very nature, valuation work cannot be regarded as an exact science and given the same set off acts and using the same assumptions, expert opinions may differ due to the number of separate judgment decisions, which have to be made. There can therefore be no standard formula to establish an indisputable value, although certain appropriate formula are useful in establishing reasonableness.
- d) In furnishing the Report, the Valuer reserves the right to amend or replace the Report at any time. Our views are necessarily based on economic, market, and other conditions currently in effect and the information made available to us, as of the date hereof. It should be understood that subsequent developments may affect our views and that we do not have any obligation to update, revise, or reaffirm the views expressed in the Report. Nothing contained within the Report is or should be relied upon as a promise or representation as to the future.
- e) Valuation is based on estimates of future financial performance or opinions that represent reasonable expectations at a particular point in time, but such information, estimates or opinions are not offered as predictions or as assurances that a particular level of income or profit will be achieved, that events will occur, or that a particular price will be offered or accepted. Actual results achieved during the period covered by the prospective financial analysis will vary from these estimates and the variations may be material. Consequently, this information cannot be relied upon to the same extent as that derived from audited accounts for completed accounting periods. We express no opinion as to how closely the actual results will correspond to the results projected.
- f) This Report does not look into the business/commercial reasons behind the transaction nor the likely benefits arising out of the same. In addition, we express no opinion or recommendation, and the shareholders are expected to exercise their own discretion.
- g) Our conclusions are based on the assumptions and information given by or on behalf of Company and reliance on public information. The Management of Company has indicated to us that they have understood that any omissions, in accuracies or misstatements may materially affect our valuation analysis; results. Accordingly, we assume no responsibility for any errors in the information furnished by Company and their impact on the Report. Nothing has come to our attention to indicate that the information provided was materially incorrect or would not afford reasonable grounds upon which to base the Report.
- h) We have no present or planned future interest in the Company and the fee for this Valuation analysis is not contingent upon the values reported herein.
- i) The report is to be read in totality, and not in parts, in conjunction with the relevant documents referred to herein. The scope of our work has been limited both in terms of the areas of the business and operations which wherever we and the extent to which we have viewed them. There may be matters, other than those noted herein, which might be relevant in the context of the transaction and which a wider scope might uncover.

- j) The Valuation is required solely for non-financial reporting purposes and would not be used to determine the carrying value of the relevant assets' (liability) in any financial statement.
- k) We do not accept any liability to any third party in relation to the issue of this Report. It is understood that this analysis does not represent a fairness opinion on the Valuation. This Report is not a substitute for the third party's own due diligence, appraisal, enquiries, independent advice that the third party should undertake for his purpose.
- l) We have obtained from the signed copy of Disclaimer (ANNEXURE-II) from the Management.

7. APPROACH AND METHODOLOGY

It should be understood that the valuation of any company / business or its assets is inherently imprecise and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made numerous assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of company. Further, this Valuation will fluctuate with lapse of time, changes in prevailing market conditions, the conditions and prospects, financial and otherwise, of company, and other factors which generally influence the valuation of companies and their assets

The following are commonly used and accepted methods for determining the value of the equity shares of a company / business:

A) Market Approach

a. Market Price Method

The market price of an equity share / Debenture as quoted on a stock exchange is normally considered as the value of the Equity Shares / debentures of that company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares/debentures. But there could be situations where the value of the securities as quoted on the stock market would not be regarded as a proper index of the fair value of the securities, especially where the market values are fluctuating in a volatile capital market.

Company being Unlisted company does not have any security listed on any recognized stock exchange in India. Accordingly, the Market Price Method has not been adopted for the Valuation.

b. Comparable Companies 'Quoted Multiple ('CCM') Method

Under this method, value of the security of a company is arrived at by using multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation is based on the principle that market valuations, taking place between Informed buyers and Informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

Given this background, we have not adopted the CCM approach for the purpose of Valuation as sufficient information is not available in public domain.

c. Comparable Companies 'Transaction Multiple ('CTM') Method

Under this method, value of the securities of a company business is arrived at by using multiples derived from valuations of comparable companies, as manifest through transaction on valuations. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

The CTM approach has not been adopted for the purpose of our analysis as sufficient information is not available in the public domain.

B) Income Approach –

a. Discounted Cash Flows ('DCF') Method

Under the DCF method, the projected free cash flows to the business are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm. Using the DCF analysis involves determining the following:

- Estimating future free cash flows
- Free cash flows are the cash flows expected to be generated by the company that are available to the providers of the company's capital and debt
- Appropriate discount rate to be applied to cash flows i.e. the weighted average cost of capital; this discount rate, which is applied to the free cash flows to the firm, should reflect the opportunity cost to the debt providers and equity capital providers (namely shareholders). The opportunity cost to the equity capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk. Cost of debt is typically based on market rates.
- Weighted Average Cost of Capital of company determined at 18.79%, after the explicit period, the business will continue to generate cash. In DCF Method, therefore, perpetuity values also considered to arrive at the business value. For arriving at the perpetuity value, we have considered a growth rate of 5%, such growth rate is reasonable considering the growth projected by the Company and the industry in which the Company operates.

C) Asset Approach – Net Asset Value ('NAV') Method

The asset-based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. This valuation approach is mainly used in case where the firm is to be liquidated i.e., it does not meet the "going concern" criteria or in case where the assets base exceeds earnings capability or where the future projections cannot be ascertained reasonably. Accordingly, NAV Method has not been applied in this valuation.

8. NATURE AND SOURCES OF THE INFORMATION USED OR RELIED UPON

For the purpose of this valuation, we have relied upon the undermentioned information and other data supplied by the management of the Company and other sources believed to be reliable:

- Management Certified Provisional Financial Statements of as on March 31, 2023.
- Projected Profit and Loss Statement and Balance Sheet for the period from FY 2023-24 to FY 2027-28.
- Management Representation Letter dated 5th August 2023.
- Such other information and explanation as required by us and provided by the management. We have also placed reliance on the verbal explanations and information given to us by the promoters of the Company.

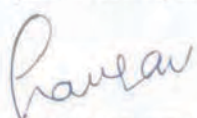

9. CONCLUSION

Based on the information provided by the Company and on valuation technique use as opted as above we conclude that-

The Fair Value per Equity Shares of the Company has been derived at **Rs. 89.25 /-per share** of Face Value Rs. 10/-. The detailed calculation sheet is enclosed here with as **Annexure-I**.

10. CONFIDENTIALITY

This report and the information contained herein are absolutely confidential and are intended for the sole use and information of the shareholders and the Board of Directors of company and for providing selection formation, only in connection with the purpose set out in the report. It should not be copied, disclosed, circulated, quoted or referred to, either in whole or in part, in correspondence or in discussion with any other person except to whom it is issued.

ANNEXURE - II

1. Validity of the publication or report: The value assessed herein may change significantly and unexpectedly over a relatively short period (including as a result of general market movements or factors specific to the particular property). I/ We do not accept liability for losses arising from such subsequent changes in value. Without limiting the generality of the above comment, I/ we do not assume any responsibility or accept any liability where this valuation is relied upon after the expiration of 90 days from the date of issuance of this valuation report, or such earlier date if you become aware of any factors that have any effect on the valuation

All opinions and estimates in this publication or report are, regardless of source, given in good faith, and may only be valid as of the stated date of this publication or report and are subject to change without notice

2 Market Conditions The party to which this valuation is addressed should read the basis upon which the valuation has been done and be aware of the potential for later variations in value due to factors that are unforeseen at the date of valuation.

3. Privacy Laws: By reason of the operation of privacy laws, the valuer's enquiries in respect of recent transactions have been constrained. Accordingly, the valuer may not have had access to information on recent transactions which has not yet been published in information sources available to the valuer. If other transactions have taken place, knowledge of those transactions may affect the opinions expressed by the valuer. To the best of my knowledge and belief the statements and opinions in this report are correct and the information provided by others is accurate. However, no responsibility is assumed for its accuracy, which should be checked by appropriate report, search or formal enquiry if required. No responsibility is assumed for matters of a legal nature and the right to expert testimony as part of providing this valuation is expressly excluded

4 Improvements: It should be noted that I am not an engineer, a plant and equipment, building construction or structural expert and I am therefore unable to certify as to the (structural) soundness of the improvements. I am not qualified to comment on the structural integrity, defect, rot or infestation of the improvements.

5 non-binding advice: The recommendation(s) rendered in the Report only represent our recommendation(s) based upon information furnished by the Company (or its executives representatives) and other sources and the said recommendation(s) shall be considered to be in the nature of non-binding advice. We have no obligation to update this Report.

6 Responsibility: We have provided our recommendation of the Valuation based on the information available to us and within the scope of our engagement, others may have a different opinion. The final responsibility for value at which the Proposed Transaction shall take place will be with the Board of Directors of the Company, who should take into account other factors such as their own assessment of the proposed Transaction and input of other advisors

7 Variation: Valuation is based on estimates of future financial performance or opinions that represent reasonable expectations at a particular point in time, but such information, estimates or opinions are not offered as or as assurances that a particular level of income or profit will be achieved, that events will occur, or that a particular price will be offered or accepted. Actual results achieved during the period covered by the prospective financial analysis will vary from these estimates, and the variations may be material.

8. No responsibility (Business plan/forecasts received from client without applying test of reasonability and diligence): We have relied on the written representations from the management that the information contained in this report is materially accurate and complete in the manner of its portrayal and therefore forms a reliable basis for the valuation. In accordance with our work order and the customary approach adopted in valuation exercises, we have not audited, reviewed or otherwise investigated the historical financial information provided to us. We have not independently investigated or otherwise verified the data provided by the company. Accordingly, we do not express an opinion or offer any form of assurance regarding the truth and fairness of the financial position as indicated in the financial statements... Accordingly, we assume no responsibility for any errors in the information furnished by the company and their impact on the Report.

9. No consideration to legal matters (Forecasts received from client without applying test of reasonability and diligence): The Report assumes that the company complies fully with relevant laws and regulations applicable in all its areas of operations unless otherwise stated and will be managed in a competent and responsible manner. Further, except as specifically stated to the contrary, this Valuation Report has given no consideration to matters of a legal nature, including issues of legal title and compliance with local laws, and litigation and other contingent liabilities that are not recorded in the audited/unaudited carved out balance sheet.

10. Scope of work: Our scope of work did not include checking the adequacy of the carved out financial statements of the company and the specified projects and this is the responsibility of the Management and we have assumed these to be correct.

11. Limitations: We are not advisors with respect to accounting, legal, tax and regulatory matters for the proposed transaction. This Report does not look into the business/commercial reasons behind the proposed transaction nor the likely benefits arising out of it. Similarly, it does not address the relative merits of the proposed transaction as compared with any other alternative business transaction, or other alternatives, or whether or not such alternatives could be achieved or are available

12. Responsibility: We owe responsibility to only the Board of Directors of the company that has appointed us under the terms of our work order and nobody else. We will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions of or advice given by any other advisor to the company. In no event shall we be liable for any loss, damages, cost or expenses arising in any way from fraudulent acts, misrepresentations or willful default on the part of the company, its directors, employees or agents. Unless specifically agreed, in no circumstances shall the liability of the Valuer, its partners, its directors or employees, relating to the services provided in connection with the engagement set out in this Report exceed the amount paid to the Valuer in respect of the fees charged by it for these services.

13. Contingent liabilities: We have relied on the judgment of the management as regards contingent and other liabilities. Accordingly, our valuation does not consider the assumption of contingent liabilities other than those given to us as likely to crystallize. If there were any omissions, inaccuracies or misrepresentations of the information provided to us, it may have the effect on our valuation computations

14 Error: The information and material presented in the report are provided for informational purposes only and are not to be used or considered as an offer or a solicitation to sell or buy or subscribe for securities or other financial instruments or any advice or recommendation with respect to such securities or other financial instruments. Neither the valuer nor any of its affiliates makes any representation or warranty or guarantee as to the completeness, accuracy, timeliness or suitability of any information contained within any part of the Report nor that it is free from error. The valuer does not accept any liability (whether in contract, tort or otherwise howsoever and whether or not they have been negligent) for any loss or damage (including, without limitation, loss of profit), which may arise directly or indirectly from use of or reliance on such information.

15 No individual investment or tax advice: This publication or report has been prepared as general information for private use of investors to whom the publication or report has been distributed, but it is not intended as a personal recommendation of particular financial instruments or strategies and thus it does not provide individually tailored investment advice, and does not take into account the individual investor's particular financial situation, existing holdings or liabilities, investment knowledge and experience, investment objective and horizon or risk profile and preferences. The investor bears the risk of losses in connection with an investment. Before acting on any information in this publication or report, it is recommendable to consult one's financial advisor. The information contained in this publication or report does not constitute advice on the tax consequences of making any particular investment decision.

16 Sources: This publication or report may be based on or contain information, such as opinions, recommendations, estimates, price targets and valuations which emanate from the valuer's analysts or representatives, publicly available information, information from other units or other named sources. To the extent this publication or report is based on or contain information emanating from other sources ("Other Sources") than the valuer ("External Information"), the valuer has deemed the other Sources to be reliable but neither the valuer in the Group, others associated or affiliated with said companies nor any other person, do guarantee the accuracy, adequacy or completeness of the External Information.

17. Limitation of liability: The valuer assumes no liability as regards to any investment, divestment or retention decision taken by the investor on the basis of this publication or report. In no event will entities of the Group or other associated and affiliated companies be liable for direct, indirect or incidental, special or consequential damages resulting from the information in this publication or report

18. Risk information: The risk of investing in certain financial instruments is generally high, as their market value is exposed to a lot of different factors such as the operational and financial conditions of the relevant company, growth prospects, change in interest rates, the economic and political environment, foreign exchange rates, shifts in market sentiments etc. Where an investment or security is denominated in a different currency to the investor's currency of reference, changes in rates of exchange may have an adverse effect on the value, price or income of or from that investment to the investor. Past performance is not a guide to future performance. Estimates of future performance are based on assumptions that may not be realized.

19. Conflicts of interest: The valuer may perform services for, solicit business from, hold long or short positions in, or otherwise be interested in the investments (including derivatives) of any company mentioned in the publication or report. To limit possible conflicts of interest and counter the abuse of inside knowledge, the analysts of the valuer are subject to internal rules on sound ethical conduct, the management of inside information, handling of unpublished research material, contact with other units of the Group Companies and personal account dealing.

20. Variation: Security pricing may vary from actual liquidation value, and custodial statements. Prices shown should only be used as a general guide to portfolio value. Cash shown in the Report may not necessarily be available for investment due to unsettled transactions against your account.

21. Taxation: The levels and bases of taxation may change, and the Report should not be relied upon for tax purposes. Positions are reflected as of trade date and may differ from account statements, which reflect positions as of settlement date. Gains and losses may be higher or lower if cost bases for securities in your account are not available, as the valuer may assume this to be zero or if sourced from different tax information at multiple custodians.

22. Responsibility for information provided by third parties: The valuer does not accept any responsibility or liability for information provided by third parties. Official confirmation of portfolio holdings with these parties and issues arising from information they have provided must be addressed directly with them.

7. APPROACH AND METHODOLOGY

It should be understood that the valuation of any LLP, business or its assets is inherently imprecise and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made numerous assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of LLP. Further, this Valuation will fluctuate with lapse of time, changes in prevailing market conditions, the conditions and prospects, financial and otherwise, of LLP, and other factors which generally influence the valuation of Businesses and their assets.

The following are commonly used and accepted methods for determining the value of the business:

A) Market Approach

a. Market Price Method

The market price of an equity share, Debenture, Business as quoted on a stock exchange is normally considered as the value of the Equity Shares, debentures, business of that LLP where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares, debentures. But there could be situations where the value of the securities as quoted on the stock market would not be regarded as a proper index of the fair value of the securities, especially where the market values are fluctuating in a volatile capital market.

LLP being Unlisted LLP does not have any security listed on any recognized stock exchange in India. Accordingly, the Market Price Method has not been adopted for the Valuation.

b. Comparable Business 'Quoted Multiple ('CCM') Method

Under this method, value of the security of a LLP is arrived at by using multiples derived from valuations of comparable Businesses, as manifest through stock market valuations of listed Businesses. This valuation is based on the principle that market valuations, taking place between *Informed buyers and Informed sellers*, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

Given this background, we have not adopted the CCM approach for the purpose of Valuation as sufficient information is not available in public domain.

c. Comparable Businesses 'Transaction Multiple ('CTM') Method

Under this method, value of the securities of a LLP business is arrived at by using multiples derived from valuations incomparable Businesses. as manifest through transaction on valuations. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

The CTM approach has not been adopted for the purpose of our analysis as sufficient information is not available in the public domain

B) Income Approach –

a. Discounted Cash Flows ('DCF') Method

Under the DCF method, the projected free cash flows to the business are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm. Using the DCF analysis involves determining the following.

- Estimating future free cash flows
- Free cash flows are the cash flows expected to be generated by the LLP that are available to the providers of the LLP's capital and debt.
- Appropriate discount rate to be applied to cash flows i.e. the weighted average cost of capital; this discount rate, which is applied to the free cash flows to the firm, should reflect the opportunity cost to the debt providers and equity capital providers (namely shareholders). The opportunity cost to the equity capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk. Cost of debt is typically based on market rates
- Weighted Average Cost of Capital of LLP determined at 16.79%, after the explicit period, the business will continue to generate cash. In DCF Method, therefore, perpetuity values also considered to arrive at the business value. For arriving at the perpetuity value, we have considered a growth rate of 5% such growth rate is reasonable considering the growth projected by the LLP and the industry in which the LLP operates.

C) Asset Approach – Net Asset Value ('NAV') Method

The asset-based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. This valuation approach is mainly used in case where the firm is to be liquidated i.e., it does not meet the "going concern" criteria or in case where the assets base exceeds earnings capability or where the future projections cannot be ascertained reasonably. Accordingly, NAV Method has not been applied in this valuation.

ANNEXURE - II

1. Validity of the publication or report: The value assessed herein may change significantly and unexpectedly over a relatively short period (including as a result of general market movements or factors specific to the particular property). I/ We do not accept liability for losses arising from such subsequent changes in value. Without limiting the generality of the above comment, I/ we do not assume any responsibility or accept any liability where this valuation is relied upon after the expiration of 90 days from the date of issuance of this valuation report, or such earlier date if you become aware of any factors that have any effect on the valuation.

All opinions and estimates in this publication or report are, regardless of source, given in good faith, and may only be valid as of the stated date of this publication or report and are subject to change without notice.

2. Market Conditions: The party to which this valuation is addressed should read the basis upon which the valuation has been done and be aware of the potential for later variations in value due to factors that are unforeseen at the date of valuation.

3. Privacy Laws: By reason of the operation of privacy laws, the valuer's enquiries in respect of recent transactions have been constrained. Accordingly, the valuer may not have had access to information on recent transactions which has not yet been published in information sources available to the valuer. If other transactions have taken place, knowledge of those transactions may affect the opinions expressed by the valuer. To the best of my knowledge and belief the statements and opinions in this report are correct and the information provided by others is accurate. However, no responsibility is assumed for its accuracy, which should be checked by appropriate report, search or formal enquiry if required. No responsibility is assumed for matters of a legal nature and the right to expert testimony as part of providing this valuation is expressly excluded.

4. Improvements: It should be noted that I am not an engineer, a plant and equipment, building construction or structural expert and I am therefore unable to certify as to the (structural) soundness of the improvements. I am not qualified to comment on the structural integrity, defect, rot or infestation of the improvements.

5. non-binding advice: The recommendation(s) rendered in the Report only represent our recommendation(s) based upon information furnished by the LLP (or its executives representatives) and other sources and the said recommendation(s) shall be considered to be in the nature of non-binding advice. We have no obligation to update this Report.

6. Responsibility: We have provided our recommendation of the Valuation based on the information available to us and within the scope of our engagement, others may have a different opinion. The final responsibility for value at which the Proposed Transaction shall take place will be with the Designated Partners of the LLP, who should take into account other factors such as their own assessment of the proposed Transaction and input of other advisors

7. Variation: Valuation is based on estimates of future financial performance or opinions that represent reasonable expectations at a particular point in time, but such information, estimates or opinions are not offered as or as assurances that a particular level of income or profit will be achieved, that events will occur, or that a particular price will be offered or accepted. Actual results achieved during the period covered by the prospective financial analysis will vary from these estimates, and the variations may be material

8. No responsibility (Business plan/forecasts received from client without applying test of reasonability and diligence): We have relied on the written representations from the management that the information contained in this report is materially accurate and complete in the manner of its portrayal and therefore forms a reliable basis for the valuation. In accordance with our work order and the customary approach adopted in valuation exercises, we have not audited, reviewed or otherwise investigated the historical financial information provided to us. We have not independently investigated or otherwise verified the data provided by the LLP. Accordingly, we do not express an opinion or offer any form of assurance regarding the truth and fairness of the financial position as indicated in the financial statements.. Accordingly, we assume no responsibility for any errors in the information furnished by the LLP and their impact on the Report

9 No consideration to legal matters (Forecasts received from client without applying test of reasonability and diligence): The Report assumes that the LLP complies fully with relevant laws and regulations applicable in all its areas of operations unless otherwise stated and will be managed in a competent and responsible manner. Further, except as specifically stated to the contrary, this Valuation Report has given no consideration to matters of a legal nature, including issues of legal title and compliance with local laws, and litigation and other contingent liabilities that are not recorded in the audited/unaudited carved out balance sheet

10 Scope of work: Our scope of work did not include checking the adequacy of the carved out financial statements of the LLP and the specified projects and this is the responsibility of the Management and we have assumed these to be correct.

11. Limitations: We are not advisors with respect to accounting, legal, tax and regulatory matters for the proposed transaction. This Report does not look into the business/commercial reasons behind the proposed transaction nor the likely benefits arising out of it. Similarly, it does not address the relative merits of the proposed transaction as compared with any other alternative business transaction, or other alternatives, or whether or not such alternatives could be achieved or are available.

12. Responsibility: We owe responsibility to only the Designated Partners of the LLP that has appointed us under the terms of our work order and nobody else. We will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions of or advice given by any other advisor to the LLP. In no event shall we be liable for any loss, damages, cost or expenses arising in any way from fraudulent acts, misrepresentations or willful default on the part of the LLP, its Designated Partners, employees or agents. Unless specifically agreed, in no circumstances shall the liability of the Valuer, its partners, its designated Partners or employees, relating to the services provided in connection with the engagement set out in this Report exceed the amount paid to the Valuer in respect of the fees charged by it for these services.

13 Contingent liabilities: We have relied on the judgment of the management as regards contingent and other liabilities. Accordingly, our valuation does not consider the assumption of contingent liabilities other than those given to us as likely to crystallize. If there were any omissions, inaccuracies or misrepresentations of the information provided to us, it may have the effect on our valuation computations.

14 Error: The information and material presented in the report are provided for informational purposes only and are not to be used or considered as an offer or a solicitation to sell or buy or subscribe for securities or other financial instruments or any advice or recommendation with respect to such securities or other financial instruments. Neither the valuer nor any of its affiliates makes any representation or warranty or guarantee as to the completeness, accuracy, timeliness or suitability of any information contained within any part of the Report nor that it is free from error. The valuer does not accept any liability (whether in contract, tort or otherwise howsoever and whether or not they have been negligent) for any loss or damage (including, without limitation, loss of profit), which may arise directly or indirectly from use of or reliance on such information.

15 No individual investment or tax advice: This publication or report has been prepared as general information for private use of investors to whom the publication or report has been distributed, but it is not intended as a personal recommendation of particular financial instruments or strategies and thus it does not provide individually tailored investment advice, and does not take into account the individual investor's particular financial situation, existing holdings or liabilities, investment knowledge and experience, investment objective and horizon or risk profile and preferences. The investor bears the risk of losses in connection with an investment. Before acting on any information in this publication or report, it is recommendable to consult one's financial advisor. The information contained in this publication or report does not constitute advice on the tax consequences of making any particular investment decision.

16 Sources: This publication or report may be based on or contain information, such as opinions, recommendations, estimates, price targets and valuations which emanate from the valuer's analysts or representatives, publicly available information, information from other units or other named sources. To the extent this publication or report is based on or contain information emanating from other sources ("Other Sources") than the valuer ("External Information"), the valuer has deemed the other Sources to be reliable but neither the valuer in the Group, others associated or affiliated with said Businesses nor any other person, do guarantee the accuracy, adequacy or completeness of the External Information.

17 Limitation of liability: The valuer assumes no liability as regards to any investment, divestment or retention decision taken by the investor on the basis of this publication or report. In no event will entities of the Group or other associated and affiliated Businesses be liable for direct, indirect or incidental, special or consequential damages resulting from the information in this publication or report.

18. Risk information: The risk of investing in certain financial instruments is generally high, as their market value is exposed to a lot of different factors such as the operational and financial conditions of the relevant LLP, growth prospects, change in interest rates, the economic and political environment, foreign exchange rates, shifts in market sentiments etc. Where an investment or security is denominated in a different currency to the investor's currency of reference, changes in rates of exchange may have an adverse effect on the value, price or income of or from that investment to the investor. Past performance is not a guide to future performance. Estimates of future performance are based on assumptions that may not be realized.

19 Conflicts of interest: The valuer may perform services for, solicit business from, hold long or short positions in, or otherwise be interested in the investments (including derivatives) of any LLP mentioned in the publication or report. To limit possible conflicts of interest and counter the abuse of inside knowledge, the analysts of the valuer are subject to internal rules on sound ethical conduct, the management of inside information, handling of unpublished research material, contact with other units of the Group Businesses and personal account dealing.

20. Variation: Security pricing may vary from actual liquidation value, and custodial statements. Prices shown should only be used as a general guide to portfolio value. Cash shown in the Report may not necessarily be available for investment due to unsettled transactions against your account.

21. Taxation: The levels and bases of taxation may change, and the Report should not be relied upon for tax purposes. Positions are reflected as of trade date and may differ from account statements, which reflect positions as of settlement date. Gains and losses may be higher or lower if cost bases for securities in your account are not available, as the valuer may assume this to be zero or if sourced from different tax information at multiple custodians.

22. Responsibility for information provided by third parties: The valuer does not accept any responsibility or liability for information provided by third parties. Official confirmation of portfolio holdings with these parties and issues arising from information they have provided must be addressed directly with them.

omissions or misstatements may materially affect our conclusions. We take no financial or legal responsibility for the completeness or accuracy of the information that this report is based on.

- b) This engagement doesn't cover our representation / presence on behalf of the Company for projections and assumptions made in their part, before any statutory authorities.
- c) By its very nature, valuation work cannot be regarded as an exact science and given the same set off acts and using the same assumptions, expert opinions may differ due to the number of separate judgment decisions, which have to be made. There can therefore be no standard formula to establish an indisputable value, although certain appropriate formula are useful in establishing reasonableness.
- d) In furnishing the Report, the Valuer reserves the right to amend or replace the Report at any time. Our views are necessarily based on economic, market, and other conditions currently in effect and the information made available to us, as of the date hereof. It should be understood that subsequent developments may affect our views and that we do not have any obligation to update, revise, or reaffirm the views expressed in the Report. Nothing contained within the Report is or should be relied upon as a promise or representation as to the future.
- e) Valuation is based on estimates of future financial performance or opinions that represent reasonable expectations at a particular point in time, but such information, estimates or opinions are not offered as predictions or as assurances that a particular level of income or profit will be achieved, that events will occur, or that a particular price will be offered or accepted. Actual results achieved during the period covered by the prospective financial analysis will vary from these estimates and the variations may be material. Consequently, this information cannot be relied upon to the same extent as that derived from audited accounts for completed accounting periods. We express no opinion as to how closely the actual results will correspond to the results projected.
- f) This Report does not look into the business commercial reasons behind the transaction nor the likely benefits arising out of the same. In addition, we express no opinion or recommendation, and the shareholders are expected to exercise their own discretion.
- g) Our conclusions are based on the assumptions and information given by or on behalf of Company and reliance on public information. The Management of Company has indicated to us that they have understood that any omissions, in accuracies or misstatements may materially affect our valuation analysis results. Accordingly, we assume no responsibility for any errors in the information furnished by Company and their impact on the Report. Nothing has come to our attention to indicate that the information provided was materially incorrect or would not afford reasonable grounds upon which to base the Report.
- h) We have no present or planned future interest in the Company and the fee for this Valuation analysis is not contingent upon the values reported herein.

- i) The report is to be read in totality, and not in parts, in conjunction with the relevant documents referred to herein. The scope of our work has been limited both in terms of the areas of the business and operations which wherever we and the extent to which we have viewed them. There may be matters, other than those noted herein, which might be relevant in the context of the transaction and which a wider scope might uncover.
- j) The Valuation is required solely for non-financial reporting purposes and would not be used to determine the carrying value of the relevant assets (liability) in any financial statement.
- k) We do not accept any liability to any third party in relation to the issue of this Report. It is understood that this analysis does not represent a fairness opinion on the Valuation. This Report is not a substitute for the third party's own due diligence; appraisal; enquiries; independent advice that the third party should undertake for his purpose.
- l) We have obtained from the signed copy of Disclaimer (ANNEXURE-II) from the Management

7. APPROACH AND METHODOLOGY

It should be understood that the valuation of any company business or its assets is inherently imprecise and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made numerous assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of company. Further, this Valuation will fluctuate with lapse of time, changes in prevailing market conditions, the conditions and prospects, financial and otherwise, of company, and other factors which generally influence the valuation of companies and their assets.

The following are commonly used and accepted methods for determining the value of the equity shares of a company business:

A) Market Approach

a. Market Price Method

The market price of an equity share / Debenture as quoted on a stock exchange is normally considered as the value of the Equity Shares / debentures of that company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares / debentures. But there could be situations where the value of the securities as quoted on the stock market would not be regarded as a proper index of the fair value of the securities, especially where the market values are fluctuating in a volatile capital market.

Company being Unlisted company does not have any security listed on any recognized stock exchange in India. Accordingly, the Market Price Method has not been adopted for the Valuation.

b. Comparable Companies 'Quoted Multiple ('CCM') Method

Under this method, value of the security of a company is arrived at by using multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation is based on the principle that market valuations, taking place between Informed buyers and Informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

Given this background, we have not adopted the CCM approach for the purpose of Valuation as sufficient information is not available in public domain.

c. Comparable Companies 'Transaction Multiple ('CTM') Method

Under this method, value of the securities of a company / business is arrived at by using multiples derived from valuations incomparable companies, as manifest through transaction on valuations. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

The CTM approach has not been adopted for the purpose of our analysis as sufficient information is not available in the public domain.

B) Income Approach –

a. Discounted Cash Flows ('DCF') Method

Under the DCF method, the projected free cash flows to the business are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm. Using the DCF analysis involves determining the following:

- Estimating future free cash flows.
- Free cash flows are the cash flows expected to be generated by the company that are available to the providers of the company's capital and debt.
- Appropriate discount rate to be applied to cash flows i.e., the weighted average cost of capital, this discount rate, which is applied to the free cash flows to the firm, should reflect the opportunity cost to the debt providers and equity capital providers (namely shareholders). The opportunity cost to the equity capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk. Cost of debt is typically based on market rates.
- Weighted Average Cost of Capital of company determined at **18.79%**, after the explicit period, the business will continue to generate cash. In DCF Method, therefore, perpetuity values also considered to arrive at the business value. For arriving at the perpetuity value, we have considered a growth rate of 5%, such growth rate is reasonable considering the growth projected by the Company and the industry in which the Company operates.

C) Asset Approach – Net Asset Value ('NAV') Method

The asset-based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. This valuation approach is mainly used in case where the firm is to be liquidated i.e. it does not meet the "going concern" criteria or in case where the assets base exceeds earnings capability or where the future projections cannot be ascertained reasonably. Accordingly, NAV Method has not been applied in this valuation.

8. NATURE AND SOURCES OF THE INFORMATION USED OR RELIED UPON

For the purpose of this valuation, we have relied upon the undermentioned information and other data supplied by the management of the Company and other sources believed to be reliable.

- Management Certified Provisional Financial Statements of as on March 31, 2023.
- Projected Profit and Loss Statement and Balance Sheet for the period from FY 2023-24 to FY 2027-28.
- Management Representation Letter dated 05th August 2023.
- Such other information and explanation as required by us and provided by the management. We have also placed reliance on the verbal explanations and information given to us by the promoters of the Company.

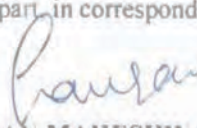

9. CONCLUSION

Based on the information provided by the Company and on valuation technique use as opted as above we conclude that-

The Fair Value per Equity Shares of the Company has been derived at **Rs.79.79 /-per share** of Face Value Rs 10 - The detailed calculation sheet is enclosed here with as **Annexure-I**

ANNEXURE - II

1. Validity of the publication or report: The value assessed herein may change significantly and unexpectedly over a relatively short period (including as a result of general market movements or factors specific to the particular property). I do not accept liability for losses arising from such subsequent changes in value. Without limiting the generality of the above comment, I do not assume any responsibility or accept any liability where this valuation is relied upon after the expiration of 90 days from the date of issuance of this valuation report, or such earlier date if you become aware of any factors that have any effect on the valuation.

All opinions and estimates in this publication or report are, regardless of source, given in good faith, and may only be valid as of the stated date of this publication or report and are subject to change without notice

2. Market Conditions: The party to which this valuation is addressed should read the basis upon which the valuation has been done and be aware of the potential for later variations in value due to factors that are unforeseen at the date of valuation

3. Privacy Laws By reason of the operation of privacy laws, the valuer's enquiries in respect of recent transactions have been constrained. Accordingly, the valuer may not have had access to information on recent transactions which has not yet been published in information sources available to the valuer. If other transactions have taken place, knowledge of those transactions may affect the opinions expressed by the valuer. To the best of my knowledge and belief, the statements and opinions in this report are correct and the information provided by others is accurate. However, no responsibility is assumed for its accuracy, which should be checked by appropriate report, search or formal enquiry if required. No responsibility is assumed for matters of a legal nature and the right to expert testimony as part of providing this valuation is expressly excluded.

4. Improvements: It should be noted that I am not an engineer, a plant and equipment, building construction or structural expert and I am therefore unable to certify as to the (structural) soundness of the improvements. I am not qualified to comment on the structural integrity, defect, rot or infestation of the improvements.

5. non-binding advice The recommendation(s) rendered in the Report only represent our recommendation(s) based upon information furnished by the Company (or its executives/representatives) and other sources and the said recommendation(s) shall be considered to be in the nature of non-binding advice. We have no obligation to update this Report.

6. Responsibility: We have provided our recommendation of the Valuation based on the information available to us and within the scope of our engagement, others may have a different opinion. The final responsibility for value at which the Proposed Transaction shall take place will be with the Board of Directors of the Company, who should take into account other factors such as their own assessment of the proposed Transaction and input of other advisors.

7 Variation. Valuation is based on estimates of future financial performance or opinions that represent reasonable expectations at a particular point in time, but such information, estimates or opinions are not offered as or as assurances that a particular level of income or profit will be achieved, that events will occur, or that a particular price will be offered or accepted. Actual results achieved during the period covered by the prospective financial analysis will vary from these estimates, and the variations may be material.

8 No responsibility (Business plan/forecasts received from client without applying test of reasonability and diligence): We have relied on the written representations from the management that the information contained in this report is materially accurate and complete in the manner of its portrayal and therefore forms a reliable basis for the valuation. In accordance with our work order and the customary approach adopted in valuation exercises, we have not audited, reviewed or otherwise investigated the historical financial information provided to us. We have not independently investigated or otherwise verified the data provided by the company. Accordingly, we do not express an opinion or offer any form of assurance regarding the truth and fairness of the financial position as indicated in the financial statements. Accordingly, we assume no responsibility for any errors in the information furnished by the company and their impact on the Report.

9 No consideration to legal matters (Forecasts received from client without applying test of reasonability and diligence): The Report assumes that the company complies fully with relevant laws and regulations applicable in all its areas of operations unless otherwise stated and will be managed in a competent and responsible manner. Further, except as specifically stated to the contrary, this Valuation Report has given no consideration to matters of a legal nature including issues of legal title and compliance with local laws, and litigation and other contingent liabilities that are not recorded in the audited unaudited carved out balance sheet.

10 Scope of work: Our scope of work did not include checking the adequacy of the carved out financial statements of the company and the specified projects and this is the responsibility of the Management and we have assumed these to be correct.

11 Limitations: We are not advisors with respect to accounting, legal, tax and regulatory matters for the proposed transaction. This Report does not look into the business commercial reasons behind the proposed transaction nor the likely benefits arising out of it. Similarly, it does not address the relative merits of the proposed transaction as compared with any other alternative business transaction, or other alternatives, or whether or not such alternatives could be achieved or are available.

12. Responsibility: We owe responsibility to only the Board of Directors of the company that has appointed us under the terms of our work order and nobody else. We will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions of or advice given by any other advisor to the company. In no event shall we be liable for any loss, damages, cost or expenses arising in any way from fraudulent acts, misrepresentations or willful default on the part of the company, its directors, employees or agents. Unless specifically agreed, in no circumstances shall the liability of the Valuer, its partners, its directors or employees, relating to the services provided in connection with the engagement set out in this Report exceed the amount paid to the Valuer in respect of the fees charged by it for these services.

13. Contingent liabilities: We have relied on the judgment of the management as regards contingent and other liabilities. Accordingly, our valuation does not consider the assumption of contingent liabilities other than those given to us as likely to crystallize. If there were any omissions, inaccuracies or misrepresentations of the information provided to us, it may have the effect on our valuation computations.

14. Error: The information and material presented in the report are provided for informational purposes only and are not to be used or considered as an offer or a solicitation to sell or buy or subscribe for securities or other financial instruments or any advice or recommendation with respect to such securities or other financial instruments. Neither the valuer nor any of its affiliates makes any representation or warranty or guarantee as to the completeness, accuracy, timeliness or suitability of any information contained within any part of the Report nor that it is free from error. The valuer does not accept any liability (whether in contract, tort or otherwise howsoever and whether or not they have been negligent) for any loss or damage (including, without limitation, loss of profit), which may arise directly or indirectly from use of or reliance on such information.

15. No individual investment or tax advice: This publication or report has been prepared as general information for private use of investors to whom the publication or report has been distributed, but it is not intended as a personal recommendation of particular financial instruments or strategies and thus it does not provide individually tailored investment advice, and does not take into account the individual investor's particular financial situation, existing holdings or liabilities, investment knowledge and experience, investment objective and horizon or risk profile and preferences. The investor bears the risk of losses in connection with an investment. Before acting on any information in this publication or report, it is recommendable to consult one's financial advisor. The information contained in this publication or report does not constitute advice on the tax consequences of making any particular investment decision.

16. Sources: This publication or report may be based on or contain information, such as opinions, recommendations, estimates, price targets and valuations which emanate from the valuer's analysts or representatives, publicly available information, information from other units or other named sources. To the extent this publication or report is based on or contain information emanating from other sources ("Other Sources") than the valuer ("External Information"), the valuer has deemed the other Sources to be reliable but neither the valuer in the Group, others associated or affiliated with said companies nor any other person, do guarantee the accuracy, adequacy or completeness of the External Information.

17. Limitation of liability: The valuer assumes no liability as regards to any investment, divestment or retention decision taken by the investor on the basis of this publication or report. In no event will entities of the Group or other associated and affiliated companies be liable for direct, indirect or incidental special or consequential damages resulting from the information in this publication or report.

18. Risk information The risk of investing in certain financial instruments is generally high, as their market value is exposed to a lot of different factors such as the operational and financial conditions of the relevant company, growth prospects, change in interest rates, the economic and political environment, foreign exchange rates, shifts in market sentiments etc. Where an investment or security is denominated in a different currency to the investor's currency of reference, changes in rates of exchange may have an adverse effect on the value, price or income of or from that investment to the investor. Past performance is not a guide to future performance. Estimates of future performance are based on assumptions that may not be realized.

19. Conflicts of interest: The valuer may perform services for, solicit business from, hold long or short positions in, or otherwise be interested in the investments (including derivatives) of any company mentioned in the publication or report. To limit possible conflicts of interest and counter the abuse of inside knowledge, the analysts of the valuer are subject to internal rules on sound ethical conduct, the management of inside information, handling of unpublished research material, contact with other units of the Group Companies and personal account dealing.

20. Variation: Security pricing may vary from actual liquidation value, and custodial statements. Prices shown should only be used as a general guide to portfolio value. Cash shown in the Report may not necessarily be available for investment due to unsettled transactions against your account.

21. Taxation The levels and bases of taxation may change, and the Report should not be relied upon for tax purposes. Positions are reflected as of trade date and may differ from account statements, which reflect positions as of settlement date. Gains and losses may be higher or lower if cost bases for securities in your account are not available, as the valuer may assume this to be zero or if sourced from different tax information at multiple custodians.

22. Responsibility for information provided by third parties: The valuer does not accept any responsibility or liability for information provided by third parties. Official confirmation of portfolio holdings with these parties and issues arising from information they have provided must be addressed directly with them.

To,
Mr. Mehul Shah,
Chief Financial Officer,
Asian Granito India Limited,
202, Dev Arc, Opposite Iskcon Temple,
Iskcon Cross Road, S. G. Highway
Ahmedabad, Gujarat,

Dear Sir,

Sub: Valuation report of Affil Vitrified Private Limited

With reference to the above subject matter and in continuation of my Valuation Report issued on August 12, 2023, I hereby submit this addendum to that Valuation Report referred herein

Sources of Information considered for the current Valuation analysis:

1. Audited Financials of Affil Vitrified Private Limited as on September 30, 2023.
2. Revised Management Projections for the FY 2023-24 to FY 2027-28 after considering Audited Financials as on September 30, 2023

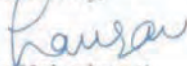

Based on the revised projections and the audited financials as on September 30, 2023, the value of Affil Vitrified Private Limited by Discounted Cash Flows method under income approach is coming at **Rs. 162.95 Crores** and the price per equity share is coming at **Rs. 89.55/-**.

The working of the same is attached herewith as **Annexure - I**.

The detailed valuation analysis is provided separately.

The value of company and its price per equity share derived as per our analysis dated December 15, 2023 is **Rs. 162.95 Crores** and **Rs. 89.55** respectively against the value of company and its price per equity share derived earlier in valuation report dated August 12, 2023 which was **Rs. 162.41 Crores** and **Rs. 89.25** respectively. The value and price determined in both the reports are almost similar and change in the value is very insignificant and non-material in nature.

Thanking You.
Yours sincerely,

Gaurav Maheshwari

Valuation Analysis Report

Our Engagement

AFFIL VITRIFIED PRIVATE LIMITED (here-in-after referred as "AFFIL" or "Company") has approached us for carrying out the valuation analysis of the company for the purpose of acquisition of the company by Asian Granito India Limited ("AGL"). In accordance with the terms of the engagement, I am enclosing our Valuation Report.

GAURAV MAHESHWARI has been hereafter referred to as 'Valuer' or 'we' or 'i' or 'us' in this Report (Valuation Report' or 'Report').

In line with fair valuation requirements, the shares of the Company have been valued as per internationally accepted methods of valuation to determine price of such shares. We have used the Discounted Cash Flow ("DCF") method to value the said shares as this is the most suitable method under the specific situation.

The summary workings for arriving at the fair value of Company are as under-

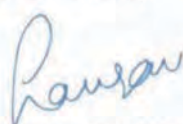

Valuation summary			
Sr No	Particulars	Unit	Values
1	Fair Value per Equity Shares	INR per share	89.55/-

This Valuation Analysis is confidential and has been prepared exclusively for the management of Company. It should not be used, reproduced or circulated to any other person, in whole or in part, without the prior consent of GAURAV MAHESHWARI Registered Valuer. Such consent will only be given after full consideration of the circumstance at the time. We are however aware that the conclusion in this report may be used for the purpose of certain statutory disclosures and we provide consent for the same.

Trust the above meets our requirements.

- for projections and assumptions made in their report, before any statutory authorities.
- c. By its very nature, valuation work cannot be regarded as an exact science and given the same set off acts and using the same assumptions, expert opinions may differ due to the number of separate judgment decisions, which have to be made. There can therefore be no standard formulae to establish an indisputable value, although certain appropriate formulae are useful in establishing reasonableness.
 - d. In furnishing the Report, the Valuer reserves the right to amend or replace the Report at any time. Our views are necessarily based on economic market and other conditions currently in effect and the information made available to us, as of the date hereof. It should be understood that subsequent developments may affect our views and that we do not have any obligation to update, revise, or reaffirm the views expressed in the Report. Nothing contained within the Report is or should be relied upon as a promise or representation as to the future.
 - e. Valuation is based on estimates of future financial performance or opinions that represent reasonable expectations at a particular point in time, but such information, estimates or opinions are not offered as predictions or as assurances that a particular level of income or profit will be achieved, that events will occur or that a particular price will be offered or accepted. Actual results achieved during the period covered by the prospective financial analysis will vary from these estimates and the variations may be material. Consequently, this information cannot be relied upon to the same extent as that derived from audited accounts for completed accounting periods. We express no opinion as to how closely the actual results will correspond to the results projected.
 - f. This Report does not look into the business commercial reasons behind the transaction nor the likely benefits arising out of the same. In addition, we express no opinion or recommendation, and the shareholders are expected to exercise their own discretion.
 - g. Our conclusions are based on the assumptions and information given by or on behalf of Company and reliance on public information. The Management of Company has indicated to us that they have understood that any omissions, inaccuracies or misstatements may materially affect our valuation analysis; results. Accordingly, we assume no responsibility for any errors in the information furnished by Company and their impact on the Report. Nothing has come to our attention to indicate that the information provided was materially incorrect or would not afford reasonable grounds upon which to base the Report.
 - h. We have no present or planned future interest in the Company and the fee for this Valuation analysis is not contingent upon the values reported herein.
 - i. The report is to be read in totality, and not in parts, in conjunction with the relevant documents referred to herein. The scope of our work has been limited both in terms of the areas of the business and operations which wherever we and the extent to which we have viewed them. There may be matters, other than those noted herein, which might be relevant in the context of the transaction and which a wider scope might uncover.

7. APPROACH AND METHODOLOGY

It should be understood that the valuation of any company business or its assets is inherently imprecise and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made numerous assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of company. Further, this Valuation will fluctuate with lapse of time, changes in prevailing market conditions, the conditions and prospects, financial and otherwise, of company and other factors which generally influence the valuation of companies and their assets.

The following are commonly used and accepted methods for determining the value of the equity shares of a company business

A) Market Approach

a Market Price Method

The market price of an equity share / Debenture as quoted on a stock exchange is normally considered as the value of the Equity Shares / debentures of that company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares / debentures. But there could be situations where the value of the securities as quoted on the stock market would not be regarded as a proper index of the fair value of the securities, especially where the market values are fluctuating in a volatile capital market.

Company being Unlisted company does not have any security listed on any recognized stock exchange in India. Accordingly, the Market Price Method has not been adopted for the Valuation.

b) **Comparable Companies 'Quoted Multiple ('CCM') Method**

Under this method, value of the security of a company is arrived at by using multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation is based on the principle that market valuations, taking place between Informed buyers and Informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

Given this background, we have not adopted the CCM approach for the purpose of Valuation as sufficient information is not available in public domain.

c) **Comparable Companies 'Transaction Multiple ('CTM') Method**

Under this method, value of the securities of a company business is arrived at by using multiples derived from valuations incomparable companies, as manifest through transaction on valuations. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

The CTM approach has not been adopted for the purpose of our analysis as sufficient information is not available in the public domain

B) **Income Approach –**

a) **Discounted Cash Flows ('DCF') Method**

Under the DCF method, the projected free cash flows to the business are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm. Using the DCF analysis involves determining the following.

- Estimating future free cash flows
- Free cash flows are the cash flows expected to be generated by the company that are available to the providers of the company's capital and debt
- Appropriate discount rate to be applied to cash flows i.e. the weighted average cost of capital; this discount rate, which is applied to the free cash flows to the firm, should reflect the opportunity cost to the debt providers and equity capital providers (namely shareholders). The opportunity cost to the equity capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk. Cost of debt is typically based on market rates.
- Weighted Average Cost of Capital of company determined at 19.01%, after the explicit period, the business will continue to generate cash. In DCF Method, therefore, perpetuity values also considered to arrive at the business value. For arriving at the perpetuity value, we have considered a growth rate of 5%, such growth rate is reasonable considering the growth projected by the Company and the industry in which the Company operates.

C) Asset Approach – Net Asset Value ('NAV') Method

The asset-based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. This valuation approach is mainly used in case where the firm is to be liquidated i.e., it does not meet the "going concern" criteria or in case where the assets base exceeds earnings capability or where the future projections cannot be ascertained reasonably. Accordingly, NAV Method has not been applied in this valuation

8. NATURE AND SOURCES OF THE INFORMATION USED OR RELIED UPON

ANNEXURE - II

1 Validity of the publication or report: The value assessed herein may change significantly and unexpectedly over a relatively short period (including as a result of general market movements or factors specific to the particular property). I/ We do not accept liability for losses arising from such subsequent changes in value. Without limiting the generality of the above comment, I we do not assume any responsibility or accept any liability where this valuation is relied upon after the expiration of 90 days from the date of issuance of this valuation report, or such earlier date if you become aware of any factors that have any effect on the valuation

All opinions and estimates in this publication or report are, regardless of source, given in good faith and may only be valid as of the stated date of this publication or report and are subject to change without notice.

2 Market Conditions: The party to which this valuation is addressed should read the basis upon which the valuation has been done and be aware of the potential for later variations in value due to factors that are unforeseen at the date of valuation.

3 Privacy Laws By reason of the operation of privacy laws, the valuer's enquiries in respect of recent transactions have been constrained. Accordingly, the valuer may not have had access to information on recent transactions which has not yet been published in information sources available to the valuer. If other transactions have taken place, knowledge of those transactions may affect the opinions expressed by the valuer. To the best of my knowledge and belief the statements and opinions in this report are correct and the information provided by others is accurate. However, no responsibility is assumed for its accuracy, which should be checked by appropriate report, search or formal enquiry if required. No responsibility is assumed for matters of a legal nature and the right to expert testimony as part of providing this valuation is expressly excluded.

4. Improvements: It should be noted that I am not an engineer, a plant and equipment, building construction or structural expert and I am therefore unable to certify as to the (structural) soundness of the improvements. I am not qualified to comment on the structural integrity, defect, rot or infestation of the improvements.

5 non-binding advice: The recommendation(s) rendered in the Report only represent our recommendation(s) based upon information furnished by the Company (or its executives/representatives) and other sources and the said recommendation(s) shall be considered to be in the nature of non-binding advice. We have no obligation to update this Report.

6. Responsibility: We have provided our recommendation of the Valuation based on the information available to us and within the scope of our engagement, others may have a different opinion. The final responsibility for value at which the Proposed Transaction shall take place will be with the Board of Directors of the Company, who should take into account other factors such as their own assessment of the proposed Transaction and input of other advisors

7. Variation. Valuation is based on estimates of future financial performance or opinions that represent reasonable expectations at a particular point in time, but such information, estimates or opinions are not offered as or as assurances that a particular level of income or profit will be achieved, that events will occur, or that a particular price will be offered or accepted. Actual results achieved during the period covered by the prospective financial analysis will vary from these estimates, and the variations may be material.

8. No responsibility (Business plan/forecasts received from client without applying test of reasonability and diligence): We have relied on the written representations from the management that the information contained in this report is materially accurate and complete in the manner of its portrayal and therefore forms a reliable basis for the valuation. In accordance with our work order and the customary approach adopted in valuation exercises, we have not audited, reviewed or otherwise investigated the historical financial information provided to us. We have not independently investigated or otherwise verified the data provided by the company. Accordingly, we do not express an opinion or offer any form of assurance regarding the truth and fairness of the financial position as indicated in the financial statements. Accordingly, we assume no responsibility for any errors in the information furnished by the company and their impact on the Report.

9. No consideration to legal matters (Forecasts received from client without applying test of reasonability and diligence): The Report assumes that the company complies fully with relevant laws and regulations applicable in all its areas of operations unless otherwise stated and will be managed in a competent and responsible manner. Further, except as specifically stated to the contrary, this Valuation Report has given no consideration to matters of a legal nature, including issues of legal title and compliance with local laws, and litigation and other contingent liabilities that are not recorded in the audited/unaudited carved out balance sheet.

10. Scope of work: Our scope of work did not include checking the adequacy of the carved out financial statements of the company and the specified projects and this is the responsibility of the Management and we have assumed these to be correct.

11. Limitations: We are not advisors with respect to accounting, legal, tax and regulatory matters for the proposed transaction. This Report does not look into the business commercial reasons behind the proposed transaction nor the likely benefits arising out of it. Similarly, it does not address the relative merits of the proposed transaction as compared with any other alternative business transaction, or other alternatives, or whether or not such alternatives could be achieved or are available.

12. Responsibility: We owe responsibility to only the Board of Directors of the company that has appointed us under the terms of our work order and nobody else. We will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions of or advice given by any other advisor to the company. In no event shall we be liable for any loss, damages, cost or expenses arising in any way from fraudulent acts, misrepresentations or willful default on the part of the company, its directors, employees or agents. Unless specifically agreed, in no circumstances shall the liability of the Valuer, its partners, its directors or employees, relating to the services provided in connection with the engagement set out in this Report exceed the amount paid to the Valuer in respect of the fees charged by it for these services.

13. Contingent liabilities: We have relied on the judgment of the management as regards contingent and other liabilities. Accordingly, our valuation does not consider the assumption of contingent liabilities other than those given to us as likely to crystallize. If there were any omissions, inaccuracies or misrepresentations of the information provided to us, it may have the effect on our valuation computations.

14. Error: The information and material presented in the report are provided for informational purposes only and are not to be used or considered as an offer or a solicitation to sell or buy or subscribe for securities or other financial instruments or any advice or recommendation with respect to such securities or other financial instruments. Neither the valuer nor any of its affiliates makes any representation or warranty or guarantee as to the completeness, accuracy, timeliness or suitability of any information contained within any part of the Report nor that it is free from error. The valuer does not accept any liability (whether in contract, tort or otherwise howsoever and whether or not they have been negligent) for any loss or damage (including, without limitation, loss of profit), which may arise directly or indirectly from use of or reliance on such information.

15. No individual investment or tax advice: This publication or report has been prepared as general information for private use of investors to whom the publication or report has been distributed, but it is not intended as a personal recommendation of particular financial instruments or strategies and thus it does not provide individually tailored investment advice, and does not take into account the individual investor's particular financial situation, existing holdings or liabilities, investment knowledge and experience, investment objective and horizon or risk profile and preferences. The investor bears the risk of losses in connection with an investment. Before acting on any information in this publication or report, it is recommendable to consult one's financial advisor. The information contained in this publication or report does not constitute advice on the tax consequences of making any particular investment decision.

16. Sources: This publication or report may be based on or contain information, such as opinions, recommendations, estimates, price targets and valuations which emanate from the valuer's analysts or representatives, publicly available information, information from other units or other named sources. To the extent this publication or report is based on or contain information emanating from other sources ("Other Sources") than the valuer ("External Information"), the valuer has deemed the other Sources to be reliable but neither the valuer in the Group, others associated or affiliated with said companies nor any other person, do guarantee the accuracy, adequacy or completeness of the External Information.

17. Limitation of liability: The valuer assumes no liability as regards to any investment, divestment or retention decision taken by the investor on the basis of this publication or report. In no event will entities of the Group or other associated and affiliated companies be liable for direct, indirect or incidental, special or consequential damages resulting from the information in this publication or report.

18. Risk information. The risk of investing in certain financial instruments is generally high, as their market value is exposed to a lot of different factors such as the operational and financial conditions of the relevant company, growth prospects, change in interest rates, the economic and political environment, foreign exchange rates, shifts in market sentiments etc. Where an investment or security is denominated in a different currency to the investor's currency of reference, changes in rates of exchange may have an adverse effect on the value, price or income of or from that investment to the investor. Past performance is not a guide to future performance. Estimates of future performance are based on assumptions that may not be realized.

19. Conflicts of interest: The valuer may perform services for, solicit business from, hold long or short positions in, or otherwise be interested in the investments (including derivatives) of any company mentioned in the publication or report. To limit possible conflicts of interest and counter the abuse of inside knowledge, the analysts of the valuer are subject to internal rules on sound ethical conduct, the management of inside information, handling of unpublished research material, contact with other units of the Group Companies and personal account dealing.

20. Variation: Security pricing may vary from actual liquidation value, and custodial statements. Prices shown should only be used as a general guide to portfolio value. Cash shown in the Report may not necessarily be available for investment due to unsettled transactions against your account.

21. Taxation: The levels and bases of taxation may change, and the Report should not be relied upon for tax purposes. Positions are reflected as of trade date and may differ from account statements, which reflect positions as of settlement date. Gains and losses may be higher or lower if cost bases for securities in your account are not available, as the valuer may assume this to be zero or if sourced from different tax information at multiple custodians.

22. Responsibility for information provided by third parties: The valuer does not accept any responsibility or liability for information provided by third parties. Official confirmation of portfolio holdings with these parties and issues arising from information they have provided must be addressed directly with them.

With reference to the above subject matter and in continuation of my Valuation Report issued on August 12, 2023, I hereby submit this addendum to that Valuation Report referred herein.

Sources of Information considered for the current Valuation analysis:

1. Audited Financials of Ivanta Ceramics Industries LLP as on October 08, 2023 (Converted into Ivanta Ceramics Industries Private Limited on October 09, 2023)
2. Revised Management Projections for the FY 2023-24 to FY 2027-28 after considering Audited Financials as on October 08, 2023

Based on the revised projections and the audited financials as on October 08, 2023, the value of Ivanta Ceramics Industries LLP (converted into Ivanta Ceramics Industries Private Limited w.e.f. October 09, 2023) by Discounted Cash Flows method under income approach is coming at **Rs. 156.99 Crores**

The working of the same is attached herewith as **Annexure – I**.

The detailed valuation analysis is provided separately.

The value derived as per our analysis dated December 15, 2023 is **Rs. 156.99 Crores** against the value derived earlier in valuation report dated August 12, 2023 which was **Rs. 156.17 Crores**. The values determined in both the reports are almost similar and change in the value is very insignificant and non-material in nature.

Thanking You.
Yours sincerely,

6. LIMITATION, ASSUMPTIONS, QUALIFICATIONS, EXCLUSIONS AND DISCLAIMER

- a) The course of our analysis, we have relied on financial and operational data provided by management of IVANTA together with information from public sources and Valuation Report of Other Valuers. Without independent verification, we have relied upon these data as accurately reflecting the results of the operations and financial position of IVANTA and matters and items of relevance for the valuation. We assume that management of IVANTA and Valuers have not omitted or misstated any factors of relevance. Any such omissions or misstatements may materially affect our conclusions. We take no financial or legal responsibility for the completeness or accuracy of the information that this report is based on.
- b) This engagement doesn't cover our representation / presence on behalf of the IVANTA for projections and assumptions made in their part, before any statutory authorities.
- c) By its very nature, valuation work cannot be regarded as an exact science and given the same set of facts and using the same assumptions, expert opinions may differ due to the number of separate judgment decisions, which have to be made. There can therefore be no standard formula to establish an indisputable value, although certain appropriate formula are useful in establishing reasonableness.
- d) In furnishing the Report, the Valuer reserves the right to amend or replace the Report at any time. Our views are necessarily based on economic, market, and other conditions currently in effect and the information made available to us, as of the date hereof. It should be understood that subsequent developments may affect our views and that we do not have any obligation to update, revise, or reaffirm the views expressed in the Report. Nothing contained within the Report is or should be relied upon as a promise or representation as to the future.

- e) Valuation is based on estimates of future financial performance or opinions that represent reasonable expectations at a particular point in time, but such information, estimates or opinions are not offered as predictions or as assurances that a particular level of income or profit will be achieved, that events will occur, or that a particular price will be offered or accepted. Actual results achieved during the period covered by the prospective financial analysis will vary from these estimates and the variations may be material. Consequently, this information cannot be relied upon to the same extent as that derived from audited accounts for completed accounting periods. We express no opinion as to how closely the actual results will correspond to the results projected.
- f) This Report does not look into the business commercial reasons behind the transaction nor the likely benefits arising out of the same. In addition, we express no opinion or recommendation, and the stakeholders are expected to exercise their own discretion.
- g) Our conclusions are based on the assumptions and information given by or on behalf of IVANTA and reliance on public information. The Management of IVANTA has indicated to us that they have understood that any omissions, inaccuracies or misstatements may materially affect our valuation analysis; results. Accordingly, we assume no responsibility for any errors in the information furnished by IVANTA and their impact on the Report. Nothing has come to our attention to indicate that the information provided was materially incorrect or would not afford reasonable grounds upon which to base the Report.
- h) We have no present or planned future interest in the IVANTA and the fee for this Valuation analysis is not contingent upon the values reported herein.
- i) The report is to be read in totality, and not in parts, in conjunction with the relevant documents referred to herein. The scope of our work has been limited both in terms of the areas of the business and operations which we have viewed and the extent to which we have viewed them. There may be matters, other than those noted herein, which might be relevant in the context of the transaction and which a wider scope might uncover.
- j) The Valuation is required solely for non-financial reporting purposes and would not be used to determine the carrying value of the relevant assets (liability) in any financial statement.
- k) We do not accept any liability to any third party in relation to the issue of this Report. It is understood that this analysis does not represent a fairness opinion on the Valuation. This Report is not a substitute for the third party's own due diligence, appraisal, enquiries, independent advice that the third party should undertake for his purpose.
- l) We have obtained from the signed copy of Disclaimer (ANNEXURE-II) from the Management.

7. APPROACH AND METHODOLOGY

It should be understood that the valuation of any business or its assets is inherently imprecise and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made numerous assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of business. Further, this Valuation will fluctuate with lapse of time, changes in prevailing market conditions the conditions and prospects, financial and otherwise, of business, and other factors which generally influence the valuation of Businesses and their assets.

The following are commonly used and accepted methods for determining the value of the business.

A) Market Approach

a. Market Price Method

The market price of an equity share / Debenture / Business as quoted on a stock exchange is normally considered as the value of the Equity Shares / debentures / business of that IVANTA where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares / debentures. But there could be situations where the value of the securities as quoted on the stock market would not be regarded as a proper index of the fair value of the securities, especially where the market values are fluctuating in a volatile capital market.

IVANTA does not have any security listed on any recognized stock exchange in India. Accordingly, the Market Price Method has not been adopted for the Valuation.

b. Comparable Business 'Quoted Multiple ('CCM') Method

Under this method, value of the security of a business is arrived at by using multiples derived from valuations of comparable Businesses, as manifest through stock market valuations of listed Businesses. This valuation is based on the principle that market valuations, taking place between Informed buyers and Informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

Given this background, we have not adopted the CCM approach for the purpose of Valuation as sufficient information is not available in public domain.

c. Comparable Businesses 'Transaction Multiple ('CTM') Method

Under this method, value of the securities of a business is arrived at by using multiples derived from valuations in comparable Businesses, as manifest through transaction on valuations. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

The CTM approach has not been adopted for the purpose of our analysis as sufficient information is not available in the public domain.

B) Income Approach –

a. Discounted Cash Flows ('DCF') Method

Under the DCF method, the projected free cash flows to the business are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm. Using the DCF analysis involves determining the following:

- Estimating future free cash flows
- Free cash flows are the cash flows expected to be generated by the IVANTA that are available to the providers of the IVANTA's capital and debt.
- Appropriate discount rate to be applied to cash flows i.e. the weighted average cost of capital; this discount rate which is applied to the free cash flows to the firm, should reflect the opportunity cost to the debt providers and equity capital providers (namely shareholders). The opportunity cost to the equity capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk. Cost of debt is typically based on market rates.
- Weighted Average Cost of Capital of IVANTA determined at 16.99%, after the explicit period, the business will continue to generate cash. In DCF Method, therefore, perpetuity values also considered to arrive at the business value. For arriving at the perpetuity value, we have considered a growth rate of 5%. such growth rate is reasonable considering the growth projected by the IVANTA and the industry in which IVANTA operates.

C) Asset Approach – Net Asset Value ('NAV') Method

The asset-based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. This valuation approach is mainly used in case where the firm is to be liquidated i.e., it does not meet the "going concern" criteria or in case where the assets base exceeds earnings capability or where the future projections cannot be ascertained reasonably. Accordingly, NAV Method has not been applied in this valuation.

8. NATURE AND SOURCES OF THE INFORMATION USED OR RELIED UPON

For the purpose of this valuation, we have relied upon the undermentioned information and other data supplied by the management of the IVANTA and other sources believed to be reliable

- Audited Financial Statements as on 8th October, 2023.
- Projected Profit and Loss Statement and Balance Sheet for the period from FY 2023-24 to FY 2027-28.
- Management Representation Letter dated 12th December 2023
- Such other information and explanation as required by us and provided by the management. We have also placed reliance on the verbal explanations and information given to us by the promoters of the IVANTA.

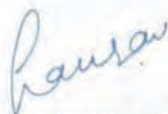

9. CONCLUSION

Based on the information provided by IVANTA and on valuation technique use as opted as above we conclude that-

The Total Valuation of IVANTA has been derived at **Rs. 156.99 Crore** /-. The detailed calculation sheet is enclosed here with as **Annexure-I**

10. CONFIDENTIALITY

ANNEXURE - II

1. Validity of the publication or report: The value assessed herein may change significantly and unexpectedly over a relatively short period (including as a result of general market movements or factors specific to the particular property). I/ We do not accept liability for losses arising from such subsequent changes in value. Without limiting the generality of the above comment, I/ we do not assume any responsibility or accept any liability where this valuation is relied upon after the expiration of 90 days from the date of issuance of this valuation report, or such earlier date if you become aware of any factors that have any effect on the valuation.

All opinions and estimates in this publication or report are, regardless of source, given in good faith, and may only be valid as of the stated date of this publication or report and are subject to change without notice.

2. Market Conditions: The party to which this valuation is addressed should read the basis upon which the valuation has been done and be aware of the potential for later variations in value due to factors that are unforeseen at the date of valuation.

3. Privacy Laws: By reason of the operation of privacy laws, the valuer's enquiries in respect of recent transactions have been constrained. Accordingly, the valuer may not have had access to information on recent transactions which has not yet been published in information sources available to the valuer. If other transactions have taken place, knowledge of those transactions may affect the opinions expressed by the valuer. To the best of my knowledge and belief the statements and opinions in this report are correct and the information provided by others is accurate. However, no responsibility is assumed for its accuracy, which should be checked by appropriate report, search or formal enquiry if required. No responsibility is assumed for matters of a legal nature and the right to expert testimony as part of providing this valuation is expressly excluded.

4. Improvements: It should be noted that I am not an engineer, a plant and equipment, building construction or structural expert and I am therefore unable to certify as to the (structural) soundness of the improvements. I am not qualified to comment on the structural integrity, defect, rot or infestation of the improvements.

5. non-binding advice: The recommendation(s) rendered in the Report only represent our recommendation(s) based upon information furnished by the IVANTA (or its executives/representatives) and other sources and the said recommendation(s) shall be considered to be in the nature of non-binding advice. We have no obligation to update this Report.

6. Responsibility: We have provided our recommendation of the Valuation based on the information available to us and within the scope of our engagement, others may have a different opinion. The final responsibility for value at which the Proposed Transaction shall take place will be with the Designated Partners of the IVANTA, who should take into account other factors such as their own assessment of the proposed Transaction and input of other advisors.

7. Variation: Valuation is based on estimates of future financial performance or opinions that represent reasonable expectations at a particular point in time, but such information, estimates or opinions are not offered as or as assurances that a particular level of income or profit will be achieved, that events will occur, or that a particular price will be offered or accepted. Actual results achieved during the period covered by the prospective financial analysis will vary from these estimates, and the variations may be material.

8 No responsibility (Business plan/forecasts received from client without applying test of reasonability and diligence): We have relied on the written representations from the management that the information contained in this report is materially accurate and complete in the manner of its portrayal and therefore forms a reliable basis for the valuation. In accordance with our work order and the customary approach adopted in valuation exercises, we have not audited, reviewed or otherwise investigated the historical financial information provided to us. We have not independently investigated or otherwise verified the data provided by IVANTA. Accordingly, we do not express an opinion or offer any form of assurance regarding the truth and fairness of the financial position as indicated in the financial statements. Accordingly, we assume no responsibility for any errors in the information furnished by IVANTA and their impact on the Report.

9 No consideration to legal matters (Forecasts received from client without applying test of reasonability and diligence): The Report assumes that IVANTA complies fully with relevant laws and regulations applicable in all its areas of operations unless otherwise stated and will be managed in a competent and responsible manner. Further, except as specifically stated to the contrary, this Valuation Report has given no consideration to matters of a legal nature, including issues of legal title and compliance with local laws, and litigation and other contingent liabilities that are not recorded in the audited/unaudited carved out balance sheet.

10 Scope of work: Our scope of work did not include checking the adequacy of the carved out financial statements of IVANTA and the specified projects and this is the responsibility of the Management and we have assumed these to be correct.

11. Limitations: We are not advisors with respect to accounting, legal, tax and regulatory matters for the proposed transaction. This Report does not look into the business/commercial reasons behind the proposed transaction nor the likely benefits arising out of it. Similarly, it does not address the relative merits of the proposed transaction as compared with any other alternative business transaction, or other alternatives, or whether or not such alternatives could be achieved or are available.

12. Responsibility: We owe responsibility to only the Designated Partners of IVANTA that has appointed us under the terms of our work order and nobody else. We will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions of or advice given by any other advisor to IVANTA. In no event shall we be liable for any loss, damages, cost or expenses arising in any way from fraudulent acts, misrepresentations or willful default on the part of IVANTA, its Designated Partners, employees or agents. Unless specifically agreed, in no circumstances shall the liability of the Valuer, its partners, its designated Partners or employees, relating to the services provided in connection with the engagement set out in this Report exceed the amount paid to the Valuer in respect of the fees charged by it for these services.

13 Contingent liabilities: We have relied on the judgment of the management as regards contingent and other liabilities. Accordingly, our valuation does not consider the assumption of contingent liabilities other than those given to us as likely to crystallize. If there were any omissions, inaccuracies or misrepresentations of the information provided to us, it may have the effect on our valuation computations.

14 Error: The information and material presented in the report are provided for informational purposes only and are not to be used or considered as an offer or a solicitation to sell or buy or subscribe for securities or other financial instruments or any advice or recommendation with respect

To the extent this publication or report is based on or contain information emanating from other sources ("Other Sources") than the valuer ("External Information"), the valuer has deemed the other Sources to be reliable but neither the valuer in the Group, others associated or affiliated with said Businesses nor any other person, do guarantee the accuracy, adequacy or completeness of the External Information.

17 Limitation of liability: The valuer assumes no liability as regards to any investment, divestment or retention decision taken by the investor on the basis of this publication or report. In no event will entities of the Group or other associated and affiliated Businesses be liable for direct, indirect or incidental, special or consequential damages resulting from the information in this publication or report.

18. Risk information: The risk of investing in certain financial instruments is generally high, as their market value is exposed to a lot of different factors such as the operational and financial conditions of the relevant business, growth prospects, change in interest rates, the economic and political environment, foreign exchange rates, shifts in market sentiments etc. Where an investment or security is denominated in a different currency to the investor's currency of reference, changes in rates of exchange may have an adverse effect on the value, price or income of or from that investment to the investor. Past performance is not a guide to future performance. Estimates of future performance are based on assumptions that may not be realized.

19 Conflicts of interest: The valuer may perform services for, solicit business from, hold long or short positions in, or otherwise be interested in the investments (including derivatives) of any business mentioned in the publication or report. To limit possible conflicts of interest and counter the abuse of inside knowledge, the analysts of the valuer are subject to internal rules on sound ethical conduct, the management of inside information, handling of unpublished research material, contact with other units of the Group Businesses and personal account dealing.

To,
Mr. Mehul Shah,
Chief Financial Officer,
Asian Granito India Limited,
202, Dev Arc, Opposite Iskcon Temple,
Iskcon Cross Road, S. G. Highway
Ahmedabad, Gujarat,

Dear Sir,

Sub: Valuation report of Crystal Ceramic Industries Limited

With reference to the above subject matter and in continuation of my Valuation Report issued on August 12, 2023, I hereby submit this addendum to that Valuation Report referred herein.

Sources of Information considered for the current Valuation analysis:

1. Audited Financials of Crystal Ceramic Industries Limited as on September 30, 2023.
2. Revised Management Projections for the FY 2023-24 to FY 2027-28 after considering Audited Financials as on September 30, 2023.

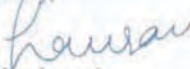

Based on the revised projections and the audited financials as on September 30, 2023, the value of Crystal Ceramic Industries Limited by Discounted Cash Flows method under income approach is coming at **Rs. 322.37 Crores** and the price per equity share is coming at **Rs. 79.99/-**.

The working of the same is attached herewith as **Annexure – I**

The detailed valuation analysis is provided separately.

The value of company and its price per equity share derived as per our analysis dated December 15, 2023 is **Rs. 322.37 Crores** and **Rs. 79.99** respectively against the value of company and its price per equity share derived earlier in valuation report dated August 12, 2023 which was **Rs. 321.54 Crores** and **Rs. 79.79** respectively. The value and price determined in both the reports are almost similar and change in the value is very insignificant and non-material in nature.

Thanking You.
Yours sincerely,

Gaurav Maheshwari

7. APPROACH AND METHODOLOGY

It should be understood that the valuation of any company business or its assets is inherently imprecise and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made numerous assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of company. Further, this Valuation will fluctuate with lapse of time, changes in prevailing market conditions, the conditions and prospects, financial and otherwise, of company, and other factors which generally influence the valuation of companies and their assets.

The following are commonly used and accepted methods for determining the value of the equity shares of a company business:

A) Market Approach

a. Market Price Method

The market price of an equity share / Debenture as quoted on a stock exchange is normally considered as the value of the Equity Shares / debentures of that company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares/debentures. But there could be situations where the value of the securities as quoted on the stock market would not be regarded as a proper index of the fair value of the securities, especially where the market values are fluctuating in a volatile capital market.

Company being Unlisted company does not have any security listed on any recognized stock exchange in India. Accordingly, the Market Price Method has not been adopted for the Valuation.

Mobile No.: 91-9314076998

b. Comparable Companies 'Quoted Multiple ('CCM') Method

Under this method, value of the security of a company is arrived at by using multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation is based on the principle that market valuations, taking place between Informed buyers and Informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

Given this background, we have not adopted the CCM approach for the purpose of Valuation as sufficient information is not available in public domain.

c. Comparable Companies 'Transaction Multiple ('CTM') Method

Under this method, value of the securities of a company business is arrived at by using multiples derived from valuations of comparable companies, as manifest through transaction valuations. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

The CTM approach has not been adopted for the purpose of our analysis as sufficient information is not available in the public domain.

B) Income Approach –

a. Discounted Cash Flows ('DCF') Method

Under the DCF method, the projected free cash flows to the business are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm. Using the DCF analysis involves determining the following:

- Estimating future free cash flows
- Free cash flows are the cash flows expected to be generated by the company that are available to the providers of the company's capital and debt
- Appropriate discount rate to be applied to cash flows i.e. the weighted average cost of capital; this discount rate, which is applied to the free cash flows to the firm, should reflect the opportunity cost to the debt providers and equity capital providers (namely shareholders). The opportunity cost to the equity capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk. Cost of debt is typically based on market rates.
- Weighted Average Cost of Capital of company determined at **19.01%**, after the explicit period, the business will continue to generate cash. In DCF Method, therefore, perpetuity values also considered to arrive at the business value. For arriving at the perpetuity value, we have considered a growth rate of **5%**, such growth rate is reasonable considering the growth projected by the Company and the industry in which the Company operates.

Mobile No. : 91-9314076998

C) Asset Approach – Net Asset Value ('NAV') Method

The asset-based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. This valuation approach is mainly used in case where the firm is to be liquidated i.e., it does not meet the "going concern" criteria or in case where the assets base exceeds earnings capability or where the future projections cannot be ascertained reasonably. Accordingly, NAV Method has not been applied in this valuation.

8. NATURE AND SOURCES OF THE INFORMATION USED OR RELIED UPON

For the purpose of this valuation, we have relied upon the undermentioned information and other data supplied by the management of the Company and other sources believed to be reliable

- Audited Financial Statements of as on September 30, 2023.
- Projected Profit and Loss Statement and Balance Sheet for the period from FY 2023-24 to FY 2027-28.
- Management Representation Letter dated 12th December 2023
- Such other information and explanation as required by us and provided by the management. We have also placed reliance on the verbal explanations and information given to us by the promoters of the Company

9. CONCLUSION

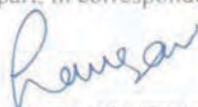

Based on the information provided by the Company and on valuation technique use as opted as above we conclude that-

- a. The Fair Value of the Company has been derived at **Rs. 322.37 Crores**
- b. The Fair Value per Equity Shares of the Company has been derived at **Rs. 79.99 /-per share** of Face Value Rs.10/-

The detailed calculation sheet is enclosed here with as **Annexure-I**

ANNEXURE - II

1 Validity of the publication or report: The value assessed herein may change significantly and unexpectedly over a relatively short period (including as a result of general market movements or factors specific to the particular property). I/ We do not accept liability for losses arising from such subsequent changes in value. Without limiting the generality of the above comment, I/ we do not assume any responsibility or accept any liability where this valuation is relied upon after the expiration of 90 days from the date of issuance of this valuation report, or such earlier date if you become aware of any factors that have any effect on the valuation

All opinions and estimates in this publication or report are, regardless of source, given in good faith, and may only be valid as of the stated date of this publication or report and are subject to change without notice

2 Market Conditions: The party to which this valuation is addressed should read the basis upon which the valuation has been done and be aware of the potential for later variations in value due to factors that are unforeseen at the date of valuation.

3 Privacy Laws: By reason of the operation of privacy laws, the valuer's enquiries in respect of recent transactions have been constrained. Accordingly, the valuer may not have had access to information on recent transactions which has not yet been published in information sources available to the valuer. If other transactions have taken place, knowledge of those transactions may affect the opinions expressed by the valuer. To the best of my knowledge and belief, the statements and opinions in this report are correct and the information provided by others is accurate. However, no responsibility is assumed for its accuracy, which should be checked by appropriate report, search or formal enquiry if required. No responsibility is assumed for matters of a legal nature and the right to expert testimony as part of providing this valuation is expressly excluded.

4 Improvements: It should be noted that I am not an engineer, a plant and equipment, building construction or structural expert and I am therefore unable to certify as to the (structural) soundness of the improvements. I am not qualified to comment on the structural integrity, defect, rot or infestation of the improvements.

5. non-binding advice: The recommendation(s) rendered in the Report only represent our recommendation(s) based upon information furnished by the Company (or its executives/representatives) and other sources and the said recommendation(s) shall be considered to be in the nature of non-binding advice. We have no obligation to update this Report.

6 Responsibility: We have provided our recommendation of the Valuation based on the information available to us and within the scope of our engagement, others may have a different opinion. The final responsibility for value at which the Proposed Transaction shall take place will be with the Board of Directors of the Company, who should take into account other factors such as their own assessment of the proposed Transaction and input of other advisors.

7. **Variation** Valuation is based on estimates of future financial performance or opinions that represent reasonable expectations at a particular point in time, but such information, estimates or opinions are not offered as or as assurances that a particular level of income or profit will be achieved, that events will occur, or that a particular price will be offered or accepted. Actual results achieved during the period covered by the prospective financial analysis will vary from these estimates, and the variations may be material.

8. **No responsibility (Business plan/forecasts received from client without applying test of reasonability and diligence):** We have relied on the written representations from the management that the information contained in this report is materially accurate and complete in the manner of its portrayal and therefore forms a reliable basis for the valuation. In accordance with our work order and the customary approach adopted in valuation exercises, we have not audited, reviewed or otherwise investigated the historical financial information provided to us. We have not independently investigated or otherwise verified the data provided by the company. Accordingly, we do not express an opinion or offer any form of assurance regarding the truth and fairness of the financial position as indicated in the financial statements... Accordingly, we assume no responsibility for any errors in the information furnished by the company and their impact on the Report.

9. **No consideration to legal matters (Forecasts received from client without applying test of reasonability and diligence):** The Report assumes that the company complies fully with relevant laws and regulations applicable in all its areas of operations unless otherwise stated and will be managed in a competent and responsible manner. Further, except as specifically stated to the contrary, this Valuation Report has given no consideration to matters of a legal nature, including issues of legal title and compliance with local laws, and litigation and other contingent liabilities that are not recorded in the audited/unaudited carved out balance sheet.

10. **Scope of work:** Our scope of work did not include checking the adequacy of the carved out financial statements of the company and the specified projects and this is the responsibility of the Management and we have assumed these to be correct.

11. **Limitations:** We are not advisors with respect to accounting, legal, tax and regulatory matters for the proposed transaction. This Report does not look into the business/commercial reasons behind the proposed transaction nor the likely benefits arising out of it. Similarly, it does not address the relative merits of the proposed transaction as compared with any other alternative business transaction, or other alternatives, or whether or not such alternatives could be achieved or are available.

12. **Responsibility:** We owe responsibility to only the Board of Directors of the company that has appointed us under the terms of our work order and nobody else. We will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions of or advice given by any other advisor to the company. In no event shall we be liable for any loss, damages, cost or expenses arising in any way from fraudulent acts, misrepresentations or willful default on the part of the company, its directors, employees or agents. Unless specifically agreed, in no circumstances shall the liability of the Valuer, its partners, its directors or employees, relating to the services provided in connection with the engagement set out in this Report exceed the amount paid to the Valuer in respect of the fees charged by it for these services.

13 Contingent liabilities: We have relied on the judgment of the management as regards contingent and other liabilities. Accordingly, our valuation does not consider the assumption of contingent liabilities other than those given to us as likely to crystallize. If there were any omissions, inaccuracies or misrepresentations of the information provided to us, it may have the effect on our valuation computations.

14 Error: The information and material presented in the report are provided for informational purposes only and are not to be used or considered as an offer or a solicitation to sell or buy or subscribe for securities or other financial instruments or any advice or recommendation with respect to such securities or other financial instruments. Neither the valuer nor any of its affiliates makes any representation or warranty or guarantee as to the completeness, accuracy, timeliness or suitability of any information contained within any part of the Report nor that it is free from error. The valuer does not accept any liability (whether in contract, tort or otherwise howsoever and whether or not they have been negligent) for any loss or damage (including, without limitation, loss of profit), which may arise directly or indirectly from use of or reliance on such information.

15 No individual investment or tax advice: This publication or report has been prepared as general information for private use of investors to whom the publication or report has been distributed, but it is not intended as a personal recommendation of particular financial instruments or strategies and thus it does not provide individually tailored investment advice, and does not take into account the individual investor's particular financial situation, existing holdings or liabilities, investment knowledge and experience, investment objective and horizon or risk profile and preferences. The investor bears the risk of losses in connection with an investment. Before acting on any information in this publication or report, it is recommendable to consult one's financial advisor. The information contained in this publication or report does not constitute advice on the tax consequences of making any particular investment decision.

16. Sources: This publication or report may be based on or contain information, such as opinions, recommendations, estimates, price targets and valuations which emanate from the valuer's analysts or representatives, publicly available information, information from other units or other named sources. To the extent this publication or report is based on or contain information emanating from other sources ("Other Sources") than the valuer ("External Information"), the valuer has deemed the other Sources to be reliable but neither the valuer in the Group, others associated or affiliated with said companies nor any other person, do guarantee the accuracy, adequacy or completeness of the External Information.

17 Limitation of liability: The valuer assumes no liability as regards to any investment, divestment or retention decision taken by the investor on the basis of this publication or report. In no event will entities of the Group or other associated and affiliated companies be liable for direct, indirect or incidental, special or consequential damages resulting from the information in this publication or report.

18. Risk information: The risk of investing in certain financial instruments is generally high, as their market value is exposed to a lot of different factors such as the operational and financial conditions of the relevant company, growth prospects, change in interest rates, the economic and political environment, foreign exchange rates, shifts in market sentiments etc. Where an investment or security is denominated in a different currency to the investor's currency of reference, changes in rates of exchange may have an adverse effect on the value, price or income of or from that investment to the investor. Past performance is not a guide to future performance. Estimates of future performance are based on assumptions that may not be realized.

19. Conflicts of interest: The valuer may perform services for, solicit business from, hold long or short positions in, or otherwise be interested in the investments (including derivatives) of any company mentioned in the publication or report. To limit possible conflicts of interest and counter the abuse of inside knowledge, the analysts of the valuer are subject to internal rules on sound ethical conduct, the management of inside information, handling of unpublished research material, contact with other units of the Group Companies and personal account dealing.

20. Variation: Security pricing may vary from actual liquidation value, and custodial statements. Prices shown should only be used as a general guide to portfolio value. Cash shown in the Report may not necessarily be available for investment due to unsettled transactions against your account.

21. Taxation: The levels and bases of taxation may change, and the Report should not be relied upon for tax purposes. Positions are reflected as of trade date and may differ from account statements, which reflect positions as of settlement date. Gains and losses may be higher or lower if cost bases for securities in your account are not available, as the valuer may assume this to be zero or if sourced from different tax information at multiple custodians.

22. Responsibility for information provided by third parties: The valuer does not accept any responsibility or liability for information provided by third parties. Official confirmation of portfolio holdings with these parties and issues arising from information they have provided must be addressed directly with them.

14. Our scope is limited to the purposes stated hereinabove. The Report should not be construed as, our opinion or certifying the compliance of the Proposed Scheme of Arrangement with the provisions of any law including the Companies Act 2013, taxation related laws, capital market related laws, any accounting, taxation or legal implications or issues arising from the Proposed Scheme of Arrangement.
15. Valuation is not a precise science and the conclusions arrived at in many cases will be subjective and dependent on the exercise of individual judgment. There is therefore no indisputable single value. While we have provided an assessment of the value based on an analysis of information available to us and within the scope of our engagement, others may place a different value on the business.
16. This Report does not look into the business/commercial reasons behind the Proposed Scheme of Arrangement nor the likely benefits arising out of the same. Similarly, it does not address the relative merits of the Proposed Scheme of Arrangement as compared with any other alternative business transaction or any other alternatives, whether or not such alternatives could be achieved or are available.
17. Further this Report does not in any manner address the prices at which the equity shares of the Companies will trade following the announcement of the Scheme and we express no opinion or recommendation as to how the shareholders of the Companies should vote at any shareholders meeting to be held in connection with the Proposed Scheme of Arrangement.
18. Whilst all reasonable care has been taken to ensure that the factual statements in the report are accurate, neither us, nor any of our partners, officers or employees shall in any way be liable or responsible either directly or indirectly for the contents stated herein. Accordingly, we make no representation or warranty, express or implied, in respect of the completeness, authenticity or accuracy of such factual statements. We expressly disclaim any and all liabilities which may arise based upon the information used in this report. We are not liable to any party in relation to the issue of this report.
19. Mr. Babulal Sharma (IBBI Reg No. IBBI/RV/06/2019/11766) owes responsibility to only the Boards of Directors of AGL and the Transferors with reference to terms of engagement letter and nobody else. We will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions of or advice given by any other to AGL and the Transferors. In no event shall we be liable for any loss, damages, cost or expenses arising in any way from fraudulent acts, misrepresentations or willful default on part of the companies involved, their directors, employees or agents. In no circumstances shall the liability of a Valuer, its partners, its directors or employees relating to the services provided in connection with the engagement set out in this report shall not exceed the fees paid to such Valuer in respect of the fees charged by it for these services.
20. The recommendation(s) rendered in this report only represent our recommendation(s), based upon information furnished by AGL and the Transferors (or its representatives) and other sources and the said recommendation(s) shall be considered to be in the nature of non-binding advice (our recommendation will however not be used for advising anybody to take buy or sell decision, for which specific opinion needs to be taken from expert advisors). We have no obligation to update this report.
21. A draft of this report was shared with the Companies, prior to finalization of report (excluding the recommended fair equity share exchange ratio) as part of our standard practice to make sure that factual inaccuracy/omission are avoided in the report.

5. Sources of Information:

For the purpose of undertaking this valuation exercise, we have relied on the following sources of information provided by the management representatives of the company:

4. Draft Scheme of Scheme of Arrangement.

6. Procedures Adopted:

In connection with this exercise, we have adopted the following procedures to carry out the valuation:

1. Referred to the Valuation Report of provided by the Valuer for the valuation of the Entire Manufacturing business the Transferors and the CA certificate for the fair market value of each equity share of AGL.

For the purpose of arriving at the valuation of the Companies/businesses we have considered the valuation base as 'Fair Value' and the premise of value is 'Going Concern Value'. Any change in the valuation base, or the premise could have significant impact on our valuation exercise, and therefore, this report:

7. Valuation Approaches

The valuation of any LLP/Company/ business or its assets is inherently uncertain and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made numerous assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of LLP/Company. Further, this Valuation will fluctuate with lapse of time, changes in prevailing market conditions, the conditions, and prospects, financial and otherwise, of LLP/Company, and other factors which generally influence the valuation of Businesses and their assets.

The following are commonly used and accepted methods for determining the value of the business:

A) Market Approach

a. Market Price Method

The market price of an equity share / Debenture / Business as quoted on a stock exchange is normally considered as the value of the Equity Shares / debentures / business of that Company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be imputed in the value of the shares/debentures. But there could be situations where the value of the securities as quoted on the stock market would not be regarded as a proper index of the fair value of the

securities, especially where the market values are fluctuating in a volatile capital market. Value of Asian Granito India Limited is derived using market value approach.

b. Comparable Business 'Quoted Multiple ('CCM') Method

Under this method, value of the securities of a LLP/Company is arrived at by using multiples derived from valuations of comparable Businesses, as manifest through stock market valuations of listed Businesses. This valuation is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

Given this background, we have not adopted the CCM approach for the purpose of Valuation as sufficient information is not available in public domain.

c. Comparable Businesses 'Transaction Multiple ('CTM') Method

Under this method, value of the securities of a LLP/Company / business is arrived at by using multiples derived from valuations of comparable Businesses, as manifest through transaction valuations. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

The CTM approach has not been adopted for the purpose of our analysis as sufficient information is not available in the public domain.

B) Income Approach –

a. Discounted Cash Flows ('DCF') Method

Under the DCF method, the projected free cash flows to the business are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm. Using the DCF analysis involves determining the following:

Estimating future free cash flows

Free cash flows are the cash flows expected to be generated by the LLP/Company that are available to the providers of the LLP/Company's capital and debt.

– Appropriate discount rate to be applied to cash flows i.e., the weighted average cost of capital, this discount rate, which is applied to the free cash flows to the firm, should reflect the opportunity cost to the debt providers and equity capital providers (namely shareholders). The opportunity cost to the equity capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk. Cost of debt is typically based on market rates.

– Weighted Average Cost of Capital of LLP/Company determined at 16.79% whereas for company it is determined at 18.79%, after the explicit period, the business will continue to generate cash. In DCF Method, therefore, perpetuity values also considered to arrive at

BABU LAL SHARMA

Private and Confidential

Registered Valuer

Flat No S-4, H-25 Sapphire Jagan Apartment,
 Tulsi Marg, Banipark, Jaipur, Rajasthan - 302016

the business value. For arriving at the perpetuity value, we have considered a growth rate of 5%, such growth rate is reasonable considering the growth projected by the LLP/Company and the industry in which the LLP/Company operates.

C) Asset Approach – Net Asset Value ('NAV') Method

The asset-based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or replacement value basis or replacement cost basis. This valuation approach is mainly used in case where the firm is to be liquidated. It does not meet the 'going concern' criteria or in case where the assets have exceeded earnings capability or where the future projections cannot be ascertained reasonably. Accordingly, NAV Method has not been applied in this valuation.

8. Basis of Fair Equity Share Swap Ratio

The basis of the fair equity share swap ratio for the Proposed Scheme of Arrangement would have to be determined after taking into consideration all the factors and methods mentioned hereinabove and to arrive at a final value for the shares of each company. It is, however, important to note that in doing so, we are not attempting to arrive at the absolute values of the Companies, but at their relative values to facilitate the determination of the fair equity share swap ratio.

We have independently applied methods discussed above, as considered appropriate, and arrived at their assessment of value per share of the Companies. To arrive at the consensus on the fair equity share swap ratio for the Proposed Scheme of Arrangement, rounding off have been done in the values.

9. Major factors that were considered during the valuation

1. The equity shares of the Companies are listed.
2. Share price of the Companies.
3. Key operating/ financial parameters of the Companies.
4. Valuation Report pertaining the Fair Market Value of Manufacturing Business of the Transferors companies provided by Mr. Gaurav Maheshwari (the ICAI Registered Valuer ('Valuer')) and the CA certificate which is issued by Das Pattnaik & Co – Chartered Accountants Ltd. 11th August, 2023 contains the calculation of the Fair Market Price of each Equity Shares of AGI.

10. Conclusion

We have used the Market Price Method as discussed above and arrived at the recommended fair equity share swap ratio for the proposed Scheme of Arrangement of Transferors into AGI, as follows:

- a) Between Affil Vitrified Private Limited and Asian Granito India Limited

Dear Sir,

SUB: Requirements for draft Composite scheme of arrangement under Sections 230 To 232 read with Section 366 and other applicable provisions of the Companies Act, 2013 amongst Asian Granito India Limited and Affil Vitrified Private Limited and Ivanta Ceramics Industries Private Limited and Crystal Ceramic Industries Limited and Affil Ceramics Limited and Ivanta Ceramic Limited and Crystal Vitrified Limited and Amazoone Ceramics Limited and AGL Industries Limited and their respective shareholders and creditors.

REF: Requirement Letter from NSE dated December 18, 2023 bearing Ref No. NSE/LIST/37299

With reference to the above subject matter and in continuation of my Valuation Report issued on August 12, 2023, I hereby submit addendum to Valuation Report referred herein and state that based on the projections that were shared with me and on considering the latest audited financials of September 30, 2023, the price per share of the Company by Discounted Cash Flows method under income approach is coming at Rs. 19.37/ share.

Sources of Information considered for Issuance of Addendum to Valuation Report

1. Audited Financials of the Company as on September 30, 2023
2. Revised Management Projections after considering Audited Financials as on September 30, 2023
3. Addendum to the Valuation Reports issued by Mr. Gaurav Maheshwari dated December 15, 2023 on Affil Tiles Manufacturing Undertaking of Affil Vitrified Private Limited, Ivanta Tiles Manufacturing Undertaking of Ivanta Ceramics Industries Private Limited and Crystal Tiles Manufacturing Undertaking of Crystal Ceramic Industries Limited

The working after considering the audited financials as on September 30, 2023 is attached herewith as Annexure – 1.

The price after considering the audited financials as on September 30, 2023 is much lower than the price of Rs. 48.91/share as per Market Approach which was found to be higher and correct price as per my valuation report dated 12th August 2023. Since, the price of the share of the Company under the Income Approach (DCF Method) is lower than the price of the share of the Company under the Market Approach, even after considering audited financials not more than 3 months old, it was correct approach to give 100% weightage to Market Approach to arrive at the correct price of the share of the Company for entering into the captioned Scheme of Arrangement, which is in compliance with the SEBI Master Circular SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated June 20, 2023 which requires compliance with the pricing provisions of Chapter V of SEBI Issue of Capital and Disclosure Requirements) Regulations, 2018 and exchange's SOP dated September 29, 2023. Hence, I state that my valuation report dated 12th August 2023 arriving at a per share price of Rs. 48.91/share is true and relevant on the date of issuance of this addendum.

Conclusion

I have used the Market Approach as discussed above and arrived at the recommended fair equity share swap ratio for the proposed Scheme of Arrangement as per following working:

Caveats, Limitation and Disclaimers

i. Restriction on use of Valuation Report

This document has been prepared for the purposes stated herein and should not be relied upon for any other purpose. Our client is the only authorized user of this report and is restricted for the purpose indicated in the engagement letter. This restriction does not preclude the client from providing a copy of the report to third-party advisors whose review would be consistent with the intended use. I do not take any responsibility for the unauthorised use of this report.

ii. Responsibility of RV

We owe responsibility only to the client that has appointed us under the terms of the engagement letters. We will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions or advice given by any other person. In no event shall we be liable for any loss, damages, cost or expenses arising in any way from fraudulent acts, misrepresentations or wilful default on part of the client or companies, their directors, employees or agents.

iii. Accuracy of Information

While our work has involved an analysis of financial information and accounting records, our engagement does not include an audit in accordance with generally accepted auditing standards of the clients existing business records. Accordingly, we express no audit opinion or any other form of assurance on this information.

iv. Achievability of the forecast results

We do not provide assurance on the achievability of the results forecast by the management as events and circumstances do not occur as expected; differences between actual and expected results may be material. We express no opinion as to how closely the actual results will correspond to those projected as the achievement of the forecast results is dependent on actions, plans and assumptions of management.

v. Post Valuation Date Events

The user to which this valuation is addressed should read the basis upon which the valuation has been done and be aware of the potential for later variations in value due to factors that are unforeseen at the valuation date. Due to possible changes in market forces and circumstances, this valuation report can only be regarded as relevant as at the valuation date

vi. Reliance on the representations of the clients, their management and other third parties

The client and its management warranted to us that the information they supplied was complete, accurate and true and correct to the best of their knowledge. We have relied upon the representations of the clients, their management and other third parties concerning the financial data, operational data and maintenance schedule of all plant-

We shall not be liable for any loss, damages, cost or expenses arising from fraudulent acts, misrepresentations, or willful default on part of the companies, their directors, employee or agents.

vii. No procedure performed to corroborate information taken from reliable external sources

We have relied on data from external sources also to conclude the valuation. These sources are believed to be reliable and therefore, we assume no liability for the truth or accuracy of any data, opinions or estimates furnished by others that have been used in this analysis. Where we have relied on data, opinions or estimates from external sources, reasonable care has been taken to ensure that such data has been correctly extracted from those sources or reproduced in its proper form and context.

viii. Compliance with relevant laws

The report assumes that the company complies fully with relevant laws and regulations applicable in its area of operations and usage unless otherwise stated, and that the companies will be managed in a competent and responsible manner. Further, as specifically stated to the contrary, this report has given no consideration to matters of a legal nature, including issues of legal title and compliance with local laws, and litigations and other contingent liabilities that are not reflected in the balance sheet provided to us.

ix. Multiple factors affecting the Valuation Report

The valuation report is tempered by the exercise of judicious discretion by the RV, taking into account the relevant factors. There will always be several factors, e.g. management capability, present and prospective competition, yield on comparable securities, market sentiment, etc. which may not be apparent from the Balance Sheet but could strongly influence the value.

x. Future services including but not limited to Testimony or attendance in courts/ tribunals/ authorities for the opinion of value in the Valuation Report

We are fully aware that based on the opinion of value expressed in this report, we may be required to give testimony or attend court / judicial proceedings with regard to the subject assets, although it is out of scope of the assignment, unless specific arrangements to do so have been made in advance, or as otherwise required by law. In such event, the party seeking our evidence in the proceedings shall bear the cost/professional fee of attending court / judicial proceedings and our tendering evidence before such authority shall be under the applicable laws.

Purpose of the Report

We have been appointed by **ASIAN GRANITO INDIA LIMITED (MARBLE & QUARTZ DIVISION)** (herein after referred to as "*Company*") The Purpose is to ascertain the net-worth of the Business Undertaking for the proposed transaction of Slump Sale as per Section 50B on the Income-tax act,1961.

The company proposed to transfer Marble and Quartz division on a slump sale basis to its wholly owned subsidiary to enable better realization of potential of the businesses and other business considerations.

Under the present facts, the proposed slump sale of Marble and Quartz division is from the holding company (AGL) to its wholly owned subsidiary - Amazoone Ceramics Limited (Amazoone) and as a result of which, post slump sale, the economic and beneficial ownership in such Marble and Quartz business continues to rest with the Holding Company.

Post such transfer, the interest of the shareholders of would not be prejudicially affected based on the consideration attributed to each of such business. Accordingly, the Management of both the companies (AGL and Amazoone) has represented that valuation of Marble and Quartz undertaking being Transferred be conducted based on net-worth as on March 31, 2023 in accordance with the provisions of Section 50B of the Income-tax Act, 1961.

Scope of Work and Bases of Valuation

Our scope of work involved determination of the fair market value of ASIAN GRANITO INDIA LIMITED (MARBLE & QUARTZ DIVISION) a company registered under the Companies Act 2013. The valuation report is based on the information and documents provided by the client and information collected independently by us. We have agreed to determine the value of the company as on date **31st March, 2023** for the purpose of arriving the net-worth value in accordance with the provisions of Section 50B of the Income-tax Act, 1961.

As per the engagement letter dated 10th August,2023 we were required to follow established methods of valuation. As required by ICAI Valuation Standards, we have considered possible and appropriate methods of valuation and provided adequate disclosure of the same in our report.

The Valuation Currency for this Valuation Report is Indian Rupees.

Appointing Authority

Management of **ASIAN GRANITO INDIA LIMITED (MARBLE & QUARTZ DIVISION)** appointed Sejal Agrawal (Registered Valuer cum Chartered Accountant) for valuation.

Disclosure of Registered Valuer's Interest

I have no present or prospective contemplated financial interest in the company nor any personal interest with respect to the Promoters & Board of Directors of the company. I have no bias/prejudice with respect to any matter that is the subject of the valuation report or to the parties involved with this engagement.

My professional fee for this valuation is based upon my normal billing rates, and not contingent upon the results or the value of the business or in any other manner.

Basis and Premise of Valuation

- As per ICAI Valuation Standards 102, Valuation base means the indication of the type of value being used in an engagement. Different valuation bases may lead to different conclusions of value. Therefore, it is important for the valuer to identify the bases of value pertinent to the engagement. This Standard defines the following valuation bases: Fair value, Participant specific value and Liquidation value.
- As the Company is on going concern basis, RV has decided to choose Fair Value as base of valuation. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the valuation date.
- Premise of Value refers to the conditions and circumstances how an asset is deployed. This valuation is performed on the premise that the Company will continue to operate as a going concern. IVS 102 defines 'going concern value' as "the value of a business enterprise that is expected to continue to operate in the future."

Source of Information

- Audited financial statements of the company for FY 2021-22.
- Audited financial statements of the Company for FY 2022-23.

- Management certified WDV of the block of assets as per Income-tax Act as on 31 March 2023.

CA SEJAL AGRAWAL
 CHARTERED ACCOUNTANTS
 (CA, CS, IP, RV-SEA)

- A signed management representation letter stating the details are based on best estimates and judgement of the management.
- Discussions with the Management in connection with the current status of the operations of the Company, regulatory framework, future plans and prospects, etc. in relation to the Business
- Other information, explanations and representations that were required and provided by the Management
- Such other analysis, reviews, and inquiries as we considered necessary.

Valuation Methodology and Approaches

In valuing the Value of the company, we need to perform the following steps:

1. Understanding the Business of the company
2. Understanding the Industry in which the company operates
3. Identifying the Assets of the company, including Income Generating Businesses, fixed assets, etc.
4. Valuing the Assets of the company, wherein, three different approaches may be employed to determine value: (i) the Income Approach, (ii), the Market Approach and (iii) the Cost Approach. While each of these approaches is initially considered in the valuation of an asset, the nature and characteristics of the asset, availability of required data for each of the approaches indicate which approach, or approaches, is most applicable.
5. Identifying the liabilities of the company
6. Computing the Value available to Shareholders and arriving at the Value.
7. We have given consideration to all the relevant and appropriate valuation approaches. In selecting the appropriate valuation approach and method, we have considered the following:
 - a) The appropriate basis (es) of value and premise(s) of value, determined by the terms and purpose of the valuation assignment,
 - b) The respective strengths and weaknesses of the possible valuation approaches and methods,
 - c) The appropriateness of each method in view of the nature of the asset, and the approaches or methods used by participants in the relevant market, and
 - d) The availability of reliable information needed to apply the method(s).

We have hereunder discussed the various approaches available under the valuation standards and approach(es) adopted by us after considering the above and the information available for the asset under valuation:

Income Approach

The income approach provides an indication of value by converting future cash flow to a single current value. Under the income approach, the value of an asset is determined by reference to the value of income, cash flow or cost savings generated by the asset. This approach is appropriate where the income-producing ability of the asset is the critical element affecting the value or reasonable projections of the amount and timing of future income are available for the subject asset. The approach is used where 'Anticipation of benefits' is the economic principle which would be used by market participants to decide the Value of the subject asset.

➤ **Discounted Cash Flow (DCF) Method**

The Discounted Cash Flow Method involves forecasting the Free Cash Flows Available to Firm (FCFF) & Estimated Terminal Value of the Business and discounted back to the valuation date with Weighted Average Cost of Capital (WACC) for the company to arrive at the Enterprise Valuation of the Business of the company. The Funds Available to the shareholders of the company are estimated after adjusting the Enterprise Valuation for Value of Non-core Assets and Liabilities.

Market Approach

The market approach provides an indication of value by comparing the asset with identical or comparable (that is similar) assets for which price information is available. This approach is appropriate where the subject assets or substantially similar assets are frequently publicly traded and the information on the market transactions are sufficiently and reliably available. The approach is used where 'Price Equilibrium' is the economic principle which would be used by market participants to decide the Value of the subject asset.

The following Market approach methods have been considered by us in this report:

- **Guideline Publicly Trade comparable method** – The Guideline publicly trade comparable method utilises the information on publicly traded comparable that are the same or similar to the subject asset to arrive at an indication of the value.
- **Comparable transactions method** - The comparable transactions method, also known as the guideline transactions method, utilises information on transactions involving assets that are the same or similar to the subject asset to arrive at an indication of value.

Cost Approach

The cost approach provides an indication of value using the economic principle that a buyer will pay no more for an asset than the cost to obtain an asset of equal utility, whether by purchase or by construction, unless undue time, inconvenience, risk or other

CASEJAI AGRAWAL
CHARTERED ACCOUNTANTS
(CA, CS, IP, RV-SEA)

factors are involved. The approach provides an indication of value by calculating the current replacement or reproduction cost of an asset and making deductions for physical deterioration and all other relevant forms of obsolescence. The approach is used where 'cost of substitution' is the economic principle which would be used by market participants to decide the Value of the subject asset.

The value arrived at under this approach is based on the audited financial statements of the business and may be defined as Shareholders' Funds or Net Assets owned by the business. The balance sheet values are adjusted for any contingent liabilities that are likely to materialize.

The Net Asset Value is generally used as the minimum break-up value for the transaction since this methodology ignores the future return the assets can produce and is calculated using historical accounting data that does not reflect how much the business is worth to someone who may buy it as a going concern

Selection of Valuation Methodology

There is no single definition of the term 'Value' that is suitable for all purposes or at all times. The value of a particular asset may vary according to different valuation methodologies that are adopted to ascertain the value for a specific purpose. Valuation of securities is an inexact science. It may sometimes involve a set of judgments and assumptions that may be subject to certain uncertainties. In the section below, Registered Valuer have discussed some of the commonly used valuation methodologies. The valuation methodology to be adopted varies from case to case depending upon different factors affecting valuation. There are a number of methodologies to value companies / businesses using historical and forecast financials of the company.

A typical valuation analysis involves review and analysis of historical financials of the company and broad comparison of the company's forecast financial projections as regards all the significant macro and micro variables like economy and industry growth rate assumptions, inflation, interest and foreign exchange rates and tax rate forecasts. Company's profitability factors (industry competitive factors and company's operating strategies and its competitive position in the industry), economies of scale and optimal capital structure also affects the business valuation of the company.

However, the value is specific to the point in time and may change with the passage of time.

Preferred approach to value

The Company is Listed in NSE and BSE both. However, this Valuation report is issued for a particular division of Asian Granito India Limited. We are unable to carry out the valuation of the company using the market approach due to non-availability of the sufficient and reliable information relating to particular division, valuation under the Market approach is impractical or unreliable or not advisable.

The process of slump sale has been initiated with the view to bringing operations of the transferor Company division under one umbrella and strengthening their long term viability. Further, the proposed slump sale of Marble and Quartz division is from the holding company (AGL) to its wholly owned subsidiary (Amazoone) and as a result of which, post slump sale, the economic and beneficial ownership in such Marble and Quartz business continues to rest with the Holding Company. Thus Discounted Cash Flow method is not preferred.

- We have determined the net-worth of the Business Undertaking for the proposed transaction of Slump Sale as per Section 50B on the Income tax act, 1961

Net-worth of the Business Undertaking in accordance with Section 50B of the Income-tax Act, 1961

For computing the Net-worth, we have adopted the method as per Section 50B of Income-tax Act 1961

The calculation under this method has been presented in **Annexure A**.

Caveats, Limitation and Disclaimers

i. Restriction on use of Valuation Report

This document has been prepared for the purposes stated herein and should not be relied upon for any other purpose. Our client is the only authorized user of this report and is restricted for the purpose indicated in the engagement letter. This restriction does not preclude the client from providing a copy of the report to third-party advisors whose review would be consistent with the intended use. I do not take any responsibility for the unauthorised use of this report.

ii. Responsibility of RV

We owe responsibility only to the client that has appointed us under the terms of the engagement letters. We will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions or advice given by any other person. In no event shall we be liable for any loss, damages, cost or expenses arising in any way from fraudulent acts, misrepresentations or wilful default on part of the client or companies, their directors, employees or agents.

iii. Accuracy of Information

While our work has involved an analysis of financial information and accounting records, our engagement does not include an audit in accordance with generally accepted auditing standards of the clients existing business records. Accordingly, we express no audit opinion or any other form of assurance on this information.

iv. Achievability of the forecast results

We do not provide assurance on the achievability of the results forecast by the management as events and circumstances do not occur as expected; differences between actual and expected results may be material. We express no opinion as to how closely the actual results will correspond to those projected as the achievement of the forecast results is dependent on actions, plans and assumptions of management.

v. Post Valuation Date Events

The user to which this valuation is addressed should read the basis upon which the valuation has been done and be aware of the potential for later variations in value due to factors that are unforeseen at the valuation date. Due to possible changes in market forces and circumstances, this valuation report can only be regarded as relevant as at the valuation date

vi. Reliance on the representations of the clients, their management and other third parties

The client and its management warranted to us that the information they supplied was complete, accurate and true and correct to the best of their knowledge. We have relied upon the representations of the clients, their management and other third parties concerning the financial data, operational data and maintenance schedule of all plant-

machinery-equipment-tools-vehicles, real estate investments and any other investments in tangible assets except as specifically stated to the contrary in the report. We shall not be liable for any loss, damages, cost or expenses arising from fraudulent acts, misrepresentations, or willful default on part of the companies, their directors, employee or agents.

vii. No procedure performed to corroborate information taken from reliable external sources

We have relied on data from external sources also to conclude the valuation. These sources are believed to be reliable and therefore, we assume no liability for the truth or accuracy of any data, opinions or estimates furnished by others that have been used in this analysis. Where we have relied on data, opinions or estimates from external sources, reasonable care has been taken to ensure that such data has been correctly extracted from those sources or reproduced in its proper form and context.

viii. Compliance with relevant laws

The report assumes that the company complies fully with relevant laws and regulations applicable in its area of operations and usage unless otherwise stated, and that the companies will be managed in a competent and responsible manner. Further, as specifically stated to the contrary, this report has given no consideration to matters of a legal nature, including issues of legal title and compliance with local laws, and litigations and other contingent liabilities that are not reflected in the balance sheet provided to us.

ix. Multiple factors affecting the Valuation Report

The valuation report is tempered by the exercise of judicious discretion by the RV, taking into account the relevant factors. There will always be several factors, e.g. management capability, present and prospective competition, yield on comparable securities, market sentiment, etc. which may not be apparent from the Balance Sheet but could strongly influence the value.

x. Future services including but not limited to Testimony or attendance in courts/ tribunals/ authorities for the opinion of value in the Valuation Report

We are fully aware that based on the opinion of value expressed in this report, we may be required to give testimony or attend court / judicial proceedings with regard to the subject assets, although it is out of scope of the assignment, unless specific arrangements to do so have been made in advance, or as otherwise required by law. In such event, the party seeking our evidence in the proceedings shall bear the cost/professional fee of attending court / judicial proceedings and our tendering evidence before such authority shall be under the applicable laws.

Purpose of the Report

We have been appointed for the purpose of computing the Value per Equity Shares to be transferred by existing shareholders (herein after referred to as "Proposed Transaction") of **AGL INDUSTRIES LIMITED** (herein after referred to as "Company"). The Purpose is to determine the fair market value of unquoted equity shares of Valuation for Transfer of Shares in terms of the provisions of 50CA of the Income-tax Act, 1961 (I.T Act) read with Rule 11UA of the Income-tax Rules, 1962.

Scope of Work and Bases of Valuation

Our scope of work involved determination of the fair market value of unquoted Equity shares of **AGL INDUSTRIES LIMITED** a company registered under the Companies Act 2013. The valuation report is based on the information and documents provided by the client and information collected independently by us. We have agreed to determine the value per equity shares of the company as on date **31st March, 2023** for the purpose of arriving at the fair market value.

As per the engagement letter, 1st August, 2023 we were required to follow established methods of valuation of the shares i.e. market value or DCF or cost. As required by ICAI Valuation Standards, we have considered possible and appropriate methods of valuation of shares and provided adequate disclosure of the same in our report.

The Valuation Currency for this Valuation Report is Indian Rupees.

Appointing Authority

Management of **AGL INDUSTRIES LIMITED** appointed Sejal Agrawal (Registered Valuer cum Chartered Accountant) for valuation of Equity Shares.

Disclosure of Registered Valuer's Interest

I have no present or prospective contemplated financial interest in the company nor any personal interest with respect to the Promoters & Board of Directors of the company. I have no bias/prejudice with respect to any matter that is the subject of the valuation report or to the parties involved with this engagement.

My professional fee for this valuation is based upon my normal billing rates, and not contingent upon the results or the value of the business or in any other manner.

Basis and Premise of Valuation

- As per ICAI Valuation Standards 102, Valuation base means the indication of the type of value being used in an engagement. Different valuation bases may lead to different conclusions of value. Therefore, it is important for the valuer to identify the bases of value pertinent to the engagement. This Standard defines the following valuation bases: Fair value, Participant specific value and Liquidation value.
- As the Company is on going concern basis, RV has decided to choose Fair Value as base of valuation. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the valuation date.
- Premise of Value refers to the conditions and circumstances how an asset is deployed. This valuation is performed on the premise that the Company will continue to operate as a going concern. IVS 102 defines 'going concern value' as "the value of a business enterprise that is expected to continue to operate in the future."

Source of Information

- Audited financial statements of the company for FY 2022-23.
- A signed management representation letter stating the details are based on best estimates and judgement of the management.
- Discussions with the Management in connection with the current status of the operations of the Company, regulatory framework, future plans and prospects, etc. in relation to the Business
- Other information, explanations and representations that were required and provided by the Management
- Such other analysis, reviews, and inquiries as we considered necessary.

Valuation Methodology and Approaches

In valuing the shares of the company, we need to perform the following steps:

1. Understanding the Business of the company
2. Understanding the Industry in which the company operates
3. Identifying the Assets of the company, including Income Generating Businesses, fixed assets, etc.
4. Valuing the Assets of the company, wherein, three different approaches may be employed to determine value: (i) the Income Approach, (ii), the Market Approach and (iii) the Cost Approach. While each of these approaches is initially considered in the valuation of an asset, the nature and characteristics of the asset, availability of required data for each of the approaches indicate which approach, or approaches, is most applicable.

CA SEJAL AGRAWAL
CHARTERED ACCOUNTANTS
(CA, CS, IP, RV-SFA)

5. Identifying the liabilities of the company
6. Computing the Value available to Shareholders and arriving at the Value per share

We have given consideration to all the relevant and appropriate valuation approaches. In selecting the appropriate valuation approach and method, we have considered the following:

- a) The appropriate basis (es) of value and premise(s) of value, determined by the terms and purpose of the valuation assignment,
- b) The respective strengths and weaknesses of the possible valuation approaches and methods,
- c) The appropriateness of each method in view of the nature of the asset, and the approaches or methods used by participants in the relevant market, and
- d) The availability of reliable information needed to apply the method(s).

We have hereunder discussed the various approaches available under the valuation standards and approach(es) adopted by us after considering the above and the information available for the asset under valuation:

Income Approach

The income approach provides an indication of value by converting future cash flow to a single current value. Under the income approach, the value of an asset is determined by reference to the value of income, cash flow or cost savings generated by the asset. This approach is appropriate where the income-producing ability of the asset is the critical element affecting the value or reasonable projections of the amount and timing of future income are available for the subject asset. The approach is used where 'Anticipation of benefits' is the economic principle which would be used by market participants to decide the Value of the subject asset.

The following Income Approach method have been considered by us in the report:

➤ **Discounted Cash Flow (DCF) Method**

The Discounted Cash Flow Method involves forecasting the Free Cash Flows Available to Firm (FCFF) & Estimated Terminal Value of the Business and discounted back to the valuation date with Weighted Average Cost of Capital (WACC) for the company to arrive at the Enterprise Valuation of the Business of the company. The Funds Available to the shareholders of the company are estimated after adjusting the Enterprise Valuation for Value of Non-core Assets and Liabilities.

Market Approach

The market approach provides an indication of value by comparing the asset with identical or comparable (that is similar) assets for which price information is available. This approach is appropriate where the subject assets or substantially similar assets are frequently publicly traded and the information on the market transactions are sufficiently and reliably available. The approach is used where 'Price Equilibrium' is the economic principle which would be used by market participants to decide the Value of the subject asset.

The following Market approach methods have been considered by us in this report:

- **Guideline Publicly Trade comparable method** – The Guideline publicly trade comparable method utilises the information on publicly traded comparable that are the same or similar to the subject asset to arrive at an indication of the value.
- **Comparable transactions method** - The comparable transactions method, also known as the guideline transactions method, utilises information on transactions involving assets that are the same or similar to the subject asset to arrive at an indication of value.

Cost Approach

The cost approach provides an indication of value using the economic principle that a buyer will pay no more for an asset than the cost to obtain an asset of equal utility, whether by purchase or by construction, unless undue time, inconvenience, risk or other factors are involved. The approach provides an indication of value by calculating the current replacement or reproduction cost of an asset and making deductions for physical deterioration and all other relevant forms of obsolescence. The approach is used where 'cost of substitution' is the economic principle which would be used by market participants to decide the Value of the subject asset.

The value arrived at under this approach is based on the audited financial statements of the business and may be defined as Shareholders' Funds or Net Assets owned by the business. The balance sheet values are adjusted for any contingent liabilities that are likely to materialize.

The Net Asset Value is generally used as the minimum break-up value for the transaction since this methodology ignores the future return the assets can produce and is calculated using historical accounting data that does not reflect how much the business is worth to someone who may buy it as a going concern

Selection of Valuation Methodology

There is no single definition of the term 'Value' that is suitable for all purposes or at all times. The value of a particular asset may vary according to different valuation methodologies that are adopted to ascertain the value for a specific purpose. Valuation of securities is an inexact science. It may sometimes involve a set of judgments and assumptions that may be subject to certain uncertainties. In the section below, Registered Valuer have discussed some of the commonly used valuation methodologies. The valuation methodology to be adopted varies from case to case depending upon different factors affecting valuation. A typical valuation analysis involves review and analysis of historical financials of the company and broad comparison of the company's forecast financial projections as regards all the significant macro and micro variables like economy and industry growth rate assumptions, inflation, interest and foreign exchange rates and tax rate forecasts. Company's profitability factors (industry competitive factors and company's operating

strategies and its competitive position in the industry), economies of scale and optimal capital structure also affects the business valuation of the company.

However, the value is specific to the point in time and may change with the passage of time.

Preferred approach to value equity shares

- We are unable to carry out the valuation of the company using the market approach due to non-availability of the sufficient and reliable information on the market comparable for the similar company engaged in the similar business with respect to capacity of production of craft papers, similar profit margins for which adjustments might not be feasible. Further Considering the facts that shares to be valued are unlisted, valuation under the Market approach is impractical or unreliable or not advisable.
- We have not used DCF method Considering the current economic scenario, the industry to which the Company belongs and the business ecosystem of the Company, expected free cash flow cannot be determined judiciously.
- The Net Asset Value is generally used as the minimum break-up value for the transaction and looking to the purpose of Valuation, Cost approach is the preferred method for the valuation.

Valuation using Cost Approach- Net Asset Method

For computing the Value per Equity Shares using Net Asset Method, we have adopted the method as per 11UA rule of Income Tax Rules

The calculation under this method has been presented in **Annexure A**.

Sub: Fairness Opinion Report on the Valuation report of Fair Market Value of Equity Shares of Asian Granito India Limited

Dear Sir,

We are pleased to submit our Fairness Report on the valuation of Fair Market Value of Equity Shares of Asian Granito India Limited in terms of our mandate letter. We understand that this valuation is being sought for the limited purpose of giving the fairness opinion on valuation methodology adopted by Das Pattnaik & Co., Chartered Accountants (the “Valuer”) for determining the valuation of the Market Value of Equity Shares of the company

We understand that the Board of Directors (the “Board”) of Asian Granito India Limited (“AGL” or the “Acquirer” or “Transferee”) is considering the scheme of arrangement with Crystal Ceramic Industries Limited, Ivanta Ceramics Industries Private Limited (to be incorporated on conversion of Ivanta Ceramics Industries LLP), Affil Vitrified Private Limited (Collectively called “Transferors”) for acquiring the entire Manufacturing business of Transferors including all Assets and Liabilities thereon for its wholly owned subsidiaries namely Affil Ceramics Limited, Ivanta Ceramic Limited and Crystal Vitrified Limited through the scheme of arrangement (“Scheme”) under Section 230 to 232 and other applicable provisions of the Companies Act, 2013.

The terms of the Draft Scheme will be described in the Scheme Document to be published in relation to the Scheme. As a result, the description of the Scheme and certain other information contained herein is qualified in its entirety by reference to the Scheme Document.

The Board has appointed Holani Consultants Private Limited (“HCPL”) to issue a fairness opinion to the Company in relation to the Fair Market Value of the Equity Shares of AGL based on the Valuation Report provided by the Valuer to HCPL.

This Opinion is subject to the scope, limitation and disclaimers detailed herein.

Scope of our review:

In arriving at the opinion set out below, we have, among other things:

1. Reviewed the Valuation Report and discussed with the Valuer about the Report;
2. Reviewed the Scheme Document to be placed before in the Board Meeting dated 12.08.2023 with certain publicly available business information of the Acquirer and the Transferors;
3. Reviewed the Annual Reports of the Acquirer and the Transferors for the financial year ended on March 31, 2021, March 31, 2022 and March 31, 2023 and the reported Fair Market Value of the Equity Shares of the Transferors as given in the Valuation Report of Valuer;
4. Reviewed certain analysts estimates for AGL as mentioned in the Valuation Report of the Valuer;

5. Review the valuation method adopted by the Valuer for the Valuation and take into account with such other matters as we deemed appropriate including our assessment of current conditions and prospects for the industry and general economic and market conditions.

Assumptions and limitations

In giving our opinion:

1. We have relied on the assessment made by the Board of AGL and Transferors on the commercial merits of the Scheme, including that the scheme is in the best interests of all the Companies and their shareholders as a whole;
2. We have relied without independent verification, upon the accuracy and completeness of all of the information (including, without limitation, the Valuation Report) that was made available to us or publicly available or was discussed with or reviewed by us (including the information set out above) and have assured such accuracy and completeness for the purpose of providing this opinion;
3. We have neither provided with any financial forecasts or other internal financial analysis relating to the Acquirer or the Transferors nor a copy of the Acquirer's or the Transferors business plans;
4. While we have used various assumptions, judgments and estimates in our inquiry, which we consider reasonable and appropriate under the circumstances, no assurances can be given as to the accuracy of any such assumptions, judgments and estimates;
5. We have assumed that all governmental, regulatory, shareholder and other consents and approvals necessary for the scheme will be obtained in a timely manner without any adverse effect on the Companies;
6. We have not conducted any independent legal, tax, accounting, or other analysis of the AGL or of the Scheme and when appropriate we have relied solely upon the judgments of the AGL's legal, tax, accountants and other professional advisers who may have given such advice to the AGL without knowledge or acceptance that it would be relied upon by us for the purpose of this opinion. We have not included the legal and tax effects of any reorganization of the Companies;
7. We have not undertaken independent analysis of any potential or actual litigation, regulatory action, possible unasserted claims, or other contingent liabilities to which the Acquirer or the Transferor is or may be a party or is or may be subject, or of any government investigation of any possible unasserted claims or other contingent liabilities to which the Acquirer or the Transferor is or may be a party or is or may be subject;
8. We have assumed that the Scheme will be consummated on the terms set forth in the Scheme Document and that the final version of the Scheme Document will not change in any material respect from the draft version we have reviewed for the purpose of this opinion;
9. We have assumed that the management of the Acquirer and Transferor are not aware of any facts or circumstances that would make any information necessary for us to provide this opinion inaccurate or misleading and that the management of the Companies have not omitted to provide us with any information which may be relevant to the delivery of this opinion.
10. Our opinion is necessarily based on financial, economic, market and other conditions as in effect on, and the information made available to us as of, the date hereof. It should be understood that subsequent developments may affect the opinion and that we do not have any obligation to update, revise or reaffirm this opinion.

Relationship with HCPL

HCPL was not requested to, and did not, provide advice concerning the structure or any other aspects of the Scheme or to provide services other than the delivery of this Fairness Opinion. HCPL did not participate in negotiations with respect to the terms of the Scheme and any related transactions. Consequently, HCPL has assumed that such terms are the most beneficial terms from Acquirer's perspective that could under the circumstances be negotiated with the Transferor.

We will receive a fee from the AGL for rendering this opinion. In addition, AGL has agreed to indemnify us for claims arising out of our engagement for providing the opinion.

In the past two years, HCPL and its affiliates have not provided financing and other services to the Acquirer and its affiliates and to the Transferor and its affiliates and have not received fees for the rendering of these services.

Other limitations

This opinion is addressed to and provided solely for the Board of Directors of the Companies exclusively in connection with and for the purposes of its evaluation of the fairness of the Fair Market Value of the Equity Shares of AGL. This Letter shall not confer rights or remedies upon, and may not be used or relied on by, any holder of securities of AGL, any creditor of AGL or by any other person other than the Board of Directors of AGL.

HCPL is acting to the Board of Directors of the Companies and no one else in connection with the Scheme and will not be responsible to any person other than the Board of Directors of the Companies for providing this opinion. Neither the existence of this letter nor its contents may be copied in whole or in part, or discussed with any other parties, or published or made public or referred to in any way, without our prior written consent in each instance, except that this opinion may be described in and included in its entirety in the Scheme Document. We take no responsibility or liability for any claims arising out of any such disclosure and we specifically disclaim any responsibility to any third party to whom this opinion may be shown or who may acquire a copy of this opinion.

This opinion shall be governed by the laws of India.

Specifically, this opinion does not address the commercial merits of the Scheme nor the underlying decision by the Companies to proceed with the Scheme nor does it constitute a recommendation to any shareholder or creditor of the Companies as to how such shareholder or creditor should vote with respect to the Scheme or any other matter.

The ultimate responsibility for the decision to recommend the Scheme rests solely with the Board of directors of the Companies.

Conclusion

Based upon, and subject to, the foregoing we are of the opinion that, as of the date hereof, the Fair Market Value of AGL is fair, from a financial point of view to the shareholders of the Companies.

We understand that the Board of Directors (the "Board") of Asian Granito India Limited ("AGL" or the "Acquirer" or "Transferee") is considering the scheme of arrangement with Crystal Ceramic Industries Limited ("Transferor" or "CCIL") for acquiring the entire Manufacturing business of CCIL including all Assets and Liabilities thereon for its wholly owned subsidiary namely **Crystal Vitrified Limited** through the scheme of arrangement ("Scheme") under Section 230 to 232 and other applicable provisions of the Companies Act, 2013.

The terms of the Draft Scheme will be described in the **Scheme Document** to be published in relation to the Scheme. As a result, the description of the Scheme and certain other information contained herein is qualified in its entirety by reference to the Scheme Document.

The Board has appointed Holani Consultants Private Limited ("HCPL") to issue a fairness opinion to the Company in relation to the Fair Value of the entire manufacturing business of CCIL based on the Valuation Report provided by the Valuer to HCPL.

This Opinion is subject to the scope, limitation and disclaimers detailed herein.

Scope of our review:

In arriving at the opinion set out below, we have, among other things:

1. Reviewed the Valuation Report and discussed with the Valuer about the Report;
2. Reviewed the Scheme Document to be placed before in the Board Meeting dated 12.08.2023 with certain publicly available business information of the Acquirer and the Transferor;
3. Reviewed the Annual Reports of the Acquirer and the Transferor for the financial year ended on March 31, 2021, March 31, 2022 and March 31, 2023 and the reported Fair Value of the entire manufacturing business of the Transferor as given in the Valuation Report of Valuer;
4. Reviewed certain analysts estimates for the Transferor as mentioned in the Valuation Report of the Valuer;
5. Review the valuation method adopted by the Valuer for the Valuation and take into account with such other

matters as we deemed appropriate including our assessment of current conditions and prospects for the industry and general economic and market conditions.

Assumptions and limitations

In giving our opinion:

1. We have relied on the assessment made by the Board of AGL and CCIL on the commercial merits of the Scheme, including that the scheme is in the best interests of both the Companies and their shareholders as a whole;
2. We have relied without independent verification, upon the accuracy and completeness of all of the information (including, without limitation, the Valuation Report) that was made available to us or publicly available or was discussed with or reviewed by us (including the information set out above) and have assured such accuracy and completeness for the purpose of providing this opinion;
3. We have neither provided with any financial forecasts or other internal financial analysis relating to the Acquirer or the Transferor nor a copy of the Acquirer's or the Transferor's business plans;
4. While we have used various assumptions, judgments and estimates in our inquiry, which we consider reasonable and appropriate under the circumstances, no assurances can be given as to the accuracy of any such assumptions, judgments and estimates;
5. We have assumed that all governmental, regulatory, shareholder and other consents and approvals necessary for the scheme will be obtained in a timely manner without any adverse effect on both the Companies;
6. We have not made any independent evaluation or appraisal of the assets and Liabilities of the Transferor and we have not been furnished with any such evaluation or appraisal, nor evaluated the solvency or fair value of the Transferor under any laws relating to the bankruptcy, insolvency or similar matter;
7. We have not conducted any independent legal, tax, accounting or other analysis of the Transferor or of the Scheme and when appropriate we have relied solely upon the judgments of the Transferor's legal, tax, accountants and other professional advisers who may have given such advice to the Transferor without knowledge or acceptance that it would be relied upon by us for the purpose of this opinion. We have not included the legal and tax effects of any reorganization of the Companies;
8. We have not undertaken independent analysis of any potential or actual litigation, regulatory action, possible unasserted claims, or other contingent liabilities to which the Acquirer or the Transferor is or may be a party or is or may be subject, or of any government investigation of any possible unasserted claims or other contingent liabilities to which the Acquirer or the Transferor is or may be a party or is or may be subject;
9. We have not conducted any physical inspection of the properties or facilities of the Transferor;
10. We have assumed that the Scheme will be consummated on the terms set forth in the Scheme Document and that the final version of the Scheme Document will not change in any material respect from the draft version we have reviewed for the purpose of this opinion;
11. We have assumed that the management of the Acquirer and Transferor are not aware of any facts or circumstances that would make any information necessary for us to provide this opinion inaccurate or misleading and that the management of both the Companies have not omitted to provide us with any information which may be relevant to the delivery of this opinion.
12. Our opinion is necessarily based on financial, economic, market and other conditions as in effect on, and the information made available to us as of, the date hereof. It should be understood that subsequent developments may affect the opinion and that we do not have any obligation to update, revise or reaffirm this opinion.

Scheme or to provide services other than the delivery of this Fairness Opinion. HCPL did not participate in negotiations with respect to the terms of the Scheme and any related transactions. Consequently, HCPL has assumed that such terms are the most beneficial terms from Acquirer's perspective that could under the circumstances be negotiated with the Transferor.

We will receive a fee from the Transferor for rendering this opinion. In addition, the Transferor has agreed to indemnify us for claims arising out of our engagement for providing the opinion.

In the past two years, HCPL and its affiliates have not provided financing and other services to the Acquirer and its affiliates and to the Transferor and its affiliates and have not received fees for the rendering of these services.

Other limitations

This opinion is addressed to and provided solely for the Board of Directors of both the Companies exclusively in connection with and for the purposes of its evaluation of the fairness of the Fair Market Value of the entire manufacturing business of the Transferor. This Letter shall not confer rights or remedies upon, and may not be used or relied on by, any holder of securities of the Transferor, any creditor of the Transferor or by any other person other than the Board of Directors of the Transferor.

HCPL is acting to the Board of Directors of both the Companies and no one else in connection with the Scheme and will not be responsible to any person other than the Board of Directors of both the Companies for providing this opinion. Neither the existence of this letter nor its contents may be copied in whole or in part, or discussed with any other parties, or published or made public or referred to in any way, without our prior written consent in each instance, except that this opinion may be described in and included in its entirety in the Scheme Document. We take no responsibility or liability for any claims arising out of any such disclosure and we specifically disclaim any responsibility to any third party to whom this opinion may be shown or who may acquire a copy of this opinion.

This opinion shall be governed by the laws of India.

Specifically, this opinion does not address the commercial merits of the Scheme nor the underlying decision by both the Companies to proceed with the Scheme nor does it constitute a recommendation to any shareholder or creditor of both the Companies as to how such shareholder or creditor should vote with respect to the Scheme or any other matter.

The ultimate responsibility for the decision to recommend the Scheme rests solely with the Board of directors of both the Companies.

Conclusion

Based upon, and subject to, the foregoing we are of the opinion that, as of the date hereof, the Fair Market Value of the entire manufacturing business of the Transferor is fair, from a financial point of view, to the shareholders of both the Companies.

3. Comment by the Audit Committee on the Scheme:

3.1 Need and Rationale of the scheme:

The Committee considered the following need and rationale of the scheme and was of the view that need and rationale of the scheme justifies the proposed arrangement.

- 3.1.1 Combining and bundling of Affil Tiles Manufacturing Undertaking of Affil Vitrified Private Limited, Ivanta Tiles Manufacturing Undertaking of Ivanta Ceramics Industries Private Limited and Crystal Tiles Manufacturing Undertaking of Crystal Ceramic Industries Limited into the Affil Ceramics Limited, the Ivanta Ceramic Limited and the Crystal Vitrified Limited which are, inter alia, wholly owned subsidiaries of the Asian Granito India Limited
- 3.1.2 Better control on utilization of production capacity due to integration of the manufacturing process
- 3.1.3 Optimization of working capital due to consolidation of businesses
- 3.1.4 Inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds
- 3.1.5 Economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;
- 3.1.6 Achieve cost optimization and specialization for sustained growth; and
- 3.1.7 Enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries

3.2 Synergies of business of the entities involved in the Scheme :

As details above in rationale of the scheme, it is observed that the companies involved in this composite scheme of arrangement are engaged in the similar and / or complementary businesses and the proposed demerges/amalgamation/slump sale pursuant to the scheme will create synergies between their business including by pooling of their financials, managerial, Technical, Distribution, Marketing and Other Resources. The proposed Composite scheme of arrangement is expected to *inter alia*, better control on utilisation of production capacity due to integration of the manufacturing process.

3.3 Impact of the scheme on the shareholders:

Due to consolidation of tiles business under the umbrella of the Company will entail value creation for the shareholders of the Company.

3.4 Cost benefit analysis of the scheme :

The Audit Committee took note that the execution of the scheme would lead to expenses in the form of Stamp Duty, Statutory Fees, Legal & Professional Fees but the scheme will integrate the tiles businesses and segregate the Marbles & Quartz business and building construction material related business leading to synergistic effect along with increased focus leading to higher sustainability of all the businesses.

4. Recommendation of Committee on the scheme :

The Audit Committee after due deliberations and due consideration of all the terms of the draft Scheme of Arrangement, Equity Share Exchange Ratio / Valuation Report, Fairness Opinion and the specific matters mentioned above, recommends the draft Scheme of Arrangement for favourable consideration by the Board of Directors of the Company, the Stock Exchange(s), SEBI and other applicable regulatory authorities.

REPORT ADOPTED BY THE BOARD OF DIRECTORS OF AMAZOONE CERAMICS LIMITED IN ACCORDANCE WITH SECTION 232(2)(C) OF THE COMPANIES ACT, 2013, AT ITS MEETING HELD ON SATURDAY, AUGUST 12, 2023 EXPLAINING THE EFFECTS OF THE SCHEME OF ARRANGEMENT ON EACH CLASS OF SHAREHOLDER (PROMOTERS AND NON-PROMOTER SHAREHOLDERS) AND KEY MANAGERIAL PERSONAL AND LAYING OUT IN PARTICULAR THE SHARE EXCHANGE RATIO, SPECIFYING ANY SPECIAL VALUATION DIFFICULTIES

1. Background

- 1.1 The Board of Directors ("Board") of Amazoone Ceramics Limited ("Company") at its meeting held on August 12, 2023, approved the Scheme of Arrangement between Asian Granito India Limited("AGIL" or "Resulting Company 1" or "Demerged Company 4") and Affil Vitrified Private Limited("AVPL" or "Demerged Company 1") and Ivanta Ceramics Industries Private Limited("ICIPL" or "Demerged Company 2") and Crystal Ceramic Industries Limited("CCIL" or "Demerged Company 3") and Affil Ceramics Limited("ACL" or Resulting Company 2") and Ivanta Ceramic Limited("ICL" or Resulting Company 3") and Crystal Vitrified Limited("CVL" or Resulting Company 4") and Amazoone Ceramics Limited("AmCL" or Resulting Company 5" or "transferee company") and AGL Industries Limited("AGLIL" or "transferor company") and their respective shareholders and creditors under Sections 230 to 232 and other applicable provisions of the Companies Act, 2013 and the rules and regulations made thereunder ("Act") ("the Scheme") read with sections 2(1B), 2(19AA) and other applicable provisions of the Income Tax Act, 1961.
- 1.2 Upon the coming into effect of the Scheme and with effect from the Appointed Date i.e. October 16, 2023,
 - 1.2.1 Marbles and Quartz Undertaking of AGIL will be transferred and vested to AmCL, as a going concern on a Slump Sale basis, and the consequent discharge of consideration by AmCL to the tune of Rs. 102 Crores, in the manner set out in the Scheme and other applicable provisions of Applicable Law;
- 1.3 The Board at its meeting held on August 12, 2023 has approved the draft scheme, after considering the documents which were duly placed before the Board as referred hereinafter.
- 1.4 In terms of Section 232(2)(c) of the Companies Act, a report from the Board of the Company, explaining the effect of the Scheme on each class of shareholders (promoters and non-promoter shareholders), key managerial personnel("KMP"), setting out, among other things, the share exchange report specifying any special valuation difficulties, is required to be adopted by the Board. Such report is then required to be appended with the notice of the meeting of shareholders and creditors, if such meeting is ordered by the National Company Law Tribunal.
- 1.5 Accordingly, this report of the Board is prepared to comply with the requirements of Section 232(2)(c) of the Companies Act.
- 1.6 While deliberating on the Scheme, the Board, inter-alia, considered and took on record the following documents :
 - 1.6.1 Draft of the proposed Scheme of Arrangement;

- 1.6.2 Valuation Report dated August 12, 2023 issued by CA Sejal Agrawal, independent registered valuer describing, inter alia, the methodologies adopted by her for arriving at the value of Marbles & Quartz Undertaking of AGIL and fair share exchange ratio for the transfer and vesting of the Marbles and Quartz Undertaking from AGIL, as a going concern on a Slump Sale basis;
- 1.6.3 Auditor's Certificate dated August 28, 2023 issued by R.R.S & Associates (FRN :118336W), the statutory auditors of the Company, pursuant to paragraph A(5) of Part I of the SEBI Master Circular bearing reference No. SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated June 20, 2023, certifying that the accounting treatment proposed in the Draft Scheme in compliance with the accounting standards prescribed under Section 133 of the Act read with applicable rules and/or the accounting standards issued by the Institute of Chartered Accountants of India and other generally accepted accounting standards and principles ("Auditor's Certificate");

2. Effect of the Scheme on Equity Shareholders (promoter shareholders and non-promoter shareholders) of AmCL

- 2.1 Board reviewed the documents placed in the meeting held on August 12, 2023 and is of the informed opinion, the Draft Scheme is in the best interests of the Company and its shareholders.
- 2.2 Impact of the Draft Scheme on the shareholders including promoters and public shareholders would be the same in all respects and no shareholder is expected to have any disproportionate advantage or disadvantage in any manner.

3. Effect of the Scheme on Directors and Key Managerial Personnel of the Company

- 3.1 The Scheme is not expected to have any effect on the Directors and Key Managerial Personnel (KMPs) of the Company. Further, no change in the Board of the Company is envisaged on account of the Scheme.
- 3.2 The Directors holding shares of the Company do not have any interest in the Scheme except to the extent of shares held by them, if any in any of the companies. Further, none of the KMPs and relatives of directors of the Company are concerned or interested, financially or otherwise in the proposed Scheme.

4. Effect of the Scheme on Creditors of the Company

- 4.1 There is no impact of the Draft Scheme on creditors of the Company.
- 4.2 Further, none of the creditors have any interest in the Draft Scheme except to the extent of shares held by them, if any, in any of the Companies.

5. Valuation

- 5.1 CA Sejal Agrawal, an independent registered valuer has undertaken the valuation of Marbles & Quartz Undertaking of AGIL and recommended fair share exchange ratio for the transfer and vesting of the Marbles and Quartz Undertaking of AGIL, as a going concern on a Slump Sale basis vide her Valuation Report dated August 12, 2023. The total amount payable by the Company to AGIL has been arrived at on the basis of its fair valuation based on various methodologies/approaches explained in the Valuation Report and various qualitative factors relevant to the Company and the business dynamics and growth potential of the business, having regard to information base, key underlying assumptions and limitations.
- 5.2 No special valuation difficulties were reported.

6. Share Entitlement/Exchange Ratio Report

- 6.1 The Scheme provides that upon the Scheme becoming effective and in consideration of transferring and vesting of the Marbles & Quartz Undertaking of AGIL, as a going concern on a Slump Sale basis, AmCL will discharge cash consideration to the tune of Rs. 102 Crores to AGIL.
- 6.2 Hence, there is no share entitlement ratio involved in the Slump Sale as the consideration of Rs. 102 Crores will be discharged in absolute terms.

7. Adoption of the Report by the Board

- 7.1 Based on the above, in the opinion of the Board, the Scheme will be of advantage to, beneficial and in the interest of the Company, its shareholders, creditors and other stakeholders and the terms thereof are fair and reasonable.
- 7.2 The Board of Directors of the Company has adopted this Report after noting and considering the information set forth in this Report and documents placed before the Board.

INDEPENDENT AUDITOR'S REPORT

**TO THE MEMBERS OF
 ASIAN GRANITO INDIA LIMITED**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **ASIAN GRANITO INDIA LIMITED** (the "Company"), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended on that date and a summary of the material accounting policies and other explanatory information (here in after referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SA") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Emphasis on Matter

We draw your attention to the Note 45 of the Standalone Financial Statement that describes the search operation carried out by the Income Tax department at the Company's business premises on May 26th, 2022, pursuant to which assessment order have been received for the assessment year 2022-23 and the Company has filled appeal against such order. Pending finalization of appeals the impact of these matters on the Standalone Financial Statement for the quarter and year ended on March 31, 2024 and the adjustment (if any) required to these Standalone Financial Statement, is presently not ascertainable. Our opinion is not modified in respect of this matter

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to be communicated in our report.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Corporate Governance and shareholder's information, but does not include the standalone financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the Other Information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information'.

Management's Responsibility for the Standalone Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting

records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:-

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best to our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

i. As informed to us the Company discloses the impact of pending litigation on its financial position in its standalone financial statements

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. The Company has not declared or paid dividend during the year covered by our audit.

vi. Based on our examination, which include test checks, the Company has used accounting software for maintaining its books of account for the financial year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rule 2014 is applicable from April 01, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirement for record retention is not applicable for the financial year ended March 31, 2024

2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of **ASIAN GRANITO INDIA LIMITED** of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial report of **ASIAN GRANITO INDIA LIMITED ('the company')** as on March 31, 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit or Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of the assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information as required under the Companies Act, 2013 (the 'Act').

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India and the Standard on Auditing ('SA') prescribed under section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls. Those Standards and Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls systems over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the standalone financial statements for external purpose in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting included those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transaction are recorded as necessary to permit preparation of standalone financial statement in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Control over Financial Reporting

Because of the inherent limitation of internal financial controls over financial reporting including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also , projection of any evaluation of the internal financial controls over financial reporting to future periods are subjects to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

8. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessment under the Income Tax Act, 1961.
9. a) The Company has not defaulted in the repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.
b) The Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
c) The term loans availed by the Company were used for the purpose for which they were obtained.
d) Funds raised on short basis, prima facie, not been used during the year for long term purposes by the Company.
e) The company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.
f) The company has not raised any funds during the year on the pledge of securities held in its subsidiaries.
10. a) The company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
b) During the year, the company has not made preferential allotment/private placement of equity shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.
11. a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year.
12. The company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable to the Company.
13. Transactions with related parties are in compliance with section 177 and 188 of the Act, where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standard.
14. (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
(b) We have considered the internal audit report for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.

15. In our opinion, during the year the Company has not entered into any non-cash transaction with its Directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
16. (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.
- (b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016 and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
17. The Company has not incurred cash losses during the financial year and in the immediately preceding financial year.
18. There has been no resignation of statutory auditors of the Company during the year.
19. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.
20. There are no unspent amounts towards Corporate Social Responsibility(CSR) requiring a transfer of fund specified in Schedule VII to the companies Act in compliance with second proviso to sub-section (5) of Section 135 of the said Act. Further the Company has not undertaken any ongoing project as a part of CSR, hence reporting under clause 3(xx)(a) and (b) of the Order are not applicable.

Asian Granito India Limited (the Company) is a public limited company domiciled and incorporated in India under the provisions of Companies Act, 1956. The Equity shares of the company are listed in India on the Bombay Stock Exchange Limited and National Stock Exchange Limited. The registered office of the Company is located at 202, Dev Arc, Opp. Iskon Temple, S.G. Highway, Ahmedabad - 380015. The Company is engaged in manufacturing and trading of Tiles and Marble and allied products.

The financial statements of the company for the year ended on 31 March, 2024 were authorised for issue in accordance with a resolution of the Directors on 23 May, 2024.

1. Statement on Material accounting policies, Key Accounting Estimates and Judgements:

1.1 Basis for Preparation:

These financial statements are the standalone financial statements of the Company prepared in accordance with Indian Accounting Standards ('Ind AS') as notified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

These financial statements have been prepared and presented under the historical cost convention, on the accrual and going concern basis of accounting except for the certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below.

The accounting policies have been applied consistently over all the periods presented in these financial statements.

1.2 Functional and presentation currency:

These financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise stated.

1.3 Key accounting estimates and judgements:

The preparation of the Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

1.4 Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

- i) **Property, Plant and Equipment:**
Property, Plant and Equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.
- ii) **Income taxes:**
The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.
- iii) **Defined Benefit Obligation:**
The costs of providing pensions and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.
- iv) **Estimates:**
Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2024

1.5 Current / Non-Current Classification:

Any asset or liability is classified as current if it satisfies any of the following conditions:

- i. the asset/liability is expected to be realized/settled in the Company's normal operating cycle;
- ii. the asset is intended for sale or consumption;
- iii. the asset/liability is expected to be realized/settled within twelve months after the reporting period;
- iv. the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- v. In the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

1.6 Summary of Material accounting policies:

a) Property, Plant & Equipment:

i) Measurement at recognition:

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses.

The cost of an item of property, plant and equipment comprises of its purchase price, including import duties, borrowing cost, changes on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets, other non-refundable purchase taxes or levies and any cost directly attributable to bringing the assets to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

ii) Depreciation:

Depreciation on each part of an item of property, plant and equipment is provided using the Straight-Line Method (SLM) Method based on the useful life of the asset as prescribed in Schedule II to the Companies Act, 2013 except following items of Property, Plant and Equipment where company has estimated different useful life:

Particulars	Useful Life
Plant & Machinery	11 & 15 Years

Land is not depreciated.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2024

The useful lives, residual values of each part of an item of property, plant and equipment and the depreciation methods are reviewed at the end of each financial year. If any of these expectations differ from previous estimates, such change is accounted for as a change in an accounting estimate.

iii) Derecognition:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the Derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized.

iv) Capital Work in progress:

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress.

b) Investment Property:

Investment Property is measured initially at cost including related transaction costs.

The cost comprises the purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for its intended use.

Subsequent expenditures are capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably. All day-to-day repair and maintenance expenditure are charged to the statement of profit and loss for the period during which such expenses are incurred.

Gains or losses arising from derecognition of investment property are measured as the difference between the net disposal proceeds and the carrying amount of the asset at the time of disposal and are recognized in the statement of profit and loss when the asset is derecognized.

c) Borrowing Costs:

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized, if any. All other borrowing costs are expensed in the period in which they occur.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2024

d) Impairment of non-financial assets:

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

e) Investment in Subsidiary, Joint Venture & Associate:

The Company has elected to recognize its investments in subsidiaries, joint venture and an associate company at cost in accordance with the option available in Ind AS 27, 'Separate Financial Statements'. The details of such investments are given in Note 5. Impairment policy applicable on such investments is explained in note (d) above.

f) Inventory:

Raw materials, finished goods, packing materials, stores, spares, consumables and stock-in-trade are carried at the lower of cost and net realizable value. However, materials and other items held for use in production of inventories are not written down below cost if the finished goods in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on an item-by item basis.

In determining the cost of raw materials, packing materials, stock-in-trade, stores, spares, components and consumables, first in first out (FIFO) method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.

Cost of finished goods and work-in-progress includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads as applicable and other costs incurred in bringing the inventories to their present location and condition. Fixed production overheads are allocated on the basis of normal capacity of production facilities.

g) Financial Instrument:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2024

Financial Assets:

Initial recognition and measurement:

The Company recognizes a financial asset in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial assets are recognized initially at fair value, plus in the case of financial assets not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial asset.

Where the fair value of a financial asset at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial asset.

However, trade receivables that do not contain a significant financing component are measured at transaction price.

Subsequent measurement:

For subsequent measurement, the Company classifies a financial asset in accordance with the below criteria:

- i. The Company's business model for managing the financial asset and
- ii. The contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Company classifies its financial assets into the following categories:

- i. Financial assets measured at amortized cost
- ii. Financial assets measured at fair value through other comprehensive income (FVTOCI)
- iii. Financial assets measured at fair value through profit or loss (FVTPL)

i. Financial assets measured at amortized cost:

A financial asset is measured at the amortized cost if both the following conditions are met:

- a) The Company's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows, and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to cash and bank balances, trade receivables, loans and other financial assets of the Company. Such financial assets are subsequently measured at amortized cost using the effective interest method.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2024

Under the effective interest method, the future cash receipts are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial asset over the relevant period of the financial asset to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest income over the relevant period of the financial asset. The same is included under other income in the Statement of Profit and Loss.

The amortized cost of a financial asset is also adjusted for loss allowance, if any.

ii. Financial assets measured at FVTOCI:

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI).

iii. Financial assets measured at FVTPL:

A financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as explained above. This is a residual category applied to all other investments of the Company excluding investments in subsidiary and associate companies. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of Profit and Loss.

Derecognition:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e. removed from the Company's Balance Sheet) when any of the following occurs:

- i. The contractual rights to cash flows from the financial asset expires;
- ii. The Company transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset;
- iii. The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset);
- iv. The Company neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where Company has neither transferred nor retained substantially all of the risks and rewards of the financial asset, but retains control of the financial asset, the Company continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Company also recognizes an associated liability. The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2024

On Derecognition of a financial asset, (except as mentioned in ii above for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognized in the Statement of Profit and Loss.

Impairment of financial assets:

The Company applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the following:

i. Trade receivables:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost less provision for impairment based on expected credit loss.

For trade and lease receivable only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of such receivables.

ii. Financial assets measured at amortized cost (other than trade receivables)

In case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognized as loss allowance.

In case of other assets (listed as ii above), the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

Financial Liabilities

Initial recognition and measurement:

The Company recognizes a financial liability in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial liabilities are recognized initially at fair value minus, in the case of financial liabilities not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial liability.

Where the fair value of a financial liability at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2024

through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial liability.

Subsequent measurement:

All financial liabilities of the Company are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash payments are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial liability over the relevant period of the financial liability to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest expense over the relevant period of the financial liability. The same is included under finance cost in the Statement of Profit and Loss.

Derecognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of Profit and Loss.

Offsetting of Financial Instruments:

Financial assets and financial liabilities are offset, and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

h) **Fair Value:**

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2024

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 — inputs that are unobservable for the asset or liability

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

i) Revenue Recognition:

The Company has applied Ind AS 115 - Revenue from Contracts with Customers which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised.

Revenue from sale of goods is recognised when control of the products being sold is transferred to customer and when there are no longer any unfulfilled obligations. The Performance Obligations in contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on contract terms.

Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government such as goods and services tax, etc.

Revenue is only recognised to the extent that it is highly probable a significant reversal will not occur. Customers have the contractual right to return goods only when authorised by the Company.

Interest and dividends:

Interest income is recognized using effective interest method. Dividend income is recognized when the right to receive payment is established.

Export benefits:

The Company recognises income from duty drawback and export benefit on accrual basis.

j) Income Taxes:

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2024

Current tax:

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible under the Income Tax Act, 1961. Current tax is measured using tax rates that have been enacted by the end of reporting period for the amounts expected to be recovered from or paid to the taxation authorities.

Deferred tax:

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit under Income Tax Act, 1961.

Deferred tax liabilities are generally recognized for all taxable temporary differences. However, in case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax liabilities are not recognized. Also, for temporary differences if any that may arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Presentation of current and deferred tax:

Current and deferred tax are recognized as income or an expense in the Statement of Profit and Loss, except when they relate to items that are recognized in Other Comprehensive Income, in which case, the current and deferred tax income/ expense are recognized in Other Comprehensive Income.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2024

k) Foreign Currency Transaction & Translation:

Initial Recognition:

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency (i.e. Indian Rupees), by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Measurement of foreign currency items at reporting date:

Foreign currency monetary items of the Company are translated at the closing exchange rates. Non-monetary items that are measured at historical cost in a foreign currency, are translated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency, are translated using the exchange rates at the date when the fair value is measured.

Exchange differences arising out of these translations are recognized in the Statement of Profit and Loss.

l) Provision & Contingencies:

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

m) Employee Benefits:

Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2024

Post-Employment Benefits:

I. Defined Contribution plans:

Defined contribution plans are employee provident fund, employee state insurance scheme and Government administered pension fund scheme for all applicable employees.

Recognition and measurement of defined contribution plans:

The Company recognizes contribution payable to a defined contribution plan as an expense in the Statement of Profit and Loss when the employees render services to the Company during the reporting period. If the contributions payable for services received from employees before the reporting date exceeds the contributions already paid, the deficit payable is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the reporting date, the excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

II. Defined Benefit plans:

The Company operates a defined benefit gratuity plan for employees.

Recognition and measurement of Defined Benefit plans:

The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the present value of available refunds and reductions in future contributions to the plan.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss. Remeasurements of the net defined benefit liability / (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest on the net defined benefit liability/asset), are recognized in Other Comprehensive Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

The Company presents the above liability/(asset) as current and non-current in the Balance Sheet as per actuarial valuation by the independent actuary; however, the entire liability towards gratuity is considered as current as the Company will contribute this amount to the gratuity fund within the next twelve months.

Other Long-Term Employee Benefits:

Entitlements to annual leave and sick leave are recognised when they accrue to employees. Sick leave can only be availed or encashed subject to a restriction on the maximum number of accumulation of leave. The company determines the liability for such accumulated leave using the projected accrued benefit method with actuarial valuations being carried out at each Balance Sheet date.

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2024

n) Lease Accounting:

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a Lessee

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term and useful life of the underlying asset. The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows. Further, refer note no. 41, for effect of transition to Ind AS 116, classification of leases and other disclosures relating to leases.

Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

Notes to the Financial Statements for the Year Ended 31 March, 2024

o) Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company.

p) Earnings per share:

Basic earnings per share is computed by dividing the net profit after tax attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing adjusted net profit after tax by the aggregate of weighted average number of equity shares and dilutive potential equity shares during the year.

q) Cash Flow Statement:

Cash Flow are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non- cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

r) Cash and cash equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, deposit accounts and term deposits accounts with original maturity of three months or less as at balance sheet date, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash on hand, deposit accounts and term deposits as defined above and investment in liquid funds for short term purpose.

s) Events after reporting date:

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

b) Measurement of fair values:
(i) Investments in Associate, Joint Venture and Subsidiaries:

Investments in Associate, Joint Venture and Subsidiaries have been accounted at cost. Since these are scoped out of Ind AS 109 for the purposes of measurement, the same have been disclosed at cost in the tables above.

(ii) Financial Instrument measured at Amortised Cost:

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are reasonable approximation of their fair values since the company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

(iii) Levels 1, 2 and 3

Level 1 : It includes Investment in equity shares and mutual fund that has a quoted price and which are actively traded on the stock exchanges. It is been valued using the closing price as at the reporting period on the stock exchanges.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

(iv) There have been no transfers between Level 1 and Level 2 during the years.

34 Financial Risk Management

The Company's financial liabilities comprise mainly of borrowings, trade, other payables and financial assets comprise mainly of investments, cash and cash equivalents, other balances with banks, loans, trade receivables and other receivables.

The Company is exposed to Market risk, Credit risk and Liquidity risk. The Board of the Company monitors the risk as per risk management policy. Further The Audit Committee has additional oversight in the area of financial risks and controls.

The following disclosures summarize the Company's exposure to financial risks and information regarding use of derivatives employed to manage exposures to such risks. Quantitative sensitivity analysis have been provided to reflect the impact of reasonably possible changes in market rates on the financial results, cash flows and financial position of the Company.

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk for the Company comprises two types of risks: interest rate risk and currency risk. Financial instruments affected by market risk includes borrowings, investments, trade payables, trade receivables and loans.

Within the various methodologies to analyze and manage risk, Company has implemented a system based on "sensitivity analysis" on symmetric basis. This tool enables the risk managers to identify the risk position of the entities. Sensitivity analysis provides an approximate quantification of the exposure in the event that certain specified parameters were to be met under a specific set of assumptions. The risk estimates provided here assume:

- a parallel shift of 100-basis points of the interest rate yield curves in major currencies.
- a simultaneous, parallel foreign exchange rates shift in which the INR appreciates / depreciates against all currencies by 5%

Notes to the Financial Statements for the Year Ended 31 March, 2024

34 Financial Risk Management (Cont...)

The potential economic impact, due to these assumptions, is based on the occurrence of adverse / inverse market conditions and reflects estimated changes resulting from the sensitivity analysis. Actual results that are included in the Statement of profit and loss may differ materially from these estimates due to actual developments in the global financial markets.

The analyses exclude the impact of movements in market variables on the carrying values of gratuity, pension and other post-retirement obligations and provisions.

The following assumption has been made in calculating the sensitivity analysis:

The sensitivity of the relevant statement of profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March, 2024 and 31 March, 2023.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company seeks to mitigate such risk by maintaining an adequate proportion of floating and fixed interest rate borrowings. As at 31 March, 2024, approximately 26.44% of the Company's borrowings and other financial liabilities are at fixed rate (31 March, 2023 : 20.47%). Summary of financial assets and financial liabilities has been provided below:

Exposure to interest rate risk

The interest rate profile of the Company's interest - bearing financial instrument as reported to management is as follows:

Particulars	₹ in Lakhs	
	As at 31 March, 2024	As at 31 March, 2023
Fixed-rate instruments		
Financial Assets	26,633.19	52,993.86
Financial Liabilities	1,970.22	1,761.12
Variable-rate instruments		
Financial Assets	-	-
Financial Liabilities	5,480.52	6,841.68

Interest rate sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of change in interest rates. The following table demonstrates the sensitivity of floating rate financial instruments to a reasonably possible change in interest rates. The risk estimates provided assume a parallel shift of 100 basis points interest rate across all yield curves. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company transacts business in foreign currencies (primarily USD, EUR, GBP and AED). Consequently, the Company has foreign currency trade payables and receivables and is therefore exposed to foreign exchange risk. The Company manages its foreign currency risk by following policies approved by board as per established risk management policy. The carrying amounts of the Company's foreign currency denominated monetary items are as follows:

34 Financial Risk Management (Cont...)

(b) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk primarily trade receivables and other financial assets including deposits with banks. Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management.

Other financial assets

This comprises mainly of deposits with banks and other intercompany receivables. Credit risk arising from these financial assets is limited.

Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy and procedures. Trade receivables are non-interest bearing and generally have a credit period not exceeding 90 days. Concentrations of credit risk with respect to trade receivables are limited, due to the customer base being large and diverse. All trade receivables are reviewed and assessed for default on a quarterly basis. Historical experience of collecting receivables of the Company is supported by low level of past default and hence the credit risk is perceived to be low.

The Company has used practical expedient by computing the expected credit loss allowance for doubtful trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking estimates. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates used in the provision matrix. In calculating expected credit loss, the Company has also considered credit information for its customers to estimate the probability of default in future.

Reconciliation of loss allowance provision – Trade receivables

Add: Additional provision made	160.61	160.19
Less: Provision write off	(201.6)	-
Closing provisions	158.93	199.92

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's finance department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties.

(c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing from both banks and financial institutions at an optimised cost.

The table below analysis non-derivative financial liabilities of the Company into relevant maturity groupings based on the remaining period from the reporting date to the contractual maturity date. The amounts disclosed under the ageing buckets are the contractual undiscounted cash flows and includes contractual interest payments.

35 Capital management:

For the purpose of the Company's capital management, capital includes paid-up equity capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to ensure that it maintains a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital, as well as level of dividends to equity share holders.

The Company manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using Debt-Equity ratio, which is net debt divided by total equity. The Company's policy is to keep the net debt to equity ratio below 2. The Company includes within net debt, interest bearing loans and borrowings, less cash and short-term deposits.

(₹ in Lakhs)

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March, 2024 and 31 March, 2023.

36 Employee Benefits

a) Defined contribution plans:

The Company makes contributions towards provident fund to defined contribution retirement benefit plan for qualifying employees. The provident fund contributions are made to Government administered Employees Provident Fund. Both the employees and the Company make monthly contributions to the Provident Fund Plan equal to a specified percentage of the covered employee's salary.

Particulars	(₹ in Lakhs)	
	Year ended 31 March, 2024	Year ended 31 March, 2023
Contribution to Provident Fund	250.63	249.24
Total	250.63	249.24

b) Defined benefit plan:

The Company has defined benefit gratuity plan for its employees. The employee who has completed five years or more of service is entitled to gratuity on termination of his employment at 15 days last drawn salary for each completed year of service. The scheme is funded. The present value of obligation in respect of gratuity is determined based on actuarial valuation using the Project Unit Credit Method as prescribed by Ind AS - 19. Gratuity has been recognised in the financial statement as per details given below:

Investment risk:

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting year on government bonds. If the return on plan asset is below this rate, it will create plan deficit.

Interest risk:

A fall in the discount rate which is linked to the Government Security Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Longevity risk:

Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Salary risk:

The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

The following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at 31 March, 2024 and 31 March, 2023.

41 Leases
A. Operating lease commitments - Company as lessee

The Company's lease asset classes primarily consist of leases for Office & Other Building. The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Following are the changes in the carrying value of right of use assets for the year ended 31 March, 2024 and 31 March, 2023

Asian Granito India Limited

Notes to the Financial Statements for the Year Ended 31 March, 2024

45 The Income Tax department had carried out a search operation at Company's business premises on 26 May, 2022. The company had made necessary disclosure to the stock exchanges in this regard on 31 May, 2022, in accordance with regulation 30 of the SEBI (LODR) regulation, 2015 (as amended). As on the date of issuance of these financial statements, the company has received various notices from the Income Tax Department against which the company has filed suitable responses. Further, the Company had also received an order for Assessment Year 2022-23 against which the Company has preferred an appeal. The Management believes that there is no material impact of the assessment order on the Company's financial position as of 31 March, 2024, as presented in these standalone financial statements. However, due to the nature of complexity of the matter, the final outcome remains uncertain, making it currently impossible for the management to determine the potential impact, if any, on the results related to this issue. The statutory auditors have issued as Emphasis of Matter in their audit report of the Standalone financial statements for the year ended 31 March, 2024, highlighting this matter.

46 In the opinion of Board of Directors

(a) Current assets, non-current loans and advances are realizable in the ordinary course of business, at the value at which they are stated.

(b) The provision for all known liabilities are adequate and not in excess of the amount reasonably necessary.

47 Balance of Trade receivables, Trade payables, loans and advances are subject to confirmation from the respective parties.

Information other than the financial statements and auditors' report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position and financial performance of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

"Annexure B" to the Independent Auditors' Report of even date on the Financial Statements of AFFIL VITRIFIED PRIVATE LIMITED,

Referred to in paragraph 2(f) under the heading 'Report on Other Legal & Regulatory Requirement' of our report of even date to the financial statements of the Company for the year ended March 31, 2024.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act").

We have audited the internal financial controls over financial reporting of **AFFIL VITRIFIED PRIVATE LIMITED, ("the Company")** as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the Auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India

A. The Company's Board of Directors is Responsible for the Matters Stated in Section 134(5) of the Companies Act, 2013 ("the Act") with Respect to the Preparation of these Financial Statements that Give a True and fair view of the Financial Position, Financial Performance, and cash flows of the Company in accordance with the accounting principles generally accepted in India including the Indian Accounting standards Prescribed under Section 133 of the Act. This Responsibility also includes Maintenance of Adequate Accounting Records in Accordance with the for Provision of the Act for Safeguarding of the Assets of the Company and for Preventing and Detecting the Frauds and other Irregularities; Selection and Application of Appropriate Accounting policies; Making Judgments and estimates that are reasonable and prudent; and design; Implementation and maintenance of adequate Internal Financial Control, That were Operating Effectively for ensuring the Accuracy and Completeness of the accounting records, relevant to the Preparation and Presentation of the Financial Statements give a true and fair view and are free from material misstatement, whether due to fraud or error.

B. In Preparing the Financial Statement, Management (Board of Directors) is Responsible for Assessing the Company's Ability to Continue as a going Concern, Disclosing, as Applicable, Matters Related to going Concern and using the going Concern basis of accounting unless Management (Board of Directors) either intends to liquidate the Company or to Cease Operations, or has no realistic Alternative but to do so. The Board of Directors are Responsible for Overseeing the Company's Financial Reporting Process.

5. Auditor's Responsibility for the Financial Statement:

A. Our Objectives are to Obtain Reasonable Assurance About Whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's Report that includes our Opinion. Reasonable Assurance is a high level of Assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate,

they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

- B.** As part of an Audit in accordance with SAs, we exercise Professional judgment and maintain Professional skepticism throughout the Audit.

We Also:

- i.** Identify and assess the risks of material misstatement of the financial Statements, whether due to Fraud or error, design and perform Audit Procedures responsive to those risks, and obtain Audit Evidence that is Sufficient and Appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii.** Obtain an understanding of internal financial relevant to the audit in order to design audit procedures that are appropriate in the circumstances Under section 143(3)(i) of the companies Act, 2013, We are also responsible for expressing our opinion on whether the company has adequate internal financial control system in place and the operating effectiveness of such control but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control systems.
- iii.** Evaluate the Appropriateness of Accounting Policies used and the Reasonableness of Accounting Estimates and Related Disclosures made by the Management.
- iv.** Conclude on the Appropriateness of Managements use of the going concern basis of accounting and, based on the Audit evidence obtained, whether a Material uncertainty exists related to events or Conditions that may cast significant doubt on the Company's Ability to Continue as a going Concern. If we conclude, that a material uncertainty exists, we are required to draw attention in our Auditor's Report to the related Disclosures in the Financial Statements or, if such Disclosures are inadequate, to modify our opinion. Our conclusions are based on the Audit Evidence obtained up to the date of our Auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- v.** Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- C. Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factor in (i) planning the scope of our audit work and in evaluating the results of our work and qualitative results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.
- D. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- E. We also provide those Charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matter than may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- F. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
- I. Report on other Legal and Regulatory Requirements:**
1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Act, we give in the "Annexure A", a Statement on the matters Specified in paragraphs 3 and 4 of the Order.

OR

The provision of the companies (Auditors Report) Order, 2020 ("the order"), issued by the central Government of the India in terms of sub section (11) of the section 143 of the companies Act, 2013 is not applicable to the company since

- (a) It is not a subsidiary or holding company of a public company;
- (b) Its paid-up capital and reserves and surplus are not more than Rs.1 crores as at the balance sheet date;
- (c) Its total borrowings from banks and financial institution are not more than Rs.1 crores at any time during the year; and
- (d) Its turnover for the year is not more than Rs.10 crores during the year.

2. As required by section 143(3) of the Act, based on our audit, we report that:
- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - In our opinion, proper books of account as required by law have been kept by the company so far as appears from our examination of those books.(and proper returns adequate for the purposes of our audit have been received from the branches not visited by us.)
 - (The reports on the account of the branch offices of the company audited under section 143(8) of the act by branch auditors have been sent to us and have been properly dealt with by us in preparing this report.)
 - The Balance sheet, the statement of Profit and Loss, Statement of Changes in Equity and the Statements of Cash Flow dealt with by this report are in agreement with the books of account. (and with the returns received from the branches not visited by us).
 - In our opinion, the Aforesaid standalone financial statements comply with the Indian Accounting Standards Specified under section 133 of the Act, read with rule 7 of the Companies (Accounts) Rules, 2014.
 - On the basis of the written representations received from the directors as on **March 31, 2024** taken on record by the Board of Directors, none of the directors is disqualified as on **March 31, 2024** from being Appointed as a director is terms of section 164(2) of the Act.
 - Since the company's turnover as per last audited Financial Statement is less than Rs.50 Crores and its borrowings from banks and financial institutions at any time during the year is less than Rs.25 crores, the company is exempted from getting an audit opinion with respect to the adequacy of the internal financial control over financial controls over financial reporting of the company and the operating effectiveness of such controls vide notification dated June 13,2017;

OR

~~With respect to the adequacy of the internal financial controls over financial reporting of the company and the operating effectiveness of such controls, refer to our separate report in "Annexure B".~~

IVANTA CERAMICS INDUSTRIES PRIVATE LIMITED

IVANTA CERAMICS INDUSTRIES PRIVATE LIMITED
Accounting Year Ended On 31/03/2024

SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Preparation and Use of Estimates:

Basis of preparation:

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). These financial statements have been prepared to comply in all material respects with the Accounting Standards notified by Companies (Accounting Standards) Rules, 2006, (as amended) and the relevant provisions of the Companies Act, 2013. The financial statements have been prepared under the historical cost convention on an accrual basis and going concern basis. The accounting policies have been consistently applied by the company are consistent with those used in the previous year.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

2. Tangible Fixed Assets:

- Fixed assets are stated at cost less accumulated depreciation and impairment losses if any. Cost comprises the purchase price and directly attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.
- Borrowing costs relating to acquisition of tangible assets which takes substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use. Assets under installation or under construction as at the Balance Sheet date are shown as Capital Work in Progress.

3. Intangible Fixed Assets:

Intangible assets are recognized when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably.

IVANTA CERAMICS INDUSTRIES PRIVATE LIMITED

4. Impairment of Assets:

- The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. Net selling price is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.
- After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

5. Depreciation and Amortisation:

Depreciation on the fixed assets is provided under written down value method as per the rates prescribed in Schedule II to the Companies Act, 2013 or at rates permissible under applicable local laws so as to charge off the cost of assets to the Statement of Profit and Loss over their estimated useful life, except on the following categories of assets:

- (i) Assets costing up to ` Rs5, 000/- are fully depreciated in the year of acquisition.
- (ii) Leasehold land and leasehold improvements are amortised over the primary period of lease.
- (iii) Intangible assets are amortised over their useful life of 5 years.

6. Investments:

- Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.
- On initial recognition, all investments are measured at cost. The cost comprises the purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired, or partly acquired by the issue of shares or the other securities, the acquisition cost is the fair value of securities issued. If an investment is acquired in exchange for another asset, the acquisition is determined by reference to the fair value of the asset given up or by reference to the fair value of the investment acquired, whichever is more clearly evident.
- Current investments are carried at the lower of cost and fair value determined on an individual investment basis. Long- term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the long term investments.

IVANTA CERAMICS INDUSTRIES PRIVATE LIMITED

- On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

7. Employee Benefits:

Contribution to Defined Contribution schemes such as provident fund, employee state insurance scheme etc. are charged to the profit and Loss account as and when incurred.

The Company does not Accounting Employee benefits such as Gratuity based on Actuary Valuation as per Accounting Standard-15 "Employees Benefit" issued by ICAI.

8. Inventories:

Inventories are valued at cost or net realizable value whichever is lower. Cost of raw material are determined at weighted average cost. Costs of stock in process and finished goods include cost of raw material, packing material, cost of conversion and other estimated manufacturing costs in bringing the inventories to the present location and condition.

9. Borrowing Costs:

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest, exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost and other costs that an entity incurs in connection with the borrowing of funds.

10. Revenue Recognition:

Revenue from Operations

- Sale and operating income includes sale of products, services, income from job work services, export incentives, etc.
- Sale of goods are recognized net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer. Sales exclude sales tax and value added tax.
- Sale of services are recognized when services are rendered and related costs are incurred.
- Revenue from job work services is recognized based on the services rendered in accordance with the terms of contracts.
- Export benefits are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same.

Other income

- Interest income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable.

IVANTA CERAMICS INDUSTRIES PRIVATE LIMITED

11. Taxation:

Tax expense comprises current and deferred tax. Current income tax expense comprises taxes on income from operations in India and in foreign jurisdictions. Income tax payable in India is determined in accordance with the provisions of the Income Tax Act, 1961 and tax expense relating to overseas operations is determined in accordance with tax laws applicable in countries where such operations are domiciled.

- Deferred tax expense or benefit is recognized on timing differences being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods.
- Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by the same governing taxation laws
- Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.
- At each balance sheet date the Company re-assesses recognized and unrecognized deferred tax assets. The Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which the deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available. The Company recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.
- **Minimum Alternative tax (MAT) credit** is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT Credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT Credit Entitlement. The Company reviews the MAT Credit Entitlement at each balance sheet date and writes down the carrying amount of the MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal income tax during the specified period.

IVANTA CERAMICS INDUSTRIES PRIVATE LIMITED

12. Earnings per share:

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

13. Provisions:

A provision is recognized when there exists a present obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to present value and are determined based on best estimates required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

14. Contingent liabilities:

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed only by the occurrence or non occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably, the Company does not recognize a contingent liability but discloses its existence in the financial statements.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF CRYSTAL CERAMIC INDUSTRIES LIMITED.

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **CRYSTAL CERAMIC INDUSTRIES LIMITED ("the Company")**, which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and notes to the financial statements, including a summary of the material accounting policies and other explanatory information (hereinafter referred to as the "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, the Loss and total comprehensive Loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the independence ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. There are no separate key audit matters to be communicated in our report.

Emphasis of Matter:

We draw your attention to the Note 38.13 of the financial statement that describes the search operation carried out by the Income Tax department at the Company's business premises and residential premises of the promoters and certain key employees of the Company during May 2022. The company has received the notices under section 148 and/or section 143(2) and/or section 142(1) of the Income-tax Act, 1961 for various assessment years for which the company has responded/ in the process of responding to the notices. The assessment of one of the assessment year is completed, addition is made and demand is raised. The company has preferred an appeal against the said order. Pending finalization of the assessment proceedings / appeals, the

impact of these matters on the financial statement for the year ended 31 March 2024 and the adjustments (if any) required to these financial statement, is presently not ascertainable. Our opinion is not modified in respect of this matter.

We draw your attention to the Note 38.14 of the financial statement that describes, that the officials of GST Department conducted search at Crystal Ceramic Industries Limited's Plant offices at Mehsana on 30th September, 2022. As the company has not received any communication on the findings of the Investigation by the GST department till date, the impact of this matter on the financial statements for the year ended 31 March 2024 and the adjustments (if any) required, is presently not ascertainable. Our opinion is not modified in respect of this matter.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Management and Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report including Annexure to Board's Report, but does not include the financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

Management's Responsibility for the Financial Statements

The Company's Management and Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of financial position, financial performance including total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

The company has not paid Managerial Remuneration to its Directors during the year and hence reporting under section 197 of the Act is not applicable to the Company.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in the financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

- iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries", with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (b) The Management has represented, that , to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries ") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of rule 11(e), as provided under(a)and(b)above, contain any material misstatement.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Crystal Ceramic Industries Limited (of even date))

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial report of **Crystal Ceramic Industries Limited ("the company")** as on 31st March 2024 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("the ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of the assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information as required under the Companies Act, 2013

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standard on Auditing prescribed under section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls. Those Standards and Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal control based on the assessed risk. The procedure selected depend on the auditor's judgment, including the assessment of risk of material misstatement of financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls systems over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purpose in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transaction are recorded as necessary to permit preparation of financial statement in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Control over Financial Reporting

Because of the inherent limitation of internal financial controls over financial reporting including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projection of any evaluation of the internal financial controls over financial reporting to future periods are subjects to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2024, based on the criteria for internal control over financial reporting established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial reporting issued by the Institute of Chartered Accountants of India.

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

Company Background:

Crystal Ceramic Industries Limited (the Company) is an Unlisted Public Limited company domiciled and incorporated in India under the provisions of The Companies Act, 1956 and having its Registered Office at-F.F. 101,102, Elenza Vertex, Nr. Zainobiya, Sindhu Bhavan Road, Bodakdev, Ahmedabad-380054. The Company is engaged in manufacturing and trading of Ceramic Tiles and ceramic items.

The financial statements of the company for the year ended on March 31, 2024 were authorised for issue in accordance with a resolution of the Directors on May 22, 2024.

1. Statement on Material Accounting Policies, Key Accounting Estimates and Judgements:

1.1 Basis for Preparation:

These financial statements are prepared in accordance with Indian Accounting Standards ('IND AS') as notified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

These financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for the certain financial assets that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below.

The accounting policies have been applied consistently over all the periods presented in these financial statements unless specifically stated to be otherwise.

1.2 Functional and presentation currency:

These financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise stated.

1.3 Key accounting estimates and judgements:

The preparation of the Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

1.4 Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

i) Property, Plant and Equipment:

Property, Plant and Equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset. Certain Property, Plant and Equipment were revalued as at 01st April, 2016 as per provisions of Indian Accounting Standard.

ii) Income taxes:

The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

iii) Defined Benefit Obligation:

The costs of providing pensions and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with IND AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.

iv) Estimates:

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

1.5 Current / Non-Current Classification:

Any asset or liability is classified as current if it satisfies any of the following conditions:

- i. the asset/liability is expected to be realized/settled in the Company's normal operating cycle;
- ii. the asset is intended for sale or consumption;
- iii. the asset/liability is expected to be realized/settled within twelve months after the reporting period;
- iv. the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- v. In the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

1.6 Summary of Material accounting policies:

a) Property, Plant & Equipment:

i) Measurement at recognition:

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses.

The cost of an item of property, plant and equipment comprises of its purchase price, including import duties, borrowing cost, trail run cost, changes on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets, other non-refundable purchase taxes or levies and any cost directly attributable to bringing the assets to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

ii) Depreciation:

Depreciation on each part of an item of property, plant and equipment is provided using the Straight-Line Method (SLM) Method based on the useful life of the asset as prescribed in Schedule II of the Companies Act, 2013 except following items of Property, Plant and Equipment where company has estimated different useful life:

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

Particulars	Useful Life
Buildings and Constructions	10, 30 & 60 Years
Furniture and Fixtures and Office Equipment	5, 10 & 13 Years
Plant & Machinery	21 & 25 Years

For these classes of assets based on internal assessment and independent technical evaluation carried out by external valuers, the management believes that useful lives as given above best represent the period over which the management expects to use the assets.

Freehold land is not depreciated.

The useful lives, residual values of each part of an item of property, plant and equipment and the depreciation methods are reviewed at the end of each financial year. If any of these expectations differ from previous estimates, such change is accounted for as a change in an accounting estimate.

iii) Derecognition:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the Derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized.

iv) Capital Work in progress:

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress.

v) Intangible Assets:

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization.

Intangible assets with finite lives (i.e. software and licences) are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and method for the intangible assets is reviewed at least at the end of each reporting period.

Costs relating to computer software are capitalized and amortized on straight-line method over the estimated useful economic life of three years.

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

b) Borrowing Costs:

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized, if any. All other borrowing costs are expensed in the period in which they occur.

c) Impairment of non-financial assets:

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

d) Investments:

Investments stated at the Balance sheet are long term investments. Long term investments are stated at cost. Provision for diminution in the value of long term investments are not made in the books of account as there is not Permanent decline in investments as explained by management. Investments in Mutual Funds are shown at Market Price on concerned reporting date.

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

e) Inventory:

Raw materials, finished goods, packing materials, stores, spares, consumables and stock-in-trade are carried at the lower of cost and net realizable value. However, materials and other items held for use in production of inventories are not written down below cost if the finished goods in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on an item-by item basis.

In determining the cost of raw materials, packing materials, stock-in-trade, stores, spares, components and consumables, first in first out (FIFO) method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.

Cost of finished goods and work-in-progress includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads as applicable and other costs incurred in bringing the inventories to their present location and condition. Fixed production overheads are allocated on the basis of normal capacity of production facilities.

f) Financial Instrument:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets:

Initial recognition and measurement:

The Company recognizes a financial asset in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial assets are recognized initially at fair value, plus in the case of financial assets not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial asset.

Where the fair value of a financial asset at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial asset.

However, trade receivables that do not contain a significant financing component are measured at transaction price.

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

Subsequent measurement:

For subsequent measurement, the Company classifies a financial asset in accordance with the below criteria:

- i. The Company's business model for managing the financial asset and
- ii. The contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Company classifies its financial assets into the following categories:

- i. Financial assets measured at amortized cost
- ii. Financial assets measured at fair value through other comprehensive income (FVTOCI)
- iii. Financial assets measured at fair value through profit or loss (FVTPL)

i. Financial assets measured at amortized cost:

A financial asset is measured at the amortized cost if both the following conditions are met:

- a) The Company's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows, and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to cash and bank balances, trade receivables, loans and other financial assets of the Company. Such financial assets are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash receipts are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial asset over the relevant period of the financial asset to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest income over the relevant period of the financial asset. The same is included under other income in the Statement of Profit and Loss.

The amortized cost of a financial asset is also adjusted for loss allowance, if any.

ii. Financial assets measured at FVTOCI:

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI).

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

iii. Financial assets measured at FVTPL:

A financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as explained above. This is a residual category applied to all other investments of the Company excluding investments in subsidiary and associate companies. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of Profit and Loss.

Derecognition:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e. removed from the Company's Balance Sheet) when any of the following occurs:

- i. The contractual rights to cash flows from the financial asset expires;
- ii. The Company transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset;
- iii. The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset);
- iv. The Company neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where Company has neither transferred nor retained substantially all of the risks and rewards of the financial asset, but retains control of the financial asset, the Company continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Company also recognizes an associated liability. The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On Derecognition of a financial asset, (except as mentioned in ii above for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognized in the Statement of Profit and Loss.

Impairment of financial assets:

The Company applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the following:

- i. Trade receivables:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost less provision for impairment based on expected credit loss.

For trade and lease receivable only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of such receivables.

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

ii. Financial assets measured at amortized cost (other than trade receivables)

In case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognized as loss allowance.

In case of other assets (listed as ii above), the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

Financial Liabilities

Initial recognition and measurement:

The Company recognizes a financial liability in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial liabilities are recognized initially at fair value minus, in the case of financial liabilities not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial liability.

Where the fair value of a financial liability at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial liability.

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

Subsequent measurement:

All financial liabilities of the Company are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash payments are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial liability over the relevant period of the financial liability to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest expense over the relevant period of the financial liability. The same is included under finance cost in the Statement of Profit and Loss.

Derecognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of Profit and Loss.

Offsetting of Financial Instruments:

Financial assets and financial liabilities are offset, and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

g) Fair Value:

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 — inputs that are unobservable for the asset or liability

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

h) Revenue Recognition:

The Company has applied Ind AS 115 - Revenue from Contracts with Customers which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised.

Revenue from sale of goods is recognised when control of the products being sold is transferred to customer and when there are no longer any unfulfilled obligations. The Performance Obligations in contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on contract terms.

Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government such as goods and services tax, etc.

Revenue is only recognised to the extent that it is highly probable a significant reversal will not occur. Customers have the contractual right to return goods only when authorised by the Company.

Interest and dividends:

Interest income is recognized using effective interest method. Dividend income is recognized when the right to receive payment is established.

Export benefits:

The Company recognises income from duty drawback and export benefit on accrual basis.

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

i) Income Taxes:

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current tax:

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible under the Income Tax Act, 1961. Current tax is measured using tax rates that have been enacted by the end of reporting period for the amounts expected to be recovered from or paid to the taxation authorities.

Deferred tax:

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit under Income Tax Act, 1961.

Deferred tax liabilities are generally recognized for all taxable temporary differences. However, in case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax liabilities are not recognized. Also, for temporary differences if any that may arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Presentation of current and deferred tax:

Current and deferred tax are recognized as income or an expense in the Statement of Profit and Loss, except when they relate to items that are recognized in Other Comprehensive Income, in which case, the current and deferred tax income/ expense are recognized in Other Comprehensive Income.

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

j) Foreign Currency Transaction & Translation:

Initial Recognition:

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency (i.e. Indian Rupees), by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Measurement of foreign currency items at reporting date:

Foreign currency monetary items of the Company are translated at the closing exchange rates. Non-monetary items that are measured at historical cost in a foreign currency, are translated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency, are translated using the exchange rates at the date when the fair value is measured.

Exchange differences arising out of these translations are recognized in the Statement of Profit and Loss

k) Provisions & Contingencies:

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

i) Employee Benefits:

Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

Post-Employment Benefits:

i. Defined Contribution plans:

Defined contribution plans are employee provident fund, employee state insurance scheme and Government administered pension fund scheme for all applicable employees.

Recognition and measurement of defined contribution plans:

The Company recognizes contribution payable to a defined contribution plan as an expense in the Statement of Profit and Loss when the employees render services to the Company during the reporting period. If the contributions payable for services received from employees before the reporting date exceeds the contributions already paid, the deficit payable is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the reporting date, the excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

ii. Defined Benefit plans:

The Company operates a defined benefit gratuity plan for employees.

Recognition and measurement of Defined Benefit plans:

The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the present value of available refunds and reductions in future contributions to the plan.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss. Remeasurements of the net defined benefit liability / (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest on the net defined benefit liability/asset), are recognized in Other Comprehensive Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

The Company presents the above liability/(asset) as current and non-current in the Balance Sheet as per actuarial valuation by the independent actuary; however, the entire liability towards gratuity is considered as current as the Company will contribute this amount to the gratuity fund within the next twelve months.

Other Long Term Employee Benefits:

Entitlements to annual leave and sick leave are recognised when they accrue to employees. Sick leave can only be availed or encashed subject to a restriction on the maximum number of accumulation of leave. The company determines the liability for such accumulated leave using the projected accrued benefit method with actuarial valuations being carried out at each Balance Sheet date.

m) Segment Reporting:

Considering the nature of company's business and operations, there are no separate reportable segments in accordance with requirements of Indian Accounting Standard 108.

n) Earnings per share:

Basic earnings per share are calculated by dividing profit for the year attributable to the equity shareholder by weighted average number of equity shares outstanding during the year. The diluted EPS is the same as basic EPS.

o) Cash Flow Statement:

Cash Flow are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non- cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

p) Cash and cash equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, deposit accounts and term deposits accounts with remaining maturity of one year or less as at balance sheet date, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash on hand, deposit accounts and term deposits as defined above and investment in liquid funds for short term purpose.

q) Government Grants:

The Government grants are recognized when reasonable assurance and certainty exists for the fulfilment of conditions and ultimate collection of such grants and that the company will comply with the conditions attached to the grant.

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

Accordingly, government grants by way of financial assistance on the basis of certain qualifying criteria are recognised as they become receivable.

Grants which relate to revenue are credited to the profit and loss account as 'Other Operating Revenue'.

In the unlikely event that a grant previously recognised is ultimately not received, it is treated as a change in estimate and the amount cumulatively recognised is expensed in the Statement of Profit and Loss.

r) Lease Accounting:

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a Lessee

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term and useful life of the underlying asset. The lease liability is initially measured at amortized cost at the present value of the future lease payments.

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows. Further, refer note no. 41, for effect of transition to Ind AS 116, classification of leases and other disclosures relating to leases.

Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

s) Events after reporting date:

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

NOTE : 29 [Financial Instruments risk management objectives and policies]

The Company's financial liabilities comprise mainly of borrowings, trade and other payables. The Company's financial assets comprise mainly of investments, cash and cash equivalents, other balances with banks, trade receivables and other receivables.

The Company is exposed to Market risk, Credit risk and Liquidity risk. The company is reviewing the risk management plan and ensuring its effectiveness. The Audit Committee has additional oversight in the area of financial risks and controls. It also covers policies on specific risk areas such as interest rate risk, credit risk and investment of surplus funds.

(a) **Market risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risks: interest rate risk, currency risk and other price risk. Financial instruments affected by market risk includes borrowings, investments, trade payables, trade receivables and loans.

Within the various methodologies to analyse and manage risk, Company has implemented a system based on "sensitivity analysis" on symmetric basis. This tool enables the company to identify the risk position of the entities. Sensitivity analysis provides an approximate quantification of the exposure in the event that certain specified parameters were to be met under a specific set of assumptions. The risk estimates provided here

- a parallel shift of 100-basis points of the interest rate yield curves in all currencies.
- a simultaneous, parallel foreign exchange rates shift in which the INR appreciates/depreciates against all currencies by 2%.

The potential economic impact, due to these assumptions, is based on the occurrence of adverse / inverse market conditions and reflects estimated changes resulting from the sensitivity analysis. Actual results that are included in the Statement of profit and loss may differ materially from these estimates due to actual developments in the global financial markets.

The analyses exclude the impact of movements in market variables on the carrying values of gratuity, pension and other post-retirement obligations and provisions.

The following assumption has been made in calculating the sensitivity analysis:

The sensitivity of the relevant statement of profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2024 and March 31, 2023.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company seeks to mitigate such risk by maintaining an adequate proportion of floating and fixed interest rate borrowings.

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

Exposure to Interest rate risk

The interest rate profile of the Company's interest-bearing financial instrument as reported to management is as follows:

PARTICULARS	Rs. in Lakhs	
	As at 31st Mar, 2024	As at 31st Mar, 2023
Fixed-rate instruments		
Financial Assets		
Financial Liabilities	188.28	193.65
	-	-
Variable-rate instruments		
Financial Assets		
Financial Liabilities	23,760.98	21,593.39

Interest rate sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of change in interest rates. The following table demonstrates the sensitivity of floating rate financial instruments to a reasonably possible change in interest rates. The risk estimates provided assume a parallel shift of 100 basis points interest rate across all yield curves. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

Foreign currency risk & Exposure to Currency Risk:-

The Company does not have significant exposure to foreign currency risk. Accordingly, the management does not hedge any foreign currency receipts or payments.

(b) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk primarily trade receivables and other financial assets including deposits with banks. The Company's exposure and credit ratings of its counterparties are continuously monitored and the aggregate value of transactions is reasonably spread amongst the counterparties.

Other financial assets

This comprises mainly of deposits with banks and other intercompany receivables. Credit risk arising from these financial assets is limited and there is no collateral held against these are banks and recognised financial institutions. Banks and recognised financial institutions have high credit ratings assigned by the international credit rating agencies.

Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy and procedures. Trade receivables are non-interest bearing and generally have a credit period not exceeding 90 days. Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit. The Company has no concentration of credit risk as the customer base is widely distributed both economically and geographically.

Reconciliation of loss allowance provision - Trade receivables

Loss allowance as at beginning of the year		13.06
Changes in Loss allowance	47.37	34.31
Loss allowances as at end of the year	47.37	47.37
Financial instruments and cash deposits		

Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty.

(c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including bilateral loans, debt and overdraft from both banks and financial institutions at an optimised cost.

b) Measurement of fair values:

The following are the basis of assumptions used to estimate the fair value of financial assets and liabilities that are measured at fair value on recurring basis:

(i) Investments in PNB Met Life Insurance Products & Mutual Fund:

The investment in PNB Met Life Insurance Product is taken at cost. The fair values represent net asset value as stated by the issuers of these mutual fund units in the published statements. Net asset values represent the price at which the issuer will issue further units in the mutual fund and the price at which issuers will redeem such units from the investors.

(ii) Financial Instrument measured at Amortised Cost:

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

(iii) Fair Value Hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1 : Quoted prices (unadjusted) in active markets for financial instruments

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

(iv) There have been no transfers between Level 1 and Level 2 during the years.

NOTE : 30 (Capital Management)

For the purpose of the Company's capital management, capital includes paid-up equity capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to ensure that it maintains a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital, as well as level of dividends to equity share holders.

The Company manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the requirements of the financial covenants to maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholder so reissue new shares. The Company monitors capital using Debt-Equity ratio, which is net debt divided by total equity. The Company's policy is to keep the net debt to equity ratio below 2. The Company includes within net debt, interest bearing loans and borrowings, less cash and short-term deposits.

PARTICULARS	Rs. In Lakhs	
	As at 31st Mar, 2024	As at 31st Mar, 2023
Interest-bearing loans and borrowings (Note 12)	23,760.98	21,593.39
Less: cash and cash equivalents (Note 09)	(3.73)	(7.99)
Adjusted net debt	23,757.25	21,585.40
Equity share capital (Note 10)	4,029.96	4,029.96
Other equity (Note 11)	(1,454.40)	1,146.75
Total equity	2,575.56	5,176.71
Adjusted net debt to total equity ratio	9.22	4.17

In order to achieve this overall objective, the company's capital management, amongst to these things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period. No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2023 and March 31, 2024.

NOTE : 31 (Employee Benefits)

[A] Defined contribution plans:

The Company makes contributions towards provident fund to defined contribution retirement benefit plan for qualifying employees. The provident fund contributions are made to Government administered Employees Provident Fund. Both the employees and the Company make monthly contributions to the Provident Fund Plan equal to a specified percentage of the covered employee's salary.

Details of amount recognized as expenses during the year:

PARTICULARS	Rs. In Lakhs	
	As at 31st Mar, 2024	As at 31st Mar, 2023

Contribution to Employee State Insurance Corporation Fund	0.10	0.12
Contribution to Provident Fund	36.24	56.74
Total	36.42	56.98

[B] Defined benefit plans:

The company has defined benefit gratuity plan for its employees. The employee who has completed five years or more of service is entitled to gratuity on termination of his employment at 15 days last drawn salary for each completed year of service. The scheme is funded. The present value of obligation in respect of gratuity is determined based on actuarial valuation using the Project Unit Credit Method as prescribed by Ind AS-19. Gratuity has been recognised in the financial statement as per details given below:

CRYSTAL CERAMIC INDUSTRIES LIMITED

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

Investment risk:

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields of the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create plan deficit.

Interest risk:

A fall in the discount rate which is linked to the GSec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Longevity risk:

Since the benefits under the plan is not payable for lifetime and payable till retirement age only, plan does not have any longevity risk.

Salary risk:

The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

The following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at March 31, 2024.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

NOTE : 35 [Lease]

A Operating lease commitments – Company as lessee

The Company's lease asset classes primarily consist of leases for Office & Other Building. The Company recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognized in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with those leases are recognized as an expense on a straight-line basis over the lease term.

INDEPENDENT AUDITOR'S REPORT

**TO THE MEMBERS OF
AFFIL CERAMICS LIMITED
Report on the Audit of the Financial Statements**

Opinion

We have audited the accompanying financial statements **AFFIL CERAMICS LIMITED** (the "Company"), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity, the Statement of Cash Flows for the year then ended on that date and a summary of the material accounting policies and other explanatory information (here in after referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the afore said financial statements give the information required by the Companies Act, 2013(the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024 and its loss, total comprehensive income/loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SA") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to be communicated in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report including Annexure to Board's Report but does not include the financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the Other Information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information'.

Management's Responsibility for the Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:-

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained; whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the Company has not paid any remuneration to its directors during the year, hence reporting under section 197 (16) is not applicable to the company.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. As informed to us the Company does not have any pending litigation which would impact its financial position in its statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that , to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries ") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c)Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of rule 11(e), as provided under(a)and(b)above, contain any material misstatement.

- iv. The Company has not declared or paid dividend during the year covered by our audit.
- v. Based on our examination, which include test checks, the Company has used accounting softwares for maintaining its books of account for the financial year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rule 2014 is applicable from April 01, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirement for record retention in not applicable for the financial year ended March 31, 2024

2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of AFFIL CERAMICS LIMITED of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial report of AFFIL CERAMICS LIMITED ('the company') as on 31st March 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit or Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of the assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information as required under the Companies Act, 2013 (the 'Act').

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India and the Standard on Auditing ('SA') prescribed under section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls. Those Standards and Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purpose in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting included those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transaction are recorded as necessary to permit preparation of financial statement in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Control over Financial Reporting

Because of the inherent limitation of internal financial controls over financial reporting including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also , projection of any evaluation of the internal financial controls over financial reporting to future periods are subjects to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of AFFIL CERAMICS LIMITED of even date)

To the best of our information and according to the explanation provided to us by the company and the books of accounts and records examined by us in the normal course of audit, we state that:-

1. In respect of the Company's Property, Plant and Equipment and Intangible Assets:
 - a) (A) The Company does not own any Property, Plant and Equipment, hence reporting requirement of this sub-clause does not apply to the Company.

(B) The Company does not have any intangible asset hence reporting under this sub clause of the Order is not applicable to the Company.
 - b) The Company does not own any Property, Plant and Equipment, hence reporting requirement under clause 3(i) (b) of the Order is not applicable.
 - c) The Company does not have any immovable properties hence reporting under clause 3 (i) (c) of the Order is not applicable to the company.
 - d) The Company has not revalued any of its Property, Plant and Equipment and intangible assets during the year.
 - e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2024 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made there under.
2.
 - a) The company does not have inventory, hence reporting under clause 3(ii)(a) of the order is not applicable.
 - b) The Company has not been sanctioned working capital limits in excess of Rs. 5 Crore, in aggregate, during the year, from banks or financial institutions, hence reporting under clause 3(ii)(b) of the Order is not applicable to the Company
3. The Company has not made any investments in, provided any guarantee or security, and granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnership or other parties during the year, and hence the provisions of clause 3(iii) of the Order are not applicable.
4. The Company has neither made any investments nor has it given loans or provided guarantee or security and therefore the relevant provisions of Sections 185 and 186 of the Act are not applicable to the Company. Accordingly, clause 3(iv) of the Order is not applicable.

5. The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3(v) of the Order are not applicable.
6. The maintenance of cost records has not been specified by the Central Government under sub-section (1) of the section 148 of the Companies Act, 2013. Hence, reporting under clause (vi) of the Order is not applicable to the Company.
7. In respect to statutory dues:
 - a. In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including income tax and other material statutory dues with the appropriate authorities. There were no undisputed statutory dues as on March 31, 2024, which were outstanding for more than six months from the date on which they became payable.
 - b. There are no material dues of income tax and other material statutory dues which have not been deposited with the appropriate authorities on account of any disputes.
8. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessment under the Income Tax Act, 1961.
9.
 - a) The Company has not taken any loans or other borrowings from any lender and therefore reporting under clause 3(ix)(a) of the Order is not applicable to the Company.
 - b) The Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
 - c) The Company has not raised any term loans during the year hence reporting under clause 3(ix)(c) is of the Order is not applicable to the Company.
 - d) The Company has not raised any short term funds during the year, hence reporting under clause 3(ix)(d) of the Order is not applicable to the Company.
 - e) The Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.
 - f) The Company has not raised any funds during the year on the pledge of securities held in its subsidiaries.
10.
 - a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
 - b) During the year, the Company has not made preferential allotment or private placement of shares or convertible debentures (fully, partly or optionally convertible) during the year. Accordingly reporting under clause 3(x)(b) of the Order is not applicable.
11. a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.

- b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year and up to the date of this report.
12. The Company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable to the Company.
13. Transactions with related parties are in compliance with section 177 and 188 of the Act, where applicable and the details have been disclosed in the notes to the financial statements, as required by the accounting standards.
14. In our opinion and based on our examination, the Company does not have an internal audit system and is not required to have an internal audit system under the provisions of Section 138 of the Act. Accordingly, paragraph 3(xiv) (a) and (b) of the Order is not applicable.
15. In our opinion, during the year the Company has not entered into any non-cash transaction with its Directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
16. (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.
- (b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
17. The Company has incurred cash loss of Rs 0.65 lakhs for the current financial year.
18. There has been no resignation of statutory auditors of the Company during the year.
19. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

20. The provision of section 135 of the Companies Act 2013 in relation to Corporate Social Responsibility are not applicable to the company during the year and hence reporting under this clause is not applicable.

Affil Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

Company Background:

Affil Ceramic Limited (the Company) is a Public limited company domiciled and incorporated in India as on 23rd March, 2023 under the provisions of Companies Act, 2013. The Company is engaged into the business of manufacturing and Manufacture of refractory bricks, blocks tiles and similar refractory ceramic constructional goods. The company is a wholly owned subsidiary of Asian Granito India Limited, a NSE & BSE listed company.

1. Statement on Significant Accounting Policies, Key Accounting Estimates and Judgements:

1.1 Basis for Preparation:

These financial statements are prepared in accordance with Indian Accounting Standards ('Ind AS') as notified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

These financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for the certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below.

The accounting policies have been applied consistently over all the periods presented in these financial statements.

1.2 Functional and presentation currency:

These financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency.

1.3 Key accounting estimates and judgements:

The preparation of the Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

1.4 Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

i) Property, Plant and Equipment:

Property, Plant and Equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial

Affil Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

- ii) **Income taxes:**
 The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.
- iii) **Defined Benefit Obligation:**
 The costs of providing pensions and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.
- iv) **Estimates:**
 Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

1.5 Current / Non-Current Classification:

Any asset or liability is classified as current if it satisfies any of the following conditions:

- i. the asset/liability is expected to be realized/settled in the Company's normal operating cycle;
- ii. the asset is intended for sale or consumption;
- iii. the asset/liability is expected to be realized/settled within twelve months after the reporting period;
- iv. the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- v. In the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

1.6 Summary of Significant accounting policies:

- a) **Property, Plant & Equipment:**
 - i) Measurement at recognition:

Affil Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses.

The cost of an item of property, plant and equipment comprises of its purchase price, including import duties, borrowing cost, changes on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets, other non-refundable purchase taxes or levies and any cost directly attributable to bringing the assets to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

ii) Depreciation:

Depreciation on each part of an item of property, plant and equipment is provided using the Straight-Line Method (SLM) Method based on the useful life of the asset as prescribed in Schedule II to the Companies Act, 2013.

Land is not depreciated.

The useful lives, residual values of each part of an item of property, plant and equipment and the depreciation methods are reviewed at the end of each financial year. If any of these expectations differ from previous estimates, such change is accounted for as a change in an accounting estimate.

iii) Derecognition:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the Derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized.

iv) Capital Work in progress:

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress.

b) **Investment Property:**

Investment Property is measured initially at cost including related transaction costs.

The cost comprises the purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for its intended use.

Affil Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

Subsequent expenditures are capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably. All day-to-day repair and maintenance expenditure are charged to the statement of profit and loss for the period during which such expenses are incurred.

For transition to Ind AS, the carrying value of Investment Property under previous GAAP as on April 01, 2015 is regarded as its cost. The carrying value was original cost less accumulated depreciation and cumulative impairment, if any as on that date.

Gains or losses arising from derecognition of investment property are measured as the difference between the net disposal proceeds and the carrying amount of the asset at the time of disposal and are recognized in the statement of profit and loss when the asset is derecognized.

c) Borrowing Costs:

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized, if any. All other borrowing costs are expensed in the period in which they occur.

d) Impairment of non-financial assets:

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

e) Investment in Subsidiary, Joint Venture & Associate:

The Company has elected to recognize its investments in subsidiaries, joint venture and an associate company at cost in accordance with the ~~9888~~ available in Ind AS 27, 'Separate Financial Statements'. Impairment policy applicable on such investments is explained in note (d) above.

Affil Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

f) Inventory:

Raw materials, finished goods, packing materials, stores, spares, consumables and stock-in-trade are carried at the lower of cost and net realizable value. However, materials and other items held for use in production of inventories are not written down below cost if the finished goods in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on an item-by item basis.

In determining the cost of raw materials, packing materials, stock-in-trade, stores, spares, components and consumables, first in first out (FIFO) method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.

Cost of finished goods and work-in-progress includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads as applicable and other costs incurred in bringing the inventories to their present location and condition. Fixed production overheads are allocated on the basis of normal capacity of production facilities.

g) Financial Instrument:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets:

Initial recognition and measurement:

The Company recognizes a financial asset in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial assets are recognized initially at fair value, plus in the case of financial assets not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial asset.

Where the fair value of a financial asset at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial asset.

However, trade receivables that do not contain a significant financing component are measured at transaction price.

Subsequent measurement:

For subsequent measurement, the Company classifies a financial asset in accordance with the below criteria:

Affil Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

- i. The Company's business model for managing the financial asset and
- ii. The contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Company classifies its financial assets into the following categories:

- i. Financial assets measured at amortized cost.
- ii. Financial assets measured at fair value through other comprehensive income (FVTOCI)
- iii. Financial assets measured at fair value through profit or loss (FVTPL)

i. Financial assets measured at amortized cost:

A financial asset is measured at the amortized cost if both the following conditions are met:

- a) The Company's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows, and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to cash and bank balances, trade receivables, loans and other financial assets of the Company. Such financial assets are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash receipts are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial asset over the relevant period of the financial asset to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest income over the relevant period of the financial asset. The same is included under other income in the Statement of Profit and Loss.

The amortized cost of a financial asset is also adjusted for loss allowance, if any.

ii. Financial assets measured at FVTOCI:

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI).

iii. Financial assets measured at FVTPL:

A financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as explained above. This is a residual category applied to all other investments of the Company excluding investments in subsidiary and associate companies. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of Profit and Loss.

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

Derecognition:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e. removed from the Company's Balance Sheet) when any of the following occurs:

- i. The contractual rights to cash flows from the financial asset expires;
- ii. The Company transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset;
- iii. The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset);
- iv. The Company neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where Company has neither transferred nor retained substantially all of the risks and rewards of the financial asset, but retains control of the financial asset, the Company continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Company also recognizes an associated liability. The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On Derecognition of a financial asset, (except as mentioned in ii above for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognized in the Statement of Profit and Loss.

Impairment of financial assets:

The Company applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the following:

- i. Trade receivables:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the Effective Interest Rate (EIR) method, less provision for impairment based on expected credit loss.

For trade and lease receivable only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of such receivables.

- ii. Financial assets measured at amortized cost (other than trade receivables)

In case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognized as loss allowance.

In case of other assets (listed as ii above), the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured

Affil Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

Financial Liabilities

Initial recognition and measurement:

The Company recognizes a financial liability in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial liabilities are recognized initially at fair value minus, in the case of financial liabilities not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial liability.

Where the fair value of a financial liability at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial liability.

Subsequent measurement:

All financial liabilities of the Company are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash payments are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial liability over the relevant period of the financial liability to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest expense over the relevant period of the financial liability. The same is included under finance cost in the Statement of Profit and Loss.

Derecognition:

Affil Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of Profit and Loss.

Offsetting of Financial Instruments:

Financial assets and financial liabilities are offset, and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

h) Fair Value:

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 — inputs that are unobservable for the asset or liability

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

i) Revenue Recognition:

Revenue is recognized when it is probable that economic benefits associated with a transaction flows to the Company in the ordinary course of its activities and the amount of revenue can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable after the deduction of any trade and cash discounts, volume rebates and any taxes

Affil Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

or duties collected on behalf of the Government which are levied on sales such as sales tax, value added tax, goods and service tax etc.

Revenue includes only the gross inflows of economic benefits, including excise duty, received and receivable by the Company, on its own account.

Sale of products:

Revenue from sale of products is recognized when the Company transfers all significant risks and rewards of ownership to the buyer, while the Company retains neither continuing managerial involvement nor effective control over the products sold.

Interest and dividends:

Interest income is recognized using effective interest method. Dividend income is recognized when the right to receive payment is established.

Insurance Claims

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that there is no uncertainty in receiving the claims

j) **Income Taxes:**

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current tax:

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible under the Income Tax Act, 1961. Current tax is measured using tax rates that have been enacted by the end of reporting period for the amounts expected to be recovered from or paid to the taxation authorities.

Deferred tax:

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit under Income Tax Act, 1961.

Deferred tax liabilities are generally recognized for all taxable temporary differences. However, in case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax liabilities are not recognized. Also, for temporary differences if any that may arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognized.

Affil Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Presentation of current and deferred tax:

Current and deferred tax are recognized as income or an expense in the Statement of Profit and Loss, except when they relate to items that are recognized in Other Comprehensive Income, in which case, the current and deferred tax income/ expense are recognized in Other Comprehensive Income.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

k) Foreign Currency Transaction & Translation:

Initial Recognition:

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency (i.e. Indian Rupees), by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Measurement of foreign currency items at reporting date:

Foreign currency monetary items of the Company are translated at the closing exchange rates. Non-monetary items that are measured at historical cost in a foreign currency, are translated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency, are translated using the exchange rates at the date when the fair value is measured.

Exchange differences arising out of these translations are recognized in the Statement of Profit and Loss.

l) Provision & Contingencies:

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

Affil Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

m) Employee Benefits:

Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

Post-Employment Benefits:

I. Defined Contribution plans:

Defined contribution plans are employee provident fund, employee state insurance scheme and Government administered pension fund scheme for all applicable employees.

Recognition and measurement of defined contribution plans:

The Company recognizes contribution payable to a defined contribution plan as an expense in the Statement of Profit and Loss when the employees render services to the Company during the reporting period. If the contributions payable for services received from employees before the reporting date exceeds the contributions already paid, the deficit payable is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the reporting date, the excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

II. Defined Benefit plans:

The Company operates a defined benefit gratuity plan for employees.

Recognition and measurement of Defined Benefit plans:

The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the present value of available refunds and reductions in future contributions to the plan.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss. Remeasurements of the net defined benefit liability / (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest on the net defined benefit liability/asset) are recognized in Other Comprehensive

Affil Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

The Company presents the above liability/(asset) as current and non-current in the Balance Sheet as per actuarial valuation by the independent actuary; however, the entire liability towards gratuity is considered as current as the Company will contribute this amount to the gratuity fund within the next twelve months.

Other Long-Term Employee Benefits:

Entitlements to annual leave and sick leave are recognised when they accrue to employees. Sick leave can only be availed or encashed subject to a restriction on the maximum number of accumulation of leave. The company determines the liability for such accumulated leave using the projected accrued benefit method with actuarial valuations being carried out at each Balance Sheet date.

n) **Lease Accounting:**

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a Lessee

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term and useful life of the underlying asset. The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using

Affil Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows. Further, refer note no. 41, for effect of transition to Ind AS 116, classification of leases and other disclosures relating to leases.

Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

o) Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company.

p) Earnings per share:

Basic earnings per share is computed by dividing the net profit after tax attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing adjusted net profit after tax by the aggregate of weighted average number of equity shares and dilutive potential equity shares during the year.

q) Cash Flow Statement:

Cash Flow are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non- cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

r) Cash and cash equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, deposit accounts and term deposits accounts with remaining maturity of three months or less as at balance sheet date, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash on hand, deposit accounts and term deposits as defined above and investment in liquid funds for short term purpose.

s) Events after reporting date:

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

B. Measurement of fair values

i) Investments in Associate, Joint Venture and Subsidiaries:

Investments in Associate, Joint Venture and Subsidiaries have been accounted at cost. Since these are scoped out of Ind AS 109 for the purposes of measurement, the same have been disclosed at cost in the tables above.

ii) Financial Instrument measured at Amortised Cost:

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are reasonable approximation of their fair values since the company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

iii) Levels 1, 2 and 3

- Level 1 : It includes Investment in equity shares and mutual fund that has a quoted price and which are actively traded on the stock exchanges. It is been valued using the closing price as at the reporting period on the stock exchanges.
- Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
- Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

13 Financial instruments risk management objectives and policies

The Company's financial liabilities comprise mainly of borrowings, trade and other payables. The Company's financial assets comprise mainly of investments, cash and cash equivalents, other balances with banks, loans, trade receivables and other receivables.

The following disclosures summarize the Company's exposure to financial risks. Quantitative sensitivity analysis have been provided to reflect the impact of reasonably possible changes in market rates on the financial results, cash flows and financial position of the Company.

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risks: interest rate risk, currency risk and other price risk. Financial instruments affected by market risk includes borrowings, investments, trade payables, trade receivables and loans.

(b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company seeks to mitigate such risk by maintaining an adequate proportion of floating and fixed interest rate borrowings.

(c) Foreign currency risk

Company is not exposed to foreign currency market, hence a parallel shift in the foreign exchange rate will not impact the profits of the company directly.

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk primarily trade receivables and other financial assets including deposits with banks. The Company's exposure and credit ratings of its counterparties are continuously monitored and the aggregate value of transactions is reasonably spread amongst the counterparties.

AFFIL CERAMICS LIMITED

Notes on Financial Statements for the Period Ended 31 March, 2024

Financial instruments risk management objectives and policiescontinue

Other financial assets

This comprises mainly of deposits with banks and other intercompany receivables. Credit risk arising from these financial assets is limited and there is no collateral held against these are banks and recognised financial institutions. Banks and recognised financial institutions have high credit ratings assigned by the international credit rating agencies.

Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy and procedures. Trade receivables are non-interest bearing and generally have a credit period not exceeding 90 days. Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit. The Company has no concentration of credit risk as the customer base is widely distributed both economically and geographically.

Financial instruments and cash

Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. INDEPENDENT AUDITOR'S REPORT

**TO THE MEMBERS OF
 IVANTA CERAMIC LIMITED**
Report on the Audit of the Financial Statements
Opinion

We have audited the accompanying financial statements **IVANTA CERAMIC LIMITED** (the "Company"), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity, the Statement of Cash Flows for the year then ended on that date and a summary of the material accounting policies and other explanatory information (here in after referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the afore said financial statements give the information required by the Companies Act, 2013(the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024 and its loss, total comprehensive income/loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SA") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. ~~These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to be communicated in our report.~~

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

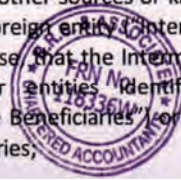

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the Company has not paid any remuneration to its directors during the year, hence reporting under section 197 (16) is not applicable to the company.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. As informed to us the Company does not have any pending litigation which would impact its financial position in its statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. (a)The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("intermediaries"), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries"), or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that , to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries ") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c)Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of rule 11(e), as provided under(a)and(b)above, contain any material misstatement.

- iv. The Company has not declared or paid dividend during the year covered by our audit.
- v. Based on our examination, which include test checks, the Company has used accounting softwares for maintaining its books of account for the financial year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rule 2014 is applicable from April 01, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirement for record retention in not applicable for the financial year ended March 31, 2024

2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of **IVANTA CERAMIC LIMITED** of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial report of **IVANTA CERAMIC LIMITED ('the company')** as on 31st March 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit or Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of the assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information as required under the Companies Act, 2013 (the 'Act').

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India and the Standard on Auditing ('SA') prescribed under section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls. Those Standards and Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls systems over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purpose in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting included those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transaction are recorded as necessary to permit preparation of financial statement in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Control over Financial Reporting

Because of the inherent limitation of internal financial controls over financial reporting including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also , projection of any evaluation of the internal financial controls over financial reporting to future periods are subjects to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

 - e) The Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.
 - f) The Company has not raised any funds during the year on the pledge of securities held in its subsidiaries.
10.
 - a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
 - b) During the year, the Company has not made preferential allotment or private placement of shares or convertible debentures (fully, partly or optionally convertible) during the year. Accordingly reporting under clause 3(x)(b) of the Order is not applicable.
11. a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.

- b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year and up to the date of this report.
12. The Company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable to the Company.
13. Transactions with related parties are in compliance with section 177 and 188 of the Act, where applicable and the details have been disclosed in the notes to the financial statements, as required by the accounting standards.
14. In our opinion and based on our examination, the Company does not have an internal audit system and is not required to have an internal audit system under the provisions of Section 138 of the Act. Accordingly, paragraph 3(xiv) (a) and (b) of the Order is not applicable.
15. In our opinion, during the year the Company has not entered into any non-cash transaction with its Directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
16. (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.
- (b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
17. The Company has incurred cash loss of Rs 0.65 lakhs for the current financial year.
18. There has been no resignation of statutory auditors of the Company during the year.
19. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

20. The provisions of section 135 of the Companies Act 2013 in relation to Corporate Social Responsibility are not applicable to the company during the year and hence reporting under this clause is not applicable.

Ivanta Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

Company Background:

Ivanta Ceramic Limited (the Company) is a Public limited company domiciled and incorporated in India as on 23rd March, 2023 under the provisions of Companies Act, 2013. The Company is engaged into the business of manufacturing and Manufacture of refractory bricks, blocks tiles and similar refractory ceramic constructional goods. The company is a wholly owned subsidiary of Asian Granito India Limited, a NSE & BSE listed company.

1. Statement on Significant Accounting Policies, Key Accounting Estimates and Judgements:

1.1 Basis for Preparation:

These financial statements are prepared in accordance with Indian Accounting Standards ('Ind AS') as notified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

These financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for the certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below.

The accounting policies have been applied consistently over all the periods presented in these financial statements.

1.2 Functional and presentation currency:

These financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency.

1.3 Key accounting estimates and judgements:

The preparation of the Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

1.4 Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

i) Property, Plant and Equipment:

Property, Plant and Equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial

Ivanta Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

- ii) **Income taxes:**
 The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.
- iii) **Defined Benefit Obligation:**
 The costs of providing pensions and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.
- iv) **Estimates:**
 Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

1.5 Current / Non-Current Classification:

Any asset or liability is classified as current if it satisfies any of the following conditions:

- i. the asset/liability is expected to be realized/settled in the Company's normal operating cycle;
- ii. the asset is intended for sale or consumption;
- iii. the asset/liability is expected to be realized/settled within twelve months after the reporting period;
- iv. the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- v. In the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

1.6 Summary of Significant accounting policies:

- a) **Property, Plant & Equipment:**
 - i) Measurement at recognition:

Ivanta Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses.

The cost of an item of property, plant and equipment comprises of its purchase price, including import duties, borrowing cost, changes on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets, other non-refundable purchase taxes or levies and any cost directly attributable to bringing the assets to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

ii) Depreciation:

Depreciation on each part of an item of property, plant and equipment is provided using the Straight-Line Method (SLM) Method based on the useful life of the asset as prescribed in Schedule II to the Companies Act, 2013.

Land is not depreciated.

The useful lives, residual values of each part of an item of property, plant and equipment and the depreciation methods are reviewed at the end of each financial year. If any of these expectations differ from previous estimates, such change is accounted for as a change in an accounting estimate.

iii) Derecognition:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the Derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized.

iv) Capital Work in progress:

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress.

b) **Investment Property:**

Investment Property is measured initially at cost including related transaction costs.

The cost comprises the purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for its intended use.

Ivanta Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

Subsequent expenditures are capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably. All day-to-day repair and maintenance expenditure are charged to the statement of profit and loss for the period during which such expenses are incurred.

For transition to Ind AS, the carrying value of Investment Property under previous GAAP as on April 01, 2015 is regarded as its cost. The carrying value was original cost less accumulated depreciation and cumulative impairment, if any as on that date.

Gains or losses arising from derecognition of investment property are measured as the difference between the net disposal proceeds and the carrying amount of the asset at the time of disposal and are recognized in the statement of profit and loss when the asset is derecognized.

c) Borrowing Costs:

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized, if any. All other borrowing costs are expensed in the period in which they occur.

d) Impairment of non-financial assets:

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

e) Investment in Subsidiary, Joint Venture & Associate:

The Company has elected to recognize its investments in subsidiaries, joint venture and an associate company at cost in accordance with the option available in Ind AS 27, 'Separate Financial Statements'. Impairment policy applicable on such investments is explained in note (d) above.

Ivanta Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

f) Inventory:

Raw materials, finished goods, packing materials, stores, spares, consumables and stock-in-trade are carried at the lower of cost and net realizable value. However, materials and other items held for use in production of inventories are not written down below cost if the finished goods in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on an item-by item basis.

In determining the cost of raw materials, packing materials, stock-in-trade, stores, spares, components and consumables, first in first out (FIFO) method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.

Cost of finished goods and work-in-progress includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads as applicable and other costs incurred in bringing the inventories to their present location and condition. Fixed production overheads are allocated on the basis of normal capacity of production facilities.

g) Financial Instrument:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets:

Initial recognition and measurement:

The Company recognizes a financial asset in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial assets are recognized initially at fair value, plus in the case of financial assets not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial asset.

Where the fair value of a financial asset at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial asset.

However, trade receivables that do not contain a significant financing component are measured at transaction price.

Subsequent measurement:

For subsequent measurement, the Company classifies a financial asset in accordance with the below criteria:

Ivanta Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

- i. The Company's business model for managing the financial asset and
- ii. The contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Company classifies its financial assets into the following categories:

- i. Financial assets measured at amortized cost.
- ii. Financial assets measured at fair value through other comprehensive income (FVTOCI)
- iii. Financial assets measured at fair value through profit or loss (FVTPL)

i. Financial assets measured at amortized cost:

A financial asset is measured at the amortized cost if both the following conditions are met:

- a) The Company's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows, and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to cash and bank balances, trade receivables, loans and other financial assets of the Company. Such financial assets are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash receipts are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial asset over the relevant period of the financial asset to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest income over the relevant period of the financial asset. The same is included under other income in the Statement of Profit and Loss.

The amortized cost of a financial asset is also adjusted for loss allowance, if any.

ii. Financial assets measured at FVTOCI:

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI).

iii. Financial assets measured at FVTPL:

A financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as explained above. This is a residual category applied to all other investments of the Company excluding investments in subsidiary and associate companies. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of Profit and Loss.

Ivanta Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

Derecognition:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e. removed from the Company's Balance Sheet) when any of the following occurs:

- i. The contractual rights to cash flows from the financial asset expires;
- ii. The Company transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset;
- iii. The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset);
- iv. The Company neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where Company has neither transferred nor retained substantially all of the risks and rewards of the financial asset, but retains control of the financial asset, the Company continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Company also recognizes an associated liability. The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On Derecognition of a financial asset, (except as mentioned in ii above for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognized in the Statement of Profit and Loss.

Impairment of financial assets:

The Company applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the following:

- i. Trade receivables:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the Effective Interest Rate (EIR) method, less provision for impairment based on expected credit loss.

For trade and lease receivable only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of such receivables.

- ii. Financial assets measured at amortized cost (other than trade receivables)

In case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognized as loss allowance.

In case of other assets (listed as ii above), the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured

Ivanta Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

Financial Liabilities

Initial recognition and measurement:

The Company recognizes a financial liability in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial liabilities are recognized initially at fair value minus, in the case of financial liabilities not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial liability.

Where the fair value of a financial liability at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial liability.

Subsequent measurement:

All financial liabilities of the Company are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash payments are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial liability over the relevant period of the financial liability to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest expense over the relevant period of the financial liability. The same is included under finance cost in the Statement of Profit and Loss.

Derecognition:

Ivanta Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of Profit and Loss.

Offsetting of Financial Instruments:

Financial assets and financial liabilities are offset, and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

h) Fair Value:

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 — inputs that are unobservable for the asset or liability

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

i) Revenue Recognition:

Revenue is recognized when it is probable that economic benefits associated with a transaction flows to the Company in the ordinary course of its activities and the amount of revenue can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable after the deduction of any trade and cash discounts, volume rebates and any taxes

Ivanta Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

or duties collected on behalf of the Government which are levied on sales such as sales tax, value added tax, goods and service tax etc.

Revenue includes only the gross inflows of economic benefits, including excise duty, received and receivable by the Company, on its own account.

Sale of products:

Revenue from sale of products is recognized when the Company transfers all significant risks and rewards of ownership to the buyer, while the Company retains neither continuing managerial involvement nor effective control over the products sold.

Interest and dividends:

Interest income is recognized using effective interest method. Dividend income is recognized when the right to receive payment is established.

Insurance Claims

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that there is no uncertainty in receiving the claims

j) Income Taxes:

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current tax:

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible under the Income Tax Act, 1961. Current tax is measured using tax rates that have been enacted by the end of reporting period for the amounts expected to be recovered from or paid to the taxation authorities.

Deferred tax:

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit under Income Tax Act, 1961.

Deferred tax liabilities are generally recognized for all taxable temporary differences. However, in case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax liabilities are not recognized. Also, for temporary differences if any that may arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognized.

Ivanta Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Presentation of current and deferred tax:

Current and deferred tax are recognized as income or an expense in the Statement of Profit and Loss, except when they relate to items that are recognized in Other Comprehensive Income, in which case, the current and deferred tax income/ expense are recognized in Other Comprehensive Income.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

k) **Foreign Currency Transaction & Translation:**

Initial Recognition:

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency (i.e. Indian Rupees), by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Measurement of foreign currency items at reporting date:

Foreign currency monetary items of the Company are translated at the closing exchange rates. Non-monetary items that are measured at historical cost in a foreign currency, are translated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency, are translated using the exchange rates at the date when the fair value is measured.

Exchange differences arising out of these translations are recognized in the Statement of Profit and Loss.

l) **Provision & Contingencies:**

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

Ivanta Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

m) Employee Benefits:

Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

Post-Employment Benefits:

I. Defined Contribution plans:

Defined contribution plans are employee provident fund, employee state insurance scheme and Government administered pension fund scheme for all applicable employees.

Recognition and measurement of defined contribution plans:

The Company recognizes contribution payable to a defined contribution plan as an expense in the Statement of Profit and Loss when the employees render services to the Company during the reporting period. If the contributions payable for services received from employees before the reporting date exceeds the contributions already paid, the deficit payable is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the reporting date, the excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

II. Defined Benefit plans:

The Company operates a defined benefit gratuity plan for employees.

Recognition and measurement of Defined Benefit plans:

The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the present value of available refunds and reductions in future contributions to the plan.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss. Remeasurements of the net defined benefit liability / (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest on the net defined benefit liability/asset) are recognized in Other Comprehensive

Ivanta Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

The Company presents the above liability/(asset) as current and non-current in the Balance Sheet as per actuarial valuation by the independent actuary; however, the entire liability towards gratuity is considered as current as the Company will contribute this amount to the gratuity fund within the next twelve months.

Other Long-Term Employee Benefits:

Entitlements to annual leave and sick leave are recognised when they accrue to employees. Sick leave can only be availed or encashed subject to a restriction on the maximum number of accumulation of leave. The company determines the liability for such accumulated leave using the projected accrued benefit method with actuarial valuations being carried out at each Balance Sheet date.

n) **Lease Accounting:**

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a Lessee

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term and useful life of the underlying asset. The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using

Ivanta Ceramic Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows. Further, refer note no. 41, for effect of transition to Ind AS 116, classification of leases and other disclosures relating to leases.

Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

o) Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company.

p) Earnings per share:

Basic earnings per share is computed by dividing the net profit after tax attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing adjusted net profit after tax by the aggregate of weighted average number of equity shares and dilutive potential equity shares during the year.

q) Cash Flow Statement:

Cash Flow are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non- cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

r) Cash and cash equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, deposit accounts and term deposits accounts with remaining maturity of three months or less as at balance sheet date, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash on hand, deposit accounts and term deposits as defined above and investment in liquid funds for short term purpose.

s) Events after reporting date:

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

B. Measurement of fair values

i) Investments in Associate, Joint Venture and Subsidiaries:

Investments in Associate, Joint Venture and Subsidiaries have been accounted at cost. Since these are scoped out of Ind AS 109 for the purposes of measurement, the same have been disclosed at cost in the tables above.

ii) Financial Instrument measured at Amortised Cost:

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are reasonable approximation of their fair values since the company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

iii) Levels 1, 2 and 3

- Level 1 : It includes Investment in equity shares and mutual fund that has a quoted price and which are actively traded on the stock exchanges. It is been valued using the closing price as at the reporting period on the stock exchanges.
- Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
- Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

12 Financial instruments risk management objectives and policies

The Company's financial liabilities comprise mainly of borrowings, trade and other payables. The Company's financial assets comprise mainly of investments, cash and cash equivalents, other balances with banks, loans, trade receivables and other receivables.

The following disclosures summarize the Company's exposure to financial risks. Quantitative sensitivity analysis have been provided to reflect the impact of reasonably possible changes in market rates on the financial results, cash flows and financial position of the Company.

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risks: interest rate risk, currency risk and other price risk. Financial instruments affected by market risk includes borrowings, investments, trade payables, trade receivables and loans.

(b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company seeks to mitigate such risk by maintaining an adequate proportion of floating and fixed interest rate borrowings.

(c) Foreign currency risk

Company is not exposed to foreign currency market, hence a parallel shift in the foreign exchange rate will not impact the profits of the company directly.

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk primarily trade receivables and other financial assets including deposits with banks. The Company's exposure and credit ratings of its counterparties are continuously monitored and the aggregate value of transactions is reasonably spread amongst the counterparties.

IVANTA CERAMIC LIMITED

Notes on Financial Statements for the Period Ended 31 March, 2024

Financial Instruments risk management objectives and policiescontinue

Other financial assets

This comprises mainly of deposits with banks and other intercompany receivables. Credit risk arising from these financial assets is limited and there is no collateral held against these are banks and recognised financial institutions. Banks and recognised financial institutions have high credit ratings assigned by the international credit rating agencies.

Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy and procedures. Trade receivables are non-interest bearing and generally have a credit period not exceeding 90 days. Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit. The Company has no concentration of credit risk as the customer base is widely distributed both economically and geographically.

Financial instruments and cash

Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including bilateral loans, debt and overdraft from both banks and financial institutions at an optimised cost.

INDEPENDENT AUDITOR'S REPORT

**TO THE MEMBERS OF
CRYSTAL VITRIFIED LIMITED**
Report on the Audit of the Financial Statements
Opinion

We have audited the accompanying financial statements **CRYSTAL VITRIFIED LIMITED** (the "Company"), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity, the Statement of Cash Flows for the year then ended on that date and a summary of the material accounting policies and other explanatory information (here in after referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the a'ore said financial statements give the information required by the Companies Act, 2013(the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024 and its loss, total comprehensive income/loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SA") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to be communicated in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report including Annexure to Board's Report but does not include the financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the Other Information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information'.

Management's Responsibility for the Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:-

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the Company has not paid any remuneration to its directors during the year, hence reporting under section 197 (16) is not applicable to the company.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. As informed to us the Company does not have any pending litigation which would impact its financial position in its statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. (a)The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that , to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries ") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c)Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of rule 11(e), as provided under(a)and(b)above, contain any material misstatement.

- iv. The Company has not declared or paid dividend during the year covered by our audit.
- v. Based on our examination, which include test checks, the Company has used accounting softwares for maintaining its books of account for the financial year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with.

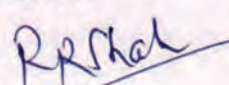

As proviso to Rule 3(1) of the Companies (Accounts) Rule 2014 is applicable from April 01, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirement for record retention in not applicable for the financial year ended March 31, 2024

- 2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of **CRYSTAL VITRIFIED LIMITED** of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial report of **CRYSTAL VITRIFIED LIMITED ('the company')** as on 31st March 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit or Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of the assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information as required under the Companies Act, 2013 (the 'Act').

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India and the Standard on Auditing ('SA') prescribed under section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls. Those Standards and Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls systems over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purpose in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting included those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transaction are recorded as necessary to permit preparation of financial statement in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Control over Financial Reporting

Because of the inherent limitation of internal financial controls over financial reporting including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also , projection of any evaluation of the internal financial controls over financial reporting to future periods are subjects to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of CRYSTAL VITRIFIED LIMITED of even date)

To the best of our information and according to the explanation provided to us by the company and the books of accounts and records examined by us in the normal course of audit, we state that:-

1. In respect of the Company's Property, Plant and Equipment and Intangible Assets:
 - a) (A) The Company does not own any Property, Plant and Equipment, hence reporting requirement of this sub-clause does not apply to the Company.

(B) The Company does not have any intangible asset hence reporting under this sub clause of the Order is not applicable to the Company.
 - b) The Company does not own any Property, Plant and Equipment, hence reporting requirement under clause 3(i) (b) of the Order is not applicable.
 - c) The Company does not have any immovable properties hence reporting under clause 3 (i) (c) of the Order is not applicable to the company.
 - d) The Company has not revalued any of its Property, Plant and Equipment and intangible assets during the year.
 - e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2024 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made there under.
2.
 - a) The company does not have inventory, hence reporting under clause 3(ii)(a) of the order is not applicable.
 - b) The Company has not been sanctioned working capital limits in excess of Rs. 5 Crore, in aggregate, during the year, from banks or financial institutions, hence reporting under clause 3(ii)(b) of the Order is not applicable to the Company
3. The Company has not made any investments in, provided any guarantee or security, and granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnership or other parties during the year, and hence the provisions of clause 3(iii) of the Order are not applicable.
4. The Company has neither made any investments nor has it given loans or provided guarantee or security and therefore the relevant provisions of Sections 185 and 186 of the Act are not applicable to the Company. Accordingly, clause 3(iv) of the Order is not applicable.

5. The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3(v) of the Order are not applicable.
6. The maintenance of cost records has not been specified by the Central Government under sub-section (1) of the section 148 of the Companies Act, 2013. Hence, reporting under clause (vi) of the Order is not applicable to the Company.
7. In respect to statutory dues:
 - a. In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including income tax and other material statutory dues with the appropriate authorities. There were no undisputed statutory dues as on March 31, 2024, which were outstanding for more than six months from the date on which they became payable.
 - b. There are no material dues of income tax and other material statutory dues which have not been deposited with the appropriate authorities on account of any disputes.
8. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessment under the Income Tax Act, 1961.
9.
 - a) The Company has not taken any loans or other borrowings from any lender and therefore reporting under clause 3(ix)(a) of the Order is not applicable to the Company.
 - b) The Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
 - c) The Company has not raised any term loans during the year hence reporting under clause 3(ix)(c) is of the Order is not applicable to the Company.
 - d) The Company has not raised any short term funds during the year, hence reporting under clause 3(ix)(d) of the Order is not applicable to the Company.
 - e) The Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.
 - f) The Company has not raised any funds during the year on the pledge of securities held in its subsidiaries.
10.
 - a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
 - b) During the year, the Company has not made preferential allotment or private placement of shares or convertible debentures (fully, partly or optionally convertible) during the year. Accordingly reporting under clause 3(x)(b) of the Order is not applicable.
11.
 - a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.

- b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year and up to the date of this report.
12. The Company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable to the Company.
13. Transactions with related parties are in compliance with section 177 and 188 of the Act, where applicable and the details have been disclosed in the notes to the financial statements, as required by the accounting standards.
14. In our opinion and based on our examination, the Company does not have an internal audit system and is not required to have an internal audit system under the provisions of Section 138 of the Act. Accordingly, paragraph 3(xiv) (a) and (b) of the Order is not applicable.
15. In our opinion, during the year the Company has not entered into any non-cash transaction with its Directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
16. (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.
- (b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi) d) of the Order is not applicable.
17. The Company has incurred cash loss of Rs 0.65 lakhs for the current financial year.
18. There has been no resignation of statutory auditors of the Company during the year.
19. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

20. The provisions of section 135 of the Companies Act 2013 in relation to Corporate Social Responsibility are not applicable to the company during the year and hence reporting under this clause is not applicable.

Crystal Vitrified Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

Company Background:

Crystal Vitrified Limited (the Company) is a Public limited company domiciled and incorporated in India as on 23rd March, 2023 under the provisions of Companies Act, 2013. The Company is engaged into the business of manufacturing and Manufacture of refractory bricks, blocks tiles and similar refractory ceramic constructional goods. The company is a wholly owned subsidiary of Asian Granito India Limited, a NSE & BSE listed company.

1. Statement on Significant Accounting Policies, Key Accounting Estimates and Judgements:

1.1 Basis for Preparation:

These financial statements are prepared in accordance with Indian Accounting Standards ('Ind AS') as notified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

These financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for the certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below.

The accounting policies have been applied consistently over all the periods presented in these financial statements.

1.2 Functional and presentation currency:

These financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency.

1.3 Key accounting estimates and judgements:

The preparation of the Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

1.4 Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

i) Property, Plant and Equipment:

Property, Plant and Equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial

Crystal Vitrified Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

ii) Income taxes:

The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

iii) Defined Benefit Obligation:

The costs of providing pensions and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.

iv) Estimates:

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

1.5 Current / Non-Current Classification:

Any asset or liability is classified as current if it satisfies any of the following conditions:

- i. the asset/liability is expected to be realized/settled in the Company's normal operating cycle;
- ii. the asset is intended for sale or consumption;
- iii. the asset/liability is expected to be realized/settled within twelve months after the reporting period;
- iv. the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- v. In the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

1.6 Summary of Significant accounting policies:

a) **Property, Plant & Equipment:**

- i) Measurement at recognition:

Crystal Vitrified Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses.

The cost of an item of property, plant and equipment comprises of its purchase price, including import duties, borrowing cost, changes on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets, other non-refundable purchase taxes or levies and any cost directly attributable to bringing the assets to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

ii) Depreciation:

Depreciation on each part of an item of property, plant and equipment is provided using the Straight-Line Method (SLM) Method based on the useful life of the asset as prescribed in Schedule II to the Companies Act, 2013.

Land is not depreciated.

The useful lives, residual values of each part of an item of property, plant and equipment and the depreciation methods are reviewed at the end of each financial year. If any of these expectations differ from previous estimates, such change is accounted for as a change in an accounting estimate.

iii) Derecognition:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the Derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized.

iv) Capital Work in progress:

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress.

b) **Investment Property:**

Investment Property is measured initially at cost including related transaction costs.

The cost comprises the purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for its intended use.

Crystal Vitrified Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

Subsequent expenditures are capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably. All day-to-day repair and maintenance expenditure are charged to the statement of profit and loss for the period during which such expenses are incurred.

For transition to Ind AS, the carrying value of Investment Property under previous GAAP as on April 01, 2015 is regarded as its cost. The carrying value was original cost less accumulated depreciation and cumulative impairment, if any as on that date.

Gains or losses arising from derecognition of investment property are measured as the difference between the net disposal proceeds and the carrying amount of the asset at the time of disposal and are recognized in the statement of profit and loss when the asset is derecognized.

c) Borrowing Costs:

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized, if any. All other borrowing costs are expensed in the period in which they occur.

d) Impairment of non-financial assets:

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

e) Investment in Subsidiary, Joint Venture & Associate:

The Company has elected to recognize its investments in subsidiaries, joint venture and an associate company at cost in accordance with the option available in Ind AS 27, 'Separate Financial Statements'. Impairment policy applicable on such investments is explained in note (d) above.

Crystal Vitrified Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

f) Inventory:

Raw materials, finished goods, packing materials, stores, spares, consumables and stock-in-trade are carried at the lower of cost and net realizable value. However, materials and other items held for use in production of inventories are not written down below cost if the finished goods in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on an item-by item basis.

In determining the cost of raw materials, packing materials, stock-in-trade, stores, spares, components and consumables, first in first out (FIFO) method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.

Cost of finished goods and work-in-progress includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads as applicable and other costs incurred in bringing the inventories to their present location and condition. Fixed production overheads are allocated on the basis of normal capacity of production facilities.

g) Financial Instrument:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets:

Initial recognition and measurement:

The Company recognizes a financial asset in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial assets are recognized initially at fair value, plus in the case of financial assets not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial asset.

Where the fair value of a financial asset at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial asset.

However, trade receivables that do not contain a significant financing component are measured at transaction price.

Subsequent measurement:

For subsequent measurement, the Company classifies a financial asset in accordance with the below criteria:

Crystal Vitrified Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

- i. The Company's business model for managing the financial asset and
- ii. The contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Company classifies its financial assets into the following categories:

- i. Financial assets measured at amortized cost.
- ii. Financial assets measured at fair value through other comprehensive income (FVTOCI)
- iii. Financial assets measured at fair value through profit or loss (FVTPL)

i. Financial assets measured at amortized cost:

A financial asset is measured at the amortized cost if both the following conditions are met:

- a) The Company's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows, and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to cash and bank balances, trade receivables, loans and other financial assets of the Company. Such financial assets are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash receipts are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial asset over the relevant period of the financial asset to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest income over the relevant period of the financial asset. The same is included under other income in the Statement of Profit and Loss.

The amortized cost of a financial asset is also adjusted for loss allowance, if any.

ii. Financial assets measured at FVTOCI:

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI).

iii. Financial assets measured at FVTPL:

A financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as explained above. This is a residual category applied to all other investments of the Company excluding investments in subsidiary and associate companies. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of Profit and Loss.

Crystal Vitrified Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

Derecognition:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e. removed from the Company's Balance Sheet) when any of the following occurs:

- i. The contractual rights to cash flows from the financial asset expires;
- ii. The Company transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset;
- iii. The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset);
- iv. The Company neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where Company has neither transferred nor retained substantially all of the risks and rewards of the financial asset, but retains control of the financial asset, the Company continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Company also recognizes an associated liability. The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On Derecognition of a financial asset, (except as mentioned in ii above for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognized in the Statement of Profit and Loss.

Impairment of financial assets:

The Company applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the following:

- i. Trade receivables:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the Effective Interest Rate (EIR) method, less provision for impairment based on expected credit loss.

For trade and lease receivable only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of such receivables.

- ii. Financial assets measured at amortized cost (other than trade receivables)

In case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognized as loss allowance.

In case of other assets (listed as ii above), the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured

Crystal Vitrified Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

Financial Liabilities

Initial recognition and measurement:

The Company recognizes a financial liability in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial liabilities are recognized initially at fair value minus, in the case of financial liabilities not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial liability.

Where the fair value of a financial liability at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial liability.

Subsequent measurement:

All financial liabilities of the Company are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash payments are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial liability over the relevant period of the financial liability to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest expense over the relevant period of the financial liability. The same is included under finance cost in the Statement of Profit and Loss.

Derecognition:

Crystal Vitrified Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of Profit and Loss.

Offsetting of Financial Instruments:

Financial assets and financial liabilities are offset, and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

h) Fair Value:

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 — inputs that are unobservable for the asset or liability

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

i) Revenue Recognition:

Revenue is recognized when it is probable that economic benefits associated with a transaction flows to the Company in the ordinary course of its activities and the amount of revenue can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable after the deduction of any trade and cash discounts, volume rebates and any taxes

Crystal Vitrified Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

or duties collected on behalf of the Government which are levied on sales such as sales tax, value added tax, goods and service tax etc.

Revenue includes only the gross inflows of economic benefits, including excise duty, received and receivable by the Company, on its own account.

Sale of products:

Revenue from sale of products is recognized when the Company transfers all significant risks and rewards of ownership to the buyer, while the Company retains neither continuing managerial involvement nor effective control over the products sold.

Interest and dividends:

Interest income is recognized using effective interest method. Dividend income is recognized when the right to receive payment is established.

Insurance Claims

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that there is no uncertainty in receiving the claims

j) Income Taxes:

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current tax:

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible under the Income Tax Act, 1961. Current tax is measured using tax rates that have been enacted by the end of reporting period for the amounts expected to be recovered from or paid to the taxation authorities.

Deferred tax:

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit under Income Tax Act, 1961.

Deferred tax liabilities are generally recognized for all taxable temporary differences. However, in case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax liabilities are not recognized. Also, for temporary differences if any that may arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognized.

Crystal Vitrified Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Presentation of current and deferred tax:

Current and deferred tax are recognized as income or an expense in the Statement of Profit and Loss, except when they relate to items that are recognized in Other Comprehensive Income, in which case, the current and deferred tax income/ expense are recognized in Other Comprehensive Income.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

k) Foreign Currency Transaction & Translation:

Initial Recognition:

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency (i.e. Indian Rupees), by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Measurement of foreign currency items at reporting date:

Foreign currency monetary items of the Company are translated at the closing exchange rates. Non-monetary items that are measured at historical cost in a foreign currency, are translated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency, are translated using the exchange rates at the date when the fair value is measured.

Exchange differences arising out of these translations are recognized in the Statement of Profit and Loss.

l) Provision & Contingencies:

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

Crystal Vitrified Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

m) Employee Benefits:

Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

Post-Employment Benefits:

I. Defined Contribution plans:

Defined contribution plans are employee provident fund, employee state insurance scheme and Government administered pension fund scheme for all applicable employees.

Recognition and measurement of defined contribution plans:

The Company recognizes contribution payable to a defined contribution plan as an expense in the Statement of Profit and Loss when the employees render services to the Company during the reporting period. If the contributions payable for services received from employees before the reporting date exceeds the contributions already paid, the deficit payable is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the reporting date, the excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

II. Defined Benefit plans:

The Company operates a defined benefit gratuity plan for employees.

Recognition and measurement of Defined Benefit plans:

The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the present value of available refunds and reductions in future contributions to the plan.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss. Remeasurements of the net defined benefit liability / (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest on the net defined benefit liability/asset), are recognized in Other Comprehensive

Crystal Vitrified Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

The Company presents the above liability/(asset) as current and non-current in the Balance Sheet as per actuarial valuation by the independent actuary; however, the entire liability towards gratuity is considered as current as the Company will contribute this amount to the gratuity fund within the next twelve months.

Other Long-Term Employee Benefits:

Entitlements to annual leave and sick leave are recognised when they accrue to employees. Sick leave can only be availed or encashed subject to a restriction on the maximum number of accumulation of leave. The company determines the liability for such accumulated leave using the projected accrued benefit method with actuarial valuations being carried out at each Balance Sheet date.

n) Lease Accounting:

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a Lessee

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term and useful life of the underlying asset. The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using

Crystal Vitrified Limited

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows. Further, refer note no. 41, for effect of transition to Ind AS 116, classification of leases and other disclosures relating to leases.

Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

o) Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company.

p) Earnings per share:

Basic earnings per share is computed by dividing the net profit after tax attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing adjusted net profit after tax by the aggregate of weighted average number of equity shares and dilutive potential equity shares during the year.

q) Cash Flow Statement:

Cash Flow are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

r) Cash and cash equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, deposit accounts and term deposits accounts with remaining maturity of three months or less as at balance sheet date, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash on hand, deposit accounts and term deposits as defined above and investment in liquid funds for short term purpose.

s) Events after reporting date:

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

Total Financial liabilities	-	-	0.45	0.45	-	-	-	-

B. Measurement of fair values

i) Investments in Associate, Joint Venture and Subsidiaries:

Investments in Associate, Joint Venture and Subsidiaries have been accounted at cost. Since these are scoped out of Ind AS 109 for the purposes of measurement, the same have been disclosed at cost in the tables above.

ii) Financial Instrument measured at Amortised Cost:

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are reasonable approximation of their fair values since the company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

iii) Levels 1, 2 and 3

- Level 1 : It includes Investment in equity shares and mutual fund that has a quoted price and which are actively traded on the stock exchanges. It is been valued using the closing price as at the reporting period on the stock exchanges.
- Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
- Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

12 Financial instruments risk management objectives and policies

The Company's financial liabilities comprise mainly of borrowings, trade and other payables. The Company's financial assets comprise mainly of investments, cash and cash equivalents, other balances with banks, loans, trade receivables and other receivables.

The following disclosures summarize the Company's exposure to financial risks. Quantitative sensitivity analysis have been provided to reflect the impact of reasonably possible changes in market rates on the financial results, cash flows and financial position of the Company.

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risks: interest rate risk, currency risk and other price risk. Financial instruments affected by market risk includes borrowings, investments, trade payables, trade receivables and loans.

(b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company seeks to mitigate such risk by maintaining an adequate proportion of floating and fixed interest rate borrowings.

(c) Foreign currency risk

Company is not exposed to foreign currency market, hence a parallel shift in the foreign exchange rate will not impact the profits of the company directly.

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk primarily trade receivables and other financial assets including deposits with banks. The Company's exposure and credit ratings of its counterparties are continuously monitored and the aggregate value of transactions is reasonably spread amongst the counterparties.

CRYSTAL VITRIFIED LIMITED

Notes on Financial Statements for the Period Ended 31 March, 2024

Financial instruments risk management objectives and policiescontinue

Other financial assets

This comprises mainly of deposits with banks and other intercompany receivables. Credit risk arising from these financial assets is limited and there is no collateral held against these are banks and recognised financial institutions. Banks and recognised financial institutions have high credit ratings assigned by the international credit rating agencies.

Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy and procedures. Trade receivables are non-interest bearing and generally have a credit period not exceeding 90 days. Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit. The Company has no concentration of credit risk as the customer base is widely distributed both economically and geographically.

Financial instruments and cash

Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including bilateral loans, debt and overdraft from both banks and financial institutions at an optimised cost.

INDEPENDENT AUDITOR'S REPORT

**TO THE MEMBERS OF
AMAZOONE CERAMICS LIMITED**
Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements **AMAZOONE CERAMICS LIMITED** (the "Company"), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity, the Statement of Cash Flows for the year then ended on that date and a summary of the material accounting policies and other explanatory information (here in after referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024 and its loss, total comprehensive loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SA") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to be communicated in our report.

Emphasis on Matter

We draw your attention to the Note 38 of the Standalone Financial Statement that describes the search operation carried out by the Income Tax department at the Company's business premises on May 26th, 2022, pursuant to which assessment order have been received for the assessment year 2022-23 and the Company has filled appeal against such order. Pending finalization of appeals the impact of these matters on the Standalone Financial Statement for the quarter and year ended on March 31, 2024 and the adjustment (if any) required to these Standalone Financial Statement, is presently not ascertainable. Our opinion is not modified in respect of this matter

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, but does not include the financial statements and our auditor's report there on. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the Other Information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information'.

Management's Responsibility for the Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:-

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial control over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:
In our opinion and to the best of our information and according to the explanations given to us, the Company has not paid any remuneration to its directors during the year, hence reporting under section 197 (16) is not applicable to the company.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. As informed to us the Company discloses the impact of pending litigation on its financial position in its financial statements
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

iv. The Company has not declared or paid dividend during the year covered by our audit.

v. Based on our examination, which include test checks, the Company has used accounting softwares for maintaining its books of account for the financial year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rule 2014 is applicable from April 01, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirement for record retention is not applicable for the financial year ended March 31, 2024

2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of **AMAZOONE CERAMICS LIMITED** of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause(i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial report of **AMAZOONE CERAMICS LIMITED ('the company')** as on March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit or Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of the assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information as required under the Companies Act, 2013 (the 'Act').

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India and the Standard on Auditing ('SA') prescribed under section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls. These Standards and Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls systems over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purpose in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting included those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transaction are recorded as necessary to permit preparation of financial statement in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Control over Financial Reporting

Because of the inherent limitation of internal financial controls over financial reporting including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projection of any evaluation of the internal financial controls over financial reporting to future periods are subjects to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of AMAZOONE CERAMICS LIMITED of even date)

To the best of our information and according to the explanation provided to us by the company and the books of accounts and records examined by us in the normal course of audit, we state that:-

1. In respect of the Company's Property, Plant and Equipment and Intangible Assets:

a) (A) The Company has maintained proper records showing full particulars including quantitative details and situation of its Property, Plant and Equipment.

(B) The Company does not have any intangible asset, hence reporting under this clause of the Order is not applicable to the Company.

b) According to the information and explanation given to us, the Property, Plant and Equipment of the Company have been physically verified by the management at reasonable period during the year and no material discrepancies have been noticed on such verification. In our opinion the frequency of physical verification of Property, plant and equipment is reasonable having regard to the size of the company and nature of its business.

c) The title deeds, comprising all immovable properties of land and building which are freehold, are held in the name of the Company.

d) The Company has not revalued any of its Property, Plant and Equipment and intangible assets during the year.

e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2024 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made there under.

2. a) The inventories were physically verified during the year by the management at reasonable intervals and no material discrepancies were noticed on physical verification.

b) The Company has been sanctioned working capital limits in excess of Rs 5 Crore, in aggregate, during the year, from banks or financial institutions on the basis of security of current assets. In our opinion, the quarterly returns or statements filed by the Company with such banks or financial institution are in agreement with the books of account of the Company.

3. The Company has made investment in companies, firms, Limited Liability Partnerships, and granted unsecured loans to other parties, in respect of which:

a) The Company has provided loans or advances in the nature of loans or stood guarantee, or provided security to subsidiaries, joint venture and associates and the details are mentioned in the following table:

(Rs in Lakhs)

Particulars:	Guarantees	Security	Loans	Advances in Nature of Loans:
Aggregate amount granted during the year:				
-subsidiaries,	-	-	-	-
-joint venture,	-	-	-	-

-subsidiaries,	-	-	-	-
-joint venture,	-	-	-	-
-associates,	-	-	-	-
-others.	-	-	2052.35	-

b) The investments made, and the terms and conditions of the grant of loans, during the year are, prima facie, not prejudicial to the Company's interest.

c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has not been stipulated. Accordingly clause 3(iii)(c) of the order is not applicable.

d) In respect of loans granted by the Company, there is no overdue amount remaining outstanding as at balance sheet date.

e) No loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the over dues of existing loans given to the same parties.

f) The Company has granted loans or advances in the nature of loans which were repayable on demand or without specifying any terms or period of repayment amounting to Rs. 2052.35 lakhs at the end of the year. Details of aggregate amount, percentage thereof of the total loans granted, aggregate amount of loans granted to Promoters, related parties as defined in clause (76) of section 2 of the Companies Act, 2013 are given here under:

(Rs in lakhs)

Sr. No	Particulars:	All Parties	Promoters	Related Parties
1	Aggregate amount of loans -Repayable on demand as there is no specific agreement(A) -Agreement does not specify any terms or period of repayment(B)	2052.35 -	-	2052.35
2	Total (A+B)	2052.35	-	2052.35
3	Percentage of loans to the total loans	100%	-	100%

4. The Company has complied with the provisions of section 185 and 186 of the act with respect to loans granted, investments made and guarantees given and security provided, as applicable.
5. The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3 (v) of the Order are not applicable.
6. The maintenance of cost records has not been specified by the Central Government under sub-section (1) of the section 148 of the Companies Act, 2013. Hence, reporting under clause (vi) of the Order is not applicable to the Company.
7. In respect to statutory dues:
 - a. In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including Goods and Service Tax, Provident Fund, Employees' State Insurance, Income Tax and other material Statutory dues with the appropriate authorities. There were no undisputed statutory dues as on March 31, 2024, which were outstanding for more than six months from the date on which they became payable.
 - b. The details of disputed statutory dues of Income Tax and goods & service tax which have not been deposited as at March 31, 2024 on account of dispute are as under:

(Rs. In Lakhs)

Name of Statute	Nature of Dues	Forum where dispute is pending	Amount Demanded (Rs)	Period to which amount relates
Income Tax Act, 1961	Income Tax	Below Commissioner Level	1.19	AY 2020-21
			2.93	AY 2018-19
		Commissioner Level	63.97	AY 2022-23
Sub –Total (A)			68.09	
Goods and Service Tax 2017	Goods and Service Tax	Commissioner Level	24.15	FY 2020-21
Sub –Total (B)			24.15	
Total (A+B)			92.24	

8. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessment under the Income Tax Act, 1961.
9. a) The Company has not defaulted in the repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.
- b) The Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.

- c) There are no term loans availed by the company, hence reporting under this clause is not applicable.
- d) Funds raised on short basis, prima facie, not been used during the year for long term purposes by the Company.
- e) The Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.
- f) The Company has not raised any funds during the year on the pledge of securities held in its subsidiaries
10. a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
- b) During the year, the Company has not made preferential allotment or private placement of shares or convertible debentures (fully, partly or optionally convertible). Accordingly reporting under clause 3(x)(b) of the Order is not applicable
11. a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year and up to the date of this report.
12. The Company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable to the Company.
13. Transactions with related parties are in compliance with section 177 and 188 of the Act, where applicable and the details have been disclosed in the notes to the financial statements, as required by the accounting standards.
14. In our opinion and based on our examination, the Company does not have an internal audit system and is not required to have an internal audit system under the provisions of Section 138 of the Act. Accordingly, paragraph 3(xiv) (a) and (b) of the Order is not applicable.
15. In our opinion, during the year the Company has not entered into any non-cash transaction with its Directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
16. (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xv)(a), (b) and (c) of the Order is not applicable.

- (b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016 and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
17. The Company has not incurred cash loss during the financial year, but the Company has incurred cash loss during immediately preceding financial year amounting to Rs. 1084.03 lakhs
18. There has been no resignation of statutory auditors of the company during the year.
19. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.
20. The provisions of section 135 of the Companies Act 2013 in relation to Corporate Social Responsibility are not applicable to the company during the year and hence reporting under this clause is not applicable.

AMAZOONE CERAMICS LIMITED

Notes to the Financial Statements for the Year ended 31 March, 2024

1 Background:

Amazoone Ceramics Limited (Formerly known As BONZER Ceramics Limited) ("the Company") is a public company, incorporated under the provisions of Companies Act, 1956. The Company is engaged in manufacturing and trading of Tiles and allied products. Its registered office is situated at Block No. 83 (old block no. 450), At: Dulpur Taluka: Prantij, District: Sabarkantha Prantij Gujarat. The company is a subsidiary of Asian Granito India Limited.

2 Significant Accounting Policies:

a) Basis for Preparation:

These financial statements are the standalone financial statements of the Company prepared in accordance with Indian Accounting Standards ('Ind AS') as notified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

The Company had prepared its standalone financial statements for all periods up to and including the year ended March 31, 2023, in accordance with Accounting Standards notified under the Section 133 of the Companies Act, 2013, read together with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP). Detailed explanation on how the transition from IGAAP to Ind AS has affected the Company's Balance Sheet, financial performance and cash flows.

These standalone financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below. The accounting policies have been applied consistently over all the periods presented in these standalone financial statements.

b) Functional and presentation currency:

These standalone financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency.

c) Key accounting estimates and judgements:

The preparation of the Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

i) Property, Plant and Equipment:

Property, Plant and Equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined as per schedule II of Companies Act, 2013 at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

ii) Income taxes:

The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

AMAZOONE CERAMICS LIMITED

Notes to the Financial Statements for the Year ended 31 March, 2024

iii) Defined Benefit Obligation:

The costs of providing pensions and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.

iv) Fair value measurement of Financial Instruments:

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions.

d) Current / Non-Current Classification:

Any asset or liability is classified as current if it satisfies any of the following conditions:

- i. the asset/liability is expected to be realized/settled in the Company's normal operating cycle;
- ii. the asset is intended for sale or consumption;
- iii. the asset/liability is expected to be realized/settled within twelve months after the reporting period;
- iv. the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- v. in the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

e) Property, Plant & Equipment:

i) Measurement at recognition:

Property, plant and equipment are stated at cost, net of recoverable taxes, trade discount and rebates less accumulated depreciation and impairment losses, if any. Such cost includes purchase price, borrowing cost and any cost directly attributable to bringing the assets to its working condition for its intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

ii) Depreciation:

Depreciation on each part of an item of property, plant and equipment is provided using the straight line method (SLM) based on the useful life of the asset as prescribed in Schedule II of the Companies Act, 2013 except following items of Property, Plant and Equipment where company has estimated different useful life:

Particulars	Useful Life
Plant & Machinery & Electrification	20 Years
Building	30 Years

The useful lives, residual values of each part of an item of property, plant and equipment and the depreciation methods are reviewed at the end of each financial year. If any of these expectations differ from previous estimates, such change is accounted for as a change in an accounting estimate.

AMAZOONE CERAMICS LIMITED

Notes to the Financial Statements for the Year ended 31 March, 2024

iii) Derecognition:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the Derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized.

f) Borrowing Costs:

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized, if any. All other borrowing costs are expensed in the period in which they occur.

g) Impairment of non-financial assets:

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

h) Investment in Subsidiary, Joint Venture & Associate:

The Company has elected to recognize its investments in subsidiaries, joint venture and an associate company at cost in accordance with the option available in Ind AS 27, 'Separate Financial Statements'. The details of such investments are given in Note 7. Impairment policy applicable on such investments is explained in note (g) above.

i) Inventory:

Raw materials, finished goods, packing materials, stores, spares, consumables and stock-in-trade are carried at the lower of cost and net realizable value. However, materials and other items held for use in production of inventories are not written down below cost if the finished goods in which they will be incorporated are expected to be sold at or above cost.

In determining the cost of raw materials, packing materials, stock-in-trade, stores, spares, components and consumables, first in first out (FIFO) method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.

Cost of finished goods and work-in-progress includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads as applicable and Other costs incurred in bringing the inventories to their present location and condition. Fixed production overheads are allocated on the basis of normal capacity of production facilities.

AMAZOONE CERAMICS LIMITED

Notes to the Financial Statements for the Year ended 31 March, 2024

j) Financial Instrument:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets:

Initial recognition and measurement:

The Company recognizes a financial asset in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial assets are recognized initially at fair value, plus in the case of financial assets not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial asset.

Where the fair value of a financial asset at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial asset.

However, trade receivables that do not contain a significant financing component are measured at transaction price.

Subsequent measurement:

For subsequent measurement, the Company classifies a financial asset in accordance with the below criteria:

- i. The Company's business model for managing the financial asset and
- ii. The contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Company classifies its financial assets into the following categories:

- i. Financial assets measured at amortized cost.
- ii. Financial assets measured at fair value through other comprehensive income (FVTOCI)
- iii. Financial assets measured at fair value through profit or loss (FVTPL)

i. Financial assets measured at amortized cost:

A financial asset is measured at the amortized cost if both the following conditions are met:

- a) The Company's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows, and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to cash and bank balances, trade receivables, loans and other financial assets of the Company. Such financial assets are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash receipts are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial asset over the relevant period of the financial asset to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest income over the relevant period of the financial asset. The same is included under other income in the Statement of Profit and Loss.

The amortized cost of a financial asset is also adjusted for loss allowance, if any.

ii. Financial assets measured at FVTOCI:

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI).

AMAZOONE CERAMICS LIMITED

Notes to the Financial Statements for the Year ended 31 March, 2024

iii. Financial assets measured at FVTPL:

A financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as explained above. This is a residual category applied to all other investments of the Company excluding investments in subsidiary and associate companies. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of Profit and Loss.

Derecognition:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e. removed from the Company's Balance Sheet) when any of the following occurs:

- i The contractual rights to cash flows from the financial asset expires;
- ii The Company transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset;

The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset);

- iv The Company neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where Company has neither transferred nor retained substantially all of the risks and rewards of the financial asset, but retains control of the financial asset, the Company continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Company also recognizes an associated liability. The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On Derecognition of a financial asset, (except as mentioned in ii above for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognized in the Statement of Profit and Loss.

Impairment of financial assets:

The Company applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the following:

- i Trade receivables
- ii Financial assets measured at amortized cost (other than trade receivables)
- iii Financial assets measured at fair value through other comprehensive Income (FVTOCI).

Financial Liabilities

Initial recognition and measurement:

The Company recognizes a financial liability in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial liabilities are recognized initially at fair value minus, in the case of financial liabilities not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial liability.

Where the fair value of a financial liability at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial liability.

AMAZOONE CERAMICS LIMITED

Notes to the Financial Statements for the Year ended 31 March, 2024

Subsequent measurement:

All financial liabilities of the Company are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash payments are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial liability over the relevant period of the financial liability to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest expense over the relevant period of the financial liability. The same is included under finance cost in the Statement of Profit and Loss.

Derecognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of Profit and Loss.

Offsetting of Financial Instruments:

Financial assets and financial liabilities are offset, and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

k) Fair Value:

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 — inputs that are unobservable for the asset or liability

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

AMAZOONE CERAMICS LIMITED

Notes to the Financial Statements for the Year ended 31 March, 2024

l) Revenue Recognition:

Revenue is recognized when it is probable that economic benefits associated with a transaction flows to the Company in the ordinary course of its activities and the amount of revenue can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable.

Revenue includes only the gross inflows of economic benefit after the deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the Government which are levied on sales such as Sales Tax, Value Added Tax, etc. Revenue includes excise duty as it is paid on production and is a liability of the manufacturer, irrespective of whether the goods are sold or not. Discounts given include rebates, price reductions and other incentives given to customers. The company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement. Accumulated experience is used to estimate and provide for the discounts and returns. The volume discounts are assessed based on anticipated annual purchases. No element of financing is deemed present as the sales are made with a credit term which is consistent with market practice.

Sale of products:

Revenue from sale of products is recognized when the Company transfers all significant risks and rewards of ownership to the buyer, while the Company retains neither continuing managerial involvement nor effective control over the products sold. This generally happens upon dispatch of the goods to customers, except for export sales which are recognized when significant risk and rewards are transferred to the buyer as per the terms of contract.

Interest and dividends:

Interest income is recognized using effective interest method. Dividend income is recognized when the right to receive payments is established.

m) Income Taxes:

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current tax:

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible under the Income Tax Act, 1961. Current tax is measured using tax rates that have been enacted by the end of reporting period for the amounts expected to be recovered from or paid to the taxation authorities.

Deferred tax:

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit under Income Tax Act, 1961.

Deferred tax liabilities are generally recognized for all taxable temporary differences. However, in case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax liabilities are not recognized. Also, for temporary differences if any that may arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all of such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

AMAZOONE CERAMICS LIMITED

Notes to the Financial Statements for the Year ended 31 March, 2024

Presentation of current and deferred tax:

Current and deferred tax are recognized as income or an expense in the Statement of Profit and Loss, except when they relate to items that are recognized in Other Comprehensive Income, in which case, the current and deferred tax income/ expense are recognized in Other Comprehensive Income.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company;

n) **Foreign Currency Transaction & Translation:**

Initial Recognition:

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency (i.e. Indian Rupees), by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Measurement of foreign currency items at reporting date:

Foreign currency monetary items of the Company are translated at the closing exchange rates. Non-monetary items that are measured at historical cost in a foreign currency, are translated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency, are translated using the exchange rates at the date when the fair value is measured.

Exchange differences arising out of these translations are recognized in the Statement of Profit and Loss.

o) **Provision & Contingencies:**

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

p) **Employee Benefits:**

Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

Post-Employment Benefits:

Defined Contribution plans:

Defined contribution plans are employee provident fund, employee state insurance scheme and Government administered pension fund scheme for all applicable employees.

Recognition and measurement of defined contribution plans:

The Company recognizes contribution payable to a defined contribution plan as an expense in the Statement of Profit and Loss when the employees render services to the Company during the reporting period. If the contributions payable for services received from employees before the reporting date exceeds the contributions already paid, the deficit payable is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the reporting date, the excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

AMAZOONE CERAMICS LIMITED

Notes to the Financial Statements for the Year ended 31 March, 2024

II. Defined Benefit plans:

The Company operates a defined benefit gratuity plan for employees.

Recognition and measurement of Defined Benefit plans:

The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the present value of available refunds and reductions in future contributions to the plan.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss. Remeasurements of the net defined benefit liability/ (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest on the net defined benefit liability/asset), are recognized in Other Comprehensive Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

The Company presents the above liability/(asset) as current and non-current in the Balance Sheet as per actuarial valuation by the independent actuary; however, the entire liability towards gratuity is considered as current as the Company will contribute this amount to the gratuity fund within the next twelve months.

q) Lease Accounting:

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a Lessee

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

AMAZOONE CERAMICS LIMITED

Notes to the Financial Statements for the Year ended 31 March, 2024

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term and useful life of the underlying asset. The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows. Further, refer note no. 41, for effect of transition to Ind AS 116, classification of leases and other disclosures relating to leases.

Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

r) Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company.

s) Earnings per share:

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

t) Cash Flow Statement:

Cash Flow are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

u) Cash and cash equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, deposit accounts and term deposits accounts with remaining maturity of three months or less as at balance sheet date, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash on hand, deposit accounts and term deposits as defined above and investment in liquid funds for short term purpose.

v) Events after reporting date:

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

Notes to the Financial Statements for the Year ended 31 March, 2024

B. Measurement of fair values

i) Investments in Associate, Joint Venture and Subsidiaries:

Investments in Associate, Joint Venture and Subsidiaries have been accounted at cost. Since these are scoped out of Ind AS 109 for the purposes of measurement, the same have been disclosed at cost in the tables above.

ii) Financial Instrument measured at Amortised Cost:

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are reasonable approximation of their fair values since the company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

iii) Levels 1, 2 and 3

- Level 1 : It includes Investment in equity shares and mutual fund that has a quoted price and which are actively traded on the stock exchanges. It is been valued using the closing price as at the reporting period on the stock exchanges.
- Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
- Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

3 Financial risk management objectives

The Company's Corporate finance department provides services to business, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Company through internal risk reports which analyse the exposures by degree and magnitude of risks. These risks include market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Company seeks to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives is governed by the Company's policies approved by the Board of Directors, which provide written principles on foreign exchange risk, interest rate risk, credit risk, the use of financial derivatives and non-derivative financial instruments, and the investment of excess liquidity. Compliance with policies and exposure limits is reviewed by the Management and the internal auditors on a continuous basis. The Company does not enter into or trade financial instruments, including derivatives for speculative purposes.

The Corporate Treasury function reports quarterly to the Company's risk management committee, an independent body that monitors risks and policies implemented to mitigate risk exposures.

4 Market risk

The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates due to foreign currency borrowings and variable interest loans. The Company has entered into derivative contracts to manage part of its foreign currency risk. The Company does not enter into derivative contracts to manage risks related to anticipated sales and purchases.

5 Foreign currency risk management

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policy parameters utilizing forward foreign exchange contracts and currency options taken at the time of initiation of the booking by the management. Such decision is taken after considering the factors such as upside potential, cost of structure and the downside risks etc. Quarterly reports are submitted to Management Committee on the covered and open positions and MTM valuation

6 Interest rate risk management

The Company is exposed to interest rate risk because funds are borrowed at both fixed and floating interest rates. Interest rate risk is measured by using the cash flow sensitivity for changes in variable interest rate. The Company has exposure to interest rate risk, arising principally on changes in PLR and LIBOR rates. The Company uses a mix of interest rate sensitive financial instruments to manage the liquidity and fund requirements for its day to day operations. The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate borrowings.

The table in 6.1 provides a break-up of the Company's fixed and floating rate borrowings:

AMAZOONE CERAMICS LIMITED

Notes to the Financial Statements for the Year ended 31 March, 2024

6.1 Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 100 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

The following table provides a break-up of the Company's fixed and floating rate borrowings and interest rate sensitivity analysis

(Amount in Rs. Lakhs)

Particulars	As at 31 March, 2024		As at 31 March, 2023	
	Gross amount	Interest rate sensitivity @1.00%	Gross amount	Interest rate sensitivity @1.00%
Fixed-rate instruments				
Financial Assets	2,052.35	20.52	2,149.16	21.49
Financial Liabilities	6,728.58	67.29	1,781.89	17.82
Variable-rate instruments				
Financial Assets	-	-	-	-
Financial Liabilities	975.40	9.75	498.81	4.99

7 Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Company uses publicly available financial information and its own trading records to rate its major customers. The Company's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable.

The Company does not have significant credit risk exposure to any single counterparty. Concentration of credit risk related to the above mentioned company did not exceed 10% of gross monetary assets at any time during the year. Concentration of credit risk to any other counterparty did not exceed 10% of gross monetary assets at any time during the year.

The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are banks with high credit ratings assigned by international credit rating agencies.

7.1 Collateral held as security and other credit enhancements

The Company does not hold any collateral or other credit enhancements to cover its credit risk associated with its financial assets.

8 Liquidity risk management

Liquidity risk refers to the risk of financial distress or extraordinary high financing costs arising due to shortage of liquid funds in a situation where business conditions unexpectedly deteriorate and requiring financing. Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

NOTE : 35 EMPLOYEE BENEFITS PLAN

a. Defined contribution plans:

The Company makes contributions towards provident fund to defined contribution retirement benefit plan for qualifying employees. The provident fund contributions are made to Government administered Employees Provident Fund. Both the employees and the Company make monthly contributions to the Provident Fund Plan equal to a specified percentage of the covered employee's salary.

b. Defined benefit plan:

The company has defined benefit gratuity plan for its employees. The employee who has completed five years or more of service is entitled to gratuity on termination of his employment at 15 days last drawn salary for each completed year of service. The scheme is funded. The present value of obligation in respect of gratuity is determined based on actuarial valuation using the Project Unit Credit Method as prescribed by Ind AS - 19. Gratuity has been recognised in the financial statement as per details given below:

Investment risk:

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create plan deficit.

Interest risk:

A decrease in the bond interest rate will increase the plan liability; however, this will be partially off set by an increase in the plan assets.

Longevity risk:

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk:

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at March 31, 2024.

The Company will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective.			
Note-38			
The Income Tax department had carried out a search operation at Company's business premises on 26 May, 2022. As on the date of issuance of these financials, the company has received various notices from the Income Tax Department against which the company has filed suitable responses. Further, the Company had also received an order for Assessment Year 2022-23 against which the Company has preferred an appeal. The Management believes that there is no material impact of the assessment order on the Company's financial position as of 31 March, 2024. However, due to the nature of complexity of the matter, the final outcome remains uncertain, making it currently impossible for the management to determine the potential impact. The statutory auditors have issued as Emphasis of Matter in their audit report for year ended 31 March, 2024, highlighting this matter.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF
AGL INDUSTRIES LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements **AGL INDUSTRIES LIMITED** (the "Company"), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity, the Statement of Cash Flows for the year then ended on that date and a summary of the material accounting policies and other explanatory information (here in after referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024 and its loss, total comprehensive income/loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to be communicated in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report including Annexure to Board's Report but does not include the financial statements and our auditor's report there on. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the Other Information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information'.

Management's Responsibility for the Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:-

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the Company has not paid any remuneration to its directors during the year, hence reporting under section 197 (16) is not applicable to the company.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. As informed to us the Company does not have any pending litigation which would impact its financial position in its statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that , to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries ") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c)Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of rule 11(e), as provided under(a)and(b)above, contain any material misstatement.

- iv. The Company has not declared or paid dividend during the year covered by our audit.
- v. Based on our examination, which include test checks, the Company has used accounting softwaresfor maintaining its books of account for the financial year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rule 2014 is applicable from April 01, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirement for record retention is not applicable for the financial year ended March 31, 2024

2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of **AGL INDUSTRIES LIMITED** of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial report of **AGL INDUSTRIES LIMITED** ('the company') as on March 31, 2024S in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit or Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of the assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information as required under the Companies Act, 2013(the 'Act').

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India and the Standard on Auditing ('SA') prescribed under section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls. Those Standards and Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls systems over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purpose in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting included those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transaction are recorded as necessary to permit preparation of financial statement in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Control over Financial Reporting

Because of the inherent limitation of internal financial controls over financial reporting including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also , projection of any evaluation of the internal financial controls over financial reporting to future periods are subjects to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

-others.	-	-	332.48	-

b) The investments made, and the terms and conditions of the grant of loans, during the year are, prima facie, not prejudicial to the Company's interest.

c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has not been stipulated. Accordingly clause 3(iii)(c) of the order is not applicable.

d) In respect of loans granted by the Company, there is no overdue amount remaining outstanding as at balance sheet date.

e) No loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the over dues of existing loans given to the same parties.

f) The Company has granted loans or advances in the nature of loans which were repayable on demand amounting to Rs 332.48 lakhs (100% of the aggregate loans) at the end of the year to related parties as defined in clause (76) of section 2 of the Companies Act, 2013.

4. The Company has complied with the provisions of section 185 and 186 of the Act in respect of loans granted, investments made, guarantees given and securities provided, as applicable.
5. The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3(v) of the Order are not applicable.
6. The maintenance of cost records has not been specified by the Central Government under sub-section (1) of the section 148 of the Companies Act, 2013. Hence, reporting under clause (vi) of the Order is not applicable to the Company.

7. In respect to statutory dues:
- a. In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including income tax and other material statutory dues with the appropriate authorities. There were no undisputed statutory dues as on March 31, 2024, which were outstanding for more than six months from the date on which they became payable.
 - b. There are no material dues of income tax and other material statutory dues which have not been deposited with the appropriate authorities on account of any disputes.
8. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessment under the Income Tax Act, 1961.
9. a) The Company has not taken any loans or other borrowings from any lender and therefore reporting under clause 3(ix)(a) of the Order is not applicable to the Company.
- b) The Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
- c) The Company has not raised any term loans during the year hence reporting under clause 3(ix)(c) is of the Order is not applicable to the Company.
- d) The Company has not raised any short term funds during the year, hence reporting under clause 3(ix)(d) of the Order is not applicable to the Company.
- e) The Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.
- f) The Company has not raised any funds during the year on the pledge of securities held in its subsidiaries.
10. a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
- b) During the year, the Company has not made preferential allotment or private placement of shares or convertible debentures (fully, partly or optionally convertible) during the year. Accordingly reporting under clause 3(x)(b) of the Order is not applicable.
11. a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year and up to the date of this report.
12. The Company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable to the Company.

13. Transactions with related parties are in compliance with section 177 and 188 of the Act, where applicable and the details have been disclosed in the notes to the financial statements, as required by the accounting standards.
14. In our opinion and based on our examination, the Company does not have an internal audit system and is not required to have an internal audit system under the provisions of Section 138 of the Act. Accordingly, paragraph 3(xiv) (a) and (b) of the Order is not applicable
15. In our opinion, during the year the Company has not entered into any non-cash transaction with its Directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
16. (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.

(b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
17. The Company has incurred cash loss during the financial year amounting Rs 33.34 lakhs, the Company has not incurred any cash loss in the immediately preceding financial year.
18. There has been no resignation of statutory auditors of the Company during the year.
19. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.
20. The provisions of section 135 of the Companies Act 2013 in relation to Corporate Social Responsibility are not applicable to the company during the year and hence reporting under this clause is not applicable.

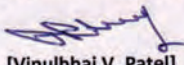

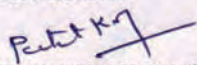

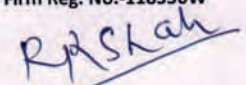

21. The Company is not required to prepare the Consolidated Financial Statement during the year and we are not required to obtain the Companies (Auditor's Report) Order (CARO) reports of any companies and hence reporting under this clause is not applicable

AGL Industries Ltd

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

Company Background:

AGL industries Ltd (the Company) is a closely held public limited company domiciled and incorporated in India under the provisions of Companies Act, 1956. The Company is engaged into the business of Agricultural products.

1. Statement on Significant Accounting Policies, Key Accounting Estimates and Judgements:

1.1 Basis for Preparation:

These financial statements are the standalone financial statements of the Company prepared in accordance with Indian Accounting Standards ('Ind AS') as notified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

These standalone financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for the certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below.

The accounting policies have been applied consistently over all the periods presented in these standalone financial statements.

1.2 Functional and presentation currency:

These standalone financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency.

1.3 Key accounting estimates and judgements:

The preparation of the Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

1.4 Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

i) Property, Plant and Equipment:

Property, Plant and Equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

AGL Industries Ltd

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

- ii) **Income taxes:**
The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.
- iii) **Defined Benefit Obligation:**
The costs of providing pensions and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.
- iv) **Estimates:**
Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

1.5 Current / Non-Current Classification:

Any asset or liability is classified as current if it satisfies any of the following conditions:

- i. the asset/liability is expected to be realized/settled in the Company's normal operating cycle;
- ii. the asset is intended for sale or consumption;
- iii. the asset/liability is expected to be realized/settled within twelve months after the reporting period;
- iv. the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- v. In the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

1.6 Summary of Significant accounting policies:

a) Property, Plant & Equipment:

i) Measurement at recognition:

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses.

AGL Industries Ltd

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

The cost of an item of property, plant and equipment comprises of its purchase price, including import duties, borrowing cost, changes on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets, other non-refundable purchase taxes or levies and any cost directly attributable to bringing the assets to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

ii) Depreciation:

Depreciation on each part of an item of property, plant and equipment is provided using the Straight-Line Method (SLM) Method based on the useful life of the asset as prescribed in Schedule II to the Companies Act, 2013.

Land is not depreciated.

The useful lives, residual values of each part of an item of property, plant and equipment and the depreciation methods are reviewed at the end of each financial year. If any of these expectations differ from previous estimates, such change is accounted for as a change in an accounting estimate.

iii) Derecognition:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the Derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized.

iv) Capital Work in progress:

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress.

b) Investment Property:

Investment Property is measured initially at cost including related transaction costs.

The cost comprises the purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for its intended use.

Subsequent expenditures are capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably. All day-to-day repair and maintenance expenditure are charged to the statement of profit and loss for the period during which such expenses are incurred.

AGL Industries Ltd

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

For transition to Ind AS, the carrying value of Investment Property under previous GAAP as on April 01, 2015 is regarded as its cost. The carrying value was original cost less accumulated depreciation and cumulative impairment, if any as on that date.

Gains or losses arising from derecognition of investment property are measured as the difference between the net disposal proceeds and the carrying amount of the asset at the time of disposal and are recognized in the statement of profit and loss when the asset is derecognized.

c) Borrowing Costs:

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized, if any. All other borrowing costs are expensed in the period in which they occur.

d) Impairment of non-financial assets:

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

e) Investment in Subsidiary, Joint Venture & Associate:

The Company has elected to recognize its investments in subsidiaries, joint venture and an associate company at cost in accordance with the option available in Ind AS 27, 'Separate Financial Statements'. The details of such investments are given in Note 2. Impairment policy applicable on such investments is explained in note (d) above.

f) Inventory:

Raw materials, finished goods, packing materials, stores, spares, consumables and stock-in-trade are carried at the lower of cost and net realizable value. However, materials and other items held for use in production of inventories are not written down below cost if the finished goods in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on an item-by-item basis.

AGL Industries Ltd

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

In determining the cost of raw materials, packing materials, stock-in-trade, stores, spares, components and consumables, first in first out (FIFO) method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.

Cost of finished goods and work-in-progress includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads as applicable and other costs incurred in bringing the inventories to their present location and condition. Fixed production overheads are allocated on the basis of normal capacity of production facilities.

g) Financial Instrument:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets:

Initial recognition and measurement:

The Company recognizes a financial asset in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial assets are recognized initially at fair value, plus in the case of financial assets not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial asset.

Where the fair value of a financial asset at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial asset.

However, trade receivables that do not contain a significant financing component are measured at transaction price.

Subsequent measurement:

For subsequent measurement, the Company classifies a financial asset in accordance with the below criteria:

- i. The Company's business model for managing the financial asset and
- ii. The contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Company classifies its financial assets into the following categories:

- i. Financial assets measured at amortized cost.
- ii. Financial assets measured at fair value through other comprehensive income (FVTOCI)
- iii. Financial assets measured at fair value through profit or loss (FVTPL)

AGL Industries Ltd

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

i. Financial assets measured at amortized cost:

A financial asset is measured at the amortized cost if both the following conditions are met:

- a) The Company's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows, and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to cash and bank balances, trade receivables, loans and other financial assets of the Company. Such financial assets are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash receipts are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial asset over the relevant period of the financial asset to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest income over the relevant period of the financial asset. The same is included under other income in the Statement of Profit and Loss.

The amortized cost of a financial asset is also adjusted for loss allowance, if any.

ii. Financial assets measured at FVTOCI:

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI).

iii. Financial assets measured at FVTPL:

A financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as explained above. This is a residual category applied to all other investments of the Company excluding investments in subsidiary and associate companies. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of Profit and Loss.

Derecognition:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e. removed from the Company's Balance Sheet) when any of the following occurs:

- i. The contractual rights to cash flows from the financial asset expires;
- ii. The Company transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset;

AGL Industries Ltd

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

- iii. The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset);
- iv. The Company neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where Company has neither transferred nor retained substantially all of the risks and rewards of the financial asset, but retains control of the financial asset, the Company continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Company also recognizes an associated liability. The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On Derecognition of a financial asset, (except as mentioned in ii above for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognized in the Statement of Profit and Loss.

Impairment of financial assets:

The Company applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the following:

- i. Trade receivables:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the Effective Interest Rate (EIR) method, less provision for impairment based on expected credit loss.

For trade and lease receivable only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of such receivables.

- ii. Financial assets measured at amortized cost (other than trade receivables)

In case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognized as loss allowance.

In case of other assets (listed as ii above), the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date.

AGL Industries Ltd

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

Financial Liabilities

Initial recognition and measurement:

The Company recognizes a financial liability in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial liabilities are recognized initially at fair value minus, in the case of financial liabilities not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial liability.

Where the fair value of a financial liability at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial liability.

Subsequent measurement:

All financial liabilities of the Company are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash payments are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial liability over the relevant period of the financial liability to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest expense over the relevant period of the financial liability. The same is included under finance cost in the Statement of Profit and Loss.

Derecognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of Profit and Loss.

Offsetting of Financial Instruments:

AGL Industries Ltd

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

Financial assets and financial liabilities are offset, and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

h) Fair Value:

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 — inputs that are unobservable for the asset or liability

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

i) Revenue Recognition:

Revenue is recognized when it is probable that economic benefits associated with a transaction flows to the Company in the ordinary course of its activities and the amount of revenue can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable after the deduction of any trade and cash discounts, volume rebates and any taxes or duties collected on behalf of the Government which are levied on sales such as sales tax, value added tax, goods and service tax etc.

Revenue includes only the gross inflows of economic benefits, including excise duty, received and receivable by the Company, on its own account.

Sale of products:

Revenue from sale of products is recognized when the Company transfers all significant risks and rewards of ownership to the buyer, while the Company retains neither continuing managerial involvement nor effective control over the products sold.

AGL Industries Ltd

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

Interest and dividends:

Interest income is recognized using effective interest method. Dividend income is recognized when the right to receive payment is established.

Insurance Claims

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that there is no uncertainty in receiving the claims

j) Income Taxes:

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current tax:

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible under the Income Tax Act, 1961. Current tax is measured using tax rates that have been enacted by the end of reporting period for the amounts expected to be recovered from or paid to the taxation authorities.

Deferred tax:

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit under Income Tax Act, 1961.

Deferred tax liabilities are generally recognized for all taxable temporary differences. However, in case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax liabilities are not recognized. Also, for temporary differences if any that may arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

AGL Industries Ltd

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

Presentation of current and deferred tax:

Current and deferred tax are recognized as income or an expense in the Statement of Profit and Loss, except when they relate to items that are recognized in Other Comprehensive Income, in which case, the current and deferred tax income/ expense are recognized in Other Comprehensive Income.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

k) **Foreign Currency Transaction & Translation:**

Initial Recognition:

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency (i.e. Indian Rupees), by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Measurement of foreign currency items at reporting date:

Foreign currency monetary items of the Company are translated at the closing exchange rates. Non-monetary items that are measured at historical cost in a foreign currency, are translated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency, are translated using the exchange rates at the date when the fair value is measured.

Exchange differences arising out of these translations are recognized in the Statement of Profit and Loss.

l) **Provision & Contingencies:**

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

AGL Industries Ltd

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

m) Employee Benefits:

Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

Post-Employment Benefits:

I. Defined Contribution plans:

Defined contribution plans are employee provident fund, employee state insurance scheme and Government administered pension fund scheme for all applicable employees.

Recognition and measurement of defined contribution plans:

The Company recognizes contribution payable to a defined contribution plan as an expense in the Statement of Profit and Loss when the employees render services to the Company during the reporting period. If the contributions payable for services received from employees before the reporting date exceeds the contributions already paid, the deficit payable is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the reporting date, the excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

II. Defined Benefit plans:

The Company operates a defined benefit gratuity plan for employees.

Recognition and measurement of Defined Benefit plans:

The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the present value of available refunds and reductions in future contributions to the plan.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss. Remeasurements of the net defined benefit liability / (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest on the net defined benefit liability/asset), are recognized in Other Comprehensive Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

The Company presents the above liability/(asset) as current and non-current in the Balance Sheet as per actuarial valuation by the independent actuary; however, the entire

AGL Industries Ltd

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

liability towards gratuity is considered as current as the Company will contribute this amount to the gratuity fund within the next twelve months.

Other Long-Term Employee Benefits:

Entitlements to annual leave and sick leave are recognised when they accrue to employees. Sick leave can only be availed or encashed subject to a restriction on the maximum number of accumulation of leave. The company determines the liability for such accumulated leave using the projected accrued benefit method with actuarial valuations being carried out at each Balance Sheet date.

n) Lease Accounting:

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a Lessee

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term and useful life of the underlying asset. The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its

AGL Industries Ltd

Notes to the Standalone Financial Statements for the year ended 31 March, 2024

assessment if whether it will exercise an extension or a termination option. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows. Further, refer note no. 41, for effect of transition to Ind AS 116, classification of leases and other disclosures relating to leases.

Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

o) Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company.

p) Earnings per share:

Basic earnings per share is computed by dividing the net profit after tax attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing adjusted net profit after tax by the aggregate of weighted average number of equity shares and dilutive potential equity shares during the year.

q) Cash Flow Statement:

Cash Flow are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non- cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

r) Cash and cash equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, deposit accounts and term deposits accounts with remaining maturity of three months or less as at balance sheet date, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash on hand, deposit accounts and term deposits as defined above and investment in liquid funds for short term purpose.

s) Events after reporting date:

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

B. Measurement of fair values								
i) Investments in Associate, Joint Venture and Subsidiaries:								
Investments in Associate, Joint Venture and Subsidiaries have been accounted at cost. Since these are scoped out of Ind AS 109 for the purposes of measurement, the same have been disclosed at cost in the tables above.								
ii) Financial Instrument measured at Amortised Cost:								
The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.								
iii) Levels 1, 2 and 3								
- Level 1 : It includes Investment in equity shares and mutual fund that has a quoted price and which are actively traded on the stock exchanges. It is been valued using the closing price as at the reporting period on the stock exchanges.								
- Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.								
- Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

21 Financial instruments risk management objectives and policies

The Company's financial liabilities comprise mainly of borrowings, trade and other payables. The Company's financial assets comprise mainly of investments, cash and cash equivalents, other balances with banks, loans, trade receivables and other receivables.

The following disclosures summarize the Company's exposure to financial risks. Quantitative sensitivity analysis have been provided to reflect the impact of reasonably possible changes in market rates on the financial results, cash flows and financial position of the Company.

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risks: interest rate risk, currency risk and other price risk. Financial instruments affected by market risk includes borrowings, investments, trade payables, trade receivables and loans.

(b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company seeks to mitigate such risk by maintaining an adequate proportion of floating and fixed interest rate borrowings.

(c) Foreign currency risk

Company is not exposed to foreign currency market, hence a parallel shift in the foreign exchange rate will not impact the profits of the company directly.

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk primarily trade receivables and other financial assets including deposits with banks. The Company's exposure and credit ratings of its counterparties are continuously monitored and the aggregate value of transactions is reasonably spread amongst the counterparties.

Other financial assets

This comprises mainly of deposits with banks and other intercompany receivables. Credit risk arising from these financial assets is limited and there is no collateral held against these are banks and recognised financial institutions. Banks and recognised financial institutions have high credit ratings assigned by the international credit rating agencies.

Notes on Financial Statements for the Year Ended 31 March, 2024

Financial instruments risk management objectives and policiescontinue

Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy and procedures. Trade receivables are non-interest bearing and generally have a credit period not exceeding 90 days. Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit. The Company has no concentration of credit risk as the customer base is widely distributed both economically and geographically.

Financial instruments and cash

Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including bilateral loans, debt and overdraft from both banks and financial institutions at an optimised cost.

The table below analysis non-derivative financial liabilities of the Company into relevant maturity groupings based on the remaining period from the reporting date to the contractual maturity date:

Notes:

1. Net Worth is calculated as a sum of Equity Share Capital and Other Equity.
2. Return on net worth (%) is not applicable since the Company has incurred a loss after tax for the period.

- Net asset value per share is compared by dividing the Net Worth by the outstanding number of equity shares.

INTERNAL RISK FACTORS

- Implementation of the Scheme of Arrangement is dependent on the receipt of various approvals, including approval from shareholders and creditors of AGIL and AVPL, regulatory authorities and the NCLT. In case of non-receipt of any of the requisite approvals, the Tiles Manufacturing Undertaking of AVPL will not get demerged into ACL; which may hamper growth expected out of the proposed demerger and if we are not able to manage timely compliance of regulatory requirements, it may impact the Scheme. Any modification or revision in the Scheme suggested /directed by the competent authorities, which is not acceptable to the Board of Directors of the respective companies may adversely impact the proposals in the Scheme.
- AVPL is an unlisted company and its equity shares are not listed on any stock exchange and hence not available for trading.
- Our operating results may fluctuate from quarter to quarter due to seasonality, demand & supply scenario and various geo political issues. Such fluctuations may have an adverse effect on our business and cash flows.
- Post the completion of the Demerger as described in the Scheme, our operations will be concentrated in Morbi, Gujarat and any change in the geographical or economic condition may adversely impact our business and financial performance.
- We may face significant competition from traditional and established ceramic tiles manufacturing companies. Such competition may affect our business operations and cash flows.

RATIONALE OF SCHEME OF ARRANGEMENT

AGIL, the Demerged Company 4/Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

DEMERGER

AGIL, the Resulting Company 1 has identified its supplier, i.e., AVPL, the Demerged Company 1, that manufacture tiles for AGIL, the Resulting Company 1 on job work basis as well as manufacture tiles under its own brand name. The supplier is in effect selling majority of their own production to AGIL, the Resulting Company 1. In order to integrate its manufacturing process and to inorganically expand its production lines, it is desirable to take over the tiles manufacturing businesses of these suppliers. Since the supplier has separate brands name and related Intellectual Property such as brands, trademarks, registrations, etc. attached to the names, it is considered appropriate to demerge only the tiles manufacturing businesses into wholly owned subsidiary of AGIL, the Resulting Company 1 of similar name. To avoid effect on the financials due to payment of huge consideration in cash or by way of debt, the consideration is proposed to be paid by way of issue of shares by AGIL, the Resulting Company 1 which will be compliant with the definition of ‘demerger’ as defined under section 2(19AA) r.w.s. 2(41A) of the Income Tax Act, 1961.

Through the aforesaid demerger of the Affil Tiles Manufacturing Undertaking from AVPL, the Demerged Company 1, the stakeholders of AVPL, the Demerged Company 1 will get access to a diverse business structure since AGIL, the Resulting Company 1 has presence in multiple industries leading to risk diversification in the hands of the stakeholders and also leading to stable valuation by the market. The stakeholders will also get safeguarded from the day-to-day hurdles specific to the tiles manufacturing business by diversifying their risk.

Further, the business of AVPL, the Demerged Company 1 will get an access to the huge market reach and marketing network of AGIL, the Resulting Company 1. These businesses will thus

gain a chance of evolving into legacy businesses under the professional management of AGIL, the Resulting Company 1 due to their increased technical knowhow, diverse expertise and growth vision. The expansion opportunity from the access to infrastructure of AGIL, the Resulting Company 1 seems unparalleled.

Multiple entries of large organised players into the tiles industry are expected to drive the entire industry into a highly efficient space where large players would command premium on account of their competitive edge and managing a tiles manufacturing business as an unorganised player may become more and more challenging. Consolidation of the tiles manufacturing businesses under the banner of AGIL, the Resulting Company 1 would not only safeguard the businesses but also provide an edge to competitively grow in the ever-changing business dynamic.

The opportunity of growth in the businesses and risk diversification for the stakeholders of AVPL, the Demerged Company 1 and the inorganic expansion and synergistic opportunity for AGIL, the Resulting Company 1 due to better agility and higher control over its manufacturing process, more production lines and working capital requirements would provide the Demerged Companies and AGIL, the Resulting Company 1 with their respective advantages while making the combined businesses of AGIL, the Resulting Company 1 and the Demerged Companies more sustainable and competitive in the long run.

The proposed restructuring pursuant to this Scheme is expected, inter alia, to result in following benefits:

1. combining and bundling of Affil Tiles Manufacturing Undertaking of AVPL, the Demerged Company 1 into ACL, the Resulting Company 2 which is, inter alia, wholly owned subsidiary of AGIL, the Resulting Company 1;
2. better control on utilization of production capacity due to integration of the manufacturing process;
3. optimization of working capital due to consolidation of businesses;
4. inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;
5. economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;
6. segregation of the business of manufacturing of building construction related materials and adhesive solutions to enable better focus and growth orientation on the developing new business line;
7. enhancing attractiveness of the entities for management teams by aligning risk return matrices and direct correlation of the rewards to their efforts;
8. achieve cost optimization and specialization for sustained growth; and
9. enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries.

In view of the aforesaid advantages, the Board of Directors of all the Companies have considered and proposed Scheme of Arrangement under the provisions of Section 230 to Section 232 of the Companies Act, 2013.

The present Scheme of Arrangement is proposed for the demerger, transfer and vesting of the Tiles Manufacturing Undertaking of AVPL to ACL on a going concern basis in accordance with Section 2(19AA) r.w.s 2(41A) of the Income Tax Act, 1961.

The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders in each of the companies.

Dear Sir/Madam,

Sub: Due Diligence Certificate ("Certificate") on the adequacy and accuracy of disclosure of information about Affil Vitrified Private Limited in the format of abridged prospectus in relation to Scheme of Arrangement amongst Asian Granito India Limited (AGIL) and Affil Vitrified Private Limited (AVPL) and Ivanta Ceramics Industries Private Limited (ICIPL) and Crystal Ceramic Industries Limited (CCIL) and Affil Ceramics Limited (ACL) and Ivanta Ceramic Limited (ICL) and Crystal Vitrified Limited (CVL) and Amazoon Ceramics Limited (AmCL) and AGL Industries Limited (AGLIL) and their respective shareholders and creditors under Sections 230 to 232 and other applicable provisions of the Companies Act, 2013 and other applicable laws ("Scheme" or "Scheme of Arrangement").

This is regarding our engagement letter dated October 26, 2024, entered with Asian Granito India Limited for certifying the adequacy and accuracy of disclosure of information about AVPL prepared by AVPL and to be sent to the shareholders and creditors of AGIL at the time of seeking their approval for the Scheme.

The Scheme of Arrangement, among other things, provides for the transfer and vesting of Affil Tiles Manufacturing Undertaking from AVPL to ACL on a going concern basis.

SEBI Master Circular SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated June 20, 2023, ("**SEBI Master Circular**") prescribes requirements to be fulfilled by listed entities when they propose a Scheme of Arrangement. The said SEBI Master Circular, inter alia, provides that in the event a listed entity enters into a Scheme of Arrangement with an unlisted entity, the listed entity shall disclose to its shareholders applicable information about the unlisted entity in the format specified for abridged prospectus as provided in Part E of Schedule VI of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("**SEBI ICDR Regulations**").

Further, the adequacy and accuracy of such disclosure of information pertaining to an unlisted entity is required to be certified by a SEBI-registered Merchant Banker.

Accordingly, we have been provided with the abridged prospectus of AVPL ("**Abridged Prospectus**") as prepared by AVPL and enclosed herewith. The Abridged Prospectus will be circulated to the shareholders and creditors of the companies involved in the Scheme at the time of seeking their approval of the Scheme as a part of the explanatory statement to the notice.

INTERNAL RISK FACTORS

1. Implementation of the Scheme of Arrangement is dependent on the receipt of various approvals, including approval from shareholders and creditors of AGIL and ICIPL, regulatory authorities and the NCLT. In case of non-receipt of any of the requisite approvals, the Tiles Manufacturing Undertaking of ICIPL will not get demerged into ICL; which may hamper growth expected out of the proposed demerger and if we are not able to manage timely compliance of regulatory requirements, it may impact the Scheme. Any modification or revision in the Scheme suggested

/directed by the competent authorities, which is not acceptable to the Board of Directors of the respective companies may adversely impact the proposals in the Scheme.

2. ICIPL is an unlisted company and its equity shares are not listed on any stock exchange and hence not available for trading.
3. Our operating results may fluctuate from quarter to quarter due to seasonality, demand & supply scenario and various geo political issues. Such fluctuations may have an adverse effect on our business and cash flows.
4. Post the completion of the Demerger as described in the Scheme, our operations will be concentrated in Morbi, Gujarat and any change in the geographical or economic condition may adversely impact our business and financial performance.
5. We may face significant competition from traditional and established ceramic tiles manufacturing companies. Such competition may affect our business operations and cash flows.

RATIONALE OF SCHEME OF ARRANGEMENT

AGIL, the Demerged Company 4/Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

DEMERGER

AGIL, the Resulting Company 1 has identified its supplier, i.e., ICIPL, the Demerged Company 2, that manufacture tiles for AGIL, the Resulting Company 1 on job work basis as well as manufacture tiles under its own brand name. The supplier is in effect selling majority of their own production to AGIL, the Resulting Company 1. In order to integrate its manufacturing process and to inorganically expand its production lines, it is desirable to take over the tiles manufacturing businesses of these suppliers. Since the supplier has separate brands name and related Intellectual Property such as brands, trademarks, registrations, etc. attached to the names, it is considered appropriate to demerge only the tiles manufacturing businesses into wholly owned subsidiary of AGIL, the Resulting Company 1 of similar name. To avoid effect on the financials due to payment of huge consideration in cash or by way of debt, the consideration is proposed to be paid by way of issue of shares by AGIL, the Resulting Company 1 which will be compliant with the definition of 'demerger' as defined under section 2(19AA) r.w.s. 2(41A) of the Income Tax Act, 1961.

Through the aforesaid demerger of the Ivanta Tiles Manufacturing Undertaking from ICIPL, the Demerged Company 2, the stakeholders of ICIPL, the Demerged Company 2 will get access to a diverse business structure since AGIL, the Resulting Company 1 has presence in multiple industries leading to risk diversification in the hands of the stakeholders and also leading to stable valuation by the market. The stakeholders will also get safeguarded from the day-to-day hurdles specific to the tiles manufacturing business by diversifying their risk.

Further, the business of ICIPL, the Demerged Company 2 will get an access to the huge market reach and marketing network of AGIL, the Resulting Company 1. These businesses will thus gain a chance of evolving into legacy businesses under the professional management of AGIL, the Resulting Company 1 due to their increased technical knowhow, diverse expertise and growth vision. The expansion opportunity from the access to infrastructure of AGIL, the Resulting Company 1 seems unparalleled.

Multiple entries of large organised players into the tiles industry are expected to drive the entire industry into a highly efficient space where large players would command premium on account of their competitive edge and managing a tiles manufacturing business as an unorganised player

may become more and more challenging. Consolidation of the tiles manufacturing businesses under the banner of AGIL, the Resulting Company 1 would not only safeguard the businesses but also provide an edge to competitively grow in the ever-changing business dynamic.

The opportunity of growth in the businesses and risk diversification for the stakeholders of ICIPL, the Demerged Company 2 and the inorganic expansion and synergistic opportunity for AGIL, the Resulting Company 1 due to better agility and higher control over its manufacturing process, more production lines and working capital requirements would provide the Demerged Companies and AGIL, the Resulting Company 1 with their respective advantages while making the combined businesses of AGIL, the Resulting Company 1 and the Demerged Companies more sustainable and competitive in the long run.

The proposed restructuring pursuant to this Scheme is expected, inter alia, to result in following benefits:

1. combining and bundling of Ivanta Tiles Manufacturing Undertaking of ICIPL, the Demerged Company 2 into ICL, the Resulting Company 3 which is, inter alia, wholly owned subsidiary of AGIL, the Resulting Company 1;
2. better control on utilization of production capacity due to integration of the manufacturing process;
3. optimization of working capital due to consolidation of businesses;
4. inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;
5. economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;
6. segregation of the business of manufacturing of building construction related materials and adhesive solutions to enable better focus and growth orientation on the developing new business line;
7. enhancing attractiveness of the entities for management teams by aligning risk return matrices and direct correlation of the rewards to their efforts;
8. achieve cost optimization and specialization for sustained growth; and
9. enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries.

In view of the aforesaid advantages, the Board of Directors of all the Companies have considered and proposed Scheme of Arrangement under the provisions of Section 230 to Section 232 of the Companies Act, 2013.

The present Scheme of Arrangement is proposed for the demerger, transfer and vesting of the Tiles Manufacturing Undertaking of ICIPL to ICL on a going concern basis in accordance with Section 2(19AA) r.w.s 2(41A) of the Income Tax Act, 1961.

The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders in each of the companies.

Dear Sir/Madam,

Sub: Due Diligence Certificate ("Certificate") on the adequacy and accuracy of disclosure of information about Ivanta Ceramics Industries Private Limited in the format of abridged prospectus in relation to Scheme of Arrangement amongst Asian Granito India Limited (AGIL) and Affil Vitrified Private Limited (AVPL) and Ivanta Ceramics Industries Private Limited (ICIPL) and Crystal Ceramic Industries Limited (CCIL) and Affil Ceramics Limited (ACL) and Ivanta Ceramic Limited (ICL) and Crystal Vitrified Limited (CVL) and Amazone Ceramics Limited (AmCL) and AGL Industries Limited (AGLIL) and their respective shareholders and creditors under Sections 230 to 232 and other applicable provisions of the Companies Act, 2013 and other applicable laws ("Scheme" or "Scheme of Arrangement").

This is regarding our engagement letter dated October 26, 2024, entered with Asian Granito India Limited for certifying the adequacy and accuracy of disclosure of information about ICIPL prepared by ICIPL and to be sent to the shareholders and creditors of AGIL at the time of seeking their approval for the Scheme.

The Scheme of Arrangement, among other things, provides for the transfer and vesting of Tiles Manufacturing Undertaking from ICIPL to ICL on a going concern basis.

SEBI Master Circular SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated June 20, 2023, ("**SEBI Master Circular**") prescribes requirements to be fulfilled by listed entities when they propose a Scheme of Arrangement. The said SEBI Master Circular, inter alia, provides that in the event a listed entity enters into a Scheme of Arrangement with an unlisted entity, the listed entity shall disclose to its shareholders applicable information about the unlisted entity in the format specified for abridged prospectus as provided in Part E of Schedule VI of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("**SEBI ICDR Regulations**").

Further, the adequacy and accuracy of such disclosure of information pertaining to an unlisted entity is required to be certified by a SEBI-registered Merchant Banker.

Accordingly, we have been provided with the abridged prospectus of ICIPL ('**Abridged Prospectus**') as prepared by ICIPL and enclosed herewith. The Abridged Prospectus will be circulated to the shareholders and creditors of the companies involved in the Scheme at the time of seeking their approval of the Scheme as a part of the explanatory statement to the notice.

We have relied on the financials, information and representations provided to us on an as-is basis and have not carried out an audit of such information. Our scope of work does not constitute an audit for financial information and accordingly, we do not express an opinion on the fairness of the financial information referred to in the Abridged Prospectus and have assumed that the same is complete and accurate in all material aspects on an as-is basis. This Certificate is a specific purpose certificate issued in terms of and in compliance with the SEBI Circular and hence it should not be used for any other purpose or transaction. This certificate is not, nor should it be construed as our opining or certifying the compliance of the proposed Scheme of Arrangement with the provisions of any law including, companies, taxation and capital market-related laws or as regards any legal implications or issues arising thereon, in their respective jurisdiction, except for the purpose expressly mentioned herein.

We express no opinion whatsoever and make no recommendation at all on the Company's decision to affect the Scheme or how the holders of equity shares and/or secured and/or unsecured creditors should vote at their respective meetings to be held in connection with the proposed Scheme. We do not and should not be deemed to have expressed any views on any terms of the Scheme or its success. We also express no opinion, and accordingly, accept no responsibility for or as to the financial performance of ICIPL following the consummation of the Scheme. We express no opinion whatsoever and make no recommendations at all (and accordingly take no responsibility) as to whether shareholders/investors should buy, sell or hold any stake in AGIL or any of its related parties. INTERNAL RISK FACTORS

1. Implementation of the Scheme of Arrangement is dependent on the receipt of various approvals, including approval from shareholders and creditors of AGIL and CCIL regulatory authorities and the NCLT. In case of non-receipt of any of the requisite approvals, the Tiles Manufacturing Undertaking of CCIL will not get demerged into CVL; which may hamper growth expected out of the proposed demerger and if we are not able to manage timely compliance of regulatory requirements, it may impact the Scheme. Any modification or revision in the Scheme suggested /directed by the competent authorities, which is not acceptable to the Board of Directors of the respective companies may adversely impact the proposals in the Scheme.
2. CCIL is an unlisted company and its equity shares are not listed on any stock exchange and hence not available for trading.
3. Our operating results may fluctuate from quarter to quarter due to seasonality, demand & supply scenario and various geo political issues. Such fluctuations may have an adverse effect on our business and cash flows.
4. Post the completion of the Demerger as described in the Scheme, our operations will be concentrated in Mehsana, Gujarat and any change in the geographical or economic condition may adversely impact our business and financial performance.
5. We may face significant competition from traditional and established ceramic tiles manufacturing companies. Such competition may affect our business operations and cash flows.

RATIONALE OF SCHEME OF ARRANGEMENT

AGIL, the Demerged Company 4/Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

DEMERGER

AGIL, the Resulting Company 1 has identified its supplier, i.e., CCIL, the Demerged Company 3, that manufacture tiles for AGIL, the Resulting Company 1 on job work basis as well as manufacture tiles under its own brand name. The supplier is in effect selling majority of their own production to AGIL, the Resulting Company 1. In order to integrate its manufacturing process and to inorganically expand its production lines, it is desirable to take over the tiles manufacturing businesses of these suppliers. Since the supplier has separate brands name and related Intellectual Property such as brands, trademarks, registrations, etc. attached to the names, it is considered appropriate to demerge only the tiles manufacturing businesses into wholly owned subsidiary of AGIL, the Resulting Company 1 of similar name. To avoid effect on the financials due to payment of huge consideration in cash or by way of debt, the consideration is proposed to be paid by way of issue of shares by AGIL, the Resulting Company 1 which will be compliant with the definition of ‘demerger’ as defined under section 2(19AA) r.w.s. 2(41A) of the Income Tax Act, 1961.

Through the aforesaid demerger of the Crystal Tiles Manufacturing Undertaking from CCIL, the Demerged Company 3, the stakeholders of CCIL, the Demerged Company 1 will get access to a diverse business structure since AGIL, the Resulting Company 1 has presence in multiple industries leading to risk diversification in the hands of the stakeholders and also leading to stable valuation by the market. The stakeholders will also get safeguarded from the day-to-day hurdles specific to the tiles manufacturing business by diversifying their risk.

Further, the business of CCIL, the Demerged Company 3 will get an access to the huge market reach and marketing network of AGIL, the Resulting Company 1. These businesses will thus gain a chance of evolving into legacy businesses under the professional management of AGIL, the Resulting Company 1 due to their increased technical knowhow, diverse expertise and growth vision. The expansion opportunity from the access to infrastructure of AGIL, the Resulting Company 1 seems unparalleled.

Multiple entries of large organised players into the tiles industry are expected to drive the entire industry into a highly efficient space where large players would command premium on account of their competitive edge and managing a tiles manufacturing business as an unorganised player may become more and more challenging. Consolidation of the tiles manufacturing businesses under the banner of AGIL, the Resulting Company 1 would not only safeguard the businesses but also provide an edge to competitively grow in the ever-changing business dynamic.

The opportunity of growth in the businesses and risk diversification for the stakeholders of CCIL, the Demerged Company 3 and the inorganic expansion and synergistic opportunity for AGIL, the Resulting Company 1 due to better agility and higher control over its manufacturing process, more production lines and working capital requirements would provide the Demerged Companies and AGIL, the Resulting Company 1 with their respective advantages while making the combined businesses of AGIL, the Resulting Company 1 and the Demerged Companies more sustainable and competitive in the long run.

The proposed restructuring pursuant to this Scheme is expected, inter alia, to result in following benefits:

1. combining and bundling of Crystal Tiles Manufacturing Undertaking of CCIL, the Demerged Company 3 into ACL, the Resulting Company 4 which is, inter alia, wholly owned subsidiary of AGIL, the Resulting Company 1;
2. better control on utilization of production capacity due to integration of the manufacturing process;
3. optimization of working capital due to consolidation of businesses;
4. inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;
5. economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;
6. segregation of the business of manufacturing of building construction related materials and adhesive solutions to enable better focus and growth orientation on the developing new business line;
7. enhancing attractiveness of the entities for management teams by aligning risk return matrices and direct correlation of the rewards to their efforts;
8. achieve cost optimization and specialization for sustained growth; and
9. enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries.

In view of the aforesaid advantages, the Board of Directors of all the Companies have considered and proposed Scheme of Arrangement under the provisions of Section 230 to Section 232 of the Companies Act, 2013.

The present Scheme of Arrangement is proposed for the demerger, transfer and vesting of the Tiles Manufacturing Undertaking of CCIL to CVL on a going concern basis in accordance with Section 2(19AA) r.w.s 2(41A) of the Income Tax Act, 1961.

The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders in each of the companies.

INTERNAL RISK FACTORS

1. Implementation of the Scheme of Arrangement is dependent on the receipt of various approvals, including approval from shareholders and creditors of AGIL and ACL, regulatory authorities and the NCLT. In case of non-receipt of any of the requisite approvals, the Tiles Manufacturing Undertaking of AVPL will not get demerged to ACL; which may hamper growth expected out of the proposed demerger and if we are not able to manage timely compliance of regulatory requirements, it may impact the Scheme. Any modification or revision in the Scheme suggested /directed by the competent authorities, which is not acceptable to the Board of Directors of the respective companies may adversely impact the proposals in the Scheme.
2. ACL is an unlisted company and its equity shares are not listed on any stock exchange and hence not available for trading.
3. Our operating results may fluctuate from quarter to quarter due to seasonality, demand & supply scenario and various geo political issues. Such fluctuations may have an adverse effect on our business and cash flow.
4. Post the completion of the Demerger as described in the Scheme, our operations will be concentrated in Morbi, Gujarat and any change in the geographical or economic condition may adversely impact our business and financial performance.
5. We may face significant competition from traditional and established ceramic tiles manufacturing companies. Such competition may affect our business operations and cash flows.

RATIONALE OF SCHEME OF ARRANGEMENT

AGIL, the Demerged Company 4/Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

DEMERGER

AGIL, the Resulting Company 1 has identified its supplier, i.e., AVPL, the Demerged Company 1, that manufacture tiles for AGIL, the Resulting Company 1 on job work basis as well as manufacture tiles under its own brand name. The supplier is in effect selling majority of their own production to AGIL, the Resulting Company 1. In order to integrate its manufacturing

process and to inorganically expand its production lines, it is desirable to take over the tiles manufacturing businesses of this supplier. Since the supplier has separate brands names and related Intellectual Property such as brands, trademarks, registrations, etc. attached to the name, it is considered appropriate to demerge only the tiles manufacturing businesses into wholly owned subsidiaries of AGIL, the Resulting Company 1 of similar names. To avoid effect on the financials due to payment of huge consideration in cash or by way of debt, the consideration is proposed to be paid by way of issue of shares by AGIL, the Resulting Company 1 which will be compliant with the definition of 'demerger' as defined under section 2(19AA) r.w.s. 2(41A) of the Income Tax Act, 1961.

Through the aforesaid demerger of the Affil Tiles Manufacturing Undertaking from AVPL, the Demerged Company 1, the stakeholders of AVPL, the Demerged Company 1, will get access to a diverse business structure since AGIL, the Resulting Company 1 has presence in multiple industries leading to risk diversification in the hands of the stakeholders and also leading to stable valuation by the market. The stakeholders will also get safeguarded from the day-to-day hurdles specific to the tiles manufacturing business by diversifying their risk.

Further, the businesses of AVPL, the Demerged Company 1, will get an access to the huge market reach and marketing network of AGIL, the Resulting Company 1. These businesses will thus gain a chance of evolving into legacy businesses under the professional management of AGIL, the Resulting Company 1 due to their increased technical knowhow, diverse expertise and growth vision. The expansion opportunity from the access to infrastructure of AGIL, the Resulting Company 1 seems unparalleled.

Multiple entries of large organised players into the tiles industry are expected to drive the entire industry into a highly efficient space where large players would command premium on account of their competitive edge and managing a tiles manufacturing business as an unorganised player may become more and more challenging. Consolidation of the tiles manufacturing businesses under the banner of AGIL, the Resulting Company 1 would not only safeguard the businesses but also provide an edge to competitively grow in the ever-changing business dynamic.

The opportunity of growth in the businesses and risk diversification for the stakeholders of AVPL, the Demerged Company 1, and the inorganic expansion and synergistic opportunity for AGIL, the Resulting Company 1 due to better agility and higher control over its manufacturing process, more production lines and working capital requirements would provide the Demerged Companies and AGIL, the Resulting Company 1 with their respective advantages while making the combined businesses of AGIL, the Resulting Company 1 and the Demerged Companies more sustainable and competitive in the long run.

The proposed restructuring pursuant to this Scheme is expected, inter alia, to result in following benefits:

1. combining and bundling of Affil Tiles Manufacturing Undertaking of AVPL, the Demerged Company 1 into ACL, the Resulting Company 2 which is, inter alia, wholly owned subsidiaries of AGIL, the Resulting Company 1;
2. better control on utilization of production capacity due to integration of the manufacturing process;
3. optimization of working capital due to consolidation of businesses;
4. inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;

5. economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;
6. segregation of the business of manufacturing of building construction related materials and adhesive solutions to enable better focus and growth orientation on the developing new business line;
7. enhancing attractiveness of the entities for management teams by aligning risk return matrices and direct correlation of the rewards to their efforts;
8. achieve cost optimization and specialization for sustained growth; and
9. enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries.

In view of the aforesaid advantages, the Board of Directors of all the Companies have considered and proposed Scheme of Arrangement under the provisions of Section 230 to Section 232 of the Companies Act, 2013.

The present Scheme of Arrangement is proposed for the transfer and vesting of the Tiles Manufacturing Undertaking of AVPL to ACL on a going concern basis in accordance with Section 2(42C) of the Income Tax Act, 1961.

The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders in each of the companies.

INTERNAL RISK FACTORS

1. Implementation of the Scheme of Arrangement is dependent on the receipt of various approvals, including approval from shareholders and creditors of AGIL and ICL, regulatory authorities and the NCLT. In case of non-receipt of any of the requisite approvals, the Tiles Manufacturing Undertaking of ICIPL will not get demerged into ICL; which may hamper growth expected out of the proposed demerger and if we are not able to manage timely compliance of regulatory requirements, it may impact the Scheme. Any modification or revision in the Scheme suggested /directed by the competent authorities, which is not acceptable to the Board of Directors of the respective companies may adversely impact the proposals in the Scheme.
2. ICL is an unlisted company and its equity shares are not listed on any stock exchange and hence not available for trading.
3. Our operating results may fluctuate from quarter to quarter due to seasonality, demand & supply scenario and various geo political issues. Such fluctuations may have an adverse effect on our business and cash flows.
4. Post the completion of the Demerger as described in the Scheme, our operation will be concentrated in Morbi, Gujarat and any change in the geographical or economic condition may adversely impact our business and financial performance.
5. We may face significant competition from traditional and established ceramic tiles manufacturing companies. Such competition may affect our business operations and cash flows.

RATIONALE OF SCHEME OF ARRANGEMENT

AGIL, the Demerged Company 4/Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

DEMERGER

AGIL, the Resulting Company 1 has identified its supplier, i.e., ICIPL, the Demerged Company 2, that manufacture tiles for AGIL, the Resulting Company 1 on job work basis as well as manufacture tiles under its own brand name. The supplier is in effect selling majority of their own production to AGIL, the Resulting Company 1. In order to integrate its manufacturing process and to inorganically expand its production lines, it is desirable to take over the tiles manufacturing businesses of this supplier. Since the supplier has separate brands names and related Intellectual Property such as brands, trademarks, registrations, etc. attached to the

names, it is considered appropriate to demerge only the tiles manufacturing businesses into wholly owned subsidiary of AGIL, the Resulting Company 1 of similar name. To avoid effect on the financials due to payment of huge consideration in cash or by way of debt, the consideration is proposed to be paid by way of issue of shares by AGIL, the Resulting Company 1 which will be compliant with the definition of 'demerger' as defined under section 2(19AA) r.w.s. 2(41A) of the Income Tax Act, 1961.

Through the aforesaid demerger of Ivanta Tiles Manufacturing Undertaking from ICIPL, the Demerged Company 2, the stakeholders of ICIPL, the Demerged Company will get access to a diverse business structure since AGIL, the Resulting Company 1 has presence in multiple industries leading to risk diversification in the hands of the stakeholders and also leading to stable valuation by the market. The stakeholders will also get safeguarded from the day-to-day hurdles specific to the tiles manufacturing business by diversifying their risk.

Further, the business of ICIPL, the Demerged Company 2 will get an access to the huge market reach and marketing network of AGIL, the Resulting Company 1. These businesses will thus gain a chance of evolving into legacy businesses under the professional management of AGIL, the Resulting Company 1 due to their increased technical knowhow, diverse expertise and growth vision. The expansion opportunity from the access to infrastructure of AGIL, the Resulting Company 1 seems unparalleled.

Multiple entries of large organised players into the tiles industry are expected to drive the entire industry into a highly efficient space where large players would command premium on account of their competitive edge and managing a tiles manufacturing business as an unorganised player may become more and more challenging. Consolidation of the tiles manufacturing businesses under the banner of AGIL, the Resulting Company 1 would not only safeguard the businesses but also provide an edge to competitively grow in the ever-changing business dynamic.

The opportunity of growth in the businesses and risk diversification for the stakeholders of ICIPL, the Demerged Company 2 and the inorganic expansion and synergistic opportunity for AGIL, the Resulting Company 1 due to better agility and higher control over its manufacturing process, more production lines and working capital requirements would provide the Demerged Companies and AGIL, the Resulting Company 1 with their respective advantages while making the combined businesses of AGIL, the Resulting Company 1 and the Demerged Companies more sustainable and competitive in the long run.

The proposed restructuring pursuant to this Scheme is expected, inter alia, to result in following benefits:

1. combining and bundling of Ivanta Tiles Manufacturing Undertaking of ICIPL, the Demerged Company 2 into ICL, the Resulting Company 3 which is, inter alia, wholly owned subsidiary of AGIL, the Resulting Company 1;
2. better control on utilization of production capacity due to integration of the manufacturing process;
3. optimization of working capital due to consolidation of businesses;
4. inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;
5. economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;

6. segregation of the business of manufacturing of building construction related materials and adhesive solutions to enable better focus and growth orientation on the developing new business line;
7. enhancing attractiveness of the entities for management teams by aligning risk return matrices and direct correlation of the rewards to their efforts;
8. achieve cost optimization and specialization for sustained growth; and
9. enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries.

In view of the aforesaid advantages, the Board of Directors of all the Companies have considered and proposed Scheme of Arrangement under the provisions of Section 230 to Section 232 of the Companies Act, 2013.

The present Scheme of Arrangement is proposed for the transfer and vesting of the Tiles Manufacturing Undertaking of ICIPL to ICL on a going concern basis in accordance with Section 2(42C) of the Income Tax Act, 1961.

The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders in each of the companies.

INTERNAL RISK FACTORS

1. Implementation of the Scheme of Arrangement is dependent on the receipt of various approvals, including approval from shareholders and creditors of AGIL and CVL, regulatory authorities and the NCLT. In case of non-receipt of any of the requisite approvals, the Tiles Manufacturing Undertaking of CCIL will not get demerged into CVL; which may hamper growth expected out of the proposed demerger and if we are not able to manage timely compliance of regulatory requirements, it may impact the Scheme. Any modification or revision in the Scheme suggested /directed by the competent authorities, which is not acceptable to the Board of Directors of the respective companies may adversely impact the proposals in the Scheme.
2. CVL is an unlisted company and its equity shares are not listed on any stock exchange and hence not available for trading.
3. Our operating results may fluctuate from quarter to quarter due to seasonality, demand & supply scenario and various geo political issues. Such fluctuations may have an adverse effect on our business and cash flows.
4. Post the completion of the Demerger as described in the Scheme, our operations will be concentrated in Morbi, Gujarat and any change in the geographical or economic condition may adversely impact our business and financial performance.

5. We may face significant competition from traditional and established ceramic tiles manufacturing companies. Such competition may affect our business operations and cash flows.

RATIONALE OF SCHEME OF ARRANGEMENT

AGIL, the Demerged Company 4/Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

DEMERGER

AGIL, the Resulting Company 1 has identified its supplier, i.e., CCIL, the Demerged Company 3, that manufacture tiles for AGIL, the Resulting Company 1 on job work basis as well as manufacture tiles under its own brand name. The supplier is in effect selling majority of their own production to AGIL, the Resulting Company 1. In order to integrate its manufacturing process and to inorganically expand its production lines, it is desirable to take over the tiles manufacturing businesses of these suppliers. Since the supplier has separate brands name and related Intellectual Property such as brands, trademarks, registrations, etc. attached to the names, it is considered appropriate to demerge only the tiles manufacturing businesses into wholly owned subsidiary of AGIL, the Resulting Company 1 of similar name. To avoid effect on the financials due to payment of huge consideration in cash or by way of debt, the consideration is proposed to be paid by way of issue of shares by AGIL, the Resulting Company 1 which will be compliant with the definition of 'demerger' as defined under section 2(19AA) r.w.s. 2(41A) of the Income Tax Act, 1961.

Through the aforesaid demerger of the Crystal Tiles Manufacturing Undertaking from CCIL, the Demerged Company 3, the stakeholders of CCIL, the Demerged Company 3 will get access to a diverse business structure since AGIL, the Resulting Company 1 has presence in multiple industries leading to risk diversification in the hands of the stakeholders and also leading to stable valuation by the market. The stakeholders will also get safeguarded from the day-to-day hurdles specific to the tiles manufacturing business by diversifying their risk.

Further, the business of CCIL, the Demerged Company 3 will get an access to the huge market reach and marketing network of AGIL, the Resulting Company 1. These businesses will thus gain a chance of evolving into legacy businesses under the professional management of AGIL, the Resulting Company 1 due to their increased technical knowhow, diverse expertise and growth vision. The expansion opportunity from the access to infrastructure of AGIL, the Resulting Company 1 seems unparalleled.

Multiple entries of large organised players into the tiles industry are expected to drive the entire industry into a highly efficient space where large players would command premium on account of their competitive edge and managing a tiles manufacturing business as an unorganised player may become more and more challenging. Consolidation of the tiles manufacturing businesses under the banner of AGIL, the Resulting Company 1 would not only safeguard the businesses but also provide an edge to competitively grow in the ever-changing business dynamic.

The opportunity of growth in the businesses and risk diversification for the stakeholders of CCIL, the Demerged Company 3 and the inorganic expansion and synergistic opportunity for AGIL, the Resulting Company 1 due to better agility and higher control over its manufacturing process, more production lines and working capital requirements would provide the Demerged Companies and AGIL, the Resulting Company 1 with their respective advantages while making the combined businesses of AGIL, the Resulting Company 1 and the Demerged Companies more sustainable and competitive in the long run.

The proposed restructuring pursuant to this Scheme is expected, inter alia, to result in following benefits:

1. combining and bundling of Crystal Tiles Manufacturing Undertaking of CCIL, the Demerged Company 3 into CVL, the Resulting Company 4 which is, inter alia, wholly owned subsidiary of AGIL, the Resulting Company 1;
2. better control on utilization of production capacity due to integration of the manufacturing process;

3. optimization of working capital due to consolidation of businesses;
4. inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;
5. economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;
6. segregation of the business of manufacturing of building construction related materials and adhesive solutions to enable better focus and growth orientation on the developing new business line;
7. enhancing attractiveness of the entities for management teams by aligning risk return matrices and direct correlation of the rewards to their efforts;
8. achieve cost optimization and specialization for sustained growth; and
9. enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries.

In view of the aforesaid advantages, the Board of Directors of all the Companies have considered and proposed Scheme of Arrangement under the provisions of Section 230 to Section 232 of the Companies Act, 2013.

The present Scheme of Arrangement is proposed for the transfer and vesting of the Tiles Manufacturing Undertaking of CCIL to CVL on a going concern basis in accordance with Section 2(42C) of the Income Tax Act, 1961.

The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders in each of the companies.

Dear Sir/Madam,

Sub: Due Diligence Certificate ("Certificate") on the adequacy and accuracy of disclosure of information about Crystal Vitrified Limited in the format of abridged prospectus in relation to Scheme of Arrangement amongst Asian Granito India Limited (AGIL) and Affil Vitrified Private Limited (AVPL) and Ivanta Ceramics Industries Private Limited (ICIPL) and Crystal Ceramic Industries Limited (CCIL) and Affil Ceramics Limited (ACL) and Ivanta Ceramic Limited (ICL) and Crystal Vitrified Limited (CVL) and Amazoone Ceramics Limited (AmCL) and AGL Industries Limited (AGLIL) and their respective shareholders and creditors under Sections 230 to 232 and other applicable provisions of the Companies Act, 2013 and other applicable laws ("Scheme" or "Scheme of Arrangement").

This is regarding our engagement letter dated October 26, 2024, entered with Asian Granito India Limited for certifying the adequacy and accuracy of disclosure of information about CVL prepared by CVL and to be sent to the shareholders and creditors of AGIL at the time of seeking their approval for the Scheme.

The Scheme of Arrangement, among other things, provides for the transfer and vesting of Tiles Manufacturing Undertaking from CCIL to CVL on a going concern basis.

SEBI Master Circular SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated June 20, 2023, ("**SEBI Master Circular**") prescribes requirements to be fulfilled by listed entities when they propose a Scheme of Arrangement. The said SEBI Master Circular, inter alia, provides that in the event a listed entity enters into a Scheme of Arrangement with an unlisted entity, the listed entity shall disclose to its shareholders applicable information about the unlisted entity in the format specified for abridged prospectus as provided in Part E of Schedule VI of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("**SEBI ICDR Regulations**").

Further, the adequacy and accuracy of such disclosure of information pertaining to an unlisted entity is required to be certified by a SEBI-registered Merchant Banker.

Accordingly, we have been provided with the abridged prospectus of CVL ("**Abridged Prospectus**") as prepared by CVL and enclosed herewith. The Abridged Prospectus will be circulated to the shareholders and creditors of the companies involved in the Scheme at the time of seeking their approval of the Scheme as a part of the explanatory statement to the notice.

We have relied on the financials, information and representations provided to us on an as-is basis and have not carried out an audit of such information. Our scope of work does not constitute an audit for financial information and accordingly, we do not express an opinion on the fairness of the financial information referred to in the Abridged Prospectus and have assumed that the same is complete and accurate in all material aspects on an as-is basis. This Certificate is a specific purpose certificate issued in terms of and in compliance with the SEBI Circular and hence it should not be used for any other purpose or transaction. This certificate is not, nor should it be construed as our opining or certifying the compliance of the proposed Scheme of Arrangement with the provisions of any law including, companies, taxation and capital market-related laws or as regards any legal implications or issues arising thereon, in their respective jurisdiction, except for the purpose expressly mentioned herein.

We express no opinion whatsoever and make no recommendation at all on the Company's decision to affect the Scheme or how the holders of equity shares and/or secured and/or unsecured creditors should vote at their respective meetings to be held in connection with the proposed Scheme. We do not and should not be deemed to have expressed any views on any terms of the Scheme or its success. We also express no opinion, and accordingly, accept no responsibility for or as to the financial performance of CVL following the consummation of the Scheme. We express no opinion whatsoever and make no recommendations at all (and accordingly take no responsibility) as to whether shareholders/investors should buy, sell or hold any stake in AGIL or any of its related parties. We shall not be liable for any losses whether financial or otherwise or expenses arising directly or indirectly out of the use of or reliance on the information set out here in this certificate.

INTERNAL RISK FACTORS

1. Implementation of the Scheme of Arrangement is dependent on the receipt of various approvals, including approval from shareholders and creditors of AmCL and AGLIL, regulatory authorities and the NCLT. In case of non-receipt of any of the requisite approvals, the Marbles & Quartz Undertaking will not get transfer to AmCL and the AGLIL will not get amalgamate into AmCL; which may hamper growth expected out of the proposed demerger and if we are not able to manage timely compliance of regulatory requirements, it may impact the Scheme. Any modification or revision in the Scheme suggested /directed by the competent authorities, which is not acceptable to the Board of Directors of the respective companies may adversely impact the proposals in the Scheme.
2. AmCL is an unlisted company and its equity shares are not listed on any stock exchange and hence not available for trading.
3. Our operating results may fluctuate from quarter to quarter due to seasonality, demand & supply scenario and various geo political issues. Such fluctuations may have an adverse effect on our business and cash flows.
4. Post the completion of the Demerger and Amalgamation as described in the Scheme, our operations will be concentrated in Dalpur, Gujarat and any change in the geo political situation or economic condition in the area may adversely impact our business and financial performance.
5. We may face significant competition from traditional and established ceramic tiles manufacturing companies and unorganized market players for Marble & Quartz manufacturing. Such competition may affect our business operations and cash flows.

RATIONALE OF SCHEME OF ARRANGEMENT

AGIL, the Demerged Company 4/Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

SLUMP SALE and AMALGAMATION

The tiles business and marbles & quartz business have different industry specific risks, business cycles and operate inter alia under different market dynamics, and thus can attract different types of investors as well as management teams and follow different and independent strategies, even as they all have a significant potential for growth and profitability. Given the diversified business portfolio, it has become imperative for AGIL, the Demerged Company 4 to reorient and reorganize itself in a manner that allows it to impart greater focus, management alignment and growth for each of its business lines. AGIL, the Demerged Company 4 is also desirous of enhancing its operational efficiency, flexibility in attracting capital and management talent through aligned risk return matrices.

To reorganise and segregate the interests of AGIL (the Demerged Company 4) in different business lines, slump sale of the Marbles & Quartz Undertaking and merger of AGLIL (the Transferor Company) into AmCL (the Resulting Company 5 / the Transferee Company) are proposed.

The proposed restructuring pursuant to this Scheme is expected, inter alia, to result in following benefits:

1. better control on utilisation of production capacity due to integration of the manufacturing process;
2. optimisation of working capital due to consolidation of businesses;
3. inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;

INTERNAL RISK FACTORS

1. Implementation of the Scheme of Arrangement is dependent on the receipt of various approvals, including approval from shareholders and creditors of AGLIL and AmCL, regulatory authorities and the NCLT. In case of non-receipt of any of the requisite approvals, the AGLIL will not get amalgamated into AmCL; which may hamper growth expected out of the proposed demerger and if we are not able to manage timely compliance of regulatory requirements, it may impact the Scheme. Any modification or revision in the Scheme suggested /directed by the competent authorities, which is not acceptable to the Board of Directors of the respective companies may adversely impact the proposals in the Scheme.
2. AGLIL is an unlisted company and its equity shares are not listed on any stock exchange and hence not available for trading.
3. Our operating results may fluctuate from quarter to quarter due to seasonality, demand & supply scenario and various geo political issues. Such fluctuations may have an adverse effect on our business and cash flows.
4. Post the completion of the amalgamation as described in the Scheme, entire marble and quartz operations will be centralized from Dalpur, Himmatnagar. Any change in the geo political situation or economic condition in the area may adversely impact our business and financial performance.
5. We may face significant competition from unorganized market for Marble & Quartz manufacturing companies. Such competition may affect our business operations and cash flows.

RATIONALE OF SCHEME OF ARRANGEMENT

AGIL, the Demerged Company 4/Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

AMALGAMATION

The tiles business and marbles & quartz business have different industry specific risks, business cycles and operate inter alia under different market dynamics, and thus can attract different types of investors as well as management teams and follow different and independent strategies, even as they all have a significant potential for growth and profitability. Given the diversified business portfolio, it has become imperative for AGIL, to reorient and reorganize itself in a manner that allows it to impart greater focus, management alignment and growth for each of its business lines. AGIL, the Demerged Company 4 is also desirous of enhancing its operational efficiency, flexibility in attracting capital and management talent through aligned risk return matrices.

To reorganise and segregate the interests of AGIL (the Demerged Company 4) in different business lines, merger of AGLIL (the Transferor Company) into AmCL (the Resulting Company 5 / the Transferee Company) is proposed.

The proposed restructuring pursuant to this Scheme is expected, inter alia, to result in following benefits:

1. better control on utilisation of production capacity due to integration of the manufacturing process;
2. optimisation of working capital due to consolidation of businesses;
3. inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;
4. economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;
5. emergence of AmCL, the Resulting Company 5 as a Marbles & Quartz focused company, attracting the right investors and providing better flexibility in accessing capital, focused strategy and specialisation for sustained growth;
6. segregation of the business of manufacturing of building construction related materials and adhesive solutions to enable better focus and growth orientation on the developing new business line;
7. enhancing attractiveness of the entities for management teams by aligning risk return matrices and direct correlation of the rewards to their efforts;
8. achieve cost optimization and specialisation for sustained growth; and
9. enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries.
10. The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders in each of the companies.

In view of the aforesaid advantages, the Board of Directors of all the Companies have considered and proposed Scheme of Arrangement under the provisions of Section 230 to Section 232 of the Companies Act, 2013.

The present Scheme of Arrangement is proposed for the amalgamation, transfer and vesting of the AGLIL into AmCL in accordance with Section 2(1B) of the Income Tax Act, 1961.

The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders in each of the companies.

Annexure 14

Details of on-going adjudication and recovery proceedings, prosecution initiated and other enforcement action against Asian Granito India Limited ('AGIL')

1. **GUJARAT VAT:** There are various demands raised by the Gujarat VAT Department during Financial Year 2007-08 to Financial Year 2011-12 on account of non-availability of C Forms, non-availability of H Forms against Exports, incorrect credit utilization etc. Further, there were errors in calculations of Tax Demand which were rectified in due course. VAT department had also conducted searches on the premises of the Company during the above period. Gujarat VAT Department has raised a total demand **Rs. 4,25,25,811/- (Rupees Four Crores Twenty Five Lacs Twenty Five Thousand Eight Hundred Eleven only)**. Against the said demand, they have attached a part of the land of the Company at its Dalpur, Himmatnagar plant and passed an order for attachment of partial land on 30th September, 2011. The Company is contesting the said order to quash the land attachment order.
2. **GUJARAT VAT AND CST:** The Company has applied under Samadhan Yojna – 2019 under Sales Tax, VAT and CST Acts for Financial Years 2003-04, 2004-05, 2012-13, 2013-14, 2014-15 and 2015-16 and paid tax liability under various Acts on time i.e. on or before 31st August, 2021 as per Intimation Letters received. The said demands were raised on account of Set off for LDO and fuel, pending statutory forms, disallowance of OGS Sales, voluntary declaring liability under Samadhan Yojna etc. The Company has gone for remission for waiver of Interest and Penalty to the tune of **Rs. 4,18,98,242/- (Rupees Four Crores Eighteen Lacs Ninety Eight Thousand Two Hundred Fourty Two only)**. The applications for above financial years were rejected, denying benefit of waiver of interest and penalty and no remission orders were passed stating the reasons as non-payment of full amount intimated with the prescribed time limit.

The Company had applied for rectification of the intimation which was accepted by the department but still Remission Orders have not been issued due to System Issue at the department level. The Company is pursuing the matter for issuance of remission orders with Recovery Cell of Gujarat VAT department.

3. Almost 7 years back, the DRI had carried out investigations and searches at the premises of the Company for evasion of custom duty by resorting to undervaluation of the Crystallized Glass Panel from China under CTH 701690000 and Rough Marble from Turkey and Italy under CTH 25151210. DRI has issued Show Cause Notices on 31st December, 2020 and 11th February, 2011 in the matter of Rough Marble Import for Rs. 26.55 Lacs and in the matter of Crystallized Glass Panel Import for Rs. 446.86 Lacs, respectively. The Company has paid Rs. 3.20 Crores of Custom Duty under protest. The Company has filled special civil application against Show Cause Notices before Honorable Gujarat High Court. The Honorable Gujarat High Court has passed a Stay Order against the Show Cause Notices issued by DRI and quashed the Show Cause Notices stating that the matter is not under the jurisdiction of DRI.

Major Reasons for justifying the EBITDA/PAT Margins

- Higher capacity utilization in view of gestation period of the newly installed capacity
- Better price realization per sq. mtr. in view of the product range and its niche applicability
- Control over cost due to higher capacity utilization so fixed costs are apportioned on higher production which will reduce per sq. mtr. cost
- Reduction in overall manufacturing cost as it will receive the benefit of economy of scale in light of higher capacity utilization

Annexure 150

RATIONALE FOR THIS SCHEME

Asian Granito India Limited (AGIL), the Demerged Company 4 / Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

DEMERGER

AGIL, the Resulting Company 1 has identified few of its suppliers, i.e., Affil Vitrified Private Limited (AVPL), the Demerged Company 1, Ivanta Ceramics Industries Private Limited (ICIPL), the Demerged Company 2 and Crystal Ceramic Industries Limited (CCIL), the Demerged Company 3, that manufacture tiles for AGIL, the Resulting Company 1 on job work basis as well as manufacture tiles under their own brand names. These suppliers are in effect selling majority of their own production to AGIL, the Resulting Company 1. In order to integrate its manufacturing process and to inorganically expand its production lines, it is desirable to take over the tiles manufacturing businesses of these suppliers. Since these suppliers have separate brands names and related Intellectual Property such as brands, trademarks, registrations, etc. attached to these names, it is considered appropriate to demerge only the tiles manufacturing businesses into wholly owned subsidiaries of AGIL, the Resulting Company 1 of similar names. To avoid effect on the financials due to payment of huge consideration in cash or by way of debt, the consideration is proposed to be paid by way of issue of shares by AGIL, the Resulting Company 1 which will be compliant with the definition of 'demerger' as defined under section 2(19AA) r.w.s. 2(41A) of the Income Tax Act, 1961.

Through the aforesaid demergers of the Affil Tiles Manufacturing Undertaking from AVPL, the Demerged Company 1, the Ivanta Tiles Manufacturing Undertaking from ICIPL, the Demerged Company 2 and the Crystal Tiles Manufacturing Undertaking from CCIL, the Demerged Company 3, the stakeholders of AVPL, the Demerged Company 1, ICIPL, the Demerged Company 2 and CCIL, the Demerged Company 3 will get access to a diverse business structure since AGIL, the Resulting Company 1 has presence in multiple industries leading to risk diversification in the hands of the stakeholders and also leading to stable valuation by the market. The stakeholders will also get safeguarded from the day-to-day

hurdles specific to the tiles manufacturing business by diversifying their risk.

Further, the businesses of AVPL, the Demerged Company 1, ICIPL, the Demerged Company 2 and CCIL, the Demerged Company 3 will get an access to the huge market reach and marketing network of AGIL, the Resulting Company 1. These businesses will thus gain a chance of evolving into legacy businesses under the professional management of AGIL, the Resulting Company 1 due to their increased technical knowhow, diverse expertise and growth vision. The expansion opportunity from the access to infrastructure of AGIL, the Resulting Company 1 seems unparalleled.

Multiple entries of large organised players into the tiles industry are expected to drive the entire industry into a highly efficient space where large players would command premium on account of their competitive edge and managing a tiles manufacturing business as an unorganised player may become more and more challenging. Consolidation of the tiles manufacturing businesses under the banner of AGIL, the Resulting Company 1 would not only safeguard the businesses but also provide an edge to competitively grow in the ever-changing business dynamic.

The opportunity of growth in the businesses and risk diversification for the stakeholders of AVPL, the Demerged Company 1, ICIPL, the Demerged Company 2 and CCIL, the Demerged Company 3 and the inorganic expansion and synergistic opportunity for AGIL, the Resulting Company 1 due to better agility and higher control over its manufacturing process, more production lines and working capital requirements would provide the Demerged Companies and AGIL, the Resulting Company 1 with their respective advantages while making the combined businesses of AGIL, the Resulting Company 1 and the Demerged Companies more sustainable and competitive in the long run.

SLUMP SALE and MERGER

The tiles business and marbles & quartz business have different industry specific risks, business cycles and operate *inter alia* under different market dynamics, and thus can attract different types of investors as well as management teams and follow different and independent strategies, even as they all have a significant potential for growth and profitability. Given the diversified business portfolio, it has become imperative for AGIL, the Demerged Company 4 to reorient and reorganize itself in a manner that allows it to impart greater focus, management alignment and growth for each of its business lines. AGIL, the Demerged Company 4 is also desirous of enhancing its operational

efficiency, flexibility in attracting capital and management talent through aligned risk return matrices.

The Scheme proposes to combine the interests of AVPL (the Demerged Company 1), ICIPL (the Demerged Company 2) and CCIL (the Demerged Company 3) into AGIL (the Resulting Company 1) and its subsidiaries by way of demerger of the Affil Tiles Manufacturing Undertaking from AVPL (the Demerged Company 1) into ACL (the Resulting Company 2), the Ivanta Tiles Manufacturing Undertaking from ICIPL (the Demerged Company 2) into ICL (the Resulting Company 3) and the Crystal Tiles Manufacturing Undertaking from CCIL (the Demerged Company 3) into CVL (the Resulting Company 4) to expand the tiles business of AGIL (the Resulting Company 1). Further, to reorganise and segregate the interests of AGIL (the Demerged Company 4) in different business lines, slump sale of the Marbles & Quartz Undertaking and merger of AGL Industries Limited (AGLIL) (the Transferor Company) into Amazoone Ceramics Limited (AmCL) (the Resulting Company 5 / the Transferee Company) are proposed.

The proposed restructuring pursuant to this Scheme is expected, *inter alia*, to result in following benefits:

- (i) combining and bundling of Affil Tiles Manufacturing Undertaking of AVPL, the Demerged Company 1, Ivanta Tiles Manufacturing Undertaking of ICIPL, the Demerged Company 2 and Crystal Tiles Manufacturing Undertaking of CCIL, the Demerged Company 3 into ACL, the Resulting Company 2, ICL, the Resulting Company 3 and CVL, the Resulting Company 4 which are, *inter alia*, wholly owned subsidiaries of AGIL, the Resulting Company 1;
- (ii) better control on utilisation of production capacity due to integration of the manufacturing process;
- (iii) optimisation of working capital due to consolidation of businesses;
- (iv) inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;
- (v) economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;
- (vi) segregation and unbundling of the Marbles and Quartz Undertaking of AGIL, the Demerged Company 4 into AmCL, the Resulting Company 5;

- (vii) emergence of AmCL, the Resulting Company 5 as a Marbles & Quartz focussed company, attracting the right investors and providing better flexibility in accessing capital, focused strategy and specialisation for sustained growth;
- (viii) segregation of the business of manufacturing of building construction related materials and adhesive solutions to enable better focus and growth orientation on the developing new business line;
- (ix) enhancing attractiveness of the entities for management teams by aligning risk return matrices and direct correlation of the rewards to their efforts;
- (x) allowing the respective managements of AGIL, the Resulting Company 1 and AmCL, the Resulting Company 5 to pursue independent growth strategies in different regional and overseas markets;
- (xi) achieve cost optimization and specialisation for sustained growth; and
- (xii) enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries.

The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders in each of the companies.

As the new businesses are coming into the listed company, there is likely scope for increase in the valuation of the listed company shares. Accordingly, there is no detrimental impact on the shareholders of the listed company from the scheme.

16. RATIONALE OF THE SCHEME:

AGIL, the Demerged Company 4/ Resulting Company 1 is a listed public limited company. Over the course of time, it has grown into a diversified conglomerate with interests in various businesses spanning the entire value chain of tiles, bathware, marbles & quartz and other related products carried on either directly or through its subsidiaries.

DEMERGER

AGIL, the Resulting Company 1 has identified few of its suppliers, i.e., AVPL, the Demerged Company 1, ICIPL, the Demerged Company 2 and CCIL, the Demerged Company 3, that manufacture tiles for AGIL, the Resulting Company 1 on job work basis as well as manufacture tiles under their own brand names. These suppliers are in effect selling majority of

their own production to AGIL, the Resulting Company 1. In order to integrate its manufacturing process and to inorganically expand its production lines, it is desirable to take over the tiles manufacturing businesses of these suppliers. Since these suppliers have separate brands, names and related Intellectual Property such as brands, trademarks, registrations, etc. attached to these names, it is considered appropriate to demerge only the tiles manufacturing businesses into wholly owned subsidiaries of AGIL, the Resulting Company 1 of similar names. To avoid effect on the financials due to payment of huge consideration in cash or by way of debt, the consideration is proposed to be paid by way of issue of shares by AGIL, the Resulting Company 1 which will be compliant with the definition of 'demerger' as defined under section 2(19AA) r.w.s. 2(41A) of the Income Tax Act, 1961

Through the aforesaid demergers of the Affil Tiles Manufacturing Undertaking from AVIL, the Demerged Company 1, the Ivanta Tiles Manufacturing Undertaking from ICIPL, the Demerged Company 2 and the Crystal Tiles Manufacturing Undertaking from CCIL, the Demerged Company 3, the stakeholders of AVPL, the Demerged Company 1, ICIPL, the Demerged Company 2 and CCIL, the Demerged Company 3 will get access to a diverse business structure since AGIL, the Resulting Company 1 has presence in multiple industries leading to risk diversification in the hands of the stakeholders and also leading to stable

valuation by the market. The stakeholders will also get safeguarded from the day-to-day hurdles specific to the tiles manufacturing business by diversifying their risk.

Further, the business of AVPL, the Demerged Company 1, ICIPL, the Demerged Company 2 and CCIL, the Demerged Company 3 will get an access to the huge market reach and marketing network of AGIL, the Resulting Company 1. These businesses will thus gain a chance of evolving into legacy businesses under the professional management of AGIL, the Resulting Company 1 due to their increased technical knowhow, diverse expertise and growth vision. The expansion opportunity from the access to infrastructure of AGIL, the Resulting Company 1 seems unparalleled.

Multiple entries of large organised players into the tiles industry are expected to drive the entire industry into a highly efficient space where large players would command premium on account of their competitive edge and managing a tiles manufacturing business as an unorganised player may become more and more challenging. Consolidation of the tiles manufacturing businesses under the banner of AGIL, the Resulting Company 1 would not only safeguard the businesses but also provide an edge to competitively grow in the ever-changing business dynamic.

The opportunity of growth in the businesses and risk diversification for the stakeholders of AVPL, the Demerged Company 1, ICIPL, the Demerged Company 2 and CCIL, the

Demerged Company 3 and the inorganic expansion and synergistic opportunity for AGIL, the Resulting Company 1 due to better agility and higher control over its manufacturing process, more production lines and working capital requirements would provide the Demerged Companies and AGIL, the Resulting Company 1 with the respective advantages while making the combined businesses of AGIL, the Resulting Company 1 and the Demerged Companies more sustainable and competitive in the long run.

SLUMP SALE and MERGER

The tiles business and marbles & quartz business have different industry specific risks, business cycles and operate inter alia under different market dynamics, and thus can attract different types of investors as well as management teams and follow different and independent strategies, even as they all have a significant potential for growth and profitability. Given the diversified business portfolio, it has become imperative for AGIL, the Demerged Company 4 to reorient and reorganize itself in a manner that allows it to impart greater focus, management alignment and growth for each of its business lines. AGIL, the Demerged Company 4 is also desirous of enhancing its operational efficiency, flexibility in attracting capital and management talent through aligned risk return matrices.

- iii) Optimization of working capital due to consolidation of businesses;
- iv) inorganic expansion of production lines and opportunity for further organic expansion due to increased fungibility of the existing funds;
- v) economies of scale due to synergistic effect of the combination of the businesses related to similar business line of manufacturing of tiles;
- vi) segregation and unbundling of the Marbles and Quartz Undertaking of AGIL, the Demerged Company 4 into AmCL, the Resulting Company'
- vii) emergence of AmCL, the Resulting Company 5 as a Marbles & Quartz focussed company, attracting the right investors and providing better flexibility in accessing capital, focused strategy and specialisation for sustained growth;
- viii) segregation of the business of manufacturing of building construction related materials and adhesive solutions to enable better focus and growth orientation on the developing new business line;
- ix) enhancing attractiveness of the entities for management teams by aligning risk return matrices and direct correlation of the rewards to their efforts;
- x) allowing the respective managements of AGIL, the Resulting Company 1 and AmCL, the Resulting Company 5 to pursue independent growth strategies in different regional and overseas markets;
- xi) achieve cost optimization and specialisation for sustained growth; and
- xii) enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial, and technical resources, personnel capabilities, skills, expertise and technologies by bundling the businesses pertaining to different industries.

The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders in each of the companies.

ORDER UNDER RULE 154 OF NCLT RULES

1. The applicant companies have filed speaking to minutes dated 30.10.2024 for rectification/modification in the order dated 25.10.2024 passed on CA(CAA)/41 of 2024. The applicant companies pointed out that Sub-Para I is necessary to be added to Para 27 after Sub Para H, for directions with regard to AGL Industries Ltd.(AGLIL), the Applicant Transferor Company, pertaining to dispensation of meeting of the Equity Shareholders, and further holding that meetings of Secured and Unsecured creditors are not necessary.
2. Perused the Order dated 25.10.2024 passed in CA(CAA)/41 of 2024 as well as Speaking to Minutes filed by the applicant companies. It appears that the operative part of the order dated 25.10.2024 passed in aforesaid company application, inadvertently; directions regarding the Transferor Company/AGLIL could not be transcribed. Hence, after sub-para-H in para-27, sub-para-I shall be read as under:-

I **In relation to Transferor Company**

(i) **With respect to the Equity Shareholders**

Since it is represented by the Transferor Company that there are **8** Equity shareholders in the Company whose consents by way of Affidavits have been obtained from all the equity shareholders and are placed on record, the necessity of convening, holding and conducting the meeting is ***dispensed with***.

(ii) **With respect to Secured Creditors:**

Since it is represented by the Transferor Company that there are no Secured Creditors in the said company, the necessity of convening and holding a meeting does not arise.

(iii) **With respect to Unsecured Creditors:**

Since it is represented by the Transferor Company that there are no Unsecured Creditors in the said company, the necessity of convening and holding a meeting does not arise.

3. It is also observed that the date of pronouncement mentioned in the order is 24.10.2024 instead of 25.10.2024. Accordingly, the date of pronouncement shall be read as 25.10.2024.
4. The order dated 25.10.2024 passed in CA(CAA)41 of 2024 stands modified to that extent. Save and except, the contents of the order remain the same.
